 Once cartoonist Pran struck upon an idea  
 of a wise oldman who solves problems

with his sharp intellect. Thus CHACHA CHAUDHARY was born in 1971. Tall and robust SABU, who is an inhabitant of planet Jupiter, gave Chaudhary an ideal company. A combination of wisdom and strength was formed to tackle any difficult task. It is said that " Chacha Chaudhary's brain works faster than a computer". Though both fight the criminals and tricksters, each episode ends with a touch

of humour. The duo perform in lighter vein. The CHAUDHARY family consists of his wife Bini, a fat sharp tongue woman, Sabu, Rocket - the dog and Dag- Dag, an old truck who is half human- half machine. Chacha Chaudhary is the most popular Indian comics. More than 10 million readers enjoy this series regularly in newspapers and comic books in ten languages. A T.V. serial based on the

comics has crossed 500 episodes and still continue to be telecast on premier channel "Sahara ONE".

This pioneering book presents a history and ethnography of adventure comic books for young people in India with a particular focus on vernacular superheroism. It chronicles popular and youth culture in the subcontinent from the mid-twentieth century to the contemporary era dominated by creative audio-video-digital outlets. The authors highlight early precedents in adventures set by the avuncular detective Chacha Chaudhary with his 'faster than a computer brain', the forays of the film veteran Amitabh Bachchan's superheroic alter ego called Supremo, the Protectors of Earth and Mankind (P.O.E.M.), along with the exploits of key comic book characters, such as Nagraj, Super Commando Dhruv, Parmanu, Doga, Shakti and Chandika. The book considers how pulp literature, western comics, television programmes, technological developments and major space ventures sparked a thirst for extraterrestrial action and how these laid

the grounds for vernacular ventures in the Indian superhero comics genre. It contains descriptions, textual and contextual analyses, excerpts of interviews with comic book creators, producers, retailers and distributors, together with the views, dreams and fantasies of young readers of adventure comics. These narratives touch upon special powers, super-intelligence, phenomenal technologies, justice, vengeance, geopolitics, romance, sex and the amazing potentials of masked identities enabled by navigation of the internet. With its lucid style and rich illustrations, this book will be essential reading for scholars and researchers of popular and visual cultures, comics studies, literature, media and cultural studies, social anthropology and sociology, and South Asian studies.

Illustrations used for story-telling and mirth-making have enlivened Asian walls, scrolls, books, public and private places, and artifacts for millennia. Often playful and humorous, Asian pictorial stories lent conspicuous elements to contemporary comic art, particularly with their use of narrative nuance, humor, satire, and dialogue. Illustrating Asia is a fascinating book on a subject that is of wide and topical interest. All of the articles consider cartoon and/or comic art in the historical and social setting of seven South, Southeast, and East Asian countries: India, Taiwan, Malaysia, Indonesia, Sri Lanka, China, and Japan. The contributors treat comic and narrative art—including comic

books, comic strips, picture books, and humor and fan magazines—in both historical and socio-cultural perspectives, as well as portrayals of ancient Chinese philosophy, gender, and the enemy in cartoons and comics. Contributors: Laine Berman, John A. Lent, Fusami Ogi, Rei Okamoto, Ronald Provencher, Aruna Rao, Kuiyi Shen, Shimizu Isao, Shu-chu Wei, Yingjin Zhang.
