Discerning the Voice of God Destiny Image Publishers

This book is written to help Christians discern between the voice of God amidst other voices. There are basically three major voices in the universe; the voice of man, the voice of the devil and the voice of God. The importance of recognizing God's voice as a Christian, when we yearn to hear from Him cannot be overemphasized. The question now is; is it possible for God to speak without you recognizing His voice? The answer is a resounding yes. God can actually speak and you won't recognize His voice or hear Him speak. We hear different voices within us, most of the times; our mind speaking, the devil speaking or God speaking. It is very important that we recognize God's voice when He speaks so that we will not deviate from his plans for us. It was that "voice" that allows us to come through the darkest hours of our life. That is what this book is about. It is about going from hearing a barely discernible voice to hearing a clear voice. It is about going from "I think God is saying..." to "I know God is saying..." because when you know what really happened and what is really available to you, you will find a renewed sense of faith, an insatiable new inspiration, and a new path to a deeper relationship with God. This book also reveals what causes us to vacillate in our hearing experience. You will come away from this book knowing how to hear God clearly and what it means when you don't.

Experiences of hearing the voice of God (or angels, demons, or other spiritual beings) have generally been understood either as religious experiences or else as a feature of mental illness. Some critics of traditional religious faith have dismissed the visions and voices attributed to biblical characters and saints as evidence of mental disorder. However, it is now known that many ordinary people, with no other evidence of mental disorder, also hear voices and that these voices not infrequently include spiritual or religious content. Psychological and interdisciplinary research has shed a revealing light on these experiences in recent years, so that we now know much more about the phenomenon of "hearing voices" than ever before. The present work considers biblical, historical, and scientific accounts of spiritual

and mystical experiences of voice hearing in the Christian tradition in order to explore how some voices may be understood theologically as revelatory. It is proposed that in the incarnation, Christian faith finds both an understanding of what it is to be fully human (a theological anthropology), and God's perfect self-disclosure (revelation). Within such an understanding, revelatory voices represent a key point of interpersonal encounter between human beings and God.

KNOWING GOD INTIMATELY

Overthrowing Your Empire of Noise Noise. It's everywhere. Televisions blaring out commercials. Opinions shouted over the radio. The Internet and its unlimited distractions. All of the tasks and choices that you know don't really matter. Always intensifying, becoming a deep part of our everyday cycle, our now hurried lives. But often God speaks to us in the stillness. When Elijah needed to hear from God, God sent a fire, a quake, and a huge wind. But God wasn't in the fire. He wasn't in the quake. He wasn't in the wind. God was in the whisper. But the noise hides the whisper. Life is a dangerous place when we are stripped of our ability to hear God clearly. During His time here on earth Jesus Christ was a master of noise. He balanced time healing, teaching, and feeding the multitudes with regular periods alone with His Father. Static Jedi takes a look at the life of Jesus to help you master the noise and distractions and live in clarity.

Exploring the Prophetic Devotional InterVarsity Press

Based on classic *Experiencing God* principles, *Hearing God's Voice* is for those who are ready to listen. Beloved author Henry Blackaby and his son Richard help those who are listening to discern the voice of God, to identify ways He speaks, and to respond to His revelations of His will. God speaks to individuals in ways that are personal and unique to each person. God will never say anything that contravenes what He has said in the Bible, and usually He confirms what He has said. After you learn to listen to God, hearing from God will be as natural as communicating with a close friend.
