When we lie awake at
night listening to

mysterious sounds, we
imagine all the things that
could be making those
strange noises. The
rumbling is the sound of
the refrigerator; the
knocking is from the old
furnace; the creaking is
nothing more than the
house settling...isn't it?
Although the modern
world has denied the
existence of things that
go bump in the night and
has taught us that the
occult couldn't possibly
exist, we know there are
things that science has
yet to explain. Defense

The Master Key System is a personal development book by Charles F. Haanel. Originally a 24 week correspondence course released in 1912, it was published in this book form in 1917. Along with "The Science of Getting

PSYCHIC PROTECTION

Macmillan
A brilliant satire of mass culture and the numbing effects of technology, White Noise tells the story

of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over there lives, an "airborne toxic event" that is a more urgent and visible version of the

white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

A blend of spiritual and practical material, *Spiritual Clearings* offers a comprehensive checklist of situations that may require a personal, home, property, or business clearing, from confronting illness or feeling “stuck” in life, to having trouble selling a home, to high

employee turnover. In addition to describing energetic blockages, such as negative thought forms, author Diana Burney also discusses different categories of energy, its presence in the invisible world, and the unseen influences or beings that may be drawn to discordant energy.

Through spiritual clearings, Burney proposes, we can release our own negativity as well as guide unseen negative forces toward the light. The book’s clearing rituals include prayers that

invoke the assistance of higher beings such as archangels and Ascended Masters, incantations and chants from different spiritual traditions, the visualization of divine light and the violet flame, and the expression of gratitude. Additional meditation and visualization exercises, descriptions of divine beings, and a summary of the universal laws provide readers with a clear path to fulfilling their potential and creating a personal environment of confidence, creativity,

love, and acceptance.

Creating Positive Energies For People And Places The Floating Press

This book was written as a tool for all laymen and healers to handle the psychic attacks and the

ways that many healers are rendered ineffective on their path and mission to heal all living things and our planet. As a teacher and the director the Madonna Ministry, I have seen many healers harmed, their families attacked, and made ineffective through direct and indirect attacks. When a Lightworker walks into places of dark energies such as prisons, old war zones, slums, etc.; or working with people who have been harmed on many levels such as family violence, drug

addiction, incest, etc.; they will need tools that will protect them, their livelihood, the safety of their family and loved ones, etc. As a child, I endured many psychic attacks by demons and other entities. This book will help laymen and healers to shield and protect themselves, and in extreme circumstances, to remove negative energies and entities that are harming your space or your person.

Spiritual Clearings

Oxford University Press
Since it was first

published in 1995, this primer on practical, everyday spirituality as practiced through shamanism has become a sought after classic. Now revised and available in paperback for the first time, this attractive edition with line drawings throughout offers a wide audience ways to connect with their own shamanic power. If you feel distanced from nature, trapped in a material society without meaning or purpose, shamanic wisdom can offer you some answers. Caitlin

Matthews shows how respect and wonder for nature combined with spiritual joy and healing are the essence of the shaman's holistic, vital world. In *Singing the Soul Back Home* she leads readers through a structured learning program of more than 80 exercises that will help them master the skills of the shaman. With practice and sensitivity, anyone can become a "walker between the worlds," aware not only of their own physical reality, but also of the subtle spiritual

reality of the shaman. Following this path will stimulate your creative energies and make you more aware of your own innate healing powers.

Is everything that goes on in your mind really you? Perhaps not, says Australian psychic researcher Robert Bruce. Drawing on more than two decades of firsthand research and experience, Bruce reports that our minds are subject to influences from many unseen spiritual sources. Some of these can influence how we think, feel, act, and even how our bodies function. They can make us unhappy,

irritable, confused, sick, unstable, even crazy. This is why we need practical tools and countermeasures for psychic self-defense, all of which Bruce provides. This is the ultimate guide to combating the influences of earthbound spirits, deranged ghosts, astral snakes and spiders, demonic spirits, and poltergeists. This is a highly anecdotal and comprehensive practical guide to the dark side of the psychic universe.
