### **Israel** Viking

One of the most influential works of this century, *The Myth of Sisyphus and Other Essays* is a crucial exposition of existentialist thought. Influenced by works such as *Don Juan* and the novels of Kafka, these essays begin with a meditation on suicide; the question of living or not living in a universe devoid of order or meaning.

With lyric eloquence, Albert Camus brilliantly posits a way out of despair, reaffirming the value of personal existence, and the possibility of life lived with dignity and authenticity.

Simon and Schuster

David Rieff looks at a city that was long the epitome of the American Dream and is now, for many, the emblem of the American urban nightmare. Writing before the riots of 1992, Rieff found not a city of dreams but a city of bitter contradictions. A city that, like the United States itself, was being transformed by immigrants and

refugees from Latin America and East Asia from an extension of Europe to a diverse patchwork of the peoples of the world. This is an L.A. that has never been described before. With a new afterword.

Death Kit Macmillan

'I intend to do everything. . . I shall anticipate pleasure everywhere and find it too, for it is everywhere! I shall involve myself wholly. . . everything matters!' So wrote Susan Sontag in May 1949 at the age of sixteen, in the early pages of this selection from her private diaries written in her youth and early adulthood. Rebornis

a kaleidoscopic self-portrait of one of America's greatest writers and intellectuals, teeming with Sontag's voracious curiosity and appetite for life. We watch the young Sontag's complex self-awareness, share in her encounters with the writers who informed her thinking, and engage with the profound challenge of writing itself - all filtered through the inimitable detail of everyday life.

### **BIOGRAPHY OF X**

University of Illinois Press

A second volume of journals shares intimate reflections on the writer's artistic and political development during a trip to Hanoi at the peak of the Vietnam War and throughout her film-making years in Sweden before the dawn of the Reagan era.

Stanford University Press

'The Complex City: Social and Built Approaches and Methods' explores different ways of understanding the city. The social city approach proceeds from the ground-up, it focuses on human

interactions shaped by economic and environmental processes. The built city method looks through a top-down lens, examining policy and planning for buildings and infrastructure, including utilities and energy networks. This volume is different from other city anthologies in that it explores them through their differences, by presenting each chapter in one of the two categories. While there is invariably an overlap between the two areas, they are distinct positions. In doing so the book identifies how, despite their often adversarial approaches, they both belong to the same city. As essential components of the city they should not necessarily be resolved, as it is in this friction where creativity and innovation happens. 'The Complex City: Social and Built Approaches and Methods' is concerned about the ideas and solutions that they both offer. The book's originality stems from this duality, and from its recognition that cities are living, organic, protean places of opportunity, crisis, conflict and challenge. The chapters demonstrate the complexity of cities as a set of ideas concerning what they engender, how they function and why they

continue to act as a catalyst for different kinds of human activity. They explore issues of socio-political import and questions of the city as a physically constructed space. The themes are diverse and include the inception of the city as a place of competition to centres of regeneration and urban withdrawal. They cover a range of city and urban regions from Athens to Wellington from site specific singular perspectives to comparative assessments. The questions they raise include how do we inhabit urban areas, how do we make plans for them, and how do we, at times, ignore them entirely.

The Company of the Dead Macmillan

Each spread in this board book is actually something else entirely -- from a flip phone and a folded t-shirt to an elephant's trunk and much more.

### **DIARY OF A MAN IN DESPAIR**

Harper Collins

Anaïs Nin made her reputation through publication of her edited diaries and the carefully constructed persona they presented. It was not until decades later, when the diaries were published in their

unexpurgated form, that the world began to learn the full details of Nin's fascinating life and the emotional and literary high-wire acts she committed both in documenting it and in defying the mores of 1950s America. Trapeze begins where the previous volume, *Mirages*, left off: when Nin met Rupert Pole, the young man who became not only her lover but later her husband in a bigamous marriage. It marks the start of what Nin came to call her "trapeze life," swinging between her longtime husband, Hugh Guiler, in New York and her lover, Pole, in California, a perilous lifestyle she continued until her death in 1977. Today what Nin did seems impossible, and what she sought perhaps was impossible: to find harmony and completeness within a split existence. It is a story of daring and genius, love and pain, largely unknown until now.

