You've experienced the
shiny, point-and-click

surface of your Linux computer—now dive below and explore its depths with the power of the command line. The Linux Command Line takes you from your very first terminal keystrokes to writing full programs in Bash, the most popular Linux shell. Along the way you'll learn the timeless skills handed down by generations of gray-bearded, mouse-shunning gurus: file navigation, environment configuration, command chaining, pattern matching with regular

expressions, and more. In addition to that practical knowledge, author William Shotts reveals the philosophy behind these tools and the rich heritage that your desktop Linux machine has inherited from Unix supercomputers of yore. As you make your way through the book's short, easily-digestible chapters, you'll learn how to: * Create and delete files, directories, and symlinks * Administer your system, including networking, package installation, and process management *

Use standard input and output, redirection, and pipelines * Edit files with Vi, the world's most popular text editor * Write shell scripts to automate common or boring tasks * Slice and dice text files with cut, paste, grep, patch, and sed Once you overcome your initial "shell shock," you'll find that the command line is a natural and expressive way to communicate with your computer. Just don't be surprised if your mouse starts to gather dust. A featured resource in the Linux Foundation's

This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material,

usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the

language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

THE MILLIONAIRE FASTLANE

Farrar, Straus and Giroux
 One cold winter night in Toronto, the Holy Spirit entered Benny Hinn's life

in such a dramatic way that he was changed forever. The same thing can happen to you. Join the millions of others who have read Good Morning Holy Spirit and discover if you are ready to meet the Holy Spirit intimately and personally, willing to listen to His voice, and prepared to know Him as a person. In this revised and expanded edition of Good Morning, Holy Spirit, Benny Hinn shares the insights and the truths that God has taught him through the years. Good Morning, Holy Spirit

provides the principles needed to gain a better understanding of the Godhead while you discover how to recognize the voice of the Spirit seven steps to a more effective prayer life the source and purpose of God's anointing freedom from fear of the "unpardonable" sin God's master plan for you [The Linux Command Line](#) Penguin Not Funny Ha-Ha is a bold, slightly wry graphic novel illustrating the lives of two young women from different cultural, family,

and financial backgrounds who go through two different abortions (medical and surgical). It follows them through the process of choosing a clinic, reaching out to friends, partners, and/or family, and eventually the procedure(s) itself. It simply shows what happens when a woman goes through it, no questions asked. Despite the fact that so many women and girls have abortions every day, in every city, all around us, it can be a lonely experience. Not Funny

Ha-Ha is a little bit technical, a little bit moving, and often funny, in a format uniquely suited to communicate. The book is meant to be a non-judgmental, comforting, even humorous look at what a woman can go through during an abortion. Although the subject matter is heavy, the illustrations are light. The author takes a step back from putting forth any personal opinion whatsoever, simply laying out the events and possible emotional

repercussions that could, and often do occur. **Ethiopian Literature in Amharic** Penguin Congratulations on choosing Amharic Medical Language Anthology (የሕክምና ቃላት መጻሕፍት) a unique style, step-by-step, and best option to learning and teaching medical terminology in the Amharic language. The special approach makes use of the newest and most reliable information that I have regarding how the general people learn and keep hold of the medical

language ability. The 12 years that I have spent in the healthcare field have all involved continuing education and ongoing learning, and cumulative experience inspired me to write my first book. The book is engaging, honest, factual, and correct. As an author, educator, director, and Medical Doctor, I believe that this method of learning and teaching Amharic Medical language for the field of health care is the beginning of a great move forward for the best outcome.  LONGLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR AWARD 2021 LONGLISTED FOR THE RSL ONDAATJE PRIZE 2021 'Inspiring' The Guardian 'Excellent' Runner's World 'Fascinating' Publishers Weekly 'Brilliant' Ed Vaizey 'Through reading

this book you will come to understand that the heart and soul of running are to be found in Ethiopia.' Haile Gebrselassie 'Engaging, warm and humane... A delight' TLS 'Full of wonderful insights and lessons from a world where the ability to run is viewed as something almost mysterious and magical.' Adharanand Finn, author of Running with the Kenyans 'Ethiopia is a place where I have been told that energy is controlled by angels and demons and where witchdoctors can help you

to acquire another runner's power. It is a place where an anonymous runner in the forest told me, miming an imaginary scoreboard and with a completely straight face, that he had dreamt that he would run 10km in 25 minutes. It is a place where they tell me that the air at Mount Entoto will transform me into a 2.08 marathon runner. It is a place, in short, of wisdom and magic, where dreaming is still very much alive.' Why does it make sense to Ethiopian runners to get up at 3am

