In early 1966, Dr. Guy
Clark received orders to
go to Vietnam, and upon
arrival that June was
assigned to be a flight
surgeon at Cam Ranh Bay

Air Force Base, on the
South China Sea. During
his year in Vietnam, Clark
flew more than 90
bombing missions. He
dreamed of high
adventure, and flying with

the Phantom F4-C pilots was the ultimate high. *100 Best Books for Children* Penguin
 After seventeen-year-old Thais Allard loses her widowed father in a tragic car accident, she is forced to leave the only home she's ever known to live with a total stranger in New Orleans. New Orleans greets Thais with many secrets and mysteries, but none as unbelievable as the moment she comes face to face with the impossible—an identical twin, Clio. Thais soon learns that she and the

twin she never knew come from a family of witches, that she possesses astonishing powers, and that she, along with Clio, has a key role in Balefire, the coven she was born into. Fiery Clio is less than thrilled to have to share the spotlight, but the twins must learn to combine their powers in order to complete a rite that will transform their lives and the coven forever.

Stories from the Diamond Field and Other Historical Writings about the

19th Century Hall of

Famer Verso Books

We all have an imaginary definition of a great family. We imagine what it would be like to belong to such a family. No fights over the holidays. No getting on one another's nerves. Respect for individual identity. Mutual support, without being intrusive. So many people believe they are disqualified from having a better family experience, primarily because they compare their own family with the mythic ideal, and their reality falls short. Is

that a fair standard to judge against?" In the pages of *Why Do I Love These People?*, Po Bronson takes us on an extraordinary journey. It begins on a river in Texas, where a mother gets trapped underwater and has to bargain for her own life and that of her kids. Then, a father and his daughter return to their tiny rice-growing village in China, hoping to rekindle their love for each other inside the walls of his childhood home. Next, a son puts forth a riddle, asking us to understand

what his first experience of God has to do with his Mexican American mother. Every step—and every family—on this journey is real. Calling upon his gift for powerful nonfiction narrative and philosophical insight, Bronson explores the incredibly complicated feelings that we have for our families. Each chapter introduces us to two people—a father and his son, a daughter and her mother, a wife and her husband—and we come to know them as intimately as characters in a novel,

following the story of their relationship as they struggle resiliently through the kinds of hardships all families endure. Some of the people manage to save their relationship, while others find a better life only after letting the relationship go. From their efforts, the wisdom in this book emerges. We are left feeling emotionally raw but grounded—and better prepared to love, through both hard times and good time. In these twenty mesmerizing stories, we discover what is essential

and elemental to all families and, in doing so, slowly abolish the fantasies and fictions we have about those we fight to stay connected to. In *Why Do I Love These People?*, Bronson shows us that we are united by our yearnings and aspirations: Family is not our dividing line, but our common ground. [Their History, Culture, and Civilization](#) Open Road + Grove/Atlantic
 In 1908 baseball was the only game that mattered in the South. With no major league team in the

region, rivalries between Southern Association cities such as Atlanta, Birmingham, Memphis, and New Orleans were heated. This season, however, no city was as baseball-crazed as Nashville, whose Vols had been league doormat in 1907. After an unpromising start, the Nashville club clawed its way into contention during the month of July, rising into the upper division, then into a battle for first. Local interest intensified, as the competitive fire of

Nashville fans was stoked by sharp-tongued columnist Grantland Rice and the city's three daily newspapers. By the time the Vols met the New Orleans Pelicans for a season-ending series, and the championship, the city was gripped by a pennant fever that shut down the commercial district. Nearly 13,000 people thronged the Nashville ballpark, Sulphur Dell, for the third and deciding contest. What they saw was described by Rice as "the greatest game ever played in Dixie."

COMMUNICATING WITH KI

Houghton Mifflin Harcourt
Looking out a second-
story window of her
family's quarters at the
Pearl Harbor naval base
on December 7, 1941,
eleven-year-old Jackie
Smith could see not only

the Rising Sun insignias on the wings of attacking Japanese bombers, but the faces of the pilots inside. Most American children on the home front during the Second World War saw the enemy only in newsreels and the pages of Life Magazine, but from Pearl Harbor on, "the war"--with its blackouts, air raids, and government rationing--became a dramatic presence in all of their lives. Thirty million Americans relocated, 3,700,000 homemakers entered the labor force,

sparking a national debate over working mothers and latchkey children, and millions of enlisted fathers and older brothers suddenly disappeared overseas or to far-off army bases. By the end of the war, 180,000 American children had lost their fathers. In "Daddy's Gone to War", William M. Tuttle, Jr., offers a fascinating and often poignant exploration of wartime America, and one of generation's odyssey from childhood to middle age. The voices of the home

