Quotations about Language and

Languages Dundurn

How reliable are all those stories about the number of Eskimo words for snow? How can lamps, flags, and parrots be libelous? These and many other odd questions are typical topics in this

collection of essays that present and occasionally zany, often wry, but always fascinating look at language and the people who study it.

### **Untranslatable Words from Around the World** HarperCollins

"A history of Esperanto, the utopian "universal language" invented in 1887"--

### **THE GLOBAL LANGUAGE SYSTEM**

Harper Collins

A new language-learning technique Trick your brain into accepting Portuguese words as "English". We pretend that Portuguese words are actually newly-coined English words. It's technique is called "Diglot Weave". Evidence One University in Iran experimented with the method on some high schoolers learning English. Half the kids learned using

standard methods, and the other half used the Diglot Weave method. Afterwards, they all sat a test. What were the results? The kids taught the usual way scored 12 out of 25, but the kids taught with the Diglot Weave method scored nearly double - 23 out of 25! Also, some kindergartens in China use a variation of the method they invented to teach children English. The kids enjoy it much more than the usual approaches, and the teachers report better results overall. Parents also appreciate it, because they see their children learning English much more quickly and easily than before. Want to try it? This book includes over 80 Portuguese conjunctions and prepositions like "and", "with", "for", and so on - the little words vital to creating

sentences. We mix them into fully English sentences. By the end of the book, your brain should be tricked into thinking that these words are "English". Words included a = the (fem.) a = to [direction] ademais = besides ainda = yet algum = some (masc.) alguma = some (fem.) algumas = some (fem. plural) alguns = some (masc. plural) além disso = furthermore ambas = both (fem.) ambos = both (masc.) antes = before ao lado de = next to apesar de = despite as = the (fem. plural) assim = so assim = thus através = through até = as far as até = until até = up to bem = well [then] cada = each com = with como = like [similar] conquanto = though contra = against [position] contudo = however de acordo com = according to de qualquer maneira = anyhow de = from

de = of dentro = inside depois = after desde = since [time] durante = during e = and em caso = in case em direção a = towards em todo o caso = anyway em vez de = rather than em = in embora = although enquanto = while entre = among entre = between então = then exceto = except extremamente = extremely incluindo = including jamais = at no time já que = since [that] mas = but muita = very (fem.) muito = very (masc.) nem ... nem ... = neither ... nor ... nem = don't even nem = nor nem = not even nunca = never não obstante = nevertheless o = the (masc. plural) os = the (masc.) ou = or outra = other (fem.) outras = others (fem. plural) outro = other (masc.) outros = others (masc. plural) para = for [someone] para = to [purpose] por = by por = for [purpose]

*Exploring Language Through the  
 Historical Thesaurus of the Oxford  
 English Dictionary* Oxford University  
 Press, USA

David Crystal's classic *English as a  
 Global Language* considers the history,  
 present status and future of the English  
 language, focusing on its role as the  
 leading international language. English  
 has been deemed the most 'successful'  
 language ever, with 1500 million

speakers internationally, presenting a  
 difficult task to those who wish to  
 investigate it in its entirety. However,  
 Crystal explores the subject in a  
 measured but engaging way, always  
 backing up observations with facts and  
 figures. Written in a detailed and  
 fascinating manner, this is a book  
 written by an expert both for specialists  
 in the subject and for general readers  
 interested in the English language.

In Other Words The Science And  
 Psychology Of Second-language  
 Acquisition Explores the reasons why it is

often difficult to learn a second language and explains how language acquisition can be a process of self-discovery. In *Other Words A Language Lover's Guide to the Most Intriguing Words Around the World*

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and

free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign

language in the spare minutes of your day.

### **THE CAMBRIDGE ENCYCLOPEDIA OF THE ENGLISH LANGUAGE**

Teachers College Press

When ideas fail, words come in handy. But sometimes you can't find the right word, and what you want to say can't be found in the dictionary. English has its limitations, but the expression you're searching for may exist in another language. In *Other Words* is a unique collection of well-known and absolutely obscure "untranslatables"-linguistic gems that convey a feeling or notion with satisfying precision yet resist simple translation. This quirky lexicon of hard-to-translate words gives the reader a new way to look at the world and how

words relate to us. The words are arranged by region or country of origin, and a brief introduction to each section—each done by a respected translator—gives insight into the culture of the people as well as the language. Each of these singular words is cleverly and thoroughly defined, with interesting details and references throughout. The search for that elusive *mot juste* may be over.

