When Obama stated that  
if elected, he would keep  
his Blackberry, debate  
echoed through  
Washington and among  
the ranks of the Secret  
Service. What would it be  
like to have a president

who could Twitter, send  
text messages, and  
navigate the web with  
ease? What would it be  
like to receive a text  
message from inside the  
Oval Office and, most  
importantly, what would it  
say? Now, for the first  
time, We The People are  
privy to our new leader's  
epistolary back-and-forths  
on his wily hand-held  
device. We're about to  
discover that his emails  
(and the replies, from his  
wife and daughters,

Biden, Palen, Rush, Hannity, the new first puppy, and even Bush) are so tuned in to the language of electronic correspondence they come hilariously close to the brink of legibility. This giftable, imagined glimpse into Obama's beloved Blackberry traverses the mundane and momentous contours of the Commander in Chief's life, from security briefings to spam, basketball practice to domestic bliss, and the panic of oops-I-hit-reply-all, to, of course, the trauma of dealing with the

First Mother In Law. To wit: BidenMyTime: Hey U, whatcha doin? BARACKO: M rly busy BidenMyTime: Right :( Can I lv at 4:45?

 Bestselling and award-winning author Lee Strobel interviews experts about the evidence for the afterlife and offers credible answers to the most provocative questions about what happens when we die, near-death experiences, heaven, and hell. We all want to know what awaits us on the other side of death, but is there any reliable evidence that there is life after death?  
 Investigative author Lee

Strobel offers a lively and compelling study into one of the most provocative topics of our day. Through fascinating conversations with respected scholars and experts--a neuroscientist from Cambridge University, a researcher who analyzed a thousand accounts of near-death experiences, and an atheist-turned-Christian-philosopher-- Strobel offers compelling reasons for why death is not the end of our existence but a transition to an exciting world to come. Looking at biblical

accounts, Strobel unfolds what awaits us after we take our last breath and answers questions like: Is there an afterlife? What is heaven like? How will we spend our time there? And what does it mean to see God face to face? With a balanced approach, Strobel examines the alternative of Hell and the logic of damnation, and gives a careful look at reincarnation, universalism, the exclusivity claims of Christ, and other issues related to the topic of life

after death. With vulnerability, Strobel shares the experience of how he nearly died years ago and how the reality of death can shape our lives and faith. Follow Strobel on this journey of discovery of the entirely credible, believable, and exhilarating life to come.

This book brings to life

Victorian Britain's conceptions and misconceptions of the Muslim World using a thorough investigation of varied cultural sources of the period. She discovers the prevailing representation of Muslims and Islam in the two major spheres of British influence - India and the Ottoman Empire - was reinforced by reoccurring themes: through literature and entertainment the public saw "the Mahomedan" as the "noble savage", a perception reinforced

through travel writing and fiction of the "exotic east" and the "Arabian Nights".
