RAB (Rencana Anggaran Bangunan) berisi deretan tahapan pengerjaan pembangunan rumah dan konstruksi agar orang-orang yang terlibat dalam pekerjaan tersebut mengetahui sejak awal berapa anggaran yang dibutuhkan dari awal hingga selesai. Buku ini mengajarkan kepada langkah-langkah menyusun RAB menggunakan MS Excel. Selengkapnya, Anda akan mempelajari: - Alur kerja pembuatan RAB - Pembuatan analisa harga satuan dan upah - Penyusunan RAB - Penggunaan formula untuk menghitung komponen bangunan - dan sebagainya Materi yang dibahas ditunjukkan untuk: - Pemborong bangunan - Arsitek - Orang awam yang ingin membangun/ renovasi rumah sendiri - Mahasiswa teknik sipil

The Popular Radical Press in Britain, 1811-1821 Vol 3 John Wiley & Sons

Presents a complete coverage of all aspects of the theory and practice of pavement design including the latest concepts.

A Complete Guide to the Evaluation, Selection, and Use of Sustainable Construction Materials W. W. Norton & Company

Accelerating economic development and urbanization has led to engineers becoming increasingly ambitious, carrying out excavations in more difficult soils, so that excavations are deeper and more extensive. These complex conditions require advanced analysis, design methods and

construction technologies. Most books on general foundation engineering i

A Programmed Text for Reinforced Concrete Slabs Cengage Learning

In lively, accessible detail, Koch explains how anyone can accomplish much more with much less effort, time, and resources by focusing on what really counts."-- Back cover.

Tokyo Thomas Telford

(Publisher-supplied data) Drug abuse is a serious national health concern that costs American society billions of dollars and countless lives each year. Though it attracts the attention of politicians, mental health professionals, the media and members of the general public, little real progress has been made toward understanding the nature of the problem. Providing a perspective on alcohol and other drug abuse that should be of value to practitioners, course instructors, and students of psychology, counselling and sociology, this book should also be useful for anyone interested in developing a comprehensive understanding of substance abuse difficulties and their treatment. The organizing theme is that drug abuse can be conceptualized as a lifestyle, in which the individual demonstrates an increasing level of both commitment and preoccupation with drug-related activities, goals and relationships.; The lifestyle model considers three primary categories of influence in offering a working model of drug- seeking behaviour. These three factors, commonly referred to as the "three C's", are conditions internal and external influences that increase or decrease a person's future risk of abusing drugs, choice decision-making processes of an individual, and cognition thinking patterns the individual uses to justify his or her decisions and subsequent drug use behaviour.; The first section of this book probes biological, psychological, and sociological roots of drug abuse, and is followed by a discussion of developmental origins, features

and progressions of drug lifestyle involvement. Finally, potential avenue of intervention and prevention are investigated in an effort to construct a comprehensive programme of lifestyle change. Applicable case studies are also examined in relation to these issues.

Social Security Reform Chris Hendrickson

Introduction to the fundamentals of reinforced concrete construction.

Fundamental Concepts for Owners, Engineers, Architects, and Builders Createspace Independent Publishing Platform

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."-- Foreword.

THE 80/20 PRINCIPLE

CRC Press

The revision of this best-selling text for a junior/senior course in Foundation Analysis and Design now includes an IBM computer disk containing 16 compiled programs together with the data sets used to produce the output sheets, as well as new material on sloping ground, pile and pile group analysis, and procedures for an improved anlysis of lateral piles. Bearing capacity analysis has

been substantially revised for footings with horizontal as well as vertical loads. Footing design for overturning now incorporates the use of the same uniform linear pressure concept used in ascertaining the bearing capacity. Increased emphasis is placed on geotextiles for retaining walls and soil nailing.

INTRODUCTION TO THE HINDOOSTANEE LANGUAGE

Amer Inst of Steel Construction

Robert Peurifoy was a giant in the field of construction engineering and authored several books during his lifetime. This book last published in 1989 and will capitalize on the well-known name of the author. In this edition, computer calculations of costs and of modeling have been added as well as updated statistics, computer related examples and new problems. Civil, Environmental, and Construction Management Engineering Majors and Professionals will benefit from having this title on their shelf. This edition retains the conceptual strengths of the Peurifoy approach and organization from the previous edition but the new problems and computer-based examples and new up-to-date construction data make it the only choice in academia or industry.

This complete guide to the evaluation, selection, and use of sustainable materials in the landscape features strategies to minimize environmental and human health impacts of conventional site construction materials as well as green materials. Providing detailed current information on construction materials for sustainable sites, the book introduces tools, techniques, ideologies and resources for evaluating, sourcing, and specifying sustainable site materials. Chapters cover types of materials, both conventional and emerging green materials, environmental and human health impacts of the material, and detailed strategies to minimize these impacts. Case studies share cost and performance information and lessons learned.

The radical weekly newspaper or pamphlet was the leading print organ of popular radical expression during what has been called the "heroic age of popular Radicalism"; the public agitation for parliamentary reform between 1815 and 1820. This work reprints the original runs of the rarest periodicals.

Systems Analysis and Design in a Changing World Ambassador International

Through the voice of Mee Ali, readers experience the rhythms and rituals of life in rural Namibia in interconnected stories. In Oshaantu, a place where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him. Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while others grow out of strength of character, respect, and love.

PRINCIPLES OF PAVEMENT DESIGN

CRC Press

Leprosy is a scary disease. Most people have a serious aversion to losing their sense of touch and growing numb and unable to feel another's touch, or even sensing hot and cold temperatures. They have an aversion to losing fingers, toes, and noses. They have an aversion to losing their eyesight, their ability to walk or to pick up a penny, and even their ability to have a sexual relationship. Hopefully, you don't have the physical disease of Leprosy. Did you know, though, that you might have "Spiritual Leprosy?" Your lifestyle may be creating numbness to the activities that are unacceptable to family, to friends, and to God. You are living a life that has become self-serving, addictive, and destructive to the extent that those in your life want nothing more to do with you. You're becoming immobile and non-functional in life because of a slavery to sin that has overtaken you. You are dying and may not even realize it yet. At one point in our lives, we are all leprous. The Ten Lep

HarperCollins Publishers

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Foundation Analysis and Design John Wiley & Sons

Refined and streamlined, SYSTEMS ANALYSIS AND DESIGN IN A CHANGING WORLD, 7E helps students develop the conceptual, technical, and managerial foundations for systems analysis design and implementation as well as project management principles for systems development. Using case driven techniques, the succinct 14-chapter text focuses on content that is key for success in today's market. The authors' highly effective presentation teaches both traditional (structured) and object-oriented (OO) approaches to systems analysis and design. The book highlights use cases, use diagrams, and use case descriptions required for a modeling approach, while demonstrating their application to traditional, web development, object-oriented, and service-oriented architecture approaches. The Seventh Edition's refined sequence of topics makes it easier to read and understand than ever. Regrouped analysis and design chapters provide more flexibility in course organization. Additionally, the text's running cases have been completely updated and now include a stronger focus on connectivity in applications.
