In honor of First Contact Day, IDW is thrilled to present a special digital edition of Star Trek: First Contact, the official comic tie-in to the beloved movie. When the Borg attempt to alter the history of the universe by traveling back in time to stop Earth's first encounter with alien life, it's up to Captain Jean-Luc Picard and the crew of the

Enterprise to stop them... if they aren't assimilated first!

Adapted by writer John Vornholt and artists Rod Whigham and Terry Pallot from the story written by Rick Berman, Brannon Braga & Roland D. Moore.

Bloomsbury Academic " An enraged elephant flips a car onto its roof. A lioness prises open the door of a terrified couple. A leopard helps itself to a family's picnic breakfast. A fleeing impala leaps

through an open car window. A lion charges around inside a busy rest camp. A hyaena snatches a baby from a tent. A tourist takes a bath in a croc-infested dam...These are just a few of the 101 jaw-dropping sightings, scrapes and encounters in this collection of extraordinary true stories from the roads, camps, picnic sites and walking trails of South Africa's Kruger National Park, as told by the very people who experienced them. There are no game ranger tales here - each and every story happened to an ordinary Kruger visitor doing what over a million tourists do in this spectacular reserve each year." -- Back cover.

Cengage Learning  
 Why do people go to the movies? What does it mean to watch a movie? To what extent is the perceived fictional nature of movies different from our daily perception of the real world? We live in a time where the power of images has strongly invaded our everyday life, and we need new instruments and methods to better understand our relationship with the virtual worlds we inhabit every day. Taking cinema as the beginning of our relationship with the world of moving images, and cognitive neuroscience as a paradigm to understand how the images engage us, The Empathic Screen develops a new theory of film experience,

exploring our brain-body interaction when engaging with and watching a film. In this book, film theory and neuroscience meet to shed new light on cinema masterpieces, such as *The Shining*, *The Silence of the Lambs*, and *Toy Story*, and explore the great directors from the classical period to the present. Taking a radical new approach to understanding the cinema, the book will be fascinating reading for cognitive scientists, neuroscientists, psychologists, philosophers, and film and media scholars. *Le Posizioni* Sonzogno Launched in 1970 it used the underpinnings from the DS, which meant it had self-leveling hydro-pneumatic suspension, power brakes and good

steering. Maserati produced a 170bhp, quad-cam V6 engine. Coupled with a stylish fastback bodyshell it should have been a good car. But v the engine was complicated and it was inclined to rust. When Peugeot took over Citroen they sold off Maserati and ceased production of the SM. A good car now is sought after and owners cannot praise them highly enough. This is a book of contemporary road and comparison tests, technical and specification data, new model introductions, driver's impressions & buyer's guide.

Through the voice of Mee Ali, readers experience the rhythms and rituals of life in rural Namibia in

interconnected stories. In Oshaantu, a place where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him. Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while others grow out of strength of character, respect, and love.

This is the first multi-volume collection of major writings on cultural anthropology,

the sub-field of anthropology which is concerned with how people in different places live and understand the world around them. It covers key methodologies (participant observation, ethnography) and topics (kinship, ritual, values) and maps the development of the field from its beginnings in the mid-nineteenth century through to recent and current debates on the 'critique of anthropology' and the rise of new methodologies such as multi-sited research. The four volumes are arranged thematically and each is separately introduced. Drawing upon essays from anthropology and related disciplines, the volumes together chart

the origins of the field, explore its core theories and methods, and trace the proliferation of sub-fields that it has generated, including anthropology of art, urban anthropology, medical anthropology and the anthropology of gender and sexuality. With key texts from James George Frazer, Lewis Henry Morgan, Bronislaw Malinowski, Franz Boas, Ruth Benedict, Margaret Mead, Lucy Mair, Claude Levi Strauss, Melford Spiro, Marshall Sahlins, Laura Nader, Maurice Godelier, David Graeber, Suad Joseph and many more, this set is an essential resource for scholars and students of the subject.

Art Nouveau was a world-wide artistic fashion that deeply affected the whole spectrum of the arts in the last decade of the nineteenth century and the early years of this century. It sought to finalise the break with the academicism of traditional art, to raise the status of design and to place art within the realm of daily life. In doing so it provided many of the prototypes for the art of an industrial society, and it was the springboard for some of the most important artistic movements in the twentieth century, such as Expressionism, Futurism and the International Style in architecture. -- from dust jacket.

specialists, but a bunch

of texts were provided

too by junior

researchers, who found

thus a way to promote

branches are studied

here, either heavy

industries or agrobusiness and textile ; but specific areas are well approached : luxury firms, wine and beverages companies, for instance. The focus of Transnational Companies is to scrutinize the emergence of international policies among enterprises, whether through exports strategies or through direct investments in foreign countries, along branches, ways of development, entrepreneurial undertakings or competition's incentives. The book assesses too the move from internationalisation to transnationalisation in the interwar and mostly since the 1960s : owing to several case

studies here presented, business schools and economic historians will be able to foster tuitions and seminars with fresh material. Lest several papers are earmarked to the argument about globalisation, that is the restructuring of firms'organisation towards internationalised internal divisions since the 1970s-1980s, as the book does cover the very last years of the 20th century.

This book presents the use of a microprocessor-based digital system in our daily life. Its bottom-up approach ensures that all the basic building blocks are covered before the

development of a real-life system. The ultimate goal of the book is to equip students with all the fundamental building blocks as well as their integration, allowing them to implement the applications they have dreamed up with minimum effort.

Ronney is an introverted young woman with a disgraceful appearance. She lives humbly in one of the poorest neighborhoods of Sheryl Valley, a town corrupted by the mafia in Southern California. With no diploma, she works hard in her parents' restaurant and provides voice-overs for children's animated movies during the weekend. In accordance with a long-standing family tradition, Ronney's twenty-fifth birthday celebration comes with a dare from her cousins: she must knock on the front door of the infamous Khan household. The Khans' reputation proceeds them, rumored to be in association with the mafia. But when Ronney knocks on the

door, before she has the chance to run, the Khan family matriarch, Camilia, takes an interest in Ronney. Ronney's lack of conventional beauty and disinterest in fashion draws Camilia in, leading her to offer Ronney the position of personal assistant to her eldest son, Yeraz, with a substantial salary at stake. It's an offer Ronney cannot refuse. To keep her job, Ronney's task is simple: do not fall in love with Yeraz. "Easy," she thinks. But what if destiny decides otherwise? Ugly Ronney is a romance in which the heroes enter the gallery of legendary lovers.

Credit Analysis and Lending Management is a new Australasian text that focuses on the core lending functions of financial institutions, covering asset management, credit risk assessment and analysis, lending policy formulation and management, and the rise of new product development and marketing in the financial services sector. The value of

any financial institution is measured by its ability to effectively manage and reduce its credit risk. This text details the structure of the credit organisation, including loan markets. Relevant financial statements are presented to develop students' interpretative and analytical understanding of financial statements.

Features: \*

Developments in loan marketing and new loan products are profiled and assessed (see chapter 17.) \*

Problem loan management is discussed as a growing professional issue (see chapter 16). \* Detailed case studies at the end of the text present a diverse set of professional scenarios that can be used for assignment,

assessment and group work activities. \* 'Industry insight' boxes profile current professional issues and identify industry developments. \* 'A day in the life of...' boxes highlight the diversity of professional roles in the banking industry.
