The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a

tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road!

The awesome Mitsubishi Evo is perhaps the ultimate example of a thoroughbred rally car for the road. The no-nonsense, purposeful Evo is derived directly from the all-conquering rally machine that took Tommi Makinen to four consecutive World Rally Championship Drivers' titles in the late 1990s. Never keen to rest on their laurels, Mitsubishi have followed a program of continual development, which sees the Evo VIII set to appear in 2003. This all-color book covers buying, owning, running and caring for the cars, and charts the full road car and competition history.

*You & Your Mitsubishi Evo* Chilton Book Company

This is a maintenance and repair manual for the DIY mechanic. The book covers the Mitsubishi Pajero, 1997-2009 models.