to run up and down a hill? Who would choose to train on almost impossibly steep and rocky terrain, in hyena territory? And how come Ethiopian men hold six of the top ten fastest marathon times ever? Michael Crawley spent fifteen months in Ethiopia training alongside (and sometimes a fair way behind) runners at all levels of the sport, from night watchmen hoping to change their lives to world class marathon runners, in order to answer these questions. Follow him into the forest as he attempts

to keep up and get to the heart of their success. *Good Morning, Holy Spirit* Whitaker House
 Visions of Hell... In A Divine Revelation of Hell, over a period of thirty nights, God gave Mary K. Baxter visions of hell and commissioned her to tell people still alive on earth to reject sin and evil, and to choose life in Christ. Here is an account of the place and beings of hell contrasted with the glories of heaven. Follow Mary in her supernatural journey as she enters with Jesus into a gateway to

hell and encounters the sights, sounds, and smells of that dark place of torment, including its evil spirits, cells, pits, jaws, and heart. Be an eyewitness to the various punishments of lost souls and hear their shocking stories. This book is a reminder that each of us needs to accept the miracle of salvation before it is too late—and to intercede for those who do not yet know Christ. Time is running out. In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and

1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last

century.

The book that inspired the major new motion picture *Mandela: Long Walk to Freedom*. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in

1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving

and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph. *The Alchemist (Tamil)* No Starch Press Packed with current research and examples, bestselling **COMMUNICATION BETWEEN CULTURES**, 9E equips readers with a

LONG WALK TO FREEDOM

John Wiley & Sons
10TH ANNIVERSARY
EDITION Is the financial
plan of mediocrity -- a
dream-stealing, soul-
sucking dogma known as
"The Slowlane" your plan
for creating wealth? You
know how it goes; it
sounds a lil something like
this: "Go to school, get a
good job, save 10% of
your paycheck, buy a
used car, cancel the
movie channels, quit
drinking expensive

Starbucks mocha lattes,
save and penny-pinch
your life away, trust your
life-savings to the stock
market, and one day,
when you are oh, say, 65
years old, you can retire
rich." The mainstream
financial gurus have sold
you blindly down the river
to a great financial
gamble: You've been
hoodwinked to believe
that wealth can be
created by recklessly
trusting in the
uncontrollable and
unpredictable markets:
the housing market, the
stock market, and the job

market. This impotent
financial gamble
dubiously promises
wealth in a wheelchair --
sacrifice your adult life for
a financial plan that reaps
dividends in the twilight of
life. Accept the Slowlane
as your blueprint for
wealth and your financial
future will blow carelessly
asunder on a sailboat of
HOPE: HOPE you can find
a job and keep it, HOPE
the stock market doesn't
tank, HOPE the economy
rebounds, HOPE, HOPE,
and HOPE. Do you really
want HOPE to be the
centerpiece for your

family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-

years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent

wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime. Mindset Ballantine Books

This Open Access book tracks the latest trends in the theory, research, and practice of entertainment-education, the field of communication that incorporates social change messaging into entertaining media. Sometimes called edutainment, social impact television, narrative persuasion, or cultural strategy, this approach to social and behavior change communication offers new opportunities including transmedia and digital formats. However, making

media can be a chaotic process. The realities of working in the field and the rigid structures of scholarly evaluation often act as barriers to honest accounts of entertainment-education practice. In this collection of essays, experienced practitioners offer unique insight into how entertainment-education works and present a balanced view of its potential pitfalls. This book gives readers an opportunity to learn from the successes and mistakes of the experts,

taking a behind-the-scenes look at the business of making entertainment-education media.

Between Cultures**

Souvenir Press
A New York Times Notable Book for 2011 One of The Economist's 2011 Books

of the Year People speak different languages, and always have. The Ancient Greeks took no notice of anything unless it was said in Greek; the Romans made everyone speak Latin; and in India, people learned their neighbors' languages—as did many ordinary Europeans in times past (Christopher Columbus knew Italian, Portuguese, and Castilian Spanish as well as the classical languages). But today, we all use translation to cope with the diversity of languages. Without translation there

would be no world news, not much of a reading list in any subject at college, no repair manuals for cars or planes; we wouldn't even be able to put together flat-pack furniture. Is That a Fish in Your Ear? ranges across the whole of human experience, from foreign films to philosophy, to show why translation is at the heart of what we do and who we are. Among many other things, David Bellos asks: What's the difference between translating unprepared natural speech and

translating Madame Bovary? How do you translate a joke? What's the difference between a native tongue and a learned one? Can you translate between any pair of languages, or only between some? What really goes on when world leaders speak at the UN? Can machines ever replace human translators, and if not, why? But the biggest question Bellos asks is this: How do we ever really know that we've understood what anybody else says—in our own

language or in another? Surprising, witty, and written with great joie de vivre, this book is all about how we comprehend other people and shows us how, ultimately, translation is another name for the human condition.
