Ce cahier détaille la conception d'un site de e-commerce avec UML et Java Enterprise Edition 5. Inspirée du Java Petstore, l'étude de cas se construit au fil des chapitres en appliquant les spécifications Java EE 5 : EJB 3.0, JPA 1.0, Servlet 2.5, JSP 2.1, JSF 1.2, Web Services 1.2, JAXB 2.0, JAX-WS 2.0, JavaMail 1.4, JMS 1.1. L'application est déployée dans le serveur GlassFish 3.0.1 et utilise la base de données Derby. Cet ouvrage s'adresse aux architectes et développeurs confirmés qui veulent découvrir Java EE 5 ou migrer leurs applications J2EE 1.4 existantes. Il montre comment s'imbriquent les

différentes API de Java EE 5 dans une application internet-intranet et introduit Maven, le nouvel outil d'automatisation de développements d'Apache. Téléchargez le code source de l'étude de cas !

The transformations which are taking place in the Arab world are dynamic processes characterised by a number of variables that one can refer to as actors and factors. The implications of the Arab uprisings are important for the world at large; the Arab world's successes, and failures, at this crucial moment may well serve as a model for other nations. Political and Constitutional Transitions in North Africa focuses on

five Northern African countries- Tunisia, Egypt, Morocco, Libya and Algeria- examining specific institutions and actors participating in the political upheavals in North Africa since 2011, and placing them in a comparative perspective in order to better understand the processes at work. This book addresses issues pertinent to North African and Middle Eastern Studies, comparative constitutional law, political science and transitional studies and it contains contributions by experts in all these fields. Providing a significant contribution to the understanding of events that followed the immolation of Mohamed Bouazizi in Tunisia, this book is a valuable contribution to North African Studies, Middle Eastern Studies, Comparative Constitutional Law and Transitional Studies. [Spring par la pratique](#) Editions Eyrolles The late 1870s and early 1880s were watershed years in the history of French painting. As outgoing economic and social structures were being replaced by a capitalist, measured time, Impressionist artists

sought to create works that could be perceived in an instant, capturing the sensations of rapidly transforming modern life. Yet a generation of artists pushed back against these changes, spearheading a short-lived revival of the Realist practices that had dominated at mid-century and advocating slowness in practice, subject matter, and beholding. In this illuminating book, Marnin Young looks closely at five works by Jules Bastien-Lepage, Gustave Caillebotte, Alfred-Philippe Roll, Jean-Francois Raffaelli, and James Ensor, artists who shared a concern with painting and temporality that is all but forgotten today, having been eclipsed by the ideals of Impressionism. Young's highly original study situates later Realism for the first time within the larger social, political, and economic framework and argues for its centrality in understanding the development of modern art.

The Philosophy of Julia Kristeva PM Press

Faces masked, dressed in black, and forcefully attacking the symbols of capitalism, Black Blocs have been transformed into an anti-globalization

media spectacle. But the popular image of the window-smashing thug hides a complex reality. Francis Dupuis-Déri outlines the origin of this international phenomenon, its dynamics, and its goals, arguing that the use of violence always takes place in an ethical and strategic context. Translated into English for the first time and completely revised and updated to include the most recent Black Bloc actions at protests in Greece, Germany, Canada, and England, and the Bloc's role in the Occupy movement and the Quebec student strike, *Who's Afraid of the Black Blocs?* lays out a comprehensive view of the Black Bloc tactic and locates it within the anarchist tradition of direct action.

JOURNAL OF THE ASIATIC SOCIETY OF BENGAL

Princeton University Press
Tourism promoters strive to brand their destinations in anticipation of what they think travellers hope to experience. In turn, travel writers react in part to destinations in line with their expectations. While several scholars have documented such patterns elsewhere, these have remained understudied in the case of Quebec despite the frequency with which the province was branded and rebranded and its status as a major North American travel destination in the decades leading up to Expo 67. The first comprehensive history of Quebec tourism promotion and travel writing, *From Old Quebec to La Belle Province* details changing marketing strategies and shows how these efforts consistently mirrored and strengthened French Quebec's evolving national identity. Nicole Neatby also takes into account the contentious role of English-speaking promoters in Montreal,

belying the view that Quebec was unvaryingly represented and appreciated for being "old." Taking a comparative approach, Neatby draws on books and a wide array of newspapers, popular and specialized magazines, and written and visual sources from outside the tourist genre to reveal how the distinct national and cultural identities of English Canadians, Americans, and French Quebecers profoundly shaped their expectations and reactions to the province. *From Old Quebec to La Belle Province* traces and explains shifting promotional priorities for tourism and travel writers' varying reactions over the course of four decades, and how these attitudes harmonized with evolving national identities.

