Law and Society SAGE

Sexualities and Society adopts a fresh, sociological perspective to explore the development of sexualities across both public and private spheres, giving thoughtful consideration to heterosexualities, cis, bi and trans identities. Divided into three parts, the book starts with an exploration into the history of sexuality, before covering the key theories, and how research into sexualities has been, and could be, conducted. Parts two and three examine

how sexualities are framed by cultural factors and social institutions - including the media, religion, and politics - and considers the impact of how significant issues such as identity, age, health and violence relate to sexuality. Employing a range of international case studies, up to date policy developments, and engaging learning features such as 'discussion points' and 'fact file' sections, this book is essential reading for students studying sexuality across sociology, social policy, social care, media, and politics.

Introducing Language and Society  
Literature and Society

Drawing on contemporary and historical examples, from clay tablets to touchscreen displays, this book is a general account of the place of writing in

society. It explores the functions of writing and written language, analysing its consequences for language, society, economy and politics.

Introduction to Politics and Society CRC Press

'In his beautifully balanced, clear and broad-ranging account of a fast-changing field, Paul Hodkinson has successfully brought together myriad perspectives with which to critically analyse today's media culture and media society' - Sonia Livingstone, Professor of Media & communication, LSE Clearly organized, systematic and combining a critical survey of the field with a finely judged assessment of cutting edge developments, this book provides a 'must have' contribution to media and communication

studies. The text is organized into three distinctive parts, which fall neatly into research and teaching requirements: Elements of the Media (which covers media technologies, the organization of the media industry, media content and media users); Media, Power and Control (which addresses questions of the media and manipulation, the construction of news, public service broadcasting, censorship, commercialization); and Media, Identity and Culture (which covers issues of the media and ethnicity, gender, subcultures, audiences and fans). The book is notable for:

- Logical and coherent organization
- Clarity of expression
- Use of relevant examples
- Fair minded criticism
- Zestful powers of analysis

It has all of the qualities to be adopted as core introductory text in the large and buoyant field of media and communication studies. The Information Society Routledge Research and real-life examples that “lucidly connect some of the divisive social issues confronting us today to that thing we call ‘the law’” (Law and Politics Book Review). Law and society is a rapidly growing field that turns the conventional view of law as mythical abstraction on its

head. Kitty Calavita brilliantly brings to life the ways in which law is found not only in statutes and courtrooms but in our institutions and interactions, while inviting readers into conversations that introduce the field’s dominant themes and most lively disagreements. Deftly interweaving scholarship with familiar examples, Calavita shows how scholars in the discipline are collectively engaged in a subversive exposé of law’s public mythology. While surveying prominent issues and distinctive approaches to both law as it is written and actual legal practices, as well as the law’s potential as a tool for social change, this volume provides a view of law that is more real but just as compelling as its mythic counterpart. With this second edition of *Invitation to Law and Society*, Calavita brings up to date what is arguably the leading introduction to this exciting, evolving field of inquiry and adds a new chapter on the growing law and cultural studies movement. “Entertaining and conversational.” —Law and Social Inquiry

**An Introduction to Language and Society** Routledge

"This text engages students in the social

media phenomenon, exploring how fundamental changes in mass media influence every level of societal communication. With the explosion of social media and big data, students must become conscious of media's positive and negative influences on their lives"--

**Society** John Wiley & Sons

### **SOCIAL MEDIA AND SOCIETY**

U of Minnesota Press  
This thematic anthology features comprehensive writing coverage that highlights both the writing process and how to write about fiction, poetry, drama, and nonfiction. It introduces and explains literature with reading selections centered on five enduring themes Growing Up and Growing Older, Women and Men, Money and Work, Peace and War, and Varieties of Protest.

