EL ROMANCERO ESPAÑOL

Routledge

First Published in 2005. Routledge is an imprint of Taylor & Francis, an information company.

estudio comparativo Routledge

In an illustrious career spanning over forty years, Américo Paredes has often set the standard for scholarship and

writing in folklore and Chicano studies. In folklore, he has been in the vanguard of important theoretical and methodological movements. In Chicano studies, he stands as one of the premier exponents. Paredes's books are widely known and easily available, but his scholarly articles are not so familiar or accessible. To bring them to a wider readership, Richard Bauman has selected eleven essays that eloquently represent the range and excellence of Paredes's work. The hardcover edition of *Folklore and Culture* was published in

1993. This paperback edition will make the book more accessible to the general public and more practical for classroom use.

The Spanish Love Deception Cengage Learning

Multidisciplinary essays examining the historical and cultural history of the Sephardic experience in the Americas, from pre-expulsion Spain to the modern era, as recounted by some of the most outstanding interpreters of the field.

El romance español y el corrido mexicano estudio comparativo
El romance español y el corrido mexicano estudio comparativo

This study offers an introduction to an important branch of Spanish literature—the romance, or ballad. Although a great many of these poems have been translated into English by various authors, they are not generally known nor easily accessible. Collected here for the first time in a single volume is a broad and representative sampling of romances in translation that encompasses historical ballads (including those about Spain's greatest folk hero, el Cid), Moorish ballads, and ballads of chivalry, love, and adventure. For the collection, Shasta M. Bryant has written a perceptive commentary and critique in which he discusses the individual poems and compares the translation with the original; both texts are presented to facilitate comparison.

For those who wish to pursue their reading further there is an index of romances that have been translated into English, along with the names of the translators. Although the text has been written with the non-specialist in mind, this book will be equally valuable for students of comparative literature and of medieval Spain.

By exploring England's fanatical consumption of the so-called books of the brave conquistadors, this book shows how tales of love and arms mystified global conquest (in such places as Mexico, Peru, Guiana, California, and Australia) and rooted the idea of English empire as a civilized alternative to the cruelty of Spanish conquest.

Spanish Poetry of the Golden Age

John Benjamins Publishing

Aimed at advanced students of Spanish interested in improving their understanding of Spanish phonology and pronunciation, *Que bien suena!* focuses on providing the simplest analysis of the

pronunciation of Spanish sounds. The text's goal is for the student to be able to replicate successfully, to the extent possible, native speakers' typical pronunciation and intonation patterns. SPANISH BALLADS

University of Toronto Press
 Compilación J. Bergua. El romance, el verso castellano por antonomasia, desde el siglo XV hasta nuestros días. Complemento indispensable de la antología anterior.

Verbal Periphrases in Romance

Cambridge University Press
 A TikTok sensation, this rom-com about

a young woman who agrees to fake date a colleague and bring him to her sister's wedding has "everything you could want in a romance" (Helen Hoang, New York Times bestselling author). Catalina Martín desperately needs a date to her sister's wedding. Especially since her little white lie about her American boyfriend has spiralled out of control. Now everyone she knows—including her ex and his fiancée—will be there and eager to meet him. She only has four weeks to find someone willing to cross the Atlantic and aid in her deception. New York to Spain is no short flight and her raucous family won't be easy to fool. Enter Aaron Blackford—her tall, handsome, condescending colleague—who surprisingly offers to step in. She'd rather refuse; never has

there been a more aggravating, blood-boiling, and insufferable man. But Catalina is desperate, and as the wedding draws nearer, Aaron looks like her best option. And she begins to realize he might not be as terrible in the real world as he is at the office.

colección de romances históricos y tradicionales University of Texas Press

The series is a platform for contributions of all kinds to this rapidly developing field. General problems are studied from the perspective of individual languages, language families, language groups, or language samples. Conclusions are the result of a deepened study of empirical data. Special emphasis is given to little-known languages, whose analysis may shed new light on long-standing problems in general linguistics.

