1. Faith, 2. Repentance, 3. Water Baptism, 4. Spirit Infilling, 5. Continuance. Contrary to the tradition and "gutted" gospel of Christio-religious easy-believers, the doctrine of salvation introduced with the birth of the church in Jerusalem, Israel in the year 33 AD has never changed. The Bible's book of Acts records the early history of God's one and only church whose doctrines and teaching remain the basis for New Testament salvation as we "... are built upon the foundation of the apostles and prophets, Jesus Christ himself being the chief corner stone;" Eph. 2:20. Though the world and human society seem to be ever awash in a turbulent sea of change and upheaval, God's word has not, does not, and will not change. This fact, providing an anchor of comfort and stability to many, also provides a very inconvenient obstacle to others who, as we have been forewarned, would attempt to "pervert the gospel of Christ." Gal 1:7. In "5 Steps to Salvation" analysis is applied to the teachings of Jesus and his apostles, specifically with regard to the New Testament doctrine of salvation. Whether this book serves simply as a refresher course for the reader, or introduces new biblical perspectives, may the truth of God's word be a lamp unto your feet and a light unto your path.

She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. *Families Caring for an Aging America* examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Captured not by a concept but by your Creator, reborn in relationship. Here's the Experiencing God that has already impacted millions of people. Only it's bigger, and better, and ready to lead you again—or for the very first time—into an experience with God.

Carefully listening to His voice will anchor you in His plan, and set you free to live it with boldness and freedom. After a thorough revision, this landmark volume returns with seven new chapters, as well as dozens of true stories from people who, through this book, have experienced God.

Blueprints for Developing Leadership at Every Level of Your Church Zondervan

Leading a small group can literally change the world. We have been commissioned to make disciples who make disciples, and Jesus showed us that the best way to carry that out is through small groups of believers. Just like the first-century church, small groups form the foundation to take the gospel to the ends of the earth. Chris Surratt, Discipleship and Small Groups Specialist for LifeWay Christian Resources, and author of *Small Groups for the Rest of Us*, wants to help you get from here to there. Regardless of whether you have never lead a small group or have been leading one for years, all of us want to know how to create environments where spiritual growth takes place and communities are changed. *Leading Small Groups* walks the reader through the stages of gathering, launching, leading, and multiplying a gospel-centered small group. There are also follow-up questions for discussion and reflection at the end of each section, and practical resources that can be implemented immediately by the small group leader. Jesus left his followers with a task—the Great Commission. This book will help small group leaders and churches in their obedience to this task.

Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, *Fluent In 3 Months*. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. *Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World* is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.

Over the last twenty years or so, most of the work on the syntax of Philippine languages has been focused on the question of whether or not these languages can be said to have grammatical subjects, and if so which argument of a basic transitive clause should be analysed as being the subject. Paul Kroeger's contribution to this debate asserts that grammatical relations such as subject and object are syntactic notions, and must be identified on the basis of syntactic properties, rather than by semantic roles or discourse functions. A large number of syntactic processes in Tagalog uniquely select the argument which bears the nominative case. On the other hand, the data which have been used in the debate to assert the ambiguity of subjecthood are best analysed in terms of semantic rather than syntactic constraints. Together these facts support an analysis that takes the nominative argument as the subject. Kroeger examines the history of the subjecthood debate and uses data from Tagalog to test the theories that have been put forth. His conclusions entail consequences for certain linguistic concepts and theories, and lead Kroeger to assert that grammatical relations are not defined in terms of surface phrase structure configurations, contrary to the assumptions of many approaches to syntax including the Government-Binding theory. Paul Kroeger is presently doing fieldwork in Austronesian languages and teaching linguistics to fieldworkers from around the world.

The classic collection of Dr. King's sermons that fuse his Christian teachings with his radical ideas of love and nonviolence as a means to combat hate and oppression. As Martin Luther King, Jr., prepared for the Birmingham campaign in early 1963, he drafted the final sermons for *Strength to Love*, a volume of his most well known homilies. King had begun working on the sermons during a fortnight in jail in July 1962. While behind bars, he spent uninterrupted time preparing the drafts for works such as "Loving Your Enemies" and "Shattered Dreams," and he continued to edit the volume after his release. *Strength to Love* includes these classic sermons selected by Dr. King. Collectively they present King's fusion of Christian teachings and social consciousness and promote his prescient vision of love as a social and political force for change.