### **INVITATION TO LAW & SOCIETY**

SAGE Publications  
Explore sociology's key concepts, theories, methods, and original voices--all in one innovative text. *Imagining Society: An Introduction to Sociology* is an versatile and economical resource for your introductory course. With this single text, you can: Teach the discipline's history, key concepts, subfields, and contributions to social science. Expose students to the central building blocks of sociology—short excerpts from the original works of classical and contemporary sociologists. Explain sociology's key theoretical insights by connecting them to specific issues. Describe and illustrate the methods used by sociologists—not just in the opening chapter, but throughout the entire text. Engage students in thoughtful, self-directed projects and activities. This title is accompanied by a complete teaching and learning package.  
*British Culture of the Post-War* Rowman & Littlefield  
'In his beautifully balanced, clear and broad-ranging account of a fast-changing field, Paul Hodkinson has successfully

brought together myriad perspectives with which to critically analyse today's media culture and media society.' – Sonia Livingstone, Professor of Media & Communication, LSE  
*Paul Hodkinson's* bestseller is back, once again exploring the concepts and complexities of the media in an accessible, balanced and engaging style. Additions to the Second Edition include: A new chapter on advertising and sponsorship Extensive revision and updating throughout all chapters New material on technologies, censorship, online news, fan cultures and representations of poverty Greater emphasis on and examples of digital, interactive and mobile media throughout Fully reworked chapter on media, community and difference Up-to-date examples covering everything from social media, contemporary advertising, news events and mobile technologies, to representations of class, ethnicity and gender. Combining a critical survey of the field with a finely judged assessment of cutting-edge developments, this Second Edition cements its reputation as the must-have text for any undergraduate student studying media, culture and

society.

*An Introduction to the Study of Society*

John Wiley & Sons

"The new third edition of *Law and Society* provides a balanced, multidisciplinary, and comprehensive overview of law as an essential social institution that both shapes and is shaped by society. Between this book's covers, readers will find the theoretical and conceptual contributions of anthropologists, historians, law professors, political scientists, philosophers, psychologists, and sociologists. By synthesizing this wide range of perspectives, the book provides readers with a nuanced and in-depth context to think about, discuss, and analyze current trends, issues, and events. Through this book, readers will also grasp the many ways law affects the lives of individuals and, more generally, how law and society affect each other in matters such as dispute settlement, criminal law, social movements, inequality, and social control"--

**The Book in Society** Psychology Press

The impact of the 'information society' are multiform and transdisciplinary. There are few areas of social, political and economic

life that have not been affected or challenged by the new technologies of information and communication. In this short introduction, Armand Mattelart unpacks the notion of the information society, and examines why it has become the dominant paradigm for social change in the 21st Century. Critically, he also asks why the notion has come to dominant in the absence of any critical examination of the conditions under which it has been produced. Combining a long-term historical and geopolitical perspective, Mattelart questions the axioms used to legitimate the Information Society and critically assesses the ways in which it has been conceptualised as a theoretical concept as well as policy making tool. This introduction will be of interest to all students of media and communication, as well as social scientists in general.

Greenwood

This concise, elegantly written paperback volume on the essential elements of sociology is perfect as the sole textbook for a brief introductory course or as a core text to be supplemented with other readings.

**Law and Society** SAGE

This volume traces the modern critical and performance history of this play, one of Shakespeare's most-loved and most-performed comedies. The essay focus on such modern concerns as feminism, deconstruction, textual theory, and queer theory.

*Imagining Society* Prentice Hall

In recent years, legal studies courses have increased the focus on contemporary social issues as part of the curriculum. *Law and Society: An Introduction* discusses the interface between these two institutions and encourages students in the development of new insights on the topic. The book begins by introducing definitions, classifications, and the concept of the "rule of law." It then explores: Principal legal systems, including common law, civil law, Islamic and socialist systems, and American Indian law Feminist legal theories, critical race theory, and the roles of morality and values in social control The contributions of sociological research and its impact on the law Court systems and procedures, the exclusionary rule, and plea bargaining The nature and process of legislative, administrative, and judicial

lawmaking Alternative dispute resolution and international arbitration and mediation The law as a mechanism for social changes, such as those brought on by the 1964 Civil Rights Act Issues related to the legal profession and professional responsibility This text eliminates the need for a separate reader by also discussing controversial legal topics—including affirmative action, education, the death penalty, right to work laws, and abortion. Each chapter builds on the previous ones and includes concrete examples of the issues involved. Enhanced by chapter summaries of salient points, review questions, and practical exercises, the book is designed to encourage students in the development of new insights into the relationships between law and society.

