The New York Times bestseller, now available in paperback—an incredible true story of the top-secret World War II town of Oak Ridge, Tennessee, and the young women brought there unknowingly to help build the atomic bomb. “The best kind of nonfiction: marvelously reported, fluidly written, and a remarkable story...As meticulous and brilliant as it is compulsively readable.” —Karen Abbott, author of *Sin in the Second City* At the height of World War II, Oak Ridge, Tennessee, was home to 75,000 residents, and consumed more electricity than New York City, yet it was shrouded in such secrecy that it

did not appear on any map. Thousands of civilians, many of them young women from small towns across the U.S., were recruited to this secret city, enticed by the promise of solid wages and war-ending work. What were they actually doing there? Very few knew. The purpose of this mysterious government project was kept a secret from the outside world and from the majority of the residents themselves. Some wondered why, despite the constant work and round-the-clock activity in this makeshift town, did no tangible product of any kind ever seem to leave its guarded gates? The women who kept this town running would find out at the end of the war, when Oak Ridge’s secret was revealed and changed the world forever. Drawing from the voices and experiences of the women who lived and worked in Oak Ridge, *The Girls of Atomic City* rescues a remarkable, forgotten chapter of World War II from obscurity. Denise Kiernan captures the spirit of the times through these women: their pluck, their desire to

contribute, and their enduring courage. "A phenomenal story," and Publishers Weekly called it an "intimate and revealing glimpse into one of the most important scientific developments in history." "Kiernan has amassed a deep reservoir of intimate details of what life was like for women living in the secret city...Rosie, it turns out, did much more than drive rivets." —The Washington Post

The Missing Ring Saint Martin's Griffin

For many, the struggle over civil rights was not just about lunch counters, waiting rooms, or even access to the vote; it was also about Christian theology. Since both activists and segregationists ardently claimed that God was on their side, racial issues were imbued with religious meanings from all sides. Whether in the traditional sanctuaries of the major white Protestant denominations, in the mass meetings in black churches, or in Christian expressions of interracialism, southerners resisted, pursued, and questioned racial change within various theological traditions. *God with Us* examines the theological struggle over racial justice through the story of one southern town--Americus, Georgia--where ordinary Americans sought and confronted racial change in the twentieth century. Documenting the passion and virulence of these contestations, this book offers insight into how midcentury battles over theology and race affected the rise of the Religious Right and indeed continue to resonate deeply in American life.

and family. With excerpts from Torchy's unpublished manuscript, "I Live by the Scoreboard," son, Bo, traces the steps in his wonderful journey. TORCHY CLARK is remembered as one of the most successful high school football and basketball coaches in the state of Wisconsin. His prized pupil at Appleton Xavier in both sports was legendary Rocky Bleier who won four Super Bowls with the Pittsburgh Steelers. Today, Torchy's Xavier legacy lives on as the on-campus gym bears his name, the Gene "Torchy" Clark Gym. In 1969, the Oshkosh, Wisconsin native and former Marquette University basketball player (1947-51), moved his family to Orlando, Florida to start the program at UCF. Torchy's magnificent run of success continued winning five Sunshine State Conference Championships (in eight years) and coaching the Knights to the 1978 NCAA Division II Final Four in Springfield, Missouri winning 24 consecutive games. He amassed a 274-89 record and is the school's all-time leader in wins. Torchy is an inaugural member of UCF's Athletic Hall of Fame (1998). The devoted husband to Claire and father of five was a man of deep, committed faith. His love for the Lord resonates throughout the chapters. Torchy's humble, down-to-earth, yet intense, demanding work ethic and teaching style created a "culture of excellence" in every program he led. With detailed research through meaningful and poignant interviews, the iconic figure comes to life. Torchy, who won 82 percent of his games in his career shares his secret to coaching mastery and explains his philosophy of the word "obligation" in a team setting. A champion of the underdog, Torchy Clark was truly a winner on the court, in the classroom, and in the community. Read about this one-of-a-kind, humble coach and the humorous, fascinating, and

compelling stories of his enduring legacy. *The Torch Will Never Go Out*

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

A lively chronicle of how the 2020 Crimson Tide became Nick Saban's "ultimate team." Was Alabama's Crimson Tide in 2020

the greatest team of all time? The squad went 13-0 in a pandemic year, scored a combined 107 points against SEC powerhouses LSU and Florida, crushed Ohio State in a National Championship Game 52-24 in a contest that wasn't even that close, and followed it up with another top-rated signing class. Nick Saban called his boys the "ultimate team," but it wasn't just because they kicked the ever-living hell out of everyone on the football field. It was because the team leveraged a power and influence born of Southern pride to push back against a hateful legacy of racism that a populist president was exploiting to divide the nation. At a time when Americans needed real leaders in the face of so much hate, the sports world answered the call and fought back for the soul of the country. In the summer of 2020, the Tide players left their training facility and, led by their celebrated coach, marched to a campus doorway made infamous sixty years earlier by another political demagogue and showed what people can accomplish when they fight together for a just cause in the name of unity. The most powerful force in a state crazy for college football had chosen to make a stand and replace George Wallace's "Segregation forever!" with a different message, written by one of the players: "All lives can't matter until Black lives matter." There have been some great football teams through the years, and they all deserve respect. But here's what we know for sure: They all would have been appreciative of what this Alabama team represented, and proud of what it accomplished. The Crimson Tide in 2020 captured something special that moved it beyond the conversation of best ever, and into the place reserved for most important of all time.

