The Book of Revelation  
has always been a  
mysterious and intriguing  
book, describing in

symbolic terms the  
confrontation between the  
Disciples of Christ and the  
powers - political and  
supernatural - that hold  
sway over the current  
age. Fundamentalists  
have been attracted to  
the book and have sought  
to decipher its strange

symbols as coded  
prophecy of future events.  
But as Pablo Richard  
shows in Apocalypse, the  
most powerful readings of  
the Book of Revelation are  
through the eyes of the  
oppressed, living out their  
Christian faith in the  
context of the modern

empire. It is they who identify most strongly with Revelation's ultimate message of hope and life in the midst of death and persecution. Apocalypse first provides a general introduction to the reading of Revelation by examining three keys for its understanding: the historical, the sociological, and the literary-structural. The book then goes on to explore the whole of the Book of Revelation, following the book's own structure. Each section provides a line-by-line reading of the text,

establishing the literal meaning before applying the interpretive keys already established.

Translations In Times of Disruption

This innovative interdisciplinary study compares the uses of painting in literary texts and films. In developing a framework of four types of ekphrasis, the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as an interpretive tool to films about the visual arts and artists. Analyzing selected works of art by Goya, Rembrandt, and Vermeer and their ekphrastic treatment in various texts and films, this book

examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the function of art for the construction of a personal or social identity. Because of its highly cross-disciplinary nature, this book is of interest not only to scholars of literature and aesthetics, but also for scholars of film studies. By providing an innovative approach to discussing non-

documentary films about artists, the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film. This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century.

From the middle of the  
fifteenth century a

distinctively Roman Renaissance occurred. A shared outlook, a persistent set of intellectual concerns, similar cultural assumptions and a commitment to common ideological aims bound Roman humanists and artists to a uniquely Roman world, different from Florence, Venice, and other Italian and European centers. This book provides the first comprehensive portrait of the Roman Renaissance world. Charles Stinger probes the basic

attitudes, the underlying values and the core convictions that Rome's intellectuals and artists experienced, lived for, and believed in from Pope Eugenius IV's reign to the Eternal City in 1443 to the sacking of 1527. He demonstrates that the Roman Renaissance was not the creation of one towering intellectual leader, or of a single identifiable group; rather, it embodied the aspirations of dozens of figures, active over an eighty-year period. Stinger illuminates the general

aims and character of the Roman Renaissance. Remaining mindful of the economic, social, and political context--Rome's retarded economic growth, the papacy's increasing entanglement in Italian politics, papal preoccupation with the crusade against the Ottomans, and the effects of papal fiscal and administrative practices--Stinger nevertheless maintains that these developments recede in importance before the cultural history of the period. Only in the

context of the ideological and cultural commitments of Roman humanists, artists, and architects can one fully understand the motivation for papal policies. Reality for Renaissance Romans was intricately bound up with the notion of Rome's mythic destiny. The Renaissance in Rome is cultural history at its best. It evokes the moods, myths, images, and symbols of the Eternal City, as they are manifested in the Liturgy, ceremony, festivals, oratory, art, and

architecture of Renaissance Rome. Throughout, Stinger focuses on a persistent constellation of fundamental themes: the image of the city of Rome, the restoration of the Roman Church, the renewal of the Roman Empire, and the fullness of time. He describes and analyzes the content, meaning, origin, and implications of these central ideas of Roman Renaissance. This book will prove interesting to both Renaissance and Reformation scholars, as

well as to general readers, who may have visited (or plan to visit) Rome and have become fascinated and affected by this extraordinary city. "There is no other book like it in any language," says Renaissance historian John O'Malley. "It presents a coherent view of Roman culture....collects and presents a vast amount of information never before housed under one roof. Anyone who teaches the Italian Renaissance," O'Malley stresses, "will have to know this book."

