ARMSTRONG DESIREE

Alfred's Basic Adult Piano Course Mayron Cole Piano Method Finger Fitness 3 is an ideal supplement to The Classical Piano Method: Method Book 3 (ED 13536). It contains easy to intermediate technical exercises, suitable for pianists who have completed Method Book 2 of the series, or for those returning to the instrument after a break. This book includes 44 elementary finger exercises, studies and etudes for developing finger strength and independence, evenness, accuracy and speed of playing, as well as articulation and general musicality. The pieces are presented in a progressively graded format, providing you with relevant repertoire as your playing develops.

PROGRESSIVE PIANO METHOD FOR YOUNG BEGINNERS

Alfred Music Publishing

(Faber Piano Adventures). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers'

instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. View Helpful Introductory Videos Here

WHY EVERY PARENT & MUSIC TEACHER SHOULD USE THIS SONGBOOK! Learning to make music provides an excellent path to development in children. Plus it is joyful and fun. But learning has not always been easy. Traditional methods start with abstract symbols and concepts. The author began searching for a simpler, more intuitive way to teach music to his then three-year-old son. In his search, he began combining ideas from the worlds of design, early childhood education, film scoring and even storytelling. Thus, the Musicolor Method(R) was born. For over a decade, it has become a proven way to quickly and gently introduce real music making skills to preschoolers and beyond.

Progressive Piano Method for Young Beginners - Book 2
Faber Music Ltd

The objective of the Revolutionary Piano Method is for the

student to internalize a cognitive procedure (thinking process) which will enable him to identify lines and spaces and locate their corresponding keys, as well as to develop early the ability to play by touch, rather than constant looking at the piano keyboard for orientation. The cognitive procedure facilitates keyboard playing without dependence upon hand positioning or fingering derived from five-finger positions. This is critical to the development of sight-reading skill and is similar to learning to read a language phonetically, rather than memorizing words by sight. Each Lesson Book introduces one concept at a time, allowing the student to become somewhat proficient with that concept through application within successive songs before continuing with another concept. Level 1: The student is introduced to the right hand treble staff letters and key locations. Level 2: Left hand bass staff letters and key locations are presented. Songs for the treble are included as regular review for the right hand. Level 3: After successfully playing each clef separately, both hands play together using the grand staff. Levels 4 and 5: Proper notes, rests, and timing are presented. The student develops more advanced sight-reading and playing skills.