Data and Society Bloomsbury Publishing  
An enriching introduction to the diverse and exciting world of literature, this anthology offers a broad collection of short fiction, poetry, drama and nonfiction selections written by a diverse group of writers who represent different social classes, races, genders, cultures, and sexual orientations. Organizes selections around five socially relevant themes--

Growing Up and Growing Older; Women and Men; Money and Work; Peace and War; and Varieties of Protest. Shows how literary technique serves larger purposes-- the recreation of experience, the exploration of ideas, the analysis of social issues-- and how these larger purposes themselves shape literary form. Explains the ways in which literary form creates meaning, and provides a strong emphasis on writing about literature throughout, with a full chapter on all stages of the writing process -- generating ideas, developing a thesis, discovering a form, drafting, revising, and editing-- plus numerous excerpts from sample papers and journals. Now contains 42 new works, with more by Native American and Latino/Latina writers, as well as Bertolt Brecht's play "Mother Courage" and Shakespeare's "Othello"; also includes 18 works of nonfiction prose that have been chosen both for their literary technique as well as for their exploration of the five major themes.

### **HOW LITERATURE CHANGES THE WAY WE THINK**

Cambridge University Press

From Angus Wilson to Pat Barker and Salman Rushdie, *British Culture of the Post-War* is an ideal starting point for those studying cultural developments in Britain of recent years. Chapters on individual people and art forms give a clear and concise overview of the progression of different genres. They also discuss the wider issues of Britain's relationship with America and Europe, and the idea of Britishness. Each section is introduced with a short discussion of the major historical events of the period. Read as a whole, *British Culture of the Postwar* will give students a comprehensive introduction to this turbulent and exciting period, and a greater understanding of the cultural production arising from it.

The Book in Society Broadview Press  
This classic work is designed to cover all of the major movements in literary studies during this century. Noted for its clear, engaging style and unpretentious treatment, *Literary Theory* has become the introduction of choice for anyone interested in learning about the world of contemporary literary thought. The second edition contains a major new survey chapter that addresses developments in

cultural theory since the book's original publication in 1983, including feminist theory, postmodernism, and poststructuralism.

### **Education and Society** SAGE

*The Book in Society: An Introduction to Print Culture* examines the origins and development of one of the most important inventions in human history. Books can inform, entertain, inspire, irritate, liberate, or challenge readers, and their forms can be tangible and traditional, like a printed, casebound volume, or virtual and transitory, like a screen-page of a cell-phone novel. Written in clear, non-specialist prose, *The Book in Society* first provides an overview of the rise of the book and of the modern publishing and bookselling industries. It explores the evolution of written texts from early forms to contemporary formats, the interrelationship between literacy and technology, and the prospects for the book in the twenty-first century. The second half of the book is based on historian Robert Darnton's concept of a book publishing "communication circuit." It examines how books migrate from the minds of authors to the minds of readers, exploring such

topics as the rise of the modern notion of the author, the role of states and others in promoting or restricting the circulation of books, various modes of reproducing and circulating texts, and how readers' responses help shape the form and content of the books available to them. Feature boxes highlighting key texts, individuals, and developments in the history of the book, carefully selected illustrations, and a glossary all help bring the history of the book to life.

### **SEXUALITIES AND SOCIETY**

Cambridge University Press

An established introductory textbook that provides students with a guide to developments in children's literature over time and across genres. This stimulating collection of critical essays written by a team of subject experts explores key British, American and Australian works, from picture books and texts for younger children, through to graphic novels and young adult fiction. It combines accessible close readings of children's texts with informed examinations of genres, issues and critical contexts, making it an essential practical book for students. This

is an ideal core text for dedicated modules on Children's literature which may be offered at the upper levels of an undergraduate literature or education degree. In addition it is a crucial resource for students who may be studying children's literature for the first time as part of a taught postgraduate degree in literature or education. New to this Edition: - Revised and updated throughout in light of recent children's books and the latest research - Includes new coverage of key topics such as canon formation, fantasy and technology - Features an essay on children's poetry by the former Children's Laureate, Michael Rosen  
*Introduction to Fictional Poetry and Drama*  
SAGE

Corporations dominate our societies. They employ us, sell to us and influence how we think and who we vote for, while their economic interests dictate local, national and global agendas. Written in clear and accessible terms, this much-needed textbook provides critical perspectives on all aspects of the relationship between business and society: from an historical analysis of the spread of capitalism as the foundation of the 'corporate' revolution in

the late nineteenth century to the regulation, ethics and exclusionary implications of business in contemporary

society. Furthermore, it examines how corporate power and capitalism might be resisted, outlining a range of alternatives,

from the social economy through to new forms of open access or commons ownership.