It may seem presumptuous that so young a man as myself should propose to write his life and memoirs, for, as a rule, one waits until he has accomplished something in the world, or until he has reached old age, before he ventures to tell of the times in which he has lived, and of his part in them. But the profession to which I belong, which is that of a soldier, and which is the noblest profession a man can follow, is a hazardous one, and were I to delay

until to-morrow to write down what I have seen and done, these memoirs might never be written, for, such being the fortune of war, to-morrow might not come. So I propose to tell now of the little I have accomplished in the first twenty-three years of my life, and, from month to month, to add to these memoirs in order that, should I be suddenly taken off, my debit and credit pages may be found carefully written up to date and carried forward. On the other hand, should I live to be

an old man, this record of my career will furnish me with material for a more complete autobiography, and will serve as a safeguard against a failing memory.

"Given its reliance on a wide variety of linguistic elements, including sound effects and highly figurative language, poetry lacks a single formula for translation.

Thus, this genre presents a significant challenge to translators, who must

often choose which of these elements to preserve at the expense of others, and produces considerable variety among translations of the same work. This paper examines this complex process of poetry translation and particularly its impact on meaning by comparing the translations of Kieran Kavanaugh and Otilio Rodriguez (1964), Willis Barnstone (1972), and Loren G. Smith (2005) of sixteenth-century Spanish mystic San Juan de la Cruz' *Llama de amor viva*.

Using these translators' approaches to meter and rhyme scheme, original metaphors, Spanish grammatical constructions lacking an equivalent in English, and individual problematic words as criteria of evaluation, this study concludes that although no translation entirely preserves the meaning of San Juan's original work, each effectively transmits part of this meaning through at least one of the above areas while simultaneously developing individual

shades of meaning through others, thus emerging as both translation and independent poem" -- Abstract.

There has been a dramatic increase in the amount of narrative work published by Chicana and Latina authors in the past 5 to 10 years.

Nonetheless, there has been little attempt to catalog this material. This reference provides convenient access to all forms of narrative written

by Chicana and Latina authors from the early 1940s through 2002. In doing so, it helps users locate these works and surveys the growth of this vast body of literature. The volume cites more than 2,750 short stories, novels, novel excerpts, and autobiographies written by some 600 Mexican American, Puerto Rican, Cuban American, Dominican American, and Nuyoric women authors. These citations are grouped in five indexes: an author/title index, title/author index,

anthology index, novel index, and autobiography index. Short annotations are provided for the anthologies, novels, and autobiographies. Thus the user who knows the title of a work can discover the author, the other works the author has written, and the anthologies in which the author's shorter pieces have been reprinted, along with information about particular works.

The basilica is symbolic of the history of Christianity

in Ethiopia. Aizan, the first Christian king of the Aksumite empire was responsible for the creation of the large, five-aisled church of M?ry?m ??yon, sadly destroyed in 1535, and since then many hundreds of basilicas have been built in Ethiopia, many, including the UNESCO World Heritage site of Lalibela, literally 'hewn from the rock'. In this book, architectural historian and architect Mario di Salvo considers the unique architectural features of Ethiopia's

basilicas and explains how they developed over time. Featuring almost 200 colour illustrations, this book is an attractive and comprehensive guide to some of Ethiopia's most inspiring religious buildings.

"A must-read for anyone interested in Nicaragua—or in the overall issue of social change."—Margaret Randall, author of SANDINO'S DAUGHTERS and SANDINO'S

DAUGHTERS REVISITED  
Sandinista is the first English-language biography of Carlos Fonseca Amador, the legendary leader of the Sandinista National Liberation Front of Nicaragua (the FSLN) and the most important and influential figure of the post-1959 revolutionary generation in Latin America. Fonseca, killed in battle in 1976, was the undisputed intellectual and strategic leader of the FSLN. In a groundbreaking and fast-paced narrative that draws on a rich

archive of previously unpublished Fonseca writings, Matilde Zimmermann sheds new light on central themes in his ideology as well as on internal disputes, ideological shifts, and personalities of the FSLN. The first researcher ever to be allowed access to Fonseca's unpublished writings (collected by the Institute for the Study of Sandinism in the early 1980s and now in the hands of the Nicaraguan Army), Zimmermann also obtained personal interviews with Fonseca's

friends, family members, fellow combatants, and political enemies. Unlike previous scholars, Zimmermann sees the Cuban revolution as the crucial turning point in Fonseca's political evolution. Furthermore, while others have argued that he rejected Marxism in favor of a more pragmatic nationalism, Zimmermann shows how Fonseca's political writings remained committed to both socialist revolution and national liberation from U.S. imperialism and

followed the ideas of both Che Guevara and the earlier Nicaraguan leader Augusto César Sandino. She further argues that his philosophy embracing the experiences of the nation's workers and peasants was central to the FSLN's initial platform and charismatic appeal.

