Is the Death Penalty Dying? provides a careful analysis of the historical and political conditions that shaped death penalty practice on both sides of the Atlantic from the end of World War II to the twenty-first century. This book examines and assesses what the United States can learn from the European experience with capital punishment, especially the trajectory of abolition in different European nations. As a comparative sociology and history of the present, the book seeks to illuminate the way death penalty systems and their

dissolution work, by means of eleven chapters written by an interdisciplinary group of authors from the United States and Europe. This work will help readers see how close the United States is to ending capital punishment and some of the cultural and institutional barriers that stand in the way of abolition.

Tom Jones: Close Up surpasses all other attempts to chronicle the life of a unique star who has been notoriously

unforthcoming about himself. It also offers a fascinating insight into half a century of pop, spanning the Fifties pub scene of South Wales, the glitzy resort hotels of Eighties Vegas and a triumphant period of personal reinvention for a whole new generation of Jones fans at the start of the 21st century. This highly readable biography finally separates truth from myth to reveal the flesh-and-blood man behind the legend. With over 70 interviews including friends, family and colleagues, Tom Jones: Close Up offers a minutely-researched chronology of Jones' 40-year career as well as details of his odd life of deep family ties and unbridled sexual promiscuity. From Las Vegas and L.A. to London and South Wales, the authors the pieces together the roller-coaster life

of Tom Jones spanning his carer childhood and the days of legendary stardom, through the career slump in the eighties to the spectacular comeback of the Reload album. Includes 24 pages of photographs from every era of Jones' life.

Notebook Simon and Schuster Seminar paper from the year 2002 in the subject American Studies - Literature, grade: 2 (B), Ernst Moritz Arndt University of Greifswald (Institute for Anglistics/ American Studies), course: Canadian Literature, language: English, abstract: There are many different kinds of parent-child relationships: On the one hand there is the 'perfect' relationship, which means that the parents love their children and they love their parents. This seems to be wonderful, but there are

also problems. For example, in some cases the people love their children so much that they become thoroughly spoilt. On the other hand there is the total 'family disaster', which means that in some cases the parents don't even have any contact with their children. Unfortunately, there are many relationships which have this character. All in all, it is very difficult for parents to build up a really good relationship to their children. Childhood is the most important time in a human's life: The children see their parents as the 'best' people in the world and expect them to behave like this. Later, when the children get older, they develop in different ways and it will be more difficult for the parents to do the right things. So, the expectations of the

children remain the same, but they make it more difficult for their parents. In this way, there can develop many problems. Such parent-child relationships are one of the main subjects in *A Bird in the House* by Margaret Laurence and *Green Grass, Running Water* by Thomas King. These two novels are about relationships and in which way these relationships work. Furthermore, it is talked about different kinds of people's behaviour and what effect it has on other people.

The years from about 1950 to 1970 were the golden age of twang. Country music's giants all strode the earth in

those years: Hank Williams and Johnny Cash, George Jones and Merle Haggard, Loretta Lynn and Tammy Wynette. And many of the standards that still define country were recorded then: "Folsom Prison Blues," "Your Cheatin' Heart," "Mama Tried," "Stand by Your Man," and "Coal Miner's Daughter." In *Sing Me Back Home*, Dana Jennings pushes past the iconic voices and images to get at what classic country music truly means to us today. Yes, country tells the story of rural America in the twentieth century—but the obsessions of classic country were obsessions of America as a whole: drinking and cheating, class and the yearning for home, God and death. Jennings, who grew up in a town that had more cows than people when he was born, knows all of this firsthand. His

people lived their lives by country music. His grandmothers were honky-tonk angels, his uncles men of constant sorrow, and his father a romping, stomping hell-raiser who lived for the music of Carl Perkins, Jerry Lee Lewis, and the other rockabilly hellions. *Sing Me Back Home* is about a vanished world in which the Depression never ended and the sixties never arrived. Jennings uses classic country songs to explain the lives of his people, and shows us how their lives are also ours—only twangier.

Leaving a life of semi-luxury where she had her own servant she must now work as a live-in-housekeeper if she wants to get her green card and eventually have her family join her. How she deals with the emotional trauma of being separated: not only from her life as she knew it, but from her parents, her siblings and above all her two children is an amazing tale of the endurance of the human spirit. profound and painful way possible? These suspenseful events will all be revealed in the telling of this remarkable story. Amidst all of this her constant battles to succeed in obtaining her Green Card for herself and her family will give you a new insight of what it is like to be an Immigrant and may give you a view of the Immigration issues from a different end of the spectrum. Just because my childhood home is now a parking lot doesn't mean I don't remember my "growing-up years."

Neither does the parking lot erase the history of my family and their parent's struggles as immigrants. We all want to fondly recall the halcyon days of our youth, but I will only be able to visit "the place I grew up" through the pages of this book. Over the course of the last six decades, Elvis Presley has sold more than a billion records; his music has touched nearly every modern listener. Despite an avalanche of books on his life, there are, surprisingly, few about his musical creativity. In *Counting Down Elvis: His 100 Finest Songs*, Mark Duffett urges readers to put aside the misleading stereotypes and rumor-filled debates

about Elvis and listen once again to the legend who emerged from Memphis.

Elvis had a unique approach to music—one that was both powerful and versatile. In a career stretching across more than twenty years, Presley changed the face of popular music, drawing together genres—from country and blues to contemporary folk—and placing a unique stamp on all of them. *Counting Down Elvis: His 100 Finest Songs* explores the full range of Presley recordings, from his earliest numbers to posthumous hits, combing through gold records and unpolished gems to distill the best that Presley has to offer.

Ghostwriting provides the first comprehensive analysis of the fictional

prose narratives of one of contemporary Germany's most recognized authors, the émigré writer W. G. Sebald. Examining Sebald's well-known published texts in the context of largely unknown unpublished works, and informed by documents and information from Sebald's literary estate, this book offers a detailed portrait of his characteristic literary techniques and how they emerged and matured out of the practices and attitudes he represented in his profession as a literary scholar. The title "Ghostwriting" signals the convergence in Sebald's works of a set of diverse historical questions, philosophical views, and literary practices. Many historical ghosts haunt Sebald's narratives on the level of story. Moreover, Sebald's narrator plays the

role of a ghostwriter in the profound sense that his stories fictionally re-enact the histories of obscure, but once-living individuals whose lives they revitalize, and whose fates are tied up with the most virulent historical conjunctures of the modern world. This study thus seeks to comprehend the constitutive elements of Sebald's "poetics of history," his implementation of literary tools for effective historical memorializing.
