The Story of the Last "Black Cargo" BEYOND BOOKS HUB

A tour de force from acclaimed author Alan Gratz (Prisoner B-3087), this timely -- and timeless -- novel tells the powerful story of three different children seeking refuge. A New York Times bestseller! JOSEF is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world . . . ISABEL is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America . . . MAHMOUD is a Syrian boy in 2015. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe . . . All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. This action-packed novel tackles topics both timely and timeless: courage, survival, and the quest for home.

A Tanzanian boy saves his coins to buy a bicycle so that he can help his parents carry goods to market, but then he discovers that in spite of all he has saved, he still does not have enough money.

One Girl's Journey through Darkness to a New Beginning

HarperCollins

A heartwarming, feel-good story of friendship and overcoming adversity in a time of COVID, this is a book about community, giving back, and understanding the world around us through the power of generosity from debut author K. Iburg. With one little announcement from their fourth-grade teacher, Shayla, Liam, Ben, and Ai's world turned upside down. Now, with school on hold due to a strange virus that they don't quite understand, the only semblance of safety they feel is knowing that they have one another in their apartment complex. But as each of them head home and experience their own version of confinement, it becomes very real. And as their individual struggles grow, they need each other now more than ever. Very soon, they discover that they're not the only ones who need a little help. Banded together, the friends find ways to help others struggling in their building. And one by one, they do their part in making their neighbors feel just a little bit safer. As the world becomes more complex, as protests take the streets, Shayla, Liam, Ben, and Ai do everything they can to better understand the world around them and the people around them in order to discover the power and comfort that understanding and generosity can bring.

Why do people choose authoritarianism over freedom? The classic study of the psychological appeal of fascism by a New York Times–bestselling author. The pursuit of freedom has indelibly marked Western culture since Renaissance humanism and Protestantism began the fight for individualism and self-determination. This freedom, however, can make people feel unmoored, and is often accompanied by feelings of isolation, fear, and the loss of self, all leading to a desire for authoritarianism, conformity, or destructiveness. It is not only the question of freedom that makes Fromm's debut book a timeless classic. In this examination of the roots of Nazism and fascism in Europe, Fromm also explains how economic and social constraints can also lead to authoritarianism. By the author of *The Sane Society* and *The Anatomy of Human Destructiveness*, this is a fascinating examination of the anxiety that underlies our darkest impulses, an enlightening volume perfect for readers of Eric Hoffer or Hannah Arendt. This ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author's estate.

A Boy In The Nazi Death Camps Little, Brown

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.

♥♥ The Most Dangerous Game by Richard Connell ♥♥ The Most

Dangerous Game, also published as *The Hounds of Zaroff*, is a short story by Richard Connell first published in *Collier's* magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. ♥♥ *The Most Dangerous Game* by Richard Connell ♥♥ Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. ♥♥ *The Most Dangerous Game* by Richard Connell ♥♥ Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. ♥♥ *The Most Dangerous Game* by Richard Connell ♥♥ After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive.

Decades of research have demonstrated that the parent-child

dyad and the environment of the family"which includes all primary caregivers"are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Poe's preference for not naming his narrators is potent once again in "The Tell-Tale Heart", a story that is trying so hard to appear sane, but fails miserably in the end. With minute preparations, perfect calculations, and even more precise execution of the conceived gruesome act, the narrator successfully fulfills his purpose, only to be lost in a battle with his sanity and guilt afterwards. Backed by the numerous movie and theatrical adaptations, the story is considered one of Poe's most popular and critically acclaimed. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1945), "The Black Cat" (1943), and "The Gold-Bug" (1843).

"You are a herald for your generation....Thank you for using your voice to help us make sense of that dark day, and forge a new beginning."—Hillary Rodham Clinton, in a letter to Helaina Hovitz
Helaina Hovitz was twelve years old and in middle school just blocks away when the World Trade Center was attacked. Her memoir encapsulates the journey of a girl growing up with PTSD

after living through the events firsthand. After 9/11 chronicles its effects on a young girl at the outset of adolescence, following her as she spirals into addiction and rebellion, through loss, chaos, and confusion. The events of 9/11 were a very real part of Helaina's life and are still vivid in her memory today. Hundreds were stranded in the neighborhood, including Helaina, without phones or electricity or anyone to help. Fear and despair took over her life. It would take Helaina more than a decade to overcome the PTSD — and subsequent alcohol addiction — that went misdiagnosed and mistreated. In many ways, After 9/11 is the story of a generation growing up in the aftermath of America's darkest day —and for one young woman, it is the story of a survivor who, after witnessing the end, got to make a new beginning. This new trade paperback edition includes tips on how to cope with trauma, an FAQ section, and a guide to discussing 9/11 with children. "Inspirational, courageous and beautifully told. After 9/11 is a testament to the resiliency of the human spirit." — Cathy Free, correspondent, PEOPLE magazine "Helaina Hovitz's engrossing narrative begins in the shadow of the twin towers with her as a backpack-toting twelve-year-old and plays out over the next fifteen years in dramatic - and sometimes distressing - detail. This impressive debut is both deeply evocative and intensely personal." — Peter Canby, Senior Editor, The New Yorker "A moving and remarkable testament to a time that changed our country, told beautifully by a young woman who never gave up hope that she could reclaim her life, no matter how grim things looked." — Sean Elder, contributor, Newsweek

For fans of sea battles, adventures, and war stories like *Unbroken*, this is the incredible true story of a boy who helps to bring closure to the survivors of the tragic sinking of the USS Indianapolis, and helps exonerate the ship's captain fifty years later. Hunter Scott first learned about the sinking of the USS Indianapolis by watching the movie *Jaws* when he was just eleven-years-old. This was fifty years after the ship had sunk, throwing more than 1,000 men into shark-infested waters—a long fifty years in which justice still had not been served. It was just after midnight on July 30, 1945 when the USS Indianapolis was torpedoed by a Japanese submarine. Those who survived the fiery sinking—some injured, many without life jackets—struggled to stay afloat as they waited for rescue. But the United States Navy did not even know they were missing. As time went on, the Navy needed a scapegoat for this disaster. So it court-martialed the captain for "hazarding" his ship. The survivors of the Indianapolis knew that their captain was not to blame. For fifty years they worked to clear his name, even after his untimely death. But the navy would not budge—not until Hunter entered the picture. His history fair project on the Indianapolis soon became a crusade to restore the captain's good name and the honor of the men who served under him. An acclaimed novelist and critic argues that video games are the most vital art form of our time. Video games have seemingly taken over our lives. Whereas gamers once constituted a small and largely male subculture, today 67 percent of American households play video games. The average gamer is now thirty-four years old and spends eight hours each week playing—and there is a 40 percent chance this person is a woman. In *Bit by Bit*, Andrew Ervin sets out to understand the explosive popularity of video games. He travels to government laboratories, junk shops, and arcades. He interviews scientists and game designers, both old and young. In charting the material and technological history of video games, from the 1950s to the present, he suggests that their appeal starts and ends with the sense of creativity they instill in gamers. As Ervin argues, games can be art because they are beautiful, moving, and even political.
