THE DEMON-HAUNTED WORLD

Light Technology Publishing DNA is our chemical blueprint, but the Human Genome Project found that over ninety percent of it is not coded. In fact, only approximately four percent creates the 23,000 genes in the Human body. The rest? It's a puzzle to the extreme, and to this day

there is no answer why most of DNA seems to have no symmetry or codes of any kind. But Kryon now gives us a full revelation of the twelve layers, or energies of DNA. Could it be that our entire Akashic record is carried in our DNA? What else might be represented? It starts to make sense, and the most recent discoveries of quantum physics only enhances the potentials of this quantum molecule.

The Secret Codes of the Universe Erik Istrup Publishing Wall Street Journal bestseller-now in paperback-offers a new perspective on the most misunderstood figure in the Christian story and the key to reclaiming the divine feminine in our lives and hearts. The Gospel of Mary Magdalene reveals a very different love story from the one we've come to refer to as Christianity. In Mary

Magdalene Revealed, available for the first time in paperback, Harvard-trained theologian Meggan Watterson leads us verse by verse through Mary's gospel to illuminate the powerful teachings it contains. Her gospel, as ancient and authentic as any of the gospels that the Christian bible contains, reveals a radical love that sits at the heart of the Christian story. It tells us that we are	not sinful; we are not to feel ashamed or unworthy for being human. In fact, our purpose is to be fully human, to be a "true human being"-with both a messy, limited ego and a limitless soul. And all we need to do is to turn inward (again and again); to meditate, like Mary Magdalene, in the way her gospel directs us, so that we can see past the ego of our own little lives to what's more real, and lasting, and infinite, and	already here, within. With searing clarity, Watterson explains how and why Mary Magdalene came to be portrayed as the penitent prostitute and relates a more historically and theologically accurate depiction of who Mary was within the early Christ movement. And she shares how this discovery of Mary's gospel has allowed her to practice, and to experience, a love that never ends, a

love that transforms everything. "This book is a masterpiece. I haven't been this excited or awakened by a book for a decade." - Glennon Doyle, #1 New York Times best-selling author of *Love Warrior* and founder of *Together Rising* "With deep honesty, soulful artistry, and intellectual rigor, Meggan brings us a picture of the real Mary Magdalene - the one who is alive in each of our hearts-

and leads us through how to experience and live from the Christ in each of us in our daily lives." - Robert Holden and Hollie Holden, authors and teachers of *A Course in Miracles*

Embark on your cosmic path to self-discovery with this comprehensive guide to the twelve signs of the zodiac. Your sun sign is determined by the day

and month of your birth and dictates your zodiac personality. Taking each of the twelve signs in turn, world famous astrologer Linda Goodman explains the importance of the sun - the most powerful of all stellar bodies - in astrology. She describes the characteristics of each sign and how these can be used to really get to know the men, women, children, bosses and employees in your life. This newfound

knowledge allows us to feel closer to one another and to understand that, as Goodman says, 'Not all Capricorns are meek, not all Leos are outwardly domineering and not all Virgos are virgins.' Learn all this and much, much more from the world-famous astrologer who has helped millions divine their way to success, happiness and love by studying the sun signs. Before

publication of Sun Signs in 1968, astrology as we know it had a very limited following in the United States and around the world. With this book, Linda Goodman changed that forever, bringing metaphysical consciousness to millions of readers around the world for the first time. Newspapers began running astrology columns, and Goodman herself contributed to

these in the larger mass circulation women's magazines. An increasing number of people knew their sign and how to interpret the signs of others, introducing the study of astrological tendencies as we now know it. Anna, Grandmother of Jesus Simon and Schuster The Akashic Records, also known as "The Book of Life," are the storehouse of all information for every individual who

has ever lived upon the earth. Every word, deed, feeling, thought, and intent that ever occurred are contained within. Todeschi takes you on a journey to understanding how you are in charge of shaping your own destiny with additional instruction on how you can tap into your own records—your past lives, your present experiences, and your future—to create the life you desire now.

reality with the scientific evidence that supports the existence of paranormal activity, telepathy, and extraterrestrial communications. The first book to explore in depth the Nazi fascination with the occult, Pauwels and Bergier also broke new ground with their study of pyramidology, alchemy and its close kinship with atomic energy, and the possibility of a widespread

mutation of humanity that would herald the dawn of a new age for the earth. Their study of secret societies, starting with the Rosicrucians, suggests that such changes are actively being pursued in the present day by a "conspiracy" of the most spiritually and intellectually advanced members of the human race. The Morning of the Magicians also explores the anomalous events collected by

Charles Fort, the work of Gurdjieff, and the history of the mysterious Fulcanelli, who was widely believed to have manufactured the philosopher's stone--which provided the Nazis the motive for mounting an intensive search for him during their occupation of Paris. Much more than a collection of strange facts defying conventional wisdom, this book remains a sophisticated

philosophical exploration of repressed phenomena and hidden histories that asks its readers to look at reality with ever "awakened eyes."

The author based the contents of this book on his personal experience. His own life became a comprehensive model for learning about the power of

the Holy Spirit and how He can work in the lives of individuals. Only on a rare occasion does a book come along that contains the potential to change the consciousness of our entire planetary culture. Many have talked about the ascension process, but very few really understand what it means. Who is really out there? Where are we going? What are our choices? What has to be done to prepare for this event? Is everyone

ascending to the same place? What happened to the fourth dimension? How can we understand the fifth dimension? What does it feel like? How does it operate? What are fifth-dimensional beings like? How do they live? This book explains all of these questions in a way that we can easily understand. It explains what our relationships are to known extraterrestrial groups and what they are

doing to help Earth and her people in this crucial galactic moment in time. It explains how we can raise our vibration now, and begin the process of integrating higher-dimensional energies into our third-dimensional world.

Awaken the elusive information within your Akash Have

you ever wondered where your personality comes from? What about your fears and phobias? What creates a child prodigy? Is it possible that you have lived before? The answer to these questions and more is the purpose of this book. Australian author, Monika Muranyi, has compiled everything that Kryon has ever channelled about the Akash! For over twenty-four years the

loving messages of Kryon, as given by Lee Carroll (the original Kryon channel) have become known world-wide. This book, second in the Kryon trilogy series, represents an amazing job of research that covers in detail the elusive information within your Akash and includes material never before been published by Kryon. In addition, she has posed over thirty new questions answered by

Kryon. Thanks to her work we now have a greater understanding about the Human Akash, where it is, what it contains and how it can be mined. What is it you wish you could do? What are your blocks? What are the things that you think are you that can't be changed? In the Akash, there is also you, many of them. Why don't you go there and replace the current you with the former you? That is mining

the Akash. That's a quantum Human Being, and it goes way beyond what you were told past life energies were for. You were told they were for karmic exchange. It's the old idea that past life experience builds up in your DNA so that you will be disturbed by it, so that it will become the sand in your oyster and then you have to accomplish something to get around it. It is very old information, and now you

can go way beyond that. What if the whole reason for the Akash is just the opposite? What if it is a gold mine with	your name on it? You lived all those lives. Think about that. It's life experience; it's wisdom, shaman. Now,	go mine it. That's what the quantum Human Being does. It creates mastery. Think about that. - Kryon.
