"As the psalms are a microcosm of the Old Testament, so the Expositions of the Psalms can be seen as a microcosm of Augustinian thought. In the Book of Psalms are to be found the history of the people of Israel, the theology and spirituality of the Old Covenant, and a treasury of human experience expressed in prayer and poetry. So too does the work of expounding the psalms recapitulate and focus the experiences of Augustine's personal life, his theological reflections and his pastoral concerns as Bishop of Hippo."--

A rich, poetic, and socially relevant version of the great spiritual-philosophical classic of Taoism, the Tao Te Ching—from a legendary literary icon Most people know Ursula K. Le Guin for her extraordinary science fiction and fantasy. Fewer know just how pervasive Taoist themes are to so much of her work. And in Lao Tzu: Tao Te Ching, we are treated to Le Guin's unique take on Taoist philosophy's founding classic. Drawing on a lifetime of contemplation and including extensive personal commentary throughout, she offers an unparalleled window into the text's awe-inspiring, immediately relatable teachings and their inestimable value for our troubled world. Jargon-free but still faithful to the poetic beauty of the original work, Le Guin's unique translation is sure to be welcomed by longtime readers of the Tao Te Ching as well as those discovering the text for the first time.

After 1989, capitalism has successfully presented itself as the only realistic political-economic system - a situation that the bank crisis of 2008, far from ending, actually compounded. The book analyses the development and principal features of this capitalist realism as a lived ideological framework. Using examples from politics, films, fiction, work and education, it argues that capitalist realism colours all areas of contemporary experience. But it will also show that, because of a number of inconsistencies and glitches internal to the capitalist reality program capitalism in fact is anything but realistic.

THE DISPOSSESSED

The Lathe Of Heaven
From the author of *How We Die*, the extraordinary story of the development of modern medicine, told through the lives of the physician-scientists who paved the way. How does medical science advance? Popular historians would have us believe that a few heroic individuals, possessing superhuman talents, lead an unselfish quest to better the human condition. But as renowned Yale surgeon and medical historian Sherwin B. Nuland shows in this brilliant collection of linked life portraits, the

theory bears little resemblance to the truth. Through the centuries, the men and women who have shaped the world of medicine have been not only very human, but also very much the products of their own times and places.

Presenting compelling studies of great medical innovators and pioneers, *Doctors* gives us a fascinating history of modern medicine. Ranging from the legendary Father of Medicine, Hippocrates, to Andreas Vesalius, whose Renaissance masterwork on anatomy offered invaluable new insight into the human body, to Helen Taussig, founder of pediatric cardiology and co-inventor of the original "blue baby" operation, here is a volume filled with the spirit of ideas and the thrill of discovery.

City Of Illusions Penguin

This early work on Martin Luther is both expensive and hard to find in its first edition. It details the life of the monk responsible for translating the Bible from Latin into German and for inspiring the Lutheran movement. This is a fascinating work and is thoroughly recommended for anyone interested in the history of European religion. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

1000 Things Worth Knowing Houghton Mifflin Harcourt

"Ursula K. Le Guin, loved by millions for her fantasy and science-fiction novels, ponders life, death and the vast beyond in *So Far So Good*, an astute, charming collection finished weeks before her death in January, 2018. Fans will recognize some of the motifs here—cats, wind, strong women — as well as her exploration of the intersection between

soul and body, the knowable and the unknown. The writing is clear, artful and reverent as Le Guin looks back at key memories and concerns and looks forward to what is next: 'Spirit, rehearse the journey of the body/ that are to come, the motions/ of the matter that held you.'"—Washington Post "Le Guin's farewell poetry collection, contains all that created her reputation for fiction—sharp insight, restless imagination, humor that is both mordant and humane, and, above all else, that connection to all creation, that 'immense what is'."—New York Journal of Books "It's hard to think of another living author who has written so well for so long in so many styles as Ursula K. Le Guin." —Salon "She never loses touch with her reverence for the immense what is." —Margaret Atwood "There is no writer with an imagination as forceful and delicate as Le Guin's." —Grace Paley

Legendary author Ursula K. Le Guin was lauded by millions for her groundbreaking science fiction novels, but she began as a poet, and wrote across genres for her entire career. In this clarifying and sublime collection—completed shortly before her death in 2018—Le Guin is unflinching in the face of mortality, and full of wonder for the mysteries beyond. Redolent of the lush natural beauty of the Pacific Northwest, with rich sounds playfully echoing myth and nursery rhyme, Le Guin bookends a long, daring, and prolific career. From "How it Seems to Me": In the vast abyss before time, self is not, and soul commingles with mist, and rock, and light. In time, soul brings the misty self to be. Then slow time hardens self to stone while ever lightening the soul, till soul can lose its hold of self . . . Ursula K. Le Guin is the author of over sixty novels, short fiction

works, translations, and volumes of poetry, including the acclaimed novels *The Left Hand of Darkness* and *The Dispossessed*. Her books continue to sell millions of copies worldwide. Le Guin died in 2018 in her home in Portland, Oregon.

Earth, like the rest of the Known Worlds, has fallen to the Shing. Scattered here and there, small groups of humans live in a state of semi-barbarism. They have lost the skills, science and knowledge that had been Earth's in the golden age of the League of Worlds, and whenever a colony of humans tries to rekindle the embers of a half-forgotten technology, the Shing, with their strange, mindying power, crush them out. There is one man who can stand against the malign Shing, but he is an alien with amber eyes and must first prove to paranoid humanity that he himself is not a creature of the Shing.

A highly original and poetic self-portrait from one of America's most acclaimed writers. Leslie Marmon Silko's new book, her first in ten years, combines memoir with family history and reflections on the creatures and beings that command her attention and inform her vision of the world, taking readers along on her daily walks through the arroyos and ledges of the Sonoran desert in Arizona. Silko weaves tales from her family's past into her observations, using the turquoise stones she finds on the walks to unite the strands of her stories, while the beauty and symbolism of the landscape around her, and of the snakes, birds, dogs, and other animals that share her life and form part of her family, figure prominently in her memories. Strongly influenced by Native American storytelling traditions, *The Turquoise Ledge* becomes a moving and deeply personal contemplation of the enormous

spiritual power of the natural world-of what these creatures and landscapes can communicate to us, and how they are all linked. The book is Silko's first extended work of nonfiction, and its ambitious scope, clear prose, and inventive structure are captivating. *The Turquoise Ledge* will delight loyal fans and new readers alike, and it marks the return of the unique voice and vision of a gifted storyteller.

Critical Theory Today Houghton Mifflin Harcourt

An eye-opening biography of one of the most influential psychiatrists of the modern age, drawing from his lectures, conversations, and own writings. In the spring of 1957, when he was eighty-one years old, Carl Gustav Jung undertook the telling of his life story. *Memories, Dreams, Reflections* is that book, composed of conversations with his colleague and friend Aniela Jaffé, as well as chapters written in his own hand, and other materials. Jung continued to work on the final stages of the manuscript until shortly before his death on June 6, 1961, making this a uniquely comprehensive reflection on a remarkable life. Fully corrected, this edition also includes Jung's VII Sermones ad Mortuos.