Oxford University Press

From the author of *Eating the Sun*, an artistic collection of more than 50 drawings featuring unique, funny, and poignant foreign words that have no direct translation into English. Did you know that the Japanese language has a word to express the way sunlight filters

through the leaves of trees? Or that there's a Finnish word for the distance a reindeer can travel before needing to rest? *Lost in Translation* brings to life more than fifty words that don't have direct English translations with charming illustrations of their tender, poignant, and humorous definitions. Often these words provide insight into the cultures they come from, such as the Brazilian Portuguese word for running your fingers through a lover's hair, the Italian word for being moved to tears by a story, or the Swedish word for a third cup of coffee. In this clever and beautifully rendered exploration of the subtleties of communication, you'll find new ways to express yourself while getting lost in the artistry of imperfect translation.  
*Other Words for Home* Penguin

*In Other Words* is the definitive coursebook for anyone studying translation. Assuming no knowledge of foreign languages, it offers both a practical and theoretical guide to translation studies, and provides an important foundation for training professional translators. Drawing on modern linguistic theory, this best-selling text provides a solid base to inform and guide the many key decisions trainee translators have to make. Each chapter offers an explanation of key concepts, identifies potential sources of translation difficulties related to those concepts, and illustrates various strategies for resolving these difficulties. Authentic examples of translated texts from a wide variety of languages are examined, and practical exercises and

further reading are included at the end of each chapter. The second edition has been fully revised to reflect recent developments in the field and new features include: A new chapter that addresses issues of ethics and ideology, in response to increased pressures on translators and interpreters to demonstrate accountability and awareness of the social impact of their decisions. Examples and exercises from new genres such as audiovisual translation, scientific translation, oral interpreting, website translation, and news/media translation. New project-driven exercises designed to support MA dissertation work Updated references and further reading. A companion website featuring further examples and tasks Written by Mona Baker, a leading

international figure in the field, this key text is the essential coursebook for any student of translation studies.

The Ingredients of Language University of Chicago Press

This volume brings together experts from a wide range of disciplines to define and describe tabooed words and language and to investigate the reasons and beliefs behind them. In general, taboo is defined as a proscription of behaviour for a specific community, time, and context. In terms of language, taboo applies to instances of language behaviour: the use of certain words in certain contexts. The existence of linguistic taboos and their management lead to the censoring of behaviour and, as a consequence, to language change and development. Chapters in this

volume explore the multiple types of tabooed language from a variety of perspectives, such as sociolinguistics, anthropology, philosophy, psychology, historical linguistics, and neurolinguistics, and with reference to fields such as law, publishing, politics, and advertising. Topics covered include impoliteness, swearing, censorship, taboo in deaf communities, translation of tabooed words, and the use of taboo in banter and comedy.

Bridge of Words Cambridge University Press

In *The 5 Love Languages*, you will discover the secret that has transformed millions of relationships worldwide. Whether your relationship is flourishing or failing, Dr. Gary Chapman's proven approach to showing and receiving love

will help you experience deeper and richer levels of intimacy with your partner starting today.

**Fluent Forever** LanguageMixing.com  
?The difference between the almost right word and the right word is really a large matter.? (Mark Twain) What's the difference between: Nectar and ambrosia? Bough and branch? Astonished and surprised? Sensual and sensuous? Beside and besides? Many people use these words interchangeably but there are actually subtle and interesting differences in meaning and usage. Now from the author of *Every Good Boy Deserves Fudge* comes a fun and fascinating word reference book for word lovers, students, and trivia collectors alike. Readers will relish learning about these distinctions in this

entertaining homage to a gift we use every day?words.

### **WHY THE WORLD LOOKS DIFFERENT IN OTHER LANGUAGES**

Ten Speed Press

A smorgasbord of surprising, obscure, and exotic words In this delightful encore to the national bestseller *A Word A Day*, Anu Garg, the founder of the wildly popular *A Word A Day* Web site ([wordsmith.org](http://wordsmith.org)), presents an all-new collection of unusual, intriguing words and real-life anecdotes that will thrill writers, scholars, and word buffs everywhere. Another *Word A Day* celebrates the English language in all its quirkiness, grandeur, and fun, and features new chapters ranging from ""Words Formed Erroneously"" and

""Red-Herring Words"" to ""Kangaroo Words,"" ""Discover the Theme,"" and ""What Does That Company Name Mean?"" In them, you'll find a treasure trove of curious and compelling words, including *agelast*, *dragoman*, *mittimus*, *nyctalopia*, *quacksalver*, *scission*, *tattersall*, and *zugzwang*. Each entry includes a concise definition, etymology, and usage example, interspersed with illuminating quotations. Praise for a word a day ""Anu Garg's many readers await their *A Word A Day* rations hungrily. Now at last here's a feast for them and other verbivores. Eat up!"" --Barbara Wallraff, Senior Editor at *The Atlantic Monthly* and author of *Word Court* ""AWADies will be familiar with Anu Garg's refreshing approach to words: words are fun and they have fascinating histories.""" --John