La puissance de JavaScript révélée par Ajax et le Web 2.0
JavaScript est longtemps resté un langage au potentiel sous-estimé, mal aimé et souvent mal maîtrisé par les

développeurs Web. Jusqu'à l'émergence d'Ajax et du Web 2.0 qui ont mis en lumière les possibilités spectaculaires et insoupçonnées offertes par ce langage. L'objectif du présent ouvrage est de vous amener bien au-delà de l'utilisation usuelle basique de JavaScript, en vous montrant comment développer avec efficacité des applications Web 2.0 performantes et faciles à maintenir. Après un rappel de la syntaxe de base du langage, vous approfondirez les différents aspects avancés du langage et de son environnement : programmation orientée objet, utilisation avancée du DOM, échanges HTTP asynchrones à l'aide XMLHttpRequest, interaction avec (X)HTML et CSS, création de composants graphiques, etc. Les bonnes pratiques du développement Web 2.0 illustrées par une étude de cas Une part importante de l'ouvrage est dédiée aux indispensables bibliothèques JavaScript, grâce auxquelles vous gagnerez en temps et en qualité de développement, tout en enrichissant vos applications de composants graphiques sophistiqués. Vous

apprendrez également comment intégrer via le protocole REST les services Web proposés par des sites tels que Google Maps, Yahoo ! ou Amazon. L'accent est mis tout au long de l'ouvrage sur les bonnes pratiques de développement JavaScript : séparation du code (X)HTML, CSS et JavaScript, mise en oeuvre de composants, tests unitaires, etc. Cette démarche est illustrée par une étude de cas détaillée, qui fait appel à la bibliothèque Dojo et aux services Google Maps, et dont le code source est en libre accès sur jswb2.sourceforge.net.

Boyer's Royal Dictionary Abridged. In Two Parts. I. French and English. II. English and French ... Taylor & Francis

This book examines the history of Belgian physical anthropology in the long nineteenth century and discusses how the notion of 'race' structured Belgian pasts and presents as well as relations between metropole and empire. In a context of competing European nationalisms, Belgian anthropologists mainly used physical characters, like skull form and the color of hair and

eyes, to delimitate 'races', which were believed to be permanent and existent. Their belief in a supposed racial superiority was however above all telling about their own origins and physical characters. Although it is often assumed that these ideas were subsequently transferred to the colony, the case of Belgian colonization in Congo shows that colonial administrators, at least in theory, were reluctant to use the idea of permanent 'races' because they needed the possibility of 'evolution' to legitimize their actions as part of a 'civilizing mission'. In reality, however, colonization was based on military occupation and economic exploitation, with devastating effects. This book analyzes how, in this violent context, widespread racial prejudices in fact dehumanized Congolese. This not only allowed colonizers to act inhuman but also reduced Congolese, or their body parts, to objects that could be measured, photographed, casted, and 'collected'. This volume will be of use to students and scholars alike interested in social and cultural history as well as imperial and

colonial history. [Index Catalogue of the Library of the Surgeon-general's Office, United States Army \(-United States Army, Army Medical Library; -National Library of Medicine\)](#). Penn State Press

The Philosophy of Julia Kristeva is the latest addition to the highly acclaimed series, The Library of Living Philosophers. The book epitomizes the objectives of this acclaimed series; it contains critical interpretation of one of the greatest philosophers of our time, and pursues more creative regional and world dialogue on philosophical questions. The format provides a detailed interaction between those who interpret and critique Kristeva's work and the seminal thinker herself, giving broad coverage, from diverse viewpoints, of all the major topics establishing her reputation. With questions directed to the philosopher while they are alive, the volumes in The Library of Living Philosophers have come to occupy a uniquely significant place in the realm of philosophy. The inclusion of Julia Kristeva constitutes a vital addition to an already robust list of

thinkers. The Philosophy of Julia Kristeva exemplifies world-class intellectual work closely connected to the public sphere. Kristeva has been said to have "inherited the intellectual throne left vacant by Simone de Beauvoir," and has won many awards, including the Hannah Arendt Prize for Political Thought. Julia Kristeva's autobiography provides an excellent introduction to her work, situating it in relation to major political, intellectual, and cultural movements of the time. Her upbringing in Soviet-dominated Bulgaria, her move to the French intellectual landscape of the 1960s, her visit to Mao's China, her response to the fall of the Berlin Wall, her participation in a papal summit on humanism, her appointment by President Chirac as President of the National Council on Disability, and her setting up of the Simone de Beauvoir prize, honoring women in active and creative fields, are all major moments of this fascinating life. The major part of the book is comprised of thirty-six essays by Kristeva's foremost interpreters and critics, together with her replies to the essays.

These encounters cover an exceptionally wide range of theoretical and literary writing. The strong international and multidisciplinary focus includes authors from over ten countries, and spans the fields of philosophy, semiotics, literature, psychoanalysis, feminist thought, political theory, art, and religion. The comprehensive bibliography provides further access to Kristeva's writings and thought. The preparation of this volume, the thirty-sixth in the series, was supported by a major grant from the National Endowment for the Humanities. The Royal Dictionary Abridged ...
