Essays exploring Black women's experiences with slavery in the Americas. Gender was a decisive force in shaping slave society. Slave men's experiences differed from those of slave women, who were exploited both in reproductive as well as productive capacities. The women did not figure prominently in revolts, because they engaged in less confrontational resistance, emphasizing creative struggle to survive dehumanization and abuse. The contributors are Hilary Beckles, Barbara Bush, Cheryl Ann Cody, David Barry Gaspar, David P. Geggus, Virginia Meacham Gould, Mary Karasch, Wilma King, Bernard Moitt, Celia E. Naylor-Ojurongbe, Robert A. Olwell, Claire

Robertson, Robert W. Slenes, Susan M. Socolow, Richard H. Steckel, and Brenda E. Stevenson. "A much-needed volume on a neglected topic of great interest to scholars of women, slavery, and African American history. Its broad comparative framework makes it all the more important, for it offers the basis for evaluating similarities and contrasts in the role of gender in different slave societies. . . [This] will be required reading for students all of the American South, women's history, and African American studies." —Drew Gilpin Faust, Annenberg Professor of History, University of Pennsylvania  
*Strangers in the Land of Paradise* Penguin Philip Horkman is a happy man, the owner of a pet store called The Wine Shop, and on Sundays a referee for a local kids' soccer league. Jeffrey Peckerman is the proud and loving father of a star athlete in the girls' ten-and-under soccer league, and he's not exactly happy with the ref. The two of them are about to collide in a swiftly escalating series of events that will

send them running for their lives, pursued by the police, soldiers, subversives, bears, revolutionaries, pirates, and a black ops team that does not exist. Where all that takes them you can't even begin to guess, but the literary journey there is a masterpiece of inspiration, chaos, and unadulterated, well, lunacy. And they might even learn a lesson or two along the way.

Now in paperback! Strangers in the Land of Paradise The Creation of an African American Community, Buffalo, NY, 1900–1940 Lillian Serece Williams Examines the settlement of African Americans in Buffalo during the Great Migration. "A splendid contribution to the fields of African-American and American urban, social and family history. . . . expanding the tradition that is now well underway of refuting the pathological emphasis of the prevailing ghetto studies of the 1960s and '70s." —Joe W. Trotter Strangers in the Land of Paradise discusses the creation of an African American community as a distinct cultural entity. It describes values and institutions that Black migrants from the South brought with them, as well as those that evolved as a result of their interaction with Blacks native to the city and the city itself. Through an examination of work, family, community organizations, and political actions, Lillian Williams explores the process by which the migrants adapted to their new environment. The lives of African Americans in Buffalo from 1900 to 1940 reveal much about race, class, and gender in the development of urban communities. Black migrant workers transformed the landscape by their mere presence, but for the most part they could not rise beyond the lowest entry-level positions. For African American women, the occupational structure was even more restricted; eventually, however, both men and women increased their earning power, and that—over time—improved life for both them and their loved ones. Lillian Serece Williams is Associate Professor of History in the Women's Studies Department and Director of the Institute for Research on Women at Albany, the State University of New York. She is editor of Records of the National Association of Colored Women's Clubs, 1895–1992, associate editor of Black Women in United States History, and author of A Bridge to the Future: The History of Diversity in Girl Scouting. 352 pages, 14 b&w illus., 15 maps, notes, bibl., index, 6 1/8 x 9 1/4 Blacks in the Diaspora—Darlene Clark Hine, John McCluskey, Jr., and David Barry Gaspar, general editors *Write Better* Ballantine Books From three award-winning and bestselling humor writers comes a hilarious guide to everything you need to know about Jewish history, holidays, and traditions. Why do

random Jewish holidays keep springing up unexpectedly? Why are yarmulkes round? Who was the first Jewish comedian? What's "Christian humor" and have you ever even heard of that phrase? Who is "the Golem" and whom do you want it to beat up? These baffling questions and many more are answered by comedy legends Dave Barry, Adam Mansbach, and Alan Zweibel, two-thirds of whom are Jewish. In A Field Guide to the Jewish People the authors dissect every holiday, rite of passage, and tradition, unravel a long and complicated history, and tackle the tough questions that have plagued Jews and non-Jews alike for centuries. Combining the sweetness of an apricot rugelach with the wisdom of a matzoh ball, this is the last book on Judaism that you will ever need. So gather up your chosen ones, open a bottle of Manischewitz, and get ready to laugh as you finally begin to understand the inner-workings of Judaism.