The personal and candid account of General Patton's celebrated, relentless crusade across western Europe during World War II First published in 1947, *War as I Knew It* is an absorbing narrative that draws from Patton's vivid memories of battle and his detailed diaries, covering

the moment the Third Army exploded onto the Brittany Peninsula to the final Allied casualty report. The result is not only a grueling, human account of daily combat and heroic feats--including a riveting look at the Battle of the Bulge--but a valuable chronicle by one of the most brilliant military strategists in history. Patton's letters from earlier military campaigns in North Africa and Sicily, complemented by a powerful retrospective of his guiding philosophies, further reveal a man of uncompromising will and uncommon character, which made "Georgie" a household name in mid-century America. *This Is Still Not a Book* Vintage Presents a novel of hope, love, and redemption.

#### **Invisible Man** Reborn

The Benefactor, Susan Sontag's first book and first novel, originally published in 1963, introduced a unique writer to the world. In the form of a memoir by a latter-day Candide named Hippolyte, The Benefactor leads us on a kind of psychic Grand Tour, in which Hippolyte's violently imaginative dream life becomes indistinguishable from his surprising experiences in the 'real world.' Sontag's

novel supplies a fascinating, knowing, acerbic portrait of a certain bohemian demimonde that flourished in France until quite recently. More important, The Benefactor is a novel about ideas--especially religious ideas--unlike any other: funny, acrobatic, disturbing, profound.

**Shadow of the Racketeer** Farrar, Straus and Giroux

Can one man save the Titanic? March 1912. A mysterious man appears aboard the Titanic on its doomed voyage. His mission? To save the ship. The result? A world where the United States never entered World War I, thus launching the secret history of the 20th Century. April 2012. Joseph Kennedy - grand-nephew of John F. Kennedy - lives in an America occupied in the East by Greater Germany and on the West Coast by Imperial Japan. He is one of six people who can restore history to its rightful order -- even though it would mean his own death. "A magnificent alternate history, set against the backdrop of one of the the greatest maritime disasters." Library Journal "Imaginative, monolithic, action-packed... The reader will not be disappointed." — Bookseller and Publisher "Time travel,

airships, the Titanic, Roswell ... Kowalski builds a decidedly original creature that blends military science fiction, conspiracy theory, alternate history, and even a dash of romance." Publishers Weekly "Kowalski effortlessly smashes together high art and grand adventure in this alt-history juggernaut." John Birmingham, acclaimed author of *Weapons of Choice* "Exciting action, twisty and ingenious characterisation, and complicated time-travel plotting, deftly handled." S.M. Stirling, NYT bestselling author of *The Tears of the Sun* "A non-stop chase that takes place across two thousand miles ... and one hundred years of perdurant time." Walter Jon Williams, NYT bestselling author of *Deep State*  
*Trapeze* Verso Books  
 First published in 1967, *Death Kit*--Susan Sontag's second novel--is a classic of modern fiction. Blending realism and dream, it offers a passionate exploration of the recesses of the American conscience.

 "This celebrated volume begins when Nin is about to publish her first book and ends

when she leaves Paris for New York"--  
Sempre Susan Farrar, Straus and Giroux  
 Sontag's incisive intelligence, expressive brilliance, and deep curiosity about art, politics, and the writer's responsibility to bear witness have secured her place as one of the most important thinkers and writers of the twentieth century. This collecti  
Writing Queer Women of Color Macmillan  
 In this haunting work of journalistic investigation, Haruki Murakami tells the story of the horrific terrorist attack on Japanese soil that shook the entire world. On a clear spring day in 1995, five members of a religious cult unleashed poison gas on the Tokyo subway system. In attempt to discover why, Haruki Murakmi talks to the people who lived through the catastrophe, and in so doing lays bare the Japanese psyche. As he discerns the fundamental issues that led to the attack, Murakami paints a clear vision of an event that could occur anytime, anywhere.

As Consciousness Is Harnessed to Flesh  
 Penguin

*Alice in Bed* is a free dramatic fantasy which merges the life of Alice James, the

brilliant sister of William and Henry James, with the heroine of Lewis Carroll's *Alice in Wonderland*. It is a play about the anguish and grief and rage of women; and about the triumphs and limitations of the imagination.