The Poems of St. John of the Cross Nomos Verlag This book throws light on the relevance and role played by translations and

translators at times of serious discontinuity throughout history. Topics explored by scholars from different continents and disciplines include war, the disintegration of transnational polities, health disasters and revolutions - be they political, social, cultural and/or technological. Surprisingly little is known, for example, about the role that translated constitutions had in instigating and in shaping political crises at both a local and global level, and how these

events had an effect on translations themselves. Similarly, the role that translations played as instruments for either building or undermining empires, and the extent to which interpreters could ease or hamper negotiations and foster new national identities has not been adequately acknowledged. This book addresses all these issues, among others, through twelve studies focused not just on texts but also on instances of verbal and non-verbal communications in a

range of languages from around the world. This interdisciplinary work will engage scholars working in fields such as Translation Studies, History, Modern Languages, English, Law, Politics and Social Studies. **Viva La Liberta!** Rutgers University Press  
This groundbreaking study examines how modern Colombian literature—from Gabriel García Márquez to Juan Gabriel Vásquez—reflects one of the world’s most tumultuous entrances into globalization. While these

literary icons, one canonical, the other emergent, bookend Colombia's fall and rise on the world stage, the period between the two was inordinately violent, spanning the Colombian urban novel's evolution into narco-literature. Marking Colombia's cultural and literary manifestations as threefold, this book explores García Márquez's retreat to a rural romanticism that paradoxically made him a global literary icon; the country's violent end to

the twentieth century when its largest economic export was narcotics; and the contemporary period in which a new major author has emerged to create a "literature of national reconstitution." Harkening back to the Regeneration movement and extending through the early twenty-first century, this book analyzes the cultural implications of Colombia's relationship to the wider world.

"The book contains a comprehensive introduction that describes Spanish theater in its Golden Age, what is known of the author's life and times, contemporary stagings, and an extensive analysis of the text. The story unfolds as a cross between a jilted-lover scenario and a whodunit murder mystery. A woman laments her departed lover, a sister cross-dresses to avenge her murdered brother, a man duels with his cousin over lost honor, and before long, the dead man

turns up as a ghost, or a bar maid, or a female peddler. Questions about identity abound in the witty *El muerto disimulado / Presumed Dead*. The transnational nature of this clever comedy complicates meanings, often producing bilingual wordplay that underscores the self-conscious, gender-bending, ludic character of the play and of theater in general."--

Master storyteller and literary stylist Bernard Malamud is considered one of the top three most influential postwar American Jewish writers, having established a voice and a presence for other authors in the literary canon. Along with Philip Roth and Saul Bellow, Malamud brought to life a decidedly American Jewish protagonist and a newly emergent voice that came to define American letters and that has continued to influence writers for over half a century. This collection is

a tribute to Malamud in honor of the hundredth anniversary of his birth. Literary critic Harold Bloom suggests that "Malamud is perhaps the purest storyteller since Leskov," the nineteenth-century Russian novelist and satirist. Novelist Cynthia Ozick, in a tribute to Malamud, described him as "the very writer who had brought into being a new American idiom of his own idiosyncratic invention." Unlike other collections devoted to Malamud, this collection is international

in scope, compiling diverse essays from the United States, France, Germany, Greece, and Spain, and demonstrating the wide range of scholarship and approaches to Bernard Malamud's fiction. The essays show the breadth and depth of this masterful craftsman and explore through his short fiction and his novels such topics as the Malamudian protagonist's relation to the urban/natural space; Malamud's approach to death; race and ethnicity; the Malamudian hero as

