### **Technical Studies for the Cornet**

Oxford  
University Press

The same notes can sound square or swinging, depending on how the music is phrased. This revolutionary book shows how many people misunderstand jazz phrasing and shows how to replace stiff phrasing

with fluid lines that have the right jazz feeling. In this book, master pianist Hal Galper also shows how get that feeling of forward motion and also how to use melody guide tones correctly, how to line up the strong beat in a bar with the strongest chord notes, and much more!

### **Pentatonic Scales for Jazz Improvisation**

Hal Leonard

In The World of Jazz

Trumpet - A

Comprehensive History and Practical Philosophy, acclaimed jazz trumpet soloist Scotty Barnhart examines the political, social and musical conditions that led to the creation of jazz as America's premier art form. He traces the many factors that enabled freed slaves and their descendants to merge the blues, gospel, classical marches, and African

rhythms to create a timeless and profound art that, since its inception, circa 1900, continues to have a major impact on all music. The *World of Jazz Trumpet* is a must-have study of the jazz trumpet for students, instructors, and professional musicians, as well as for anyone who appreciates the genre. Readers will appreciate Barnhart's personal and professional connection to a major part of American and world history. This book fills a major void in the world of jazz

education as well as in general music education. With entries on 800 trumpeters, it is destined to become required reading in thousands of colleges, schools and homes around the world. *New Orleans Trumpet* Hal Leonard Corporation

*Clifford Brown* Www.lsbm-us.com  
 A swinging cultural history of the instrument that in many ways defined a century The twentieth century was barely under way when the grandson of

a slave picked up a trumpet and transformed American culture. Before that moment, the trumpet had been a regimental staple in marching bands, a ceremonial accessory for royalty, and an occasional diva at the symphony. Because it could make more noise than just about anything, the trumpet had been much more declarative than musical for most of its history. Around 1900, however, Buddy Bolden made the trumpet declare in brand-new ways. He may even have invented

jazz, or something very much like it. And as an African American, he found a vital new way to assert himself as a man. *Hotter Than That* is a cultural history of the trumpet from its origins in ancient Egypt to its role in royal courts and on battlefields, and ultimately to its stunning appropriation by great jazz artists such as Louis Armstrong, Dizzy Gillespie, Miles Davis, and Wynton Marsalis. The book also looks at how trumpets have been manufactured over the

centuries and at the price that artists have paid for devoting their bodies and souls to this most demanding of instruments. In the course of tracing the trumpet's evolution both as an instrument and as the primary vehicle for jazz in America, Krin Gabbard also meditates on its importance for black male sexuality and its continuing reappropriation by white culture. *Singing Tongue Twisters*  
A-Z Hal Leonard Corporation

AN INTERACTIVE, SWING-ALONG PICTURE BOOK—WITH 12 SOUND CHIPS! Are you ready to swing? Discover the wonders of jazz: How to get in the groove, what it means to play a solo, and the joy of singing along in a call-and-response. In this interactive swing-along picture book with 12 sound chips, you'll hear the instruments of jazz—the rhythm section with its banjo, drums, and tuba, and the leads, like the clarinet, trumpet, and trombone. And you'll hear singers scat, improvising

melodies with nonsense syllables like be-bop and doo-we-ah! Along the way, you'll learn how this unique African American art form started in New Orleans, and how jazz changed over time as innovative musicians like King Oliver, Louis Armstrong, Duke Ellington, and Billie Holiday added their own ideas to it. Press the buttons to hear the band, the rhythms, and the singer calling out: "OH WHEN THE SAINTS—oh when the saints..."

