* HUGO AWARD WINNER: BEST NOVELLA * NEBULA AND LOCUS AWARDS WINNER: BEST NOVELLA * “[An] exquisitely crafted tale...Part epistolary romance, part mind-blowing science fiction adventure, this dazzling story unfolds bit by bit, revealing layers of meaning as it plays with cause and effect, wildly imaginative technologies, and increasingly intricate wordplay...This short novel warrants multiple readings to fully unlock its complexities.” —Publishers Weekly (starred review) From award-winning authors Amal El-Mohtar and Max Gladstone comes an enthralling, romantic novel spanning time and space about two time-traveling rivals who fall in love and must change the past to ensure their future. Among the ashes of a dying world, an agent of the Commandment finds a letter. It reads: Burn before reading. Thus begins an unlikely correspondence between two rival agents hellbent on securing the best possible future for their warring factions. Now, what began as a taunt, a battlefield boast, becomes something more. Something epic. Something romantic. Something that could change the past and the future. Except the discovery of their bond would mean the death of each of them. There’s still a war going on, after all. And someone has to win. That’s how war works, right? Cowritten by two beloved and award-winning sci-fi writers, *This Is How You Lose the Time War* is an epic love story spanning time and space.

University Press of Kentucky

From the winner of the Nobel Prize in Literature and author of the Booker Prize-winning novel *The Remains of the Day* comes an inspired sequence of stories as affecting as it is beautiful. With the clarity and precision that have become his trademarks, Kazuo Ishiguro interlocks five short pieces of fiction to create a world that resonates with emotion, heartbreak, and humor. Here is a fragile, once famous singer, turning his back on the one thing he loves; a music junky with little else to offer his friends but opinion; a songwriter who inadvertently breaks up a marriage; a jazz musician who thinks the answer to his career lies in changing his physical appearance; and a young cellist whose tutor has devised a remarkable way to foster his talent. For each, music is a central part of their lives and, in one way or another, delivers them to an epiphany.

A Taste for the Foreign examines foreignness as a crucial aesthetic category for the development of prose fiction from Jacques Amyot's 1547 translation of *The Ethiopian Story* to Antoine Galland's early eighteenth-century version of *The Thousand and One Nights*. While fantastic storylines and elements of magic were increasingly shunned by a neo-classicist literary culture that valued verisimilitude above all else, writers and critics surmised that the depiction of exotic lands could offer a superior source for the novelty, variety, and marvelousness that constituted fiction's appeal. In this sense,

early modern fiction presents itself as privileged site for thinking through the literary and cultural stakes of exoticism, or the taste for the foreign. Long before the term exoticism came into common parlance in France, fiction writers thus demonstrated their understanding of the special kinds of aesthetic pleasure produced by evocations of foreignness, developing techniques to simulate those delights through imitations of the exotic. As early modern readers eagerly consumed travel narratives, maps, and international newsletters, novelists discovered ways to blur the distinction between true and imaginary representations of the foreign, tantalizing readers with an illusion of learning about the faraway lands that captured their imaginations. This book analyzes the creative appropriations of those scientific or documentary forms of writing that claimed to inform the French public about exotic places. Concentrating on the most successful examples of some of the most important sub-genres of prose fiction in the long seventeenth century—heroic romances, shorter urban novels, fictional memoirs, and extraordinary voyages—the book examines how these types of fiction creatively appropriate the scientific or documentary forms of writing that claimed to inform the French public about exotic places. First published in 1954, this title is a companion to *The Anatomy of Poetry* as a literary guide for the student reader. Writing that students generally find it more challenging to analyse a passage of prose than a piece of poetry, Marjorie Boulton takes a systematic approach to the technical elements of prose, considering form, vocabulary, rhythm and the application of historical context. With suggestions for further reading and practical, lucid advice, this reissue will be of particular value to students of English Literature in need of a constructive study aid.

What is Literature? challenges anyone who writes as if literature could be extricated from history or society. But Sartre does more than indict. He offers a definitive statement about the phenomenology of reading, and he goes on to provide a dashing example of how to write a history of literature that takes ideology and institutions into account.

BASIC ELEMENTS OF NARRATIVE

Celadon Books

Nonfictional Romantic Prose: Expanding Borders surveys a broad range of expository, polemical, and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth. They stand in contrast to better-known romantic fiction in that they endeavor to address the world of daily, empirical experience rather than that of more explicitly self-referential, fanciful creation. Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study; others flourished and enjoyed wide-spread popularity during the nineteenth century but are much less well-known today like the almanac and the diary. Travel narratives, pamphlets, religious and theological texts, familiar essays, autobiographies, literary-critical and philosophical studies, and discussions of the visual arts and music all had deep historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought. SPECIAL OFFER: 30% discount for a complete set order (5 vols.). The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived, yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World, but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series' total contents. Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of "irony" as one of the major impulses in the Romantic philosophical and artistic revolution, and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams. Romantic Drama traces creative innovations that deeply altered the understanding of genre at large, fed popular imagination through vehicles like the opera, and laid the foundations for a modernist theater of the absurd. Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse, including Romanticism's own self-commentary in theoretical statements on the arts, society, life, the sciences, and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume, *Romantic Prose Fiction*, where the basic Romantic themes and story types (the romance, novel, novella, short story, and other narrative forms) are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic theorizing, but in the light of the impact of Romantic ideas and narration on later generations. As an aid to readers, the introduction to *Romantic Prose Fiction* explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix. No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the "Old" and "New" Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries, a heritage still very close to our age.

SOCIAL TYPES IN SOUTHERN PROSE FICTION ...

John Benjamins Publishing

In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross-cultural and interdisciplinary perspectives. The work treats the appearance of major themes in characteristically Romantic versions, the power of Romantic discourse to reshape imaginative writing, and a series of crucial reactions to the impact of Romanticism on cultural life down to the present, both in Europe and in the New World. Through its combination of chapters on thematic, generic, and discursive features, *Romantic Prose Fiction* achieves a unique theoretical stance, by considering the opinions of primary Romantics and their successors not as guiding "truths" by which to define the permanent "meaning" of Romanticism, but as data of cultural history that shed important light on an evolving civilization. The Cambridge Companion to Modern Spanish Culture Simon and Schuster

A prose poem is a poem written in prose rather than verse. But what does that really mean? Is it an indefinable hybrid? An anomaly in the history of poetry? Are the very words "prose poem" an oxymoron? This groundbreaking anthology edited by celebrated poet David Lehman, editor of *The Best American Poetry* series, traces the form in all its dazzling variety from Poe and Emerson to Auden and Ashbery and on, right up to the present. In his brilliant and lucid introduction, Lehman explains that a prose poem can make use of all the strategies and tactics of poetry, but works in sentences rather than lines. He also summarizes the prose poem's French heritage, its history in the United States, and the salient differences between verse and prose. Arranged chronologically to allow readers to trace the gradual development of this hybrid genre, the poems anthologized here include important works from such masters of American literature as Gertrude Stein, William Carlos Williams, e. e. cummings, Hart Crane, Ernest Hemingway, James Schuyler, Allen Ginsberg, Frank O'Hara, and Elizabeth Bishop. Contemporary mainstays and emerging poets -- Robert Bly, John Ashbery, Charles Simic, Billy Collins, Russell Edson, James Tate, Anne Carson, Yusef Komunyakaa, and Lydia Davis, among them -- are represented with their best work in the field. The prose poem is beginning to enjoy a tremendous upswing in popularity. Readers of this marvelous collection, a must-have for anyone interested in the current state of the art, will learn why.