"I know with some of the older guard at Alabama this is not particularly popular," said Davis, "but this is the greatest era of Alabama football ever.""He's been obviously the most consistent coach that we've had in our profession in a lot of years," said Grant Teaff, College Football Hall of Fame coach and former executive director of the American Football Coaches Association. "Year after year, after year, after year, he's there."***Steve Spurrier went so far as to call Saban the "greatest recruiter in the history of college football," during SEC media days in 2014. "As long as they can recruit like that, they're always going to be the favorites."

WE WANT BAMA

St. Martin's Griffin

An instant New York Times bestseller—the "insider, detailed, and absorbing" (Sports Illustrated) biography of Nick Saban, the polarizing University of Alabama football coach who not only transformed the college game, but might also be the best ever at winning. As the head coach of the University of Alabama's football team, Nick Saban is perhaps the most influential—and polarizing—man in the sport. His program-building vision has delivered packed stadiums, rabid fans, legions of detractors, countless NFL draft picks, and a total of four national championships, including three in the last five years. He is the only coach in the college football's modern era (since 1936) to win national championships at two different schools. Monte Burke's Saban—the first major biography of the man who has come to epitomize the game—presents this towering figure with

a never-before-seen human depth. Though a great deal is known about Nick Saban the coach, not much is known about Nick Saban the man. Little is written about his early climb through the coaching ranks as an assistant in college and in the NFL, or his head-coaching stints at Michigan State and Louisiana State and his struggles as a pro coach with the Miami Dolphins. Through unprecedented interviews with more than 250 friends, coworkers, rivals, former players, and others, Burke reveals the defining moments of the coach's life, including the beginning of his recruiting career at age ten; his dramatic departures from three different high-profile football teams; and the building of championship programs at Louisiana State and Alabama. In Saban, "Burke has written a winning, definitive portrait of a fascinating character.... A no-holds-barred glimpse into the quest for perfection" (Publishers Weekly).

THE WORLD ALMANAC AND BOOK OF FACTS 2020

Triumph Books

A dual biography of two coaching legends -- Bear Bryant and Nick Saban -- who built the Alabama Crimson Tide into a true football dynasty. Both Bear Bryant and Nick Saban are undeniable kings of college football, two coaches at Alabama who have each won more national championships -- six apiece -- than anyone else in the history of the game. Chasing the Bear examines how they did it, revealing along the way their similarities in style, background, football philosophy, and recruiting methods, while providing readers a rare inside look at two of the greatest leaders in the history of sports. Bear Bryant and Nick Saban never met, but they have more in common than either of them realize. Both grew up

in small towns -- Bryant in Moro Bottom, Arkansas, a dot on the map, and Saban from Monongah, West Virginia, population five hundred. As a child, Saban pumped gas at his father's service station, washing and waxing cars and doing anything he could to help the business. Bryant's father suffered from multiple physical ailments, which forced Bryant to work to keep the family farm going. Both men knew the value of hard work from the time they were young boys, and both understood that there were no shortcuts to success. But both dreamed of escaping their hometowns, and both used football as the means to do so. Separated by two generations, Bear Bryant and Nick Saban are mythic figures linked by a school, a town, and a barroom debate centering on one question: Which is the greatest college coach of all time?

As epitomized in the 2016 U.S. Presidential election, women in politics may hit a “glass ceiling” or in the case of former U.K. Prime Minister, Theresa May in 2019, go over a “glass cliff”. Even though women are starting to experience more success gaining offices at state and local levels, women’s participation in the political arena is still disproportionately low. This book explores current research findings, development practices, theory, and the lived experience to deliver provocative thinking that enhances

leadership knowledge and improves leadership development of women around the world.

This book is written for those of us who love Georgia Bulldogs Football and who cannot wait until our next win. There is no need to be impatient because as of 2022, Georgia is now at the top of the pack and the Bulldogs win big games all the time. Ask the others! In 2022, of course we all know, Georgia became the College Football Champions. The founding of the University was in 1785 and before Georgia eventually played its first football game, the first book was read at UGA right after Abraham Baldwin of the University of Georgia drafted legislation that became the charter of the university. Georgia student life moved quickly as the first student organization was founded as the Demosthenian Literary Society was founded. The first commencement was held with Josiah Miggs, President presiding in 1804. For its first 50 years the school was known as Franklin College. Soon after being established, Charles Herty got football going on campus in the fall of 1886 and UGA played its first intercollegiate football game. It took a while but in 1929, the school built its first stadium Sanford Stadium. The rest of the college football is not necessarily thrilled that Georgia became so good, so fast, and now they are recognized as the best team in the nation. Georgia won its first National Championship in 1942. In 1980, Georgia repeated its national championship with

freshman Herschel Walker leading the way. The Bulldogs remained a national powerhouse with a lot of close calls to greatness until 2022 when it again won another National Championship with a coach who was a great Georgia graduate. Go Bulldogs! This book captures the whole great story of Georgia football. It takes the reader through stories about Georgia's great immortal coaches and great players over the years. You will not be able to put this book down.

The federal government wastes your tax dollars worse than a drunken sailor on shore leave. The 1984 Grace Commission uncovered that the Department of Defense spent \$640 for a toilet

seat and \$436 for a hammer. Twenty years later things weren't much better. In 2004, Congress spent a record-breaking \$22.9 billion dollars of your money on 10,656 of their pork-barrel projects. The war on terror has a lot to do with the record \$413 billion in deficit spending, but it's also the result of pork over the last 18 years the likes of: - \$50 million for an indoor rain forest in Iowa - \$102 million to study screwworms which were long ago eradicated from American soil - \$273,000 to combat goth culture in Missouri - \$2.2 million to renovate the North Pole (Lucky for Santa!) - \$50,000 for a tattoo removal program in California - \$1 million for ornamental fish research Funny in some instances and jaw-droppingly stupid and wasteful in others, The Pig Book proves one thing about Capitol Hill: pork is king!
