DEON PARSONS

Journal of the Executive Proceedings of the Senate of the United States GRIN Verlag

What's so special about USA PATRIOT Act? In this new, compelling book from author Lovetta Huber, find out more about USA PATRIOT Act ... The USA PATRIOT Act is an Act of the U.S. Congress that was signed into law by President George W. Bush on October 26, 2001. The title of the act is a ten letter acronym that stands for Uniting Strengthening America Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001. The act, a response to the terrorist attacks of September 11th, dramatically reduced restrictions in law enforcement agencies' gathering of intelligence within the United States; expanded the Secretary of the Treasury's authority to regulate financial transactions, particularly those involving foreign individuals and entities; and broadened the discretion of law enforcement and immigration authorities in detaining and deporting immigrants suspected of terrorism-related acts. The act

also expanded the definition of terrorism to include domestic terrorism, thus enlarging the number of activities to which the USA PATRIOT Act's expanded law enforcement powers can be applied. On May 26, 2011, President Barack Obama signed a four-year extension of three key provisions in the USA PATRIOT Act: roving wiretaps, searches of business records, and conducting surveillance of "lone wolves" individuals suspected of terrorist-related activities not linked to terrorist groups. So, what separates this book from the rest? A comprehensive narrative of USA PATRIOT Act, this book gives a full understanding of the subject. A brief guide of subject areas covered in "107th United States Congress - USA PATRIOT Act" include -- USA PATRIOT Act- History of the USA PATRIOT Act- USA PATRIOT Act, Title I- USA PATRIOT Act, Title II- USA PATRIOT Act, Title III- USA PATRIOT Act, Title IV- USA PATRIOT Act, Title V- USA PATRIOT Act, Title VI- USA PATRIOT Act, Title VII- USA PATRIOT Act, Title VIII- USA PATRIOT Act, Title IX And much, much more ... Find out more of this subject, it's intricacies and it's nuances. Discover more about it's importance. Develop a level of understanding required to comprehend this fascinating concept. Author Lovetta Huber has

worked hard researching and compiling this fundamental work, and is proud to bring you "107th United States Congress - USA PATRIOT Act" ...Read this book today ...

Berühmt werden - aber wie? Independently Published

The presidency of Lyndon Baines Johnson dating from November 22, 1963 to January 20, 1969 provides authors and students of history with an understanding of how a president endeavors to secure historic legislation. It is the intention of this paper to explore beyond popular perceptions of presidential history from the exercising of power to political partisanship thus revealing the realities of Johnson's world in contrast to his recent Democratic successors; William Jefferson Clinton and Barack Hussein Obama. Often LBJ is perceived in the public imagination as the ultimate legislative president. Certainly his record from civil rights to consumer protection provides credence to this perception but this historic legacy were not the product of a single individual. Rather the successes were the product of a president, his congressional allies including Huber Horatio Humphrey and numerous activists from civil rights leaders to labor unions. Nor were these efforts without considerable obstruction and momentary defeats. In exploring three case studies; the Civil Rights Act of 1964, Medicare and the 1968 Fair Housing Act emphasis is placed less on the content contained within these pieces of legislation but the lessons including compromise, an understanding the legislative system, relying upon the "Bully Pulpit" and grassroots activism that shaped their passage.

This book is structured with the aim of providing English language teaching materials for college students in second semester. Learning materials and assignments in this book are developed with the principles of the Communicative Approach to develop students' competencies in the four language skills, namely listening, speaking, reading and writing. the learning materials and tasks integrally develop life skills in a broad sense and increase awareness of diversity. In addition, for the purpose of enrichment and evaluation, each unit is equipped with structured tasks in the form of evaluation or student's activity. To provide opportunities for students to evaluate themselves independently, a self-evaluation format is also provided.

Studienarbeit aus dem Jahr 2013 im Fachbereich Medien / Kommunikation - Public Relations, Werbung, Marketing, Social

