Love, Poverty, and War Anchor

"Hitchens presents a George Orwell fit for the twenty-first century." --Boston Globe In this widely acclaimed biographical essay, the masterful polemicist Christopher Hitchens assesses the life, the achievements, and the myth of the great political writer and participant George Orwell. True to his contrarian style, Hitchens is both admiring and aggressive, sympathetic yet critical, taking true measure of his subject as hero and problem. Answering both the detractors and the false claimants, Hitchens tears down the façade of sainthood erected by the hagiographers and rebuts the critics point by point. He examines Orwell and his perspectives on fascism, empire, feminism, and Englishness, as well as his outlook on America, a country and culture toward which he exhibited much ambivalence. Whether thinking about empires or dictators, race or class, nationalism or popular culture,

Orwell's moral outlook remains indispensable in a world that has undergone vast changes in the seven decades since his death. Combining the best of Hitchens' polemical punch and intellectual elegance in a tightly woven and subtle argument, this book addresses not only why Orwell matters today, but how he will continue to matter in a future, uncertain world.

THE PORTABLE ATHEIST

Verso

In this exclusive boxset, three of Hitchens' most devastating attacks are collected for the first time. Including books on Bill Clinton, Henry Kissinger and Mother Teresa, Hitchens Attacks showcases Hitchens' verve, style and firebrand wit at the height of their potency.

The Triangulations of William Jefferson Clinton Verso Books

In 2016 the Democratic Party lost control of every branch of government. Countless explanations and excuses have been offered, but in this heartfelt, evocative book longtime Democratic

activist Thomas B. Reston illuminates the true cause: the Party has lost its soul. In Reston's view the Party has abandoned any unifying idealistic message. Instead of crafting policies and platforms that appeal to the nation as a whole, Democrats target specific blocs of voters –and change their talking points accordingly. This divisive approach will not end well for Democrats, or the country as a whole. If they want to remain competitive on the national stage, Reston argues, Democrats need a coherent, blunt set of American ideals. The good news is, they already have one. In *Soul of a Democrat*, Reston takes us on a journey through the history of the Party with thumbnail portraits of its most important figures, illuminating the core ideals and principles they fought for. Thomas Jefferson founded the Democratic Party to lift up the people as a whole by empowering each individual citizen. Andrew Jackson committed the party to always fight for outsiders. Woodrow Wilson insisted on a progressive respect for ideas. William Jennings Bryan introduced the altruistic Social Gospel. Franklin D. Roosevelt promised economic security for all. Lyndon B. Johnson championed the ongoing struggle for civil rights. These Democratic statesmen knew that a successful party needs strong idealistic roots, an understandable message, and an emphatic focus on the purpose of what it is doing, instead of on the mechanics. Reston's concise and elegant book shows modern Democrats how to learn from their own past, and once again become The Party of The People.

The Virtues of Mendacity Grand Central Publishing

The Harper's columnist and author of *The Wrecking Crew* profiles how conservative Republicans have rebounded after the election of Barack Obama, outlining their strategy of total opposition to

the liberal state while arguing that their policies further injure victims of the recession.

Dereliction of Duty Atlantic Books (UK)

When Michael Dukakis accused George H. W. Bush of being the "Joe Isuzu of American Politics" during the 1988 presidential campaign, he asserted in a particularly American tenor the near-ancient idea that lying and politics (and perhaps advertising, too) are inseparable, or at least intertwined. Our response to this phenomenon, writes the renowned intellectual historian Martin Jay, tends to vacillate—often impotently—between moral outrage and amoral realism. In *The Virtues of Mendacity*, Jay resolves to avoid this conventional framing of the debate over lying and politics by examining what has been said in support of, and opposition to, political lying from Plato and St. Augustine to Hannah Arendt and Leo Strauss. Jay proceeds to show that each philosopher's argument corresponds to a particular conception of the political realm, which decisively shapes his or her attitude toward political mendacity. He then applies this insight to a variety of contexts and questions about lying and politics. Surprisingly, he concludes by asking if lying in politics is really all that bad. The political hypocrisy that Americans in particular periodically decry may be, in Jay's view, the best alternative to the violence justified by those who claim to know the truth.

