The Scooter Bible is an entertaining, colorful, and authoritative history of the little motorbikes that could. Beginning with the first motor scooter in 1902, Eric Dregni is your guide to everything

from the postwar American scooter boom to the golden age of Italian and European scooters, the rise of Mod scooter culture in England . . . right up to modern electric scooters. Today, nostalgia for vintage Vespa, Piaggios, Cushman's, Lambrettas, and other top brands drive a new thirst for retro-inspired scooters in showrooms around the world. This revised and updated edition of *The Scooter Bible* brings the story up to date with the drive for zero emissions via electric vehicles. Throughout, author Eric Dregni offers you a wealth of imagery: historic black-and-white photos, evocative period advertisements, manufacturer photos, and more—over 500 images! Along the way, he also shows you scooter evolution, changing technologies, and scooter appearances in popular culture. And as the most comprehensive scooter book ever, *The Scooter Bible* also includes the world's most exhaustive encyclopedia of scooter brands, from Puddlejumper to Piaggio, Ducati to Doodlebug, and Zündapp Bella to Genuine Stella. *The Scooter Bible* is all you need before kick-starting your scooter engine to life and praying for ever more speed. Indeed, scooters are mechanical marvels on two wheels. Streamlined spuds. Mutant oddballs of Jet Age styling gone berserk. Innovative inventions shoehorned like sardines into miniaturized monocoque bodies. Engineering and styling enigmas (the stranger the better). They are the weird and the wonderful. And they are all here in *The Scooter Bible*.

p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 11.0px Arial} The first Lambretta rolled off the production line in October 1947. It was named after the Lambrate quarter of Milan, the site of Innocenti's factory, and designed by engineer Pierluigi Torre. The Lambretta was intended to provide cheap transport for postwar Italy, like the Vespa, although its concept was very different to that of its rival. Although production in Italy ceased in 1971, it

carried on elsewhere and the Lambretta - at 50 - is still hugely popular with young and old alike.

From its origins the Italian battlefields of the Second World War, to movie roles as Audrey Hepburn's transport in *Roman Holiday* and Sting's stylish companion in *Quadrophenia* and on through the current vintage revival, the classic Italian motor scooter is an enduring design classic from the 20th century. Scootermania celebrates the superbly simple vehicles that are so symbolic of freedom, style and the modern world. Originating in the 1940s in Milan and Pontedera, Tuscany, the scooter became an enduring transport choice for young people and urban environments. Early chapters look at scooter racing and long-distance attempts, and their role as an anti-tank weapon in the French army. There is engaging coverage of place of scooters in popular culture from films, music and fashion including the way that a host of disparate groups has made the bikes their own - from the British Mods of the 1960s and 1980s to their role in American and Japanese fashion and in their Italian homeland. The evolution and design of classic models as the Vespa 150 GS and the Lambretta Li 150 Series 3 are covered while scooter stars such as Enrico Piaggio and Georges Monneret are celebrated in their own words. The book also includes a number of specially photographed features on modern scooter designers, collectors and artists.

This is mainly a photographic reference book to classic scooters and microcars with specification data presented in A to Z order of manufacturer. There are also nostalgic recollections by the author based on ownership and personal experience. In the middle 1950s as a teenager Mike Dan became interested in these then newly-arrived forms of transport. Eventually Mike owned a series of scooters and a microcar. He became involved in Scooter and Microcar Clubs and took part in many local and national sporting events gaining a collection of awards and trophies. In the mid 1980s he had time again to visit many indoor and outdoor classic vehicle shows. Eventually this led to a renewed personal involvement in the restoration of a series of over twenty classic scooters and three classic microcars. This highly entertaining book and reference source is therefore written with the authority of a lifetime enthusiast.

Set your pulse racing with this stunning visual guide to over 1000 pin-up machines - iconic symbols of wanderlust, speed, and the open road. From Gottlieb Daimler's gas-powered "engine on a bicycle" which set fire to the seat on its first outing, to superbikes such as the Ducati 916, *Motorcycle: The Definitive Visual History* takes you on an enthralling tour of the bike's history. It shows you bikes that appeal to the head - practical forms of transport - and to the heart - a parade of classic pin-ups including cult machines such as the Honda RC30, the Triumph Bonneville, and the Harley-Davidson XR750. *Motorcycle: The Definitive Visual History* shows the brilliance and impracticality of different designs and features detailed cross-sections of engines such as the air-cooled two-stroke. It explains how the great marques such as the Royal Enfield, the "legendary" Indian Scout, Vespa, and Norton all became household names. Whether you are a hardcore enthusiast or looking forward to your first machine, this is one title you cannot be without.

Auto a due ruote del primo dopoguerra, bandiera della rivoluzione giovanile, acclamato simbolo di stile in equilibrio sulla tradizione. La Vespa è qualcosa di più che lo scooter più venduto nel mondo, o un significativo simbolo del design italiano: è un irripetibile fenomeno di costume che accompagna la nascita del Paese dal 1946 ad oggi. La storia di questo magico "tappeto volante" in Italia e nel mondo e l'esame dettagliato di numerosi modelli sono accompagnati da splendide fotografie originali. Edizione in lingua inglese.

Vespa and Lambretta remain the two most iconic motor scooter brands, even four decades after the latter's demise. But what made them such a European sensation in the postwar era? And why were they particularly popular in Britain in the 1950s and '60s? Motor scooter expert Stuart Owen explains the rise of Innocenti's Lambretta and Piaggio's Vespa, from the wartime ruins of Italy, through years of plenty as the two manufacturers exploited a ready market for affordable, economic transport, and then their decline into more uncertain times as motor cars trespassed on their success. He also explores the rich history of accessorising and customising the scooters, their essential role in the mod movement, and the revival in Vespa's fortunes following the release of the cult film *Quadrophenia*.

Nightclubs and music venues are often the source of a lifetime's music taste, best friends and vivid memories. They can define a town, a city or a generation, and breed scenes and bands that change music history. In *Life After Dark* Dave Haslam reveals and celebrates a definitive history of significant venues and great nights out. Writing with passion and authority, he takes us from vice-ridden Victorian dance halls to acid house and beyond; through the jazz decades of luxurious ballrooms to mods in basement dives and the venues that nurtured the Beatles, the Stones, Northern Soul and the Sex Pistols; from psychedelic light shows to high street discos; from the Roxy to the Hacienda; from the Krays to the Slits; and from reggae sound systems to rave nights in Stoke. In a journey to dozens of towns and cities, taking in hundreds of unforgettable stories on the way, Haslam explores the sleaziness, the changing fashions, the moral panics and the cultural and commercial history of nightlife. He interviews clubbers and venue owners, as well as DJs and musicians; he meets one of the gangsters who nearly destroyed Manchester's nightlife and discusses Goth clubs in Leeds with David Peace. *WALNECK'S CLASSIC CYCLE TRADER, JANUARY 1998* Taylor & Francis