**Publications**  
 Jazz Improvisation focuses on the communicative and technical aspects of improvisation and makes an excellent resource for both pros and aspiring improvisers. Assimilate and execute chord progressions, substitutions, turn arounds and construct a melody and jazz chorus.  
**Jazz Baby** Courier Corporation  
 A step-by-step comprehensive approach designed to help the student progress and excel technically! This

method was written to enable the trumpet student to develop into a complete and well-round musician capable of successfully meeting the challenges of contemporary and traditional trumpet performance. Includes scale, articulation, range, and rhythmic studies, as well as original solos and duets.  
*Connecting Chords with Linear Harmony* Outskirts Press  
 Current Jazz Trumpet Legends By: Larry Kemp  
 Current Jazz Trumpet

Legends, Volume 3 in the Jazz Trumpet Legends series, is an examination of the lives and contributions of jazz trumpeters born after July 1, 1938. Included are Lee Morgan, Bobby Shew, Lew Soloff, Woody Shaw, Arturo Sandoval, Wynton Marsalis, along with scores of other men and women who created jazz with a trumpet. This is an essential guide for the student of jazz, those interested in history, and those who just like to read entertaining true stories about the most colorful

people. Current Jazz Trumpet Legends is the most comprehensive book on the subject. More than 340 trumpeters are discussed. There is a listing of female trumpeters and a listing of men whose first names might lead you to think they are female, but they aren't. There is an index of trumpeters discussed in this volume and an index of all trumpeters in the three volume series. The book concludes with a list of people whose help is acknowledged. The scholarship involved is

impeccable, while the text reads as easily as a novel. Current Jazz Trumpet Legends is the third of three volumes of profiles of jazz trumpeters organized chronologically by date of birth. The first volume, Early Jazz Trumpet covers those trumpeters born before September 1, 1924. The second volume, Modern Jazz Trumpet Legends covers those born between 1925 and July 1, 1938. The third volume, Current Jazz Trumpet Legends, covers those born after July 1, 1938.

*Do It!* Houston Publishing, Incorporated  
 Trumpeter Steffen Kuehn developed 'Stef's Trumpet Method' over the course of the last 15 years and has successfully taught his method to hundreds of Trumpet students. Steffen Kuehn is a German-born Trumpeter, Composer, Arranger, Producer & Educator who resides in the San Francisco Bay Area and performs nationally and internationally. His Latin Big Band 'Pacific Mambo Orchestra', that he co-founded in 2010 is the

recipient of the 2013 Grammy(R) Award for 'Best Tropical Latin Album'. Steffen is a Co-Executive of 'Pacific Mambo LLC' and 'Pacific Mambo Records' as well as the Founder and President of 'Stefrecords' and its Publishing arm 'TrumPOP Publishing'. these collections of 130 popular solos, including: Another One Bites the Dust \* Any Dream Will Do \* Bad Day \* Beauty and the Beast \* Breaking Free \* Clocks \* Edelweiss \* God Bless the U.S.A. \* Heart and Soul \* I Will Remember You \* Imagine \* Na Na Hey Hey Kiss Him Goodbye \* Satin Doll \* United We Stand \* You Raise Me Up \* and more. **Complete Jazz Trumpet Book** Schott  
 There are many books written for the Piano, Violin, etc., entirely devoted to Technic. This

Work is especially written to enable the Student, by practice and application, to overcome any obstacle which may occur in musical passages written for the Cornet. By controlling the Wind Power to play these Exercises as written, in one breath, the Student will acquire ENDURANCE without strain or injury. Train the Muscles which control the Lips, to make them elastic and strong, as only a slight pressure is necessary, and not brute force. The highest as well as the lowest notes can

be played with equal tone quality if practiced according to the instructions that precede each Study. Every Cornet Player should have reached a degree of excellence before attempting to play these Exercises. To become an Expert on the Cornet, one should be familiar with as many Cornet Methods as possible, and so gain the experience of each. Every Exercise in this Book is possible, and not so very difficult if practiced slowly at first, and not too long at a time. I have used

them for my daily practice for years, and they have been the means of my reaching the highest notes after playing a two-hour Concert, also of preserving my lips so that they never tire, and what has been a help to me is surely good for other Cornet Players. You cannot expect to attain the highest point of excellence without hard work and perseverance. Never be perfectly satisfied with yourself. Try to make some improvement each day, feeling that it is a

pleasure to have conquered that which seemed an impossibility at first. Do not neglect to correct immediately the least fault you make. Bad habits are easily formed, but are difficult to remedy. There are few Celebrated Cornet Soloists, although thousands play the instrument. Most players abuse their practicing by not knowing the proper way, and neglecting to pay more attention to the elementary work. These Studies have been found to be excellent for