A brilliantly funny exploration of the twin mysteries of parenthood and families from the Pulitzer Prize winner and New York Times–bestselling author of *Insane City*. In his New York Times–bestselling *I'll Mature When I'm Dead*, Dave Barry embarked on the treacherous seas of adulthood, to hilarious results. What comes next? Parenthood, of course, and families. In uproarious, brand-new pieces, Barry tackles everything from family trips, bat mitzvah parties and dating (he's serious about that title: "When my daughter can legally commence dating—February 24, 2040—I intend to monitor her closely, even if I am deceased") to funeral instructions ("I would like my eulogy to be given by William Shatner"), the differences between male and female friendships, the deeper meaning of *Fifty Shades of Grey*, and a father's ultimate sacrifice: accompanying his daughter to a Justin Bieber concert ("It turns out that the noise teenaged girls make to express happiness is the same noise they would make if their feet were being gnawed off by badgers"). Let's face it: families not only enrich our lives every day, they drive us completely around the bend. Thank goodness we have Dave Barry as our guide!

No book can guarantee you a long and happy relationship, even if the author didn't know about your secret hygiene problem. But the cover of a book is no place to discuss that. In Dave Barry's *Guide to Marriage and/or Sex*, one of America's most beloved writers turns his

keen, if somewhat rheumy, eye to the institution of marriage. Dating. "These are nonstereotypical times we live in, by which I mean that it is the responsibility of the woman to think up excuses that get progressively more obvious until the man figures out that the woman would rather chew on a rat pancreas." Sex. "I'm afraid that we must talk here about sex in a very explicit manner, because we want to expand the Frontiers of Human Understanding, and also we want to sell as many books as possible to adolescent boys." Marriage. "Most squabbles start with money. For example, you want to buy food, while your spouse wants to buy a thoroughbred racehorse. It's important, in these situations, for both of you to be willing to sit down and try to achieve a workable compromise. In this case, you could buy a thoroughbred racehorse and eat it."

"Dave Barry is one funny human." --San Francisco Examiner For thousands of years, women have asked themselves:

What is the deal with guys, anyway? What are they thinking? The answer, of course, is: virtually nothing. Deep down inside, guys are extremely shallow. But that has not stopped Dave Barry from writing an entire book about them. If you're a guy--or if you're attempting to share a remote control with one--you need this book, because it deals frankly and semi-thoroughly with such important guy issues as: Scratching The role of guys in world history, including the heretofore-unknown relationship between the discovery of North America and golf Why the average guy can remember who won the 1960 World Series, but not necessarily the names of all his children The Noogie Gene Why guys cannot simultaneously think and look at breasts Secret guy orgasm-delaying techniques, including the Margaret Thatcher Method Why guys prefer to believe that there is no such thing as a prostate And much, much more "Whether you're a guy--or attempting to share a bathroom with one--Barry has some wacky words of wisdom for you." -- USA Today

The question of how Donald Trump won the 2016 election looms over his presidency. In particular, were the 78,000 voters who gave him an Electoral College victory affected by the Russian trolls and hackers? Trump has denied it. So has Vladimir Putin. Others cast the answer as unknowable. In *Cyberwar*, Kathleen Hall Jamieson marshals the troll posts, unique polling data, analyses of how the press used hacked content, and a synthesis of half a century of media effects literature to argue that, although not certain, it is probable that the Russians helped elect the 45th president of the United States. In the process, she asks: How extensive was the troll messaging? What characteristics of social media did the Russians exploit? Why did the mainstream press rush the hacked content into the citizenry's newsfeeds? Was Clinton telling the truth when she alleged that the debate moderators distorted what she said in the leaked speeches? Did the Russian influence extend beyond social media and news to alter the behavior of FBI director James Comey? After detailing the ways in which Russian efforts were abetted by the press, social media, candidates, party leaders, and a polarized public, *Cyberwar* closes with a warning: the country is ill-prepared to prevent a sequel. In this updated paperback edition, Jamieson covers the many new developments that have come to light since the original publication.