Class Notes e-artnow sro

"Art of Mentoring" series In the book that he was born to write, provocateur and best-selling author Christopher Hitchens inspires future generations of radicals, gadflies, mavericks, rebels, angry young (wo)men, and dissidents. Who better to speak to that person who finds him or herself in a contrarian position than

Hitchens, who has made a career of disagreeing in profound and entertaining ways. This book explores the entire range of "contrary positions"-from noble dissident to gratuitous pain in the butt. In an age of overly polite debate bending over backward to reach a happy consensus within an increasingly centrist political dialogue, Hitchens pointedly pitches himself in contrast. He bemoans the loss of the skills of dialectical thinking evident in contemporary society. He understands the importance of disagreement-to personal integrity, to informed discussion, to true progress-heck, to democracy itself. Epigrammatic, spunky, witty, in your face, timeless and timely, this book is everything you would expect from a mentoring contrarian.

The World As It Is University of Virginia Press

As the Duke and Duchess of Sussex bring renewed focus to the monarchy, now is the perfect time to re-examine Christopher Hitchens's powerful polemic. In this scathing essay, Christopher Hitchens looks at the relationship of the press and the public to the royal family, unpacking the tautology and contradictory arguments that prop it up. In his inimitable style, Hitchens argues that our desire not to profane or disturb the monarchy is a failure of reason and a confusion of reality. Fealty to the magic of monarchy stops us looking objectively at our own history and hinders open-minded criticism of our present. It is time we outgrew it. With the recent birth of royal baby Archie, during a time of austerity and national inequality, Hitchens's 10,000-word critique is even more relevant today than when it was first published in 1990. 'Christopher is one of the most terrifying rhetoricians that the world has yet seen' Martin Amis

Tales from the Assembly Line All Points Books

Examines black voters' relationship to the political process and to the first black president in a prematurely post-racial America using interviews with members of the Congressional Black Caucus, empirical data, news accounts, academic literature and case law.

MOTHER THERESA IN THEORY AND PRACTICE

Penguin

The New York Times bestselling exposé of what passes for business as usual in Washington today There was a time, not so very long ago, when perfectly rational people ran the Republican Party. So how did the party of Lincoln become the party of lunatics? That is what this book aims to answer. Fear not, the Dems come in for their share of tough talk— they are zombies, a party of the living dead. Mike Lofgren came to Washington in the early eighties—those halcyon, post-Nixonian glory days—for what he imagined would be a short stint on Capitol Hill. He has witnessed quite a few low points in his twenty-eight years on the Hill—but none quite so pitiful as the antics of the current crop of legislators whom we appear to have elected. Based on the explosive article Lofgren wrote when he resigned in disgust after the debt ceiling crisis, *The Party Is Over* is a funny and impassioned exposé of everything that is wrong with Washington. Obama and his tired cohorts are no angels but they have nothing on the Republicans, whose wily strategists are bankrupting the country one craven vote at a time. Be prepared for some fireworks.

VERSES FOR A DESPOTIC AGE

Signal

The classic and deeply prescient collection that explores the multifaceted nature of race, class, and identity in America, from one of our most insightful and iconoclastic intellectuals. Hailed by Publishers Weekly for its “forceful” and “bracing opinions on race and politics,” *Class Notes* is a collection of critic Adolph Reed Jr.’s clearest thinking on matters of race, class, and other American dilemmas. With barbed wit, Reed takes aim against the solipsistic, individualistic approaches of identity politics, and in favor of class-based political interpretation and action. Reed leaves no topic untouched, from the myth that there exists a particular kind of “Black Anti-Semitism,” to the grift perpetuated by commentators who claim to speak for groups solely based on their identity categories. Adolph Reed Jr. remains one of our most controversial and necessary interpreters of American politics. These essays illustrate why Reed is “the smartest person of any race, class, or gender writing on race, class, and gender” (Katha Pollitt). *Class Notes* is a classic text that signposts a path for the Left—out of essentialist gridlock and into meaningful, goal-oriented mass politics.