Media, Note: 1,0, Hochschule der Medien Stuttgart, Sprache: Deutsch, Abstract: „Four more years“ (Obama 2012) - das waren die Worte, mit denen Barack Obama seine Wiederwahl verkündete. Die Besonderheit daran: Als erster Präsident gab er diese Neuigkeiten auf Twitter bekannt und sprach somit direkt zu seinen Wählern. Phänomene wie dieses entstehen durch die immer bedeutendere Rolle, die das Internet und vor allem soziale Netzwerke wie Twitter in der politischen Kommunikation von Wahlkämpfen einnehmen. Welche aktuellen Entwicklungen in den Massenmedien tragen zu dieser Veränderung bei? Wie wirkt sich diese auf die politische Kommunikation von Organisationen aus? Welche theoretischen Hintergründe und Modelle der PR lassen sich auf den Einsatz von Twitter anwenden? Welche Potentiale hat der Einsatz von Twitter im Wahlkampf und welche Risiken können dabei aufkommen? Diesen Fragen wird sich die vorliegende Studienarbeit annähern, mit dem Ziel, aktuelle Veränderungen der Massenmedien und ihre Auswirkungen auf die PR aufzuzeigen, theoretische Hintergründe und Modelle der PR auf die Wahlkampfkampagne Obamas zu übertragen und den Einsatz von Twitter in dieser näher zu beleuchten.

Der Einsatz und die Bedeutung von Twitter im US-amerikanischen Wahlkampf. Barack Obamas

Wahlkampfkampagne 2012 GRIN Verlag

Leadership on the example of Barack Obama GRIN Verlag

Nonlinear Dynamics and Heterogeneous Interacting Agents Hueber Verlag

Barack Obama sieht seine Wahl als ein Zeichen, dass der legendäre American Dream noch längst nicht ausgeträumt ist. Von ihm wird erwartet, dass er das Unmögliche möglich macht, in

der Innen- wie in der Aussen-, der Verteidigungs- und der Wirtschaftspolitik. Wenige Wochen nach Obamas Amtsantritt stellt der ehemalige Schweizer Botschafter in Washington und heutige Professor für Internationale Beziehungen die entscheidenden Fragen: Wohin gehen die USA unter Obama? Kann der neue Präsident das Land aus seiner Krise führen? Sind die grossen Erwartungen überhaupt zu erfüllen? Welche Auswirkungen sind auf Europa zu erwarten? Wenn die Kabinettsliste bereinigt, Obamas Inaugurationsrede verhallt ist und die ersten 100 Tage vorbei sind, kommen die praktischen Fragen des politischen Alltags. Nur wenige Wochen nach dem Amtsantritt des neuen Präsidenten zeigt der Autor Obamas Chancen und Gefahren, seine Möglichkeiten und Grenzen auf. Der USA-Kenner und frühere Schweizer Botschafter in Washington geht in seinem hochaktuellen Buch dem brüchig gewordenen transatlantischen Verhältnis nach und fragt, ob jetzt neue Partnerschaften entwickelt werden oder ob es zu neuen Missverständnissen und Irritationen kommen wird. Wie wird der neue Präsident die aussen- und weltpolitischen Fragen in Afghanistan, in Russland, dem Mittleren Osten und in China anpacken? Was haben die Partner in der Nato oder den WTO-Programmen zu erwarten? Werden die USA, etwa in den Auseinandersetzungen im fiskalischen Bereich, mit Europa Front gegen die Schweiz machen? Amerikas Weg wird nicht ohne Auswirkungen auf den Kurs Europas und der Schweiz bleiben. Alfred Defago zeigt, wohin es gehen kann - aus amerikanischer Sicht, aber durch die europäische Brille gesehen. Critical points of translator decision-making Simon & Schuster This book studies the reactions by external actors, including the

European Union, to the events unfolding in the Arab world beginning in December 2010. In particular, contributors look at external actors' attempts to balance their desire for stability with their normative principles toward human rights and democracy. The book compares the action (and inaction) of the EU with other international and regional players, including the United States, Russia, Turkey and Israel, and assesses the response of these actors to the Arabellions' events, analysing changes in their approaches to the Arab region. The contributions to this book answer three questions: (1) How have external actors assessed the 'Arabellions' and what role did they see for themselves in this context? (2) Which goals and instruments did external actors pursue toward the MENA region? In particular, how did they deal with conflicting goals, such as support for human rights and democracy, on the one hand, and concerns about security and stability, on the other? (3) How can we explain the varying responses of external actors to the Arabellions? This book was published as a special issue of the Journal of European Integration.

AuthorHouse

Masterarbeit aus dem Jahr 2012 im Fachbereich Medien / Kommunikation - Public Relations, Werbung, Marketing, Social Media, Note: sehr gut, Alpen-Adria-Universität Klagenfurt, Sprache: Deutsch, Abstract: Mit den Worten „It's the economy, stupid“ übte James Carville (1992) einen entscheidenden Einfluss auf die Wahl von Bill Clinton, dem 42. Präsidenten der Vereinigten Staaten, aus. Seither ist einiges passiert. Die größte Veränderung lag wohl in der Verbreitung des Internets, das in nahezu jeden Bereich der Wirtschaft und Gesellschaft eingriff.

