I Didn't Talk Deep Vellum Publishing
 "The highly acclaimed foundation textbook Rubin's Pathology: Clinicopathologic Foundations of Medicine, now in its sixth edition, provides medical students with a lucid discussion of basic disease processes and their effects on cells, organs, and people. The streamlined coverage includes only what medical students need to know and provides clinical application of the chapter concepts. Icons signal discussions of pathogenesis, pathology, epidemiology, etiological factors, and clinical features. Rubin's Pathology is liberally illustrated with

full-color graphic illustrations, gross pathology photos, and micrographs. The sixth edition is completely updated with expanded and revised context. A suite of exciting online tools for students includes a fully searchable e-text with all images, 140 interactive case studies, 1500 audio review questions, summary podcast lectures, and a selection of mobile flash cards for iPhone, iPod, and BlackBerry from the new Rubin's Pathology Mobile Flash Cards. Resources for faculty include a 600 question test generator and chapter outlines and objectives"--

The English-language debut of a master stylist: a compassionate but relentless novel about the long, dark harvest of Brazil's totalitarian rule A professor prepares to retire—Gustavo is set to move from Sao Paulo to the countryside, but it isn't the urban violence he's fleeing: what he fears most is the violence of his memory. But as he

sorts out his papers, the ghosts arrive in full force. He was arrested in 1970 with his brother-in-law Armando: both were vicariously tortured. He was eventually released; Armando was killed. No one is certain that he didn't turn traitor: I didn't talk, he tells himself, yet guilt is his lifelong harvest. *I Didn't Talk* pits everyone against the protagonist—especially his own brother. The torture never ends, despite his bones having healed and his teeth having been replaced. And to make matters worse, certain details from his shattered memory don't quite add up...

Beatriz Bracher depicts a life where the temperature is lower, there is no music, and much is out of view. I

Didn't Talk's pariah's-eye-view of the forgotten "small" victims powerfully bears witness to their "internal exile." I didn't talk, Gustavo tells himself; and as Bracher honors his endless pain, what burns this tour de force so indelibly in the reader's mind is her intensely controlled voice.

MONEY AND POWER

New Directions Publishing
Set in a fictional town in West China, this is the story of the Duan-Xue family, owners of the lucrative chilli bean paste factory, and their formidable matriarch. As Gran's eightieth birthday approaches, her middle-aged children get together to make preparations. Family secrets are revealed and long-time

sibling rivalries flare up with renewed vigour. As Shengqiang struggles unsuccessfully to juggle the demands of his mistress and his wife, the biggest surprises of all come from Gran herself.....

Established since 1986 as the definitive text and reference on use

of radiation therapy for childhood cancer, Pediatric Radiation Oncology is now in its thoroughly revised and updated Fifth Edition.

This edition reviews all significant recent clinical trials—including, for the first time, significant European clinical trials—and provides increased coverage of international and Third World issues. The latest cancer staging guidelines are included. New chapters cover psychosocial aspects of radiotherapy for the child and family and medical management of pain, nausea, nutritional problems, and blood count depression in the child with cancer. This edition also has full-color illustrations throughout. A

companion website includes the full text and an image bank.

Notable International Crime Novel of the Year - Crime Reads / Lit Hub

From a prize-winning Turkish novelist, a heady, political tale of one man's search for identity and meaning in Istanbul after the loss of his memory. A blues singer, Boratin, attempts suicide by jumping off the Bosphorus Bridge, but opens his eyes in the hospital. He has lost his memory, and can't recall why he wished to end his life. He remembers only things that are unrelated to himself, but confuses their timing. He knows that the Ottoman

Empire fell, and that the last sultan died, but has no idea when. His mind falters when remembering civilizations, while life, like a labyrinth, leads him down different paths. From the confusion of his social and individual memory, he is faced with two questions. Does physical recognition provide a sense of identity? Which is more liberating for a man, or a society: knowing the past, or forgetting it?

Embroidered with Borgesian micro-stories, Labyrinth flows smoothly on the surface while traversing sharp bends beneath the current.