Why Orwell Matters Chronicle Books

A celebration of Percy Shelley's assertion that 'poets are the unacknowledged legislators of the world', these thirty-plus essays on writers from Oscar Wilde to Salman Rushdie dispel the myth of politics as a stone tied to the neck of literature; Norman Podhoretz's 'bloody crossroads'. Instead Hitchens argues that when all parties in the state were agreed on a matter, it was the

individual pens that created the space for a true moral argument.

FOCUS ON: 100 MOST POPULAR DEATHS FROM PNEUMONIA

Springer

Suggests that President Clinton's largest legacy may be the weakening of the presidency and of the Democratic Party.

On Lying in Politics Simon and Schuster

In this unique biography of Thomas Jefferson, leading journalist and social critic Christopher Hitchens offers a startlingly new and provocative interpretation of our Founding Father. Situating Jefferson within the context of America's evolution and tracing his legacy over the past two hundred years, Hitchens brings the character of Jefferson to life as a man of his time and also as a symbolic figure beyond it. Conflicted by power, Jefferson wrote the Declaration of Independence and acted as Minister to France yet yearned for a quieter career in the Virginia legislature. Predicting that slavery would shape the future of America's development, this professed proponent of emancipation elided the issue in the Declaration and continued to own human property. An eloquent writer, he was an awkward public speaker; a reluctant candidate, he left an indelible presidential legacy. Jefferson's statesmanship enabled him to negotiate the Louisiana Purchase with France, doubling the size of the nation, and he authorized the Lewis and Clark expedition, opening up the American frontier for exploration and settlement. Hitchens also analyzes Jefferson's handling of the Barbary War, a lesser-known chapter of his political career, when his attempt to end the kidnapping and bribery of Americans by the Barbary states, and

the subsequent war with Tripoli, led to the building of the U.S. navy and the fortification of America's reputation regarding national defense. In the background of this sophisticated analysis is a large historical drama: the fledgling nation's struggle for independence, formed in the crucible of the eighteenth-century Enlightenment, and, in its shadow, the deformation of that struggle in the excesses of the French Revolution. This artful portrait of a formative figure and a turbulent era poses a challenge to anyone interested in American history -- or in the ambiguities of human nature.

THE ENDURING ANGLO-AMERICAN RELATIONSHIP

Basic Books

The author of *Why Orwell Matters* demonstrates how Thomas Paine's Declaration of the Rights of Man, first published in 1791, a passionate defense of the inalienable rights of humankind, forms the philosophical cornerstone of the United States of America, in an engaging critical work. Reprint.

THE AMERICAN REVOLUTION

Grand Central Publishing

The mesmerizing story of Hillary Clinton's political rebirth, based on eyewitness accounts from deep inside her inner circle Hillary Clinton's surprising defeat in the 2008 Democratic primary

brought her to the nadir of her political career, vanquished by a much younger opponent whose message of change and cutting-edge tech team ran circles around her stodgy campaign. And yet, six years later, she has reemerged as an even more powerful and influential figure, a formidable stateswoman and the presumed front-runner for the 2016 Democratic presidential nomination, marking one of the great political comebacks in history. The story of Hillary's phoenixlike rise is at the heart of HRC, a riveting political biography that journeys into the heart of "Hillaryland" to discover a brilliant strategist at work. Masterfully unfolded by Politico's Jonathan Allen and The Hill's Amie Parnes from more than two hundred top-access interviews with Hillary's intimates, colleagues, supporters, and enemies, HRC portrays a seasoned operator who negotiates political and diplomatic worlds with equal savvy. Loathed by the Obama team in the wake of the primary, Hillary worked to become the president's greatest ally, their fates intertwined in the work of reestablishing America on the world stage. HRC puts readers in the room with Hillary during the most intense and pivotal moments of this era, as she mulls the president-elect's offer to join the administration, pulls the strings to build a coalition for his war against Libya, and scrambles to deal with the fallout from the terrible events in Benghazi—all while keeping one eye focused on 2016. HRC offers a rare look inside the merciless Clinton political machine, as Bill Clinton handled the messy business of avenging Hillary's primary loss while she tried to remain above the partisan fray. Exploring her friendships and alliances with Robert Gates, David Petraeus, Leon Panetta, Joe Biden, and the president himself, Allen and Parnes show how Hillary fundamentally transformed the State

