An Accessible Guide to the Theory and Practice of Teaching English to Children in Primary Education. Oxford University Press

This book offers a new methodological framework for the CLIL classroom, focusing on how to guide input and support output. Full of real-life examples and practical guidelines, the book provides support to both novice and experienced CLIL teachers. Areas covered include: the language used in CLIL; CLIL teacher training; materials design for CLIL; assessment in CLIL. Extra resources are available on the website: www.oup.com/elt/teacher/clil Phil Ball is a CLIL author and teacher trainer based in

northern Spain. Keith Kelly is a writer and speaker on CLIL worldwide, and is based in Plovdiv, Bulgaria. John Clegg is a textbook author and CLIL consultant based in London.

Teaching and Learning in the Language Classroom

Clarendon Press
As an ESL teacher, have you looked at the phonetics textbooks on the market and decided that they don't directly address your needs? Unlike pronunciation books aimed at students of linguistics or at learners of English, Teaching American English Pronunciation has been written specifically for ESL teachers. It doesn't only give academic descriptions, but also helps you to improve your students' pronunciation effectively.

Success in English Teaching - Oxford Handbooks for Language Teachers Oxford University Press

Motivational Teaching provides a clear overview of the many factors that affect

learner motivation and connects each of them to innovative teaching ideas and strategies. • Features over 100 tried and tested teaching ideas, underpinned by the latest research into learner motivation. • Explores how motivation to learn works both on an individual level and within the classroom environment. • Provides insights to enhance motivation through key teaching processes, from choosing materials and designing tasks to closing lessons and giving feedback. • Investigates how teachers can raise learner motivation across a range of ages, abilities, and backgrounds.

Children Learning Second Languages

Oxford University Press

This book offers detailed accounts of current research in all aspects of grammatical number in language. It draws on work from a range of subdisciplines - including morphology, syntax, semantics, and psycholinguistics - and will be a

valuable resource for students and scholars in all areas of theoretical, descriptive, and experimental linguistics.

V. 1. Cognitions -- v. 2. Critical theories
Bobby Fischer's Remarkable Rise and Fall - from America's Brightest Prodigy to the Edge of Madness Oxford University Press
 Teachers are often told that new teaching methods and materials are 'based on the latest research'. But what does this mean in practice? This book introduces you to some of the language acquisition research that will help you not just to evaluate existing materials, but also to adapt and use them in a way that fits what we currently understand about how languages are learned.

THE OXFORD HANDBOOK OF LINGUISTIC ANALYSIS

Oxford University Press
 This book is intended for teachers of English.

THE OXFORD HANDBOOK OF

UNIVERSAL GRAMMAR

Oxford University Press
 Now in its fifth edition, the award-winning *How Languages are Learned* has established itself as an indispensable introduction to research in language acquisition and its relationship with classroom practice. Patsy Lightbown and Nina Spada have worked for over four decades in second language research and education. They are highly respected worldwide for making theory and research about language learning accessible and relevant to classroom teaching. This widely acclaimed book remains essential reading for second language teachers. • Updated content highlights the latest research into second language learning and its relevance to classroom practice • Activities and questions for reflection personalize content and support critical thinking • Chapter summaries, discussion questions, weblinks and supplementary activities are available online at www.oup.com/elt/teacher/hlal

A COURSE BOOK AND REFERENCE

GUIDE

Oxford University Press
 This volume brings together distinguished scholars from all over the world to present an authoritative, thorough, and yet accessible state-of-the-art survey of current issues in pragmatics. Following an introduction by the editor, the volume is divided into five thematic parts. Chapters in Part I are concerned with schools of thought, foundations, and theories, while Part II deals with central topics in pragmatics, including implicature, presupposition, speech acts, deixis, reference, and context. In Part III, the focus is on cognitively-oriented pragmatics, covering topics such as computational, experimental, and neuropragmatics. Part IV takes a look at socially and culturally-oriented pragmatics such as politeness/impoliteness studies, cross- and intercultural, and interlanguage pragmatics. Finally, the chapters in Part V explore the interfaces of pragmatics with semantics, grammar, morphology, the lexicon, prosody, language change, and information structure. The Oxford Handbook of Pragmatics will be an

indispensable reference for scholars and students of pragmatics of all theoretical stripes. It will also be a valuable resource for linguists in other fields, including philosophy of language, semantics, morphosyntax, prosody, psycholinguistics, and sociolinguistics, and for researchers and students in the fields of cognitive science, artificial intelligence, computer science, anthropology, and sociology.