Clarinet Players as well as Cornet Players. The Clarinet being a Wind Instrument also, all these Exercises will appeal to the Player of that Instrument by following the same instructions. Current Jazz Trumpet Legends Mel Bay Publications  
A comprehensive study text teaching elements of jazz phrasing, articulation, vibrato, chord studies, and technical studies leading to improvisation. In addition, a theory workbook section teaches scales, modal concepts

and chord construction. Includes jazz trumpet studies and trumpet improvising. Welcome to Jazz Dorrance Publishing  
Book 2 contains more improvised solos from more great artists such as Chet Baker, Donald Byrd, Freddie Hubbard, Dizzie Gillespie, Booker Little, Fats Navarro, and others. *Hotter Than That* "O'Reilly Media, Inc."  
(Jazz Book). A study of three basic outlines used in jazz improv and composition, based on a study of hundreds of

examples from great jazz artists.

*The Art of Jazz Trumpet*

Mel Bay Publications

A complete pedagogical method for students of trumpet and cornet, this "brass bible" contains hundreds of exercises from basics to advanced. Includes the author's famous arrangement of Carnival in Venice.

**First 50 Songs You Should Play On Ocarina**

Hal Leonard Corporation  
Baby and his family make some jazz music.

Alfred Music

A comprehensive study text for students beginning a serious study of jazz. The first part of the book begins by teaching elements of jazz phrasing, articulation, vibrato and interpretation of rhythms through exercises and original pieces. Next, the book encourages improvisational skills through both theoretical and technical studies of scales and chords. The second half of the book builds on the skills learned in the first part with an in-depth study of

the theory, which underlies improvisational techniques including scales, modal concepts and chord construction. Ear training, particularly the development of the ability to hear chord progressions is also emphasized  
*Jazz Conception Trumpet*  
"O'Reilly Media, Inc."  
Newly-revised format features a 274 page book, two audio play-along / demonstration CDs, and a third CD with 168 printable PDF pages of transcribed solos (from the audio CDs) transposed

for C, B-flat, E-flat, and bass clef instruments! All aspiring jazz players find themselves at a point in their development where they are ready to go from playing "right notes" to playing meaningful solos, and making this essential leap can be frustrating. Intermediate Jazz Improvisation is for everyone wishing to bridge the gap between playing scales, chords, and licks to playing realistic, flowing jazz lines. It's specifically designed to build upon the knowledge you

already have (basic chord and scale knowledge) to improve your understanding and skills as a soloist. The 2 play-along CDs include selected tracks from Aebersold play-alongs coordinated with exercises and solo examples played on a separate channel and notated in the book. All parts in the book are transposed for all instruments. "Useful for both private and classroom settings. Expanded version includes 168 pages of

additional transcribed solos from the audio CDs in a third CD of printable PDFs (all transposed for your key)! The large, information-packed book is 276 spiral-bound pages and includes transposed parts for B-flat, E-flat, and bass clef instruments. This popular book has become a classic! Testimonials are many about how this book is helping musicians who feel they're on a plateau in their development! Highly recommended. In-depth, complete, and extensive don't even

begin to describe the information in Intermediate Jazz Improvisation. With over 400 pages, this is one of the most extensive study books I have seen on the market today. And since it is published by Jamey Aebersold, you know it comes with play-along CDs. The topics covered in this book include the following: chromatic scales, half-diminished and altered dominant

chords, melodic connecting and major cadences, cycles, turnaroun