The Wall Street Journal's popular columnist Jason Gay delivers a hilarious and heartfelt guide to modern living. "The book you hold in your hand is a rule book. There have been rule books before—stacks upon stacks of them—but this book is unlike any other rule book you have ever read. It will not make you rich in twenty-four hours, or even seventy-two hours. It will not cause you to lose eighty pounds in a week. This book has no abdominal exercises. I have been doing abdominal exercises for most of my adult life, and my abdomen looks like it's always looked. It looks like flan. Syrupy flan. So we can just limit those expectations. This book does not offer a crash diet or a plan for maximizing your best self. I don't know a thing about your best self. It may be embarrassing. Your best self might be sprinkling peanut M&M's onto rest-stop pizza as we speak. I cannot promise that this book is a road map to success. And we should probably set aside the goal of total happiness. There's no such thing. I would, however, like for it to make you laugh. Maybe think. I believe it is possible to find, at any age, a new appreciation for what you have—and what you don't have—as well as for the people closest to you. There's a way to experience life that does not involve a phone, a tablet, a television screen. There's also a way to experience life that does not involve eating seafood at the airport, because you should really never eat seafood at the airport. Like the title says, I want us all to achieve little victories. I believe that happiness is derived less from a significant single accomplishment than it is from a series of successful daily maneuvers. Maybe it's the way you feel when you walk out the door after drinking six cups of coffee, or surviving a family vacation, or playing the rowdy family Thanksgiving touch football game, or just learning to embrace that music at the gym. Accomplishments do not have to be large to be meaningful. I think little victories are the most important ones in life." — From the Introduction *Insane City* Rodale Books

A landmark collection by New York Times journalist Dan Barry, selected from a decade of his distinctive "This Land" columns and presenting a powerful but rarely seen portrait of America. In the wake of Hurricane Katrina and on the eve of a national recession, New York Times writer Dan Barry launched a column about America: not the one populated only by cable-news pundits, but the America defined and redefined by those who clean

the hotel rooms, tend the beet fields, endure disasters both natural and manmade. As the name of the president changed from Bush to Obama to Trump, Barry was crisscrossing the country, filing deeply moving stories from the tiniest dot on the American map to the city that calls itself the Capital of the World. Complemented by the select images of award-winning Times photographers, these narrative and visual snapshots of American life create a majestic tapestry of our shared experience, capturing how our nation is at once flawed and exceptional, paralyzed and ascendant, as cruel and violent as it can be gentle and benevolent. [Live Right and Find Happiness \(Although Beer is Much Faster\)](#) Wildside Press LLC Christianity Today 2020 Book of the Year Award, Culture and the Arts Writing is not easy. But it can get better. In this primer on nonfiction writing, Andrew Le Peau offers insights he has learned as a published author and an editor for over forty years, training, guiding, and cheering on hundreds of writers. Here are skills that writers can master—from finding strong openings and closings, to focusing on an audience, to creating a clear structure, to crafting a persuasive message. With wide-ranging examples from fiction and nonfiction, Le Peau also demystifies aspects of art in writing such as creativity, tone, and metaphor. He considers strategies that can move writers toward fresher, more vital, and perhaps more beautiful expressions of the human condition. One aspect of writing that rarely

receives attention is who we are as writers and how writing itself changes us. Self-doubt, fear of criticism, downsides of success, questions of authority, and finding our voice are all a part of the exploration of our spirituality as writers found in these pages. Discover how the act of writing can affect our life in God. Whether you're a veteran writer, an occasional practitioner, a publishing professional, or a student just starting to explore such skills, Le Peau's wit and wisdom can speed you on your way.

*Insulting Music* explores insult in and around music and demonstrates that insult is a key dimension of Western musical experience and practice. There is insult in the music we hear, how we express our musical preferences, as well as our reactions to settings and sites of music and music making. More than that, when music and insult overlap, the effects can both promote social justice or undermine it, foster connection or break it apart. The coming together of music and insult shapes our sense of self and view of other people, underlining and constructing difference, often in terms of race and gender. In the last decade, music's power dynamics have become an increasingly important concern for music scholars, critics, and fans. Studying musicians such as Frank Zappa, Nickleback, Taylor Swift, and the Insane Clown Posse, and musical

phenomena such as musician jokes, the use of music to torture people, and the playing of music in restaurants, this book shows the various and contradictory ways insults are used to negotiate those existing dynamics in and around music. *Best.