In today's uncertain world, storms will arise that test your faith in a loving heavenly Father. At times, the winds and waves of the world's deceptions will roll in and seek to erode your confidence in God. Without a firm foundation in the truth of God's Word, you may be tempted to go off course and accept less than God's best for you. However, when you hear Jesus' words, receive them, and put them into practice, you will construct a life the torrents cannot shake, "because it was well built" (Luke 6:48). The Purple Book will help you understand foundational truths that God wants you to hear on topics such as sin, salvation, spiritual gifts, prayer, worship, generosity, and evangelism. It will show you how the Bible is "God-breathed and is useful for teaching, rebuking, correcting and training in righteousness" (2 Timothy 3:16). It will help you understand that the faith you hold has true power to change lives and transform nations. It will give you a solid foundation the enemy cannot dismantle—and a heart shaped by knowledge of God's Word.

Training the next generation of leaders is crucial to spreading the gospel, yet most churches have no formal way of doing this. Why? Tight budgets, small staffs, and a lack of know-how are just a few reasons suggested by church consultants Aubrey Malphurs and William Mancini in this groundbreaking book. *Building Leaders* provides real-life examples of ways churches can unleash their true ministry potential by training staff members and laypeople to lead. With step-by-step instructions that can be applied to any church or parachurch ministry, *Building Leaders* shows readers how to: - empower, not just train, leaders - overcome obstacles to developing leaders - identify emerging leaders - use biblical models for training leaders - form a leadership training program to fit any size or budget Packed with surveys, discussion questions, and a leadership development guide, *Building Leaders* will encourage leaders to "duplicate themselves" in order to see their ministry grow. It is a perfect resource for ministry students, church leaders, and pastors.

DON T read this book if you want to remain comfortable! Eric challenges us to consider what Biblical discipleship looks like based on what Jesus did. Eric writes this book with the integrity of a man who is not merely theorizing about the way things ought to be, rather he is describing what is actually happening as he builds Biblical disciples in the context of the inner city. This book is soundly Biblical, challenging and practical. This book is about building disciples not programs. Roger Hershey, Campus Crusade For Christ It is a joy to highly commend to all Discipleship Defined, for it is exactly the prescription that is needed for the Church to regain much of our lost effectiveness. "Discipleship Defined has carefully described, yet without programming it into a rigid system, how to go about this challenging task. Walter C. Kaiser, Jr., President Emeritus Gordon-Conwell Theological Seminary Eric Russ gives us some very straight forward thinking about discipleship, a topic widely misunderstood and undervalued. Moving away from piety-driven discipleship, Russ points us toward a holistic, Christ-centered way of following Jesus. Jonathan Dodson, Lead Pastor Austin City Life, Austin, TX. Eric has a healthy obsession about strong discipleship, and it shows in a gracious way in this guidebook for muscular commitment. Can you be obsessed and still have a gracious spirit? Eric does, and so does this book! Knute Larson, Senior Pastor The Chapel, Akron, OH (1983-2009) Eric Russ is lead pastor of Mack Avenue Community Church in Detroit, Michigan. Life is painful. Everyone's story comes with unique challenges, difficulties, bumps, and bruises that leave you lost and drowning in their wake. It could be a financial disaster, a health issue, a broken relationship, or the loss of a loved one. Dr. Tony Evans, bestselling author and pastor of Oak Cliff Bible Fellowship, understands life's hardships firsthand. In a span of less than two years, he lost his brother, sister, brother-in-law, two nieces, father, and wife. At the same time, both of his daughters received cancer diagnoses. In the wake of all this pain, Dr. Evans had to put into practice, at the deepest levels, the truths he has preached about God for more than forty years. God's Word doesn't promise us a life free from pain and trouble. It promises us something else—Someone else. Someone who will walk with us through all of life's trials and troubles. There is hope for the hurting: His name is Jesus.
