The perfect gift for anyone who embraces the joy of fandom and geeking out, this collection of essays celebrates the fans of Star Wars, Star Trek, Doctor Who, Sherlock Holmes, Lord of the Rings, and much more. Pop Culture and sci-fi guru Ryan Britt has never met a monster, alien, wizard, or superhero that didn't need further analysis.

Essayist Ryan Britt got a sex education from dirty pictures of dinosaurs, made out with Jar-Jar Binks at midnight, and figured out how to kick depression with a Doctor Who Netflix-binge. Alternating between personal anecdote, hilarious insight, and smart analysis, *Luke Skywalker Can't Read* contends that Barbarella is good for you, that monster movies are just romantic comedies with commitment issues, that *Dracula* and *Sherlock Holmes* are total hipsters,

and, most shockingly, shows how virtually everyone in the Star Wars universe is functionally illiterate. Romp through time and space, from the circus sideshows of 100 years ago to the Comic Cons of today, from darkest corners of the Galaxy to the comfort of your couch. For anyone who pretended their flashlight was a lightsaber, stood in line for a movie at midnight, or dreamed they were abducted by aliens, *Luke Skywalker Can't Read* is full of answers to

questions you haven't thought to ask, and perfect for readers of Chuck Klosterman, Rob Sheffield, and Ernest Cline. "Ryan Britt is . . . the Virgil you want to guide you through the inferno of geekery." —Lev Grossman, author of the bestselling *Magician's* trilogy

 From the author of Jurassic Park, Timeline, and Sphere comes a captivating thriller about a deadly extraterrestrial microorganism, which threatens to annihilate human life. Five prominent biophysicists have warned the United States government that sterilization procedures for returning space probes may be inadequate to guarantee uncontaminated re-entry to the atmosphere. Two years later, a probe satellite falls to the earth

and lands in a desolate region of northeastern Arizona. Nearby, in the town of Piedmont, bodies lie heaped and flung across the ground, faces locked in frozen surprise. What could cause such shock and fear? The terror has begun, and there is no telling where it will end.

Jurassic World: Fallen Kingdom: the Junior Novelization (Jurassic World: Fallen Kingdom)

Simon and Schuster
 The blockbuster author of Jurassic Park “provides plenty of misdirection to

keep you on your toes” in his very first novel (Publishers Weekly). To rob the finest resort in fascist Spain, three Americans need to blend in among the Mediterranean elite. And to do so, they will each need a gorgeous girl as cover. They find a depraved millionaire, a drug-addled nymphomaniac, and an assistant hotel manager who enjoys mingling with her handsome guests after hours. The would-be thieves have used an IBM supercomputer to plan

the perfect heist. Their crime has been calculated to the last detail, with every possible contingency planned for, save one: the women. The Hotel Reina is crawling with femmes fatales, and these crooks will be lucky to escape with the shirts on their backs. This ebook features an illustrated biography of Michael Crichton including rare images from the author's estate.

From the author of

Jurassic Park, *Timeline*, and *Congo* comes a psychological thriller about a group of scientists who investigate a spaceship discovered on the ocean floor. In the middle of the South Pacific, a thousand feet below the surface, a huge vessel is unearthed. Rushed to the scene is a team of American scientists who descend together into the depths to investigate the astonishing discovery. What they find defies their imaginations and mocks their attempts at

logical explanation. It is a spaceship, but apparently it is undamaged by its fall from the sky. And, most startling, it appears to be at least three hundred years old, containing a terrifying and destructive force that must be controlled at all costs. [Jurassic Park Open Road Media](#)