front children are vividly present in excerpts from the 2,500 letters Tuttle solicited from men and women across the country who are now in their fifties and sixties. From scrap-collection drives and Saturday matinees to the atomic bomb and V-J Day, here is the Second World War through the eyes of America's children. Women relive the frustration of always having to play nurses in neighborhood war games, and men remember being both afraid and eager to grow up and go to war

themselves. (Not all were willing to wait. Tuttle tells of one twelve year old boy who strode into an Arizona recruiting office and declared, "I don't need my mother's consent...I'm a midget.") Former home front children recall as though it were yesterday the pain of saying good-bye, perhaps forever, to an enlisting father posted overseas and the sometimes equally unsettling experience of a long-absent father's return. A pioneering effort to reinvent the way we

look at history and childhood, "Daddy's Gone to War" views the experiences of ordinary children through the lens of developmental psychology. Tuttle argues that the Second World War left an indelible imprint on the dreams and nightmares of an American generation, not only in childhood, but in adulthood as well. Drawing on his wide-ranging research, he makes the case that America's wartime belief in democracy and its rightful leadership of the

Free World, as well as its assumptions about marriage and the family and the need to get ahead, remained largely unchallenged until the tumultuous years of the Kennedy assassination, Vietnam and Watergate. As the hopes and expectations of the home front children changed, so did their country's. In telling the story of a generation, Tuttle provides a vital missing piece of American cultural history. *A Flight Surgeon's Odyssey in Vietnam* A&C

Black USA Today bestselling author Jo Goodman's sweeping new novel brings to life a tale of courage, desire, and dangerous secrets--as an intrepid beauty discovers that love and trust are two sides of the same coin. . . Wyatt Grantham, Viscount Sheridan, is stunned to find three young boys at his door, demanding he right the wrongs of an incident that occurred earlier that evening when he thwarted a determined thief. When he discovers

his wily pickpocket is a woman, now gravely injured, he takes his flame-haired attacker under his wing. Clearly, Sheridan's new "guest" is lady of quality. So how did she become a common street thief? He finds himself irresistibly drawn to the clever, cheeky Lily, and determined to unlock her mysteries. . . The five years since she left the care of the French convent have been a nightmare for Lily. Her secrets are dangerous--as is the powerful man determined to find

her. The handsome Viscount is clearly a gentleman with secrets of his own, but staying with him could mean the difference between life and death for Lily. With each passing day, her handsome host turns Lily's convalescence into an increasingly sensual escape. Now her greatest challenge may be imagining anything less than a future in his arms. .

Books, and Learning Links.

The Magic Makeover

Wiley-Blackwell

Vincent is a privileged introvert navigating his formative years at two elite Manhattan private schools in the late-2000s. He plays sports, acts, ballroom dances, and lives a teenage life of which many would dream. But as eighth grade comes to a close, Vincent will be moving from a suit-and-tie single-sex education to an easygoing, co-ed high school. His future goals

consist of finding his first girlfriend, making a large group of friends, and figuring out what he wants to do for a career. Yet, his neurotic and rigid nature, troubling familial relationships, and inherent cowardice make growing up in this world exceedingly tricky and painful. The Venerable Vincent Beattie is stylistically similar to some classic, early 20th-century fiction, but the story is told through a contemporary filter, where texting, Blackberrys, Facebook,

Instagram, Skype, and the 2000s' famed music and pop culture are a focal point. This relatable story occasionally cuts away from the narrative to show what music a character is listening to, along with pages of solely texted conversations. It combines the tried-and-true formula of the coming-of-age novel with updates from the new millennium, creating a fascinatingly unique reading experience. *The Administration and Social Life of the Saṅgam Tamils* Oxford University

The Last Witch, 2 Asian Educational Services
I lived a pretty ordinary life—a kid raised in my family's bar who went off to college to escape the small-town life. But when my grandfather died and I returned to take over the family business, I discovered a much more extraordinary world waiting for me. Vampires, werewolves and fae are real. And they want my baby. They say my daughter is meant to fulfill

a prophesy related to the end of all magical creatures, but since saving them involves killing her, they're going to have to figure out another way. They're not getting my kid. Now, I'm on the run from three kingdoms on the brink of war as I seek to discover the truth of my heritage and the key to controlling my new powers. With three princes by my side, we just might stand a chance of saving Rain and also finding a way to save everyone else. The answers I seek are in

Budapest, but death seems to be following me wherever I go, even across the world.

A Season To Be Sinful
 Macmillan

In this powerful and passionate critique of the 'war on terror' in Afghanistan and its extensions into Palestine and Iraq, Derek Gregory

traces the long history of British and American involvements in the Middle East and shows how colonial power continues to cast long shadows over our own present. Argues the attacks on the World Trade Center and the Pentagon on September 11 activated a series of political and cultural responses that were profoundly colonial in nature. The first analysis of the "war on terror" to connect events in Afghanistan, Palestine, and Iraq. Traces the

connections between geopolitics and the lives of ordinary people. Richly illustrated and packed with empirical detail.