Simpson, Chief Editor, Oxford English Dictionary

**A LANGUAGE LOVER'S GUIDE TO THE MOST INTRIGUING WORDS AROUND THE WORLD**

Macmillan

National Best Seller From the best-selling author and Pulitzer Prize winner, a powerful nonfiction debut—an “honest, engaging, and very moving account of a writer searching for herself in words.” —Kirkus Reviews (starred) In Other Words is a revelation. It is at heart a love story—of a long and sometimes difficult courtship, and a passion that verges on obsession: that of a writer for another language. For Jhumpa Lahiri, that love was for Italian, which first captivated and capsized her during a trip to Florence

after college. Although Lahiri studied Italian for many years afterward, true mastery always eluded her. Seeking full immersion, she decides to move to Rome with her family, for “a trial by fire, a sort of baptism” into a new language and world. There, she begins to read, and to write—initially in her journal—solely in Italian. In Other Words, an autobiographical work written in Italian, investigates the process of learning to express oneself in another language, and describes the journey of a writer seeking a new voice. Presented in a dual-language format, this is a wholly original book about exile, linguistic and otherwise, written with an intensity and clarity not seen since Vladimir Nabokov: a startling act of self-reflection and a provocative exploration of belonging and

reinvention.

*Words on Words* Cambridge University Press

Barbara Annis, the world's leading corporate gender specialist, believes that men and women don't understand each other because they don't appreciate the different ways men and women relate, communicate, problem-solve, and make decisions. In this original, solutions-based book, Annis explains exactly where we differ and how to improve the way we communicate with one another. Learn of cutting-edge, scientific research into the different neurological frameworks and functions of the male and female brains and how these innate biological differences determine how we: View the world; Solve problems; Make decisions;

Prioritize; Manage emotions; Deal with stress; Work in teams; and Lead.

*In Other Words* HarperCollins

*In Other Words* The Science And Psychology Of Second-language Acquisition

**In Other Words** Language Science Press

What makes a place so memorable that it survives forever in a word? In this captivating round-the-world tour, Paul Anthony Jones acts as your guide through the intriguing stories of how eighty places became immortalized in the English language. You'll discover why the origins of turkeys, limericks, Brazil nuts, and Panama hats aren't quite as straightforward as you might presume. If you've never heard of the tiny Czech mining town of Jáchymov—or

Joachimsthal, as it was known until the late 1800s—you're not alone, which makes its claim to fame as the origin of the word "dollar" all the more extraordinary. The story of how the Great Dane isn't all that Danish makes the list, as does the Jordanian mountain whose name has become a byword for a tantalizing glimpse. We'll also find out what the Philippines has given to your office inbox, what Alaska has given to your liquor cabinet, and how a speech given by a bumbling North Carolinian gave us a word for impenetrable nonsense. Surprising, entertaining, and illuminating, this is essential reading for armchair travelers and word nerds. Our dictionaries are full of hidden histories, tales, and adventures from all over the world—if you know where to look.

Another Word a Day Bloomsbury Publishing USA

Explores the reasons why it is often difficult to learn a second language and explains how language acquisition can be a process of self-discovery.

Global Politics and the Power of Language John Wiley & Sons

The next century will see more than half of the world's 6,000 languages become extinct, and most of these will disappear without being adequately recorded.

Written by one of the leading figures in language documentation, this fascinating book explores what humanity stands to lose as a result. Explores the unique philosophy, knowledge, and cultural assumptions of languages, and their impact on our collective intellectual heritage Questions why such linguistic

diversity exists in the first place, and how can we can best respond to the challenge of recording and documenting these fragile oral traditions while they are still with us Written by one of the leading figures in language documentation, and draws on a wealth of vivid examples from his own field experience Brings conceptual issues vividly to life by weaving in portraits of individual 'last speakers' and anecdotes about linguists and their discoveries  
*The Five Love Languages* Oxford University Press

This bold and accessible study of human languages and communication explores issues which are at the forefront of today's globalized society. The human species is divided into more than five thousand language groups that do not

understand each other. And yet these groups constitute one coherent world language system, connected by multilingual speakers in a surprisingly powerful way. The chances of a language thriving depend on its position in the system. There are thousands of small, peripheral languages, each connected to one of a hundred central languages. The entire system is held together by one global language: English. A language is a 'hypercollective' good: the more speakers it has, the higher its communication value for each one of them. Thus, when people think that a language is gaining new speakers, that in itself is a reason for them to want to learn it too. That is why, in an age of globalization, only a few languages remain for transnational communication

and these often prevail even in national societies. This important book discusses a number of specific constellations in detail: India, Indonesia, Sub-Saharan Africa, South Africa and the European Union. De Swaan concludes by providing

a sober but illuminating view of language policy in multilingual societies. This book will be essential reading for those studying sociology, communication studies and linguistics.
