 Duet arrangements of three well-known Vivaldi Concertos arranged for mandolin and guitar: Concerto in A (RV82), Concerto in C (RV425), and Concerto in D (RV93). Each arrangement in this collection has been

reduced from soloist with string orchestra, to a duet for mandolin and guitar. the mandolin performs the solo part and the guitar part is a reduction of the strings. In the guitar part, chords have been added above the staff to allow for embellishment-a common practice of the Baroque era. Another C instrument such as flute, violin or another guitar can be easily substituted for the mandolin. Musicians will find these accessible arrangements excellent for performance in any setting from the recital hall to the local café. The score (guitar/mandolin) and mandolin solo part are available in hard copy while the guitar accompaniment part is

available as a free internet download. the mandolin and guitar parts are presented in notation.

Concerto for Viola d'Amore

Routledge
Federico Maria Sardelli writes from the perspective of a professional baroque flautist and recorder-player, as well as from that of an experienced and committed scholar, in order to shed light on the bewildering array of sizes and

tunings of the recorder and transverse flute families as they relate to Antonio Vivaldi's compositions. Sardelli draws copiously on primary documents to analyse and place in context the capable and surprisingly progressive instrumental technique displayed in Vivaldi's music. The book includes a discussion of the much-disputed chronology of Vivaldi's works, drawing on both internal and external evidence. Each known piece by him in which the flute or the recorder appears is evaluated fully from historical, biographical, technical and aesthetic standpoints. This book is designed to appeal not only to Vivaldi scholars and lovers of the composer's music, but also to players of

the two instruments, students of organology and those with an interest in late baroque music in general. Vivaldi is a composer who constantly springs surprises as, even today, new pieces are discovered or old ones reinterpreted. Much has happened since Sardelli's book was first published in Italian, and this new English version takes full account of all these new discoveries and developments. The reader will be left with a much fuller picture of the composer and his times, and the knowledge and insights gained from minutely examining his music for these two wind instruments will be found to have a wider relevance for his work as a whole. Generous music examples and

illustrations bring the book's arguments to life.

The four seasons were
 composed by Antonio
 Vivaldi, an Italian
 composer. These are
 four violin concertos
 that give musical
 expression to the
 seasons of the year. It
 was published as 'Il
 cimento dell'armonia e
 dell'invenzione' ("The
 contest between

Harmony and
 Invention"). The
 compositions were a
 revolution in musical
 concepts, each
 concerti included
 sonnets(poems
 possibly written by
 Vivaldi), and in his
 work he demonstrated
 musical representation
 of singing birds,
 buzzing flies, barking
 dogs, storms,
 landscapes, and warm
 winter fires. The Four

In spite of his widespread

popularity today, Vivaldi was largely forgotten after death and his reputation was only re-established in the 1920's. Vivaldi's greatest contribution to the history of classical music was his development of the ritornello form, where recurrent restatements of a refrain alternate with further episodic passages by a solo instrument, allowing for greater depth of virtuosic display. The passion and lyricism of Vivaldi's music would have a lasting impact on Baroque and Classical-era composers. Delphi's Great Composers Series offers concise illustrated guides to the life and works of our greatest composers. Analysing the masterworks of each composer, these