Modern Art, Popular

Culture Lippincott Williams & Wilkins The updated Third Edition of Rubin and Farber's Pathology retains the features that make this text a favorite in medical schools--contemporary coverage, distinguished contributing authors, student-friendly format, and hundreds of full-color photomicrographs, color drawings, and colorful charts and other graphics throughout. The Third Edition's highlights include 300 new full-color photomicrographs, completely updated graphics throughout, and major revisions to chapters on developmental and genetic diseases, immunopathology, neoplasia, blood

vessels, and infectious and parasitic diseases. The text provides students with the foundations of general and systemic pathology for a solid understanding of pathogenesis and how it relates to clinical medicine. A consistent, orderly presentation of each disease-- definition, epidemiology, pathogenesis, pathology, clinical features--helps focus the student's attention and makes key facts easier to remember. Bullets and boldface type are strategically used to highlight important points. A Hundred Million Years and a Day Simon & Schuster Exhibition includes approximately 2% of the acquisitions made during the 1990s.

ABOUT TREES

University of Chicago Press
NAMED A BEST BOOK OF THE SEASON BY VOGUE In this alluring, melancholic novel—Peter Stamm at his best—a writer haunted by his double blurs the line between past and present, fiction and reality, in his attempt to outrun

the unknown. “Please come to Skogskyrkogården tomorrow at 2. I have a story I want to tell you.” Lena agrees to Christoph's out-of-the-blue request, though the two have never met. In Stockholm's Woodland Cemetery, he tells her his story, which is also somehow hers. Twenty years before, he loved a woman named Magdalena—an actress like Lena, with her looks, her personality, her past. Their breakup inspired him to write his first novel, about the time they were together, and in its scenes Lena recognizes the uncanny, intimate details of her own relationship with an aspiring writer, Chris. Is it possible that she and Chris are living the

same lives as Magdalena and Christoph two decades apart? Are they headed towards the same scripted separation? Or, in the fever of writing, has Christoph lost track of what is real and what is imagined? In this subtle, kaleidoscopic tale, Peter Stamm exposes a fundamental human yearning: to beat life's mysteries by forcing answers on questions that have yet to be fully asked.

Collecting for a New Century Lippincott

Williams & Wilkins
The work of a novelist and translator collide in this visionary and hilarious debut from acclaimed French writer Brice Matthieussent. Revenge of the Translator follows Trad, who is translating a

mysterious author's book, Translator's Revenge, from English to French. The book opens as a series of footnotes from Trad, as he justifies changes he makes. As the novel progresses, Trad begins to take over the writing, methodically breaking down the work of the original writer and changing the course of the text. The lines between reality and fiction start to blur as Trad's world overlaps with the characters in Translator's Revenge, who seem to grow more and more independent of Trad's increasingly deranged struggle to control the plot. Revenge of the Translator is a brilliant, rule-defying exploration of literature, the act of writing and translating,

and the often complicated relationship between authors and their translators.

Clinicopathologic Foundations of Medicine Emerald Group Publishing

Blood Sisters tells the story of Jeong Yeoul, a young Korean college student in the 1980's, when the memory of President Chun Doo-hwan's violent suppression of student demonstrations against martial law was still fresh. Yideum captures with raw honesty the sense of dread felt by many Korean women during this time as Jeong struggles in a swirl of misguided desires and hopelessness against a society distorted by competing ideologies, sexual violence, and cultural conservatism.

Facing this helplessness, her impulse is to escape into the world of art. Blood Sisters is a vivid, powerful portrayal of a woman's efforts to live an authentic life in the face of injustice.

Absorption and Theatricality

HarperCollins

Imagine a duel. A face-off between a man and a boy. The same blood runs through their veins. One, Daniele Mallarico, is a successful illustrator at the peak of his career. The other, Mario, is his four-year-old grandson who has barely learned to talk but has a few tricks up his loose-fitting sleeves all the same. The older combatant has lived for years in almost complete solitude. The younger one has been dumped with a

grandfather he barely knows for 72 hours. Starnone's sharp novella unfolds within the four walls (and a balcony!) of the apartment where the grandfather grew up, now the home of his daughter and her family, where the rage of an aging man meets optimism incarnate in the shape of a four-year-old child. Lurking, ever present in the conflict, is the memory of Naples, a wily, violent, and passionate city where the old man spent his youth and whose influence is not easily shaken.