Eric Qualman beschreibt in seinem Buch „Socialnomics“ (2009) eine neue Revolution - eine Revolution, die von Menschen getragen und durch die sozialen Medien erst ermöglicht wird. So hat sich die berühmte Aussage von Carville nach Qualman (2010) mittlerweile verändert und eine neue Bedeutung erhalten: „It's a people-driven economy, stupid“. Das Web 2.0 nimmt zunehmend einen Stellenwert in der Kommunikationspolitik ein. Das soziale Netzwerk Facebook, beispielsweise, zählt bislang über mehr als eine Milliarde Nutzer. Die gegenwärtige Online Interaktion besitzt einen immer stärker werdenden sozialen Charakter - so teilen und kommentieren User Fotos, Videos und tauschen Erfahrungen aus. Ebenso werden Kaufentscheidungen immer mehr durch Bewertungen im Internet beeinflusst - Produkte und Dienstleistungen werden im Web gesucht und miteinander verglichen. Im Fokus dieser Arbeit liegt die Frage, wie das Web 2.0 erfolgreich als Kommunikationsmedium genutzt werden kann und inwieweit soziale Medien Auswirkungen auf den Kundennutzen zeigen. Im ersten Teil der Arbeit werden Grundkenntnisse vermittelt, die zum Verständnis der sozialen Medien beitragen sollen. Relevante Begriffe, wie „Web 2.0“ und „Social Media“ werden definiert und genauer beleuchtet. Es wird auf die unterschiedlichen Social Media Gattungen eingegangen. Zudem werden jene sozialen Medien kurz aufgezeigt und erklärt, die insbesondere für den österreichischen Markt von großer Bedeutung sind. In einem nächsten Kapitel werden soziale Medien als „Plattform für Marketingaktivitäten“ vorgestellt. Es soll der Begriff des Social Media Marketings erläutert, sowie die Ziele des Social Media Marketings dargestellt werden. Die bedeutsamsten sozialen Medien werden analysiert und die

kommerziellen Möglichkeiten dieser erörtert.

Precision and Purpose Deepublish

The 2016 Election, which altered American political history, was not decided by the Russians or in Ukraine or by Steve Bannon. The event that broke Hillary's blue wall in the Midwest and swung Florida and North Carolina was an October Surprise, and it was wholly a product of the leadership of the FBI. This is the inside story by the reporter closest to its center. In September 2016, Hillary Clinton was the presumptive next president of the US. She had a blue wall of states leaning her way in the Midwest, and was ahead in North Carolina and Florida, with a better than even shot at taking normally Republican Arizona. The US was about to get its first woman president. Yet within two months everything was lost. An already tightening race saw one seismic correction: it came in October when the FBI launched an investigation into the Clinton staff's use of a private server for their emails. Clinton fell 3-4 percent in the polls instantly, and her campaign never had time to rebut the investigation or rebuild her momentum so close to election day. The FBI cost her the race. October Surprise is a pulsating narrative of an agency seized with righteous certainty that waded into the most important political moment in the life of the nation, and has no idea how to back out with dignity. So it doggedly stands its ground, compounding its error. In a momentous display of self-preservation, James Comey, Andrew McCabe, and key Justice Department officials decide to protect their own reputations rather than save the democratic process. Once they make that determination, the race is lost for Clinton, who is helpless in front of their accusation even though she has not intended to commit, let alone actually committed, any crime.

A dark true-life thriller with historic consequences set at the most crucial moment in the electoral calendar, October Surprise is a warning, a morality tale and a political and personal tragedy.

This book covers anaphora resolution for the English language from a linguistic and computational point of view. First, a definition of anaphors that applies to linguistics as well as information technology is given. On this foundation, all types of anaphors and their characteristics for English are outlined. To examine how frequent each type of anaphor is, a corpus of different hypertexts has been established and analysed with regard to anaphors. The most frequent type are non-finite clause anaphors - a type which has never been investigated so far. Therefore, the potential of non-finite clause anaphors are further explored with respect to anaphora resolution. After presenting the fundamentals of computational anaphora resolution and its application in text retrieval, rules for resolving non-finite clause anaphors are established. Therefore, this book shows that a truly interdisciplinary approach can achieve results which would not have been possible otherwise.