*Underground* Farrar, Straus and Giroux  
 Step aside, Bill Gates! Here comes today's real technology guru and his totally original, laugh-out-loud New York Times bestseller that looks at the approaching new millennium and boldly predicts: more stupidity ahead. In *The Dilbert Principle* and *Dogbert's Top Secret Management Handbook*, Scott Adams skewered the absurdities of the corporate world. Now he takes the next logical step, turning his keen analytical focus on how human greed, stupidity and horniness will shape the future. Featuring the same irresistible amalgam of essays and cartoons that made Adams previous works so singularly entertaining, this uproariously funny, dead-on-target tome offers half-truthful, half-farcical predictions that push all of today's hot buttons - from business and technology to society and government. Children - they are our future, so we're pretty much hosed. Tip: Grab what you

can while they're still too little to stop us. Human Potential - we'll finally learn to use the 90 percent of the brain we don't use today, and find out that there wasn't anything in that part. Computers - Technology and homeliness will combine to form a powerful type of birth control. In *The Dilbert Principle* and *Dogbert's Top Secret Management Handbook*, Scott Adams skewered the absurdities of the corporate world. Now he takes the next logical step, turning his keen analytical focus on how human greed, stupidity and horniness will shape the future. Featuring the same irresistible amalgam of essays and cartoons that made Adams previous works so singularly entertaining, this uproariously

### **A BARTHES READER**

Farrar, Straus and Giroux  
Winner of the Jewish Book of the Year Award The first comprehensive yet accessible history of the state of Israel from its inception to present day, from Daniel Gordis, "one of the most respected Israel analysts" (*The Forward*) living and writing in Jerusalem. Israel is a tiny state, and yet it has captured the world's

attention, aroused its imagination, and lately, been the object of its opprobrium. Why does such a small country speak to so many global concerns? More pressingly: Why does Israel make the decisions it does? And what lies in its future? We cannot answer these questions until we understand Israel's people and the questions and conflicts, the hopes and desires, that have animated their conversations and actions. Though Israel's history is rife with conflict, these conflicts do not fully communicate the spirit of Israel and its people: they give short shrift to the dream that gave birth to the state, and to the vision for the Jewish people that was at its core. Guiding us through the milestones of Israeli history, Gordis relays the drama of the Jewish people's story and the creation of the state. Clear-eyed and erudite, he illustrates how Israel became a cultural, economic and military powerhouse—but also explains where Israel made grave mistakes and traces the long history of Israel's deepening isolation. With Israel, public intellectual Daniel Gordis offers us a brief but thorough account of the cultural, economic, and political history of this complex nation,

from its beginnings to the present. Accessible, levelheaded, and rigorous, Israel sheds light on the Israel's past so we can understand its future. The result is a vivid portrait of a people, and a nation, reborn.

*The Invention of the Jewish People* Farrar, Straus and Giroux

Delhi, one of the world's largest cities, has faced momentous challenges—mass migration, competing governing authorities, controversies over citizenship, and communal violence. To understand the contemporary plight of India's capital city, this book revisits one of the most dramatic episodes in its history, telling the story of how the city was remade by the twin events of partition and independence. Treating decolonization as a process that unfolded from the late 1930s into the mid-1950, Rotem Geva traces how India and Pakistan became increasingly territorialized in the imagination and practice of the city's residents, how violence and displacement were central to this process, and how tensions over belonging and citizenship lingered in the city and the nation. She also chronicles the struggle, after 1947, between the urge to

democratize political life in the new republic and the authoritarian legacy of colonial rule, augmented by the imperative to maintain law and order in the face of the partition crisis. Drawing on a wide range of sources, Geva reveals the period from the late 1930s to the mid-1950s as a twilight time, combining features of imperial framework and independent republic. Geva places this liminality within the broader global context of the dissolution of multiethnic and multireligious empires into nation-states and argues for an understanding of state formation as a contest between various lines of power, charting the links between

different levels of political struggle and mobilization during the churning early years of independence in Delhi. War as I Knew it A&C Black  
"I intend to do everything...to have one way of evaluating experience—does it cause me pleasure or pain, and I shall be very cautious about rejecting the painful—I shall anticipate pleasure everywhere and find it too, for it is everywhere! I shall involve myself wholly...everything matters!" So wrote Susan Sontag in May 1949 at the age of sixteen. This, the first of three volumes of her journals and notebooks, presents a constantly and utterly surprising record of a great mind in incubation. It begins with

journal entries and early attempts at fiction from her years as a university and graduate student, and ends in 1964, when she was becoming a participant in and observer of the artistic and intellectual life of New York City. Reborn is a kaleidoscopic self-portrait of one of America's greatest writers and intellectuals, teeming with Sontag's voracious curiosity and appetite for life. We watch the young Sontag's complex self-awareness, share in her encounters with the writers who informed her thinking, and engage with the profound challenge of writing itself—all filtered through the inimitable detail of everyday circumstance.