modern schlemiel; and the role of fantasy in Malamud's fiction. Bernard Malamud is a comprehensive collection that celebrates a voice that helped to shape the last fifty years of literary works. Readers of American literary criticism and Jewish studies alike will appreciate this collection. In *Won in Translation* Roger Chartier, one of the world's leading historians of books, publishing, and reading, considers the mobility of the early modern text and the plurality of circulating versions of the same work. The agent for both is translation, for through

their lexical, aesthetic, and cultural decisions, translators always assign new meaning or new status to what they translate. *Won in Translation* proceeds by way of four case studies, three dedicated to works originally in Spanish, the fourth to a Portuguese dramatic adaptation of Don Quixote. Bartolomé de Las Casas' *Brevísima relación de la destrucción de las Indias*, first printed in 1552, was a powerful instrument for the construction of what was later called the "black

legend" of Spanish monarchy. Baltasar Gracián's *Oráculo Manual*, published in 1647, became the most famous courtier's manual in Europe. Both traveled more widely and were translated more often than any other books of their era. For Chartier they illustrate the great power of translation, which allowed Las Casas' account to be placed in multiple and successive contexts and enabled Gracián's book to take on a range of meanings it had not originally had.

Chartier's next two chapters are devoted to plays, one by Lope de Vega, the other by Antônio José da Silva. In the case of Lope's *Fuente Ovejuna*, the "translation" was one from historical chronicle to dramatic performance. In Antônio José da Silva's *Vida do Grande D. Quixote*, the textual migration is twofold, as Cervantes' hero moves from Spanish to Portuguese and from novel to play. In an Epilogue, Chartier moves three centuries forward to consider the paradox that

it is the absolute immobility of the text, "reinvented" word for word, that creates its mobility in Jorge Luis Borges' fiction "Pierre Menard, Author of the *Quixote*." Works are transformed through changes of genre or language, to be sure; but even when the texts remain fixed, their readers give them different or inverted meaning.

Challenging the notion that Central American literature is a marginal space within Latin American literary and world literary production, this collection positions and discusses Central American literature within the recently revived debates on world literature. This groundbreaking volume draws on new scholarship on global, transnational, postcolonial, translational, and sociological perspectives on the region's literature, expanding and

challenging these debates by focusing on the heterogenous literatures of Central America and its diasporas. Contributors discuss poems, testimonios, novels, and short stories in relation to center-periphery, cosmopolitan, and Internationalist paradigms. Central American Literatures as World Literature explores the multiple ways in which Central American literature goes beyond or against the confines of the nation-state, especially through the

indigenous, Black, and migrant voices. Sandinista Springer This book investigates a central chapter in the history of 20th century intellectualism: the commitment to the communist ideal and the Soviet Union. Focusing on Argentina, whose communist party was among the most important in Latin America, Petra engages with the current literature on Western communism in order to conduct an exhaustive study of the intellectuals, cultural

organizations, publications, and debates within Argentine communism in the decades following World War II. Based on rigorous archival research from diverse sources, Petra's book distances itself from existing teleological visions and institutional approaches to the communist world, offering instead a complex framework in which multiple contexts, scales, and actors frame the larger problem: the intellectual commitment to a political project that

brooked no dissent. Intellectuals and Communist Culture also addresses the emergence of Peronism, a crucial movement in Argentine political life to this very day, thus offering an important chapter on Latin American political and intellectual history and an invaluable contribution to the global history of the international communist movement. *Ethnomusicology* Columbia University Press This book reflects the way in which the city interacts

with the sacred in all its many guises, with religion and the human search for meaning in life. As the process of urbanization of society is accelerating thus giving an increasing importance to cities and the 'metropolis', it is relevant to investigate the social or cultural cohesion that these urban agglomerations manifest. Religion is keenly observed as witnessing a growth, crucially impacting cultural and political dynamics, as well as determining the emergence of new sacred

symbols and their inscription in urban spaces worldwide. The sacred has become an important category of a new interpretation of social and cultural transformation processes. From a unique broader

perspective, the volume focuses on the relationship between the city and the sacred. Taking a multidisciplinary approach, combining the expertise of philosophers, historians, architects, social geographers, sociologists and

anthropologists, it draws a nuanced picture of the different layers of religion, of the sacred and its diverse forms within the city, with examples from Europe, South America and the Caribbean, and Africa.