Green Electricity and Global Warming orell füssli

Knowledge about one's linguistic background, especially when it is different from mainstream varieties, provides a basis for identity and self. Ancestral values can be upheld, celebrated, and rooted further in the consciousness of its speakers. In the case of African American Vernacular English (AAVE) the matter is not straightforward and, ultimately, the social implications its speakers still face today are unresolved. Through detailed

analysis of the four building blocks phonology, morphology, syntax, and vocabulary, Sophia Huber tries to trace the development of AAVE as a literary dialect. By unearthing in what ways AAVE in its written form is different from the spoken variety, long established social stigmata and stereotypes which have been burned into the consciousness of the USA through a (initially) white dominated literary tradition will be exposed. Analysing fourteen novels and one short story featuring AAVE, it is the first linguistic study of this scope.

Das Web 2.0 als Werkzeug politischer Kommunikation und der Einsatz in Obamas Wahlkampf Workman Publishing
Studienarbeit aus dem Jahr 2012 im Fachbereich Medien / Kommunikation - Medien und Politik, Pol. Kommunikation, Note: 1,0, Rheinisch-Westfälische Technische Hochschule Aachen, Sprache: Deutsch, Abstract: Diese Seminararbeit wird sich vorrangig, wenn auch nicht ausschließlich, mit Obamas erstem Online- Wahlkampf beschäftigen. Begonnen wird dafür mit einem Kapitel über die Entwicklung hin zum Web 2.0, um so die Reifung des Internets zu einem sozialen Phänomen aufzuzeigen. Da auch Online Wahlkampf nichts anderes als Werbung ist, wird der Nutzen sozialer Netzwerke für das Marketing und die möglichen Vorteile für Politiker erläutert werden. Im zweiten Teil wird das Fallbeispiel Obama genauer betrachtet, indem die verschiedenen Nutzungen von sozialen Netzwerken, eigenen Webseiten und Multimediaplattformen analysiert werden. Obama war und ist nicht der einzige Politiker, der das Internet für seinen Wahlkampf nutzt, aber wie genau war seine Konzeption? Was macht seine Darstellung im Internet so erfolgreich und warum schafft er es die Massen zu mobilisieren? Diese Faktoren sollen auf den nächsten

Seiten analysiert werden, um schließlich der Frage näher kommen zu können, was es bedeutet, einen Wahlkampf über das Internet zu führen und welche Faktoren hierfür von Bedeutung sind.

Wer in Englisch auf mittlerem und gehobenem Sprachniveau mitreden möchte, benötigt dafür den entsprechenden aktuellen Wortschatz. Der Große Lernwortschatz Englisch aktuell bietet rund 15.000 Wörter in 20 Haupt- und ca. 150 Unterkapiteln. Der Gebrauch der Wörter wird mittels häufig auftretender Wortverbindungen und Beispielsätzen verdeutlicht. Dazu gibt es zahlreiche Extras, die das Lernen und Nachschlagen erleichtern, wie z. B. ein zweifaches Register (Englisch und Deutsch), eine Kurzgrammatik, Hinweise zur Aussprache und vieles mehr.

15.000 Wörter zu 150 Themen - aktualisierte Ausgabe / PDF-Download Springer

Negative stereotypes associated with immigrants have resulted in the socially constructed notion of "illegality." Nativist sentiments have perpetuated a barrage of anti-immigrant laws that have become largely associated with Mexican immigrants (De Genova, 2004). Recent implementation of draconian laws such as Arizona's SB 1070 and Alabama's HB 56 provide an opportunity to investigate the impact such laws have on the identity, social interactions, and academic experiences and aspirations of undocumented Latina/o students in the U.S. Research on immigrant youth has favored assimilation frameworks, which highlight deficiencies and perpetuate stereotypes overlooking the systemic role racism and nativism play in the educational outcomes of undocumented students

(Perez Huber et al., 2008). In contrast, taking a strength-based approach, this study applies Social Identity Theory (SIT) and Latina/o Critical Theory (LatCrit) which privileges the in-depth stories of 12 Latina/o undocumented high school, community college, and university students between the ages of 14 and 25. Findings suggest that anti-immigrant sentiments exacerbate the negative connotation of an "illegal" identifier for certain identities such as class, student, and sibling identities. An "illegal" identifier also influences social interactions. For example, students reveal having a small group of trustworthy friends to whom they confide their immigration status. In addition, students discuss how well-informed and supportive teachers and counselors make a positive impact on their academic progress. Moreover, students share their excitement over the personal benefits of President Obama's Deferred Action for Childhood Arrivals (DACA). In this study, three legislations--California's AB 540, DREAM Act, and DACA--are credited for diminishing the economic challenges associated with school related expenses, such as tuition, housing, and books. Research findings will be shared with all research sites in order to help administration create/expand resources, academic programs, and support systems for this student population.