[A Discourse-Based Approach to English Grammar](#) Oxford University Press

Focus on Grammar and Meaning explores how to teach grammar effectively to second or foreign language learners aged 5–18. It provides teachers with research insights that will help them to reflect on their classroom practice and enable them to experiment with different ways of teaching grammar. Taking a ‘systemic-functional’ approach, the authors emphasize the importance of linking language and meaning in teaching. Key research studies on grammar instruction are featured, examples from real classroom practice are examined, and activities are provided to help teachers relate the content to their own teaching context. Additional online resources at

www.oup.com/elt/teacher/fogm Luciana C. de Oliveira is Associate Professor of TESOL and Applied Linguistics at Teachers College, Columbia University, New York. Mary J. Schleppegrell is Professor of Education at the University of Michigan, Ann Arbor.

TEACHER WELLBEING

Oxford University Press

Techniques and Principles in Language Teaching has influenced the way thousands of teachers have taught English. This classic guide to developing the way you teach has been an essential resource to new and experienced teachers worldwide, and is now in its third edition. Each chapter focuses on a different teaching approach, describing it being used in the classroom, analyzing what happened, and helping you think how you could apply it to your own teaching. New features of the third edition include: a new discussion on the political dimensions of language teaching, a new digital technology chapter, and extended coverage of content-based and task-based approaches. On this site you will find additional resources, including author

videos in which Diane Larsen-Freeman and Marti Anderson talk about the background to the book and new innovations in language teaching which are discussed in the third edition.

[A Concise Grammar for English Language Teachers](#) Oxford University Press

This Handbook is a comprehensive, authoritative, and accessible guide to the topics and theories that current form the front line of research into tense, aspect, and related areas.

[How Languages Are Learned 5th Edition](#) John Wiley & Sons

The Oxford Guide to English Grammar is a systematic account of grammatical forms and the way they are used in modern standard English. It is designed for learners at intermediate and advanced levels and for teachers, and is equally suitable for quick reference to details or for the more leisurely study of grammatical topics. The emphasis is on meaning in the choice of grammatical pattern, and on the use of patterns in texts and in conversations.

THE OXFORD HANDBOOK OF

ERGATIVITY

Crown

This comprehensive guide to research and debate centres around language learning in childhood, the age factor and the different contexts where language learning happens, including home and school contexts. The scope is wide, capturing examples of studies with different age groups, different methodological approaches and different languages.

The Teacher's Grammar of English with Answers

Oxford University Press
English is the major language of international communication, and everyone wants to learn it. But which English, and how? Teaching English as an International Language provides an accessible overview of this increasingly important field. Sandra Lee McKay questions the cultural assumptions underlying much English teaching, arguing that classroom aims and methodology should be based on the requirements of an international language.

English Grammar Oxford University Press
This book seeks to support and maintain

teacher wellbeing, particularly for language teachers, through a variety of approaches. While acknowledging the importance of contextual factors, the book serves as a practical guide for individual teachers, helping them discover strategies for nurturing and promoting their wellbeing.

Focus on Grammar and Meaning OUP
Oxford

This ambitious Handbook takes advantage of recent advances in the study of the history of English to rethink the understanding of the field.

TEACHING AMERICAN ENGLISH PRONUNCIATION - OXFORD HANDBOOKS FOR LANGUAGE TEACHERS

Oxford University Press

Draws on research in a variety of fields and applies it to teaching practice
Features topics of current concern, including defining the roles of teachers and learners, critical pedagogy, interactive learning, and using innovative teaching materials. Includes criteria for and advice on evaluating classroom activities,

especially those provided in the published materials that most teachers typically use. Can be used as a reference text or handbook by individual teachers or as a sourcebook or class text by teacher trainers. Written mainly for practising teachers but can be used by new and inexperienced teachers to give a thorough introductory overview of ELT.

Understanding the Basics OUP Oxford

An overview of the issues surrounding the teaching of young learners combines up-to-date research with principles of classroom practice to discuss skills, vocabulary, grammar, adapting and designing materials, planning and assessment, and policy decisions.

How Vocabulary is Learned Explaining English Grammar
A Guide to Explaining Grammar for Teachers of English as a Second Or Foreign Language.

This handbook provides an authoritative, critical survey of current research and knowledge in the grammar of the English language. Following an introduction from the editors, the volume's expert contributors explore a range of core topics in English grammar, beginning with issues in grammar writing and methodology.

Chapters in part II then examine the various theoretical approaches to grammar, such as cognitive, constructional, and generative approaches, followed by the chapters in part III, which comprehensively cover the different subdomains of grammar,

including compounds, phrase structure, clause types, tense and aspect, and information structure. Part IV offers coverage of the relationship between grammar and other fields - lexis, phonology, meaning, and discourse - while the concluding part of the book

investigates grammatical change over time, regional variation, and genre and literary variation. The handbook's wide-ranging coverage will appeal to researchers and students of English language and linguistics from undergraduate level upwards.
