Will the fire within burn them all to cinders? Years ago, Drake left everything behind for a life in the shadows. While it broke his heart to leave his grieving dragon behind, serving his land as head of a network of spies suited him better. Far better than never quite measuring

up to Mace, the "perfect" knight his father wished he could have been. Mace has always done his duty. Drake, his childhood friend and rival, had been the charmer who effortlessly stole every woman who caught Mace's eye. Some things never change—not one day back in town, and Drake's already putting the moves on Krysta, the woman Mace has been courting. The three of them take on the dangerous task of rescuing a kidnapped prince. Each day that passes on their perilous journey, Krysta sinks deeper into the complicated relationship between the two men and their meddling, matchmaking dragons. Mace is clearly the safer choice as a mate, yet Drake tantalizes her with that unpredictable gleam in his eye. When the three of them come together, any sense of torn loyalty burns away in their fiery passion. The safety of the stolen prince hanging in the balance, Krysta accepts the challenge to unite two strong men—and their dragons—into a real family. Note: Features an intensely magical menage between two former rivals and a woman bold enough to take them on. Heated bickering and explosive love scenes may cause your senses to ignite. inquisitive spirit of the Victorian Age. You, dear reader, continue at your own risk. It is not for the faint of heart—no more so than the study of dragons itself. But such study offers rewards beyond compare: to stand in a dragon's presence, even for the briefest of moments—even at the risk of one's life—is a delight that, once experienced, can never be forgotten. . . . All the world, from Scirland to the farthest reaches of Eriga, know Isabella, Lady Trent, to be the world's preeminent dragon naturalist. She is the remarkable woman who brought the study of dragons out of the misty shadows of myth and misunderstanding into the clear light of modern science. But before she became the illustrious figure we know today, there was a bookish young woman whose passion for learning, natural history, and, yes, dragons defied the stifling conventions of her day. Here at last, in her own words, is the true story of a pioneering spirit who risked her reputation, her prospects, and her fragile flesh and bone to satisfy her scientific curiosity; of how she sought true love and happiness despite her lamentable eccentricities; and of her thrilling expedition to the perilous mountains of Vystrana, where she made the first of many historic discoveries that would change the world forever.