Favorite Stories of Courage and Resilience GRIN Verlag

Electricity capacity in the United States (U. S.) is severely constrained. And that constraint is exacerbated by global warming concerns. In order to alleviate that constraint, new, high efficiency technology must be utilized primarily in commercial and industrial applications. These technologies would replace a 'cap and trade' tax policy that would be an onerous taxing action to reduce the global warming problem. Ultimately,

innovation would free-up additional electric capacity.

October Surprise Walter de Gruyter GmbH & Co KG

In this book, Jeremy Munday presents advances towards a general theory of evaluation in translator decision-making that will be of high importance to translator and interpreter training and to descriptive translation analysis. By 'evaluation' the author refers to how a translator's subjective stance manifests itself linguistically in a text. In a world where translation and interpreting function as a prism through which opposing personal and political views enter a target culture, it is crucial to investigate how such views are processed and sometimes subjectively altered by the translator. To this end, the book focuses on the translation process (rather than the product) and strives to identify more precisely those points where the translator is most likely to express judgment or evaluation. The translations studied cover a range of languages (Arabic, Chinese, Dutch, French, German, Indonesian, Italian, Japanese, Russian, Spanish and American Sign Language) accompanied by English glosses to facilitate comprehension by readers. This is key reading for researchers and postgraduates studying translation theory within Translation and Interpreting Studies.

Großer Lernwortschatz Englisch aktuell Routledge

The first comprehensive biography of Neil Gorsuch, President Donald Trump's Supreme Court nominee and the youngest Supreme Court justice at the time of confirmation in twenty-five years. Born in Denver in 1967, Gorsuch was—and still remains—somewhat of a mystery to Democrats and Republicans alike, despite his ten years as a federal judge. During his confirmation, a senator said to Gorsuch, "We want to know what

is in your heart." Now, acclaimed author John Greenya seeks to answer that question with this fascinating book. In Gorsuch, Greenya interviews those who knew Neil Gorsuch well in all periods of his life, both his opponents and his friends—at home and school, from his early work as a lawyer and his year as a Justice Department official, plus lawyers and others who interacted with him in his many years on the Federal bench. Enlightening, probing, and endlessly fascinating, Gorsuch provides a window to this conservative replacement to Justice Antonin Scalia and affords us a unique perspective on his anticipated legal opinions.

The Book of Gutsy Women Simon and Schuster

"In our nations current state of affairs, Seth Morgan's fortitude to speak about Liberty resonates to our country's core. the values, principles and convictions of George Washington are encompassed by Morgan, reminding us that we cannot regulate liberty. Americans need to answer the call--which will resound from sea to shining sea--Liberty cannot be regulated!" --Dee Dee Benkie, GOP Strategist, TV and Radio Personality "It's About Liberty, Stupid! is a thoughtful and interesting take on liberty, government tyranny and our role as citizens.?.?.?. you'll want to discuss or maybe even debate this book with others when you're done." --Penny Young Nance, CEO and president of Concerned Women for America "In today's political environment, Americans need all the tools available in order to survive the onslaught of attacks from an ever-exp and ing government.?.?.?. we could all

use a reminder about the type of political system our Founding Fathers meant us to have. Seth Morgan's book, It's About Liberty, Stupid! is a must-read for anyone needing a refresher course in what liberty and freedom really means." --Ann-Marie Murrell, anchor and national director/editor-in-chief PolitiChicks.tv "It's About Liberty, Stupid! is a witty yet common-sense look at one of the most important issues facing America today.?.?.?. It's a great read and will complement every conservative's information arsenal." --Ava Aston, recording artists and PolitiChicks contributor

Leadership on the example of Barack Obama Routledge

Since the end of the Cold War the United States and other major powers have wielded their air forces against much weaker state and non-state actors. In this age of primacy, air wars have been contests between unequals and characterized by asymmetries of power, interest, and technology. This volume examines ten contemporary wars where air power played a major and at times decisive role. Its chapters explore the evolving use of unmanned aircraft against global terrorist organizations as well as more conventional air conflicts in Bosnia, Kosovo, Afghanistan, Iraq, Lebanon, Libya, Yemen, Syria, and against ISIS. Air superiority could be assumed in this unique and brief period where the international system was largely absent great power competition. However, the reliable and unchallenged employment of a spectrum of manned and unmanned technologies permitted in the age of primacy may not prove effective in future conflicts.
