GO! All in One John Wiley & Sons

"This book focuses on an in-depth assessment on strategies and instructional design practices appropriate for the flipped classroom model, highlighting the benefits, shortcoming, perceptions, and academic results of the flipped classroom model"--Provided by publisher.

Go! All in One Pearson Higher Ed

One of the few books that addresses financial and managerial accounting within the three major areas of the public sector--government, health, and not-for-profit--the Second Edition provides the fundamentals of financial management for those pursuing careers within these fields. KEY TOPICS: " With a unique presentation that explains the rules specific to the public sector, this book outlines the framework for readers to access and apply financial information more effectively. Employing an engaging and user-friendly approach, this book clearly defines essential vocabulary, concepts, methods, and basic tools of financial management and financial analysis that are imperative to achieving success in the field. This book is intended for financial managers and general managers who are required to obtain, understand, and use accounting information to improve the financial results of their organizations, specifically within the areas of government or public policy and management, not-for-profit management, and health policy and management.

Teach the course YOU want in LESS TIME! In today's fast-moving, mobile environment, the GO! with Office 2016 series focuses on the job skills needed to succeed in the workforce. With job-related projects that put Microsoft Office® into context, students learn the how and why at the moment they need to know, all in the appropriate Microsoft procedural syntax. For Office 2016, the

hallmark guided-practice to skill-mastery pathway is better than ever. Students have many opportunities to work live in Microsoft office to apply the skills they've learned. In addition, instructional projects are now available as grader projects in MyITLab, so students can work live in Office while receiving auto-graded feedback. These high-fidelity simulations match the text and provide an effective pathway for learning, practicing, and assessing their abilities. After completing the instructional projects, students can apply their skills with a variety of progressively challenging projects that require them to solve problems, think critically, and create on their own. New GO! Collaborate with Google projects allow students to apply their skills to a new environment that is already popular in many workplaces. Integrated Microsoft Office Specialist (MOS) objectives make GO! your one resource for learning Office, gaining critical productivity skills, and prepare for MOS certification. Also available with MyITLab MyITLab ® is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses, to engage students and improve results. HTML5 Simulation exercises and Live-in-Application Grader projects come with the convenience of auto-grading and instant feedback, so students learn more quickly and effectively, and build the critical skills needed for college and career success. Digital badges allow students to showcase their Microsoft Office or Computer Concepts competencies, keeping them motivated and focused on their future careers. Note: You are purchasing a standalone product; MyITLab does not come packaged with this content. Students, if interested in purchasing this title with MyITLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

Intended primarily for courses in computer concepts and office applications, this text also provides practical content to current and aspiring industry professionals. This book teaches computer concepts and applications together. It engages readers rightaway by using a jobs-focused approach that integrates computer concepts and applications into practical combinations of concepts and skills in the context of a job. With this approach, readers learn how to work in the real world where they will solve problems using computer concepts and skills related to the Internet, Microsoft Office 2013 applications, collaboration, social media, and cloud computing. *Computer Concepts and Applications* Pearson

Designed with the busy professional in mind, this 4-page quick reference guide provides step-by-step instructions in Google Sheets. When you need an answer fast, you will find it right at your fingertips with this Google Sheets Quick Reference Guide. Clear and easy-to-use, quick reference guides are perfect for individuals, schools, businesses, and as supplemental training materials.

GETTING STARTED WITH PROJECT MANAGEMENT USING MICROSOFT PROJECT 2016

Pearson

This book constitutes the refereed proceedings of the 45th Annual Conference of the Southern African Computer Lecturers' Association on ICT Education, SACLA 2016, held in Cullinan, South Africa, in July 2016. The three revised full papers and 13 work-in-progress papers presented together with two invited keynote papers were carefully reviewed and selected from 30 submissions. The papers are organized in topical sections on assessment methods, instruction methods, new curricula, social skills, and various experiences.

GO Series Pearson

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. GO! with Office 2016 is the right approach to learning for today's fast-moving, mobile environment. The GO! Series focuses on the job and success skills students need to succeed in the workforce. With GO! All in One, you can teach Computer Concepts and Applications together - the way it is in the real world! Engage your students right away by focusing on jobs and incorporating cloud computing and collaboration in a logical way. And, put concepts into action using a unique, integrated, jobs-focused, unit approach, or take an IC3 approach to help prepare students to take the IC3 exams. By using jobs-related projects, students learn Microsoft Office in the context of a real work environment. With these projects, students learn the how and why at the moment they need to know, and they never get lost because the GO! Series using Microsoft procedural syntax. MyITLab ® is designed with the learner in mind. It provides access to all of the resources, including the interactive eText with videos, IT Concepts simulations, and quick check quizzes built in, plus the Grader Projects and Simulations for Microsoft applications

GO! with Microsoft Office 2016 Getting Started Springer Nature

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This book covers introductory Word, Excel, Access, and PowerPoint, with additional sections on integrating those applications, as well as a Windows 8 workshop. Ideal for business courses. Real world problem solving for business and beyond The Your Office series prepares students to use both technical and soft skills in the real world. Hands-on technical content is woven into realistic business scenarios and focuses on using Microsoft Office® as a decision-making tool. The series features a unique running business scenario that connects all of the cases together and exposes students to using Office to solve problems relating to business areas like finance and accounting, production and operations, sales and marketing. Each chapter introduces a realistic business case for students to complete via hands-on steps that are easily identified in blue shaded boxes. Each blue box teaches a skill and comes complete with video and interactive support. Chapters are grouped into Business Units, which collectively illustrate a specific set of business concepts to achieve AACSB-related outcomes. Each Business Unit ends with a Capstone section, testing students' ability to apply concepts and skills beyond a single chapter. Note: You are purchasing a standalone product; MyITLab does not come packaged with this content. Students, if interested in purchasing this title with MyITLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.