Department through the force of her celebrity and her unparalleled knowledge of how power works in Washington. Filled with deep reporting and immersive storytelling, this remarkable portrait of the most important female politician in American history is an essential inside look at the woman who may be our next president.

Journeys and Essays Verso

Many liberals are disappointed with Barack Obama. Some talk of “betrayal,” while others are writing abject letters to the White House asking the president to come back to his “true self.” Chris Hedges, however, is a progressive who doesn't feel betrayed. “Obama was and is a brand,” he argues. “He is a product of the Chicago political machine. He has been skillfully packaged by the corporate state.” In his newest book, Hedges argues that the conscious inertia of the left is destroying the progressive movement. Inaction and empty moral posturing leads not to change, but to an orgy of self-adulation and self-pity. Hedges argues that the gravest danger we face as a nation is not from the far right, although the right may well inherit power. Instead, the threat comes from a bankrupt liberal class that has lost the will to fight and the moral courage to stand up for what it espouses.

Trumpty Dumpty Wanted a Crown Macmillan

Since the end of the Cold War so-called experts have been predicting the eclipse of America's “special relationship” with Britain. But as events have shown, especially in the wake of 9/11, the political and cultural ties between America and Britain have grown stronger. *Blood, Class and Empire* examines the dynamics of this relationship, its many cultural manifestations—the James

Bond series, PBS “brit Kitsch,” Rudyard Kipling—and explains why it still persists. Contrarian, essayist and polemicist Christopher Hitchens notes that while the relationship is usually presented as a matter of tradition, manners, and common culture, sanctified by wartime alliance, the special ingredient is empire; transmitted from an ancien regime that has tried to preserve and renew itself thereby. England has attempted to play Greece to the American Rome, but ironically having encouraged the United States to become an equal partner in the business of empire, Britain found itself supplanted.

No One Left to Lie To Harper Collins

“If someone says I'm doing this out of faith, I say, Why don't you do it out of conviction?” —CHRISTOPHER HITCHENS One of his generation's greatest public intellectuals, and perhaps its fiercest, Christopher Hitchens was a brilliant interview subject. This collection—which spans from his early prominence as a hero of the Left to his controversial support for the wars in Iraq and Afghanistan toward the end of his life— showcases Hitch's trademark wit on subjects as diverse as his mistrust of the media, his love of literature, his dislike of the Clintons, and his condemnation of all things religious. Beginning with an introduction and tribute from his longtime friend Stephen Fry, this collection culminates in Hitchens's fearless final interview with Richard Dawkins, which shows a man as unafraid of death as he was of everything in life.

RIVETHEAD

Random House

David Kupelian, veteran journalist and bestselling author of *The*

Marketing of Evil, probes the millennia-old questions of evil—what it is, how it works, and why it so routinely and effortlessly ruins our lives—once again demonstrating his uncanny knack for demystifying complex, elusive, and intimidating subjects with fresh insights into the hidden mechanisms of seduction, corruption, religion, and power politics. Analyzing today’s most electrifying news stories and hot-button topics, Kupelian explores such profoundly troubling questions as Why are big lies more

believable than little ones? How does terrorism really work? Why do so many celebrities who “have it all” end up self-destructing? Why are boys doing worse in school today than girls? Why do we treat the problems of anger and depression with drugs? . . . and much more. Fortunately, once we really understand “how evil works”—both in our own lives and in the world at large—evil loses much of its power and the way out becomes more clear.