The Literature of Al-Andalus

University of Missouri Press

This 1920 book contains the texts, with notes, of 142 Spanish ballads, arranged in four groups: miscellaneous, historical, Moslem historical and Moorish. The ballads are presented in the original Spanish with extensive textual notes given in English. It will be of value to anyone with an interest in Spanish literature and the ballad form.

Oral Tradition and Hispanic Literature

Simon and Schuster

In New York City during the winter of 1922 and the spring of 1923, Mair Jose Benardete recorded the texts of the thirty-nine traditional ballads published in this volume. His collection, the beginning of Judeo-Spanish ballad research in America, was assembled

when the oral tradition was still rich and vigorous among immigrants to New York from the Sephardic settlements of the Eastern Mediterranean and North Africa. Among the ballads are a number of rare text types, some never again recorded in the Sephardic communities of the United States. In addition, many of the texts provide new insights into the origins of the thematic traditions they represent. Samuel G. Armistead and Joseph H. Silverman have edited the ballads collected by Benardete, offering an English abstract and exhaustive bibliography for each ballad. In addition to placing each ballad within the context of its Sephardic variants, the bibliographies refer to the most important collections in the modern Castilian, Portuguese, Catalan, and

Hispano-American traditions, to earlier (fifteenth- to seventeenth-century) evidence, and to any known analogs in other European traditions. The volume also includes a general bibliography, a thematic classification of the ballads, several indexes, and a glossary of exotic lexical elements. In an introduction, professors Armistead and Silverman present a documented survey of Judeo-Spanish ballad scholarship with particular attention to fieldwork in the United States and elsewhere. Benardete himself attributed the decline of ballad singing among the Sephardim to a growing preference for phonographic recordings over traditional family singers. The need for further field-work increases as "Sephardic folkspeech and folklore retreat before the irresistible

onslaught of the English language and modern American mass-media culture" (from the Introduction). This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1981.

FROM ORIGINS TO 1700 (VOLUME Two)

Рипол Классик

The Literature of Al-Andalus is an exploration of the culture of Iberia,

present-day Spain and Portugal, during the period when it was an Islamic, mostly Arabic-speaking territory, from the eighth to the thirteenth century, and in the centuries following the Christian conquest when Arabic continued to be widely used. The volume embraces many other related spheres of Arabic culture including philosophy, art, architecture and music. It also extends the subject to other literatures - especially Hebrew and Romance literatures - that burgeoned alongside Arabic and created the distinctive hybrid culture of medieval Iberia. Edited by an Arabist, an Hebraist and a Romance scholar, with individual chapters compiled by a team of the world's leading experts of Islamic Iberia, Sicily and related cultures, this is a truly

interdisciplinary and comparative work which offers a interesting approach to the field.

Studies in Culture and History Taylor & Francis

The present English version, authorized by the publishers and heirs of M. Merimee, is based on the third French Edition. New material of two sorts has been added, however. First, the translator has been allowed to utilize an annotated, interleaved copy of the *Precis*, 1922, in which the author, and after his death his son Henri, himself a distinguished Hispanist, had set down material for the next revision. This accounts for many inserted names and phrases, and some paragraphs. Second, the translator has rewritten and added with some freedom.

The History of Linguistics in Spain UNAM
 "Study of the role women played in the Mexican Revolution and the Spanish Civil War. Examines female figures such as the soldaderas of the Mexican Revolution and the milicianas of the Spanish Civil War and the intersection of gender, revolution, and culture in both the Mexican and the Spanish contexts"--
 Provided by publisher.

AN ELEMENTARY SPANISH GRAMMAR

Cambridge University Press
 First published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

Selected Articles on Medieval and Renaissance Spanish Literature Liceus, Servicios de Gestió

This selection of papers is concerned with the history of linguistics in Spain, dealing with the evolution of linguistic ideas from the Middle Ages and the European context of the linguistic debates in Spain to the 20th century, concluding with Malkiel's appraisal of Ramón Menéndez Pidal (1869–1968). The volume includes papers on Antonio Nebrija and Sanctius, probably the best-known grammarians of the Iberian peninsula, but – as the other papers suggest – there is much more to be known about the Spanish linguistic traditions. The papers in this volume were previously published in *Historiographia Linguistica* XI:1/2 (1984).
