The federal government is running huge budget deficits, spending too much, and heading toward a financial crisis. Federal spending soared under President George W. Bush, and the costs of programs for the elderly are set to balloon in coming years. Hurricane Katrina has made the federal budget situation even more desperate. In Downsizing the Federal Government Cato Institute budget expert Chris Edwards provides policymakers with solutions to the growing federal budget mess. Edwards identifies more than 100 federal programs that should be terminated, transferred to the states, or privatized in order to balance the budget and save hundreds of billions of dollars. Edwards proposes a balanced reform package of cuts to entitlements, domestic programs, and excess defense spending. He argues that these cuts would not only eliminate the deficit, but also strengthen the economy, enlarge personal freedom, and leave a positive fiscal legacy for the next generation. Downsizing the Federal Government discusses the systematic causes of wasteful spending, and it overflows with examples of federal programs that are obsolete and mismanaged. The book examines the budget process and shows how policymakers act contrary to the interests of average Americans by favoring special interests.

As a child, Tahir Shah learned the secrets of illusion from an Indian magician. This is the story of his apprenticeship to one of India's master conjurers and his initiation into the brotherhood of godmen. Learning to unmask and practice illusion, he seeks out the subcontinents sadhus, sages, sorcerers, hypnotists, and humbugs. His quest exposes a side of India that most writers never imagine exists. Photos.

#### REMARKS

Flatiron Books

Airpower is not widely understood. Even though it has come to play an increasingly important role in both peace and war, the basic concepts that define and govern airpower remain obscure to many people, even to professional military officers. This fact is largely due to fundamental differences of opinion as to whether or not the aircraft has altered the strategies of war or merely its tactics. If the former, then one can see airpower as a revolutionary leap along the continuum of war; but if the latter, then airpower is simply another weapon that joins the arsenal along with the rifle, machine gun, tank, submarine, and radio. This book implicitly assumes that airpower has brought about a revolution in war. It has altered virtually all aspects of war: how it is fought, by whom, against whom, and with what weapons. Flowing from those factors have been changes in training, organization, administration, command and control, and doctrine. War has been fundamentally transformed by the advent of the airplane.

**The Onion Book of Known Knowledge** University Press of Colorado

The untold story of a national trauma—NASA’s Challenger explosion—and what really happened to America’s Teacher in Space, illuminating the tragic cost of humanity setting its sight on the stars You’ve seen the pictures. You know what happened. Or do you? On January 28, 1986, NASA’s space shuttle Challenger exploded after blasting off from Cape Canaveral. Christa McAuliffe, America’s “Teacher in Space,” was instantly killed, along with the other six members of the

mission. At least that's what most of us remember. Kevin Cook tells us what really happened on that ill-fated, unforgettable day. He traces the pressures—leading from NASA to the White House—that triggered the fatal order to launch on an ice-cold Florida morning. Cook takes readers inside the shuttle for the agonizing minutes after the explosion, which the astronauts did indeed survive. He uncovers the errors and corner-cutting that led an overconfident space agency to launch a crew that had no chance to escape. But this is more than a corrective to a now-dimming memory. Centering on McAuliffe, a charmingly down-to-earth civilian on the cusp of history, The Burning Blue animates a colorful cast of characters: a pair of red-hot flyers at the shuttle's controls, the second female and first Jewish astronaut, the second Black astronaut, and the first Asian American and Buddhist in space. Drawing vivid portraits of Christa and the astronauts, Cook makes readers forget the fate they're hurtling toward. With drama, immediacy, and shocking surprises, he reveals the human price the Challenger crew and America paid for politics, capital-P Progress, and the national dream of "reaching for the stars."

By 1926, it seemed that John R. Brinkley's experimental rejuvenation cure—transplanting goat glands into aging men—had taken the nation by storm. Never mind that "Doc" Brinkley's medical credentials were shaky at best and that he prescribed medication over the airwaves via his high-power radio stations. To most in the medical field, he was a quack. But to his many patients and listeners, he was a brilliant surgeon, a savior of their lost manhood and youth. His rogue radio stations, XER and its successor XERA, eventually broadcast at an antenna-shattering 1,000,000 watts and not only were a megaphone for Brinkley's lucrative quackery but also hosted an unprecedented number of then-unknown country musicians and other guests. The Bizarre Careers of John R. Brinkley tells the story of the infamous "Goat Gland Doctor"—a controversial medical charlatan, groundbreaking radio impresario, and prescient political campaigner—and recounts his amazing rags-to-riches-to-rags career. A master manipulator and skilled con artist, Brinkley left behind a patchwork of myths and unreliable personal accounts that many writers have merely perpetuated—until now. Alton Lee brings Brinkley's infamous legacy to the forefront, exploring how he ruthlessly exploited the sexual frustrations of aging men and the general public's antipathy toward medical doctors. Lee leaves no stone unturned in this account of a man who changed the course of American institutions forever.

### EL LECHON CHONCHO: CHONCHO THE PIG

University Press of Kentucky

Mutual-fund superstar Peter Lynch and author John Rothchild explain the basic principles of the stock market and business in an investing guide that will enlighten and entertain anyone who is high-school age or older. Many investors, including some with substantial portfolios, have only the sketchiest idea of how the stock market works. The reason, say Lynch and Rothchild, is that the basics of investing—the fundamentals of our economic system and what they have to do with the stock market—aren't taught in school. At a time when individuals have to make important decisions about saving for college and 401(k) retirement funds, this failure to provide a basic education in investing can have tragic consequences. For those who know what to look for, investment opportunities are everywhere. The average high-school student is familiar with Nike, Reebok, McDonald's, the Gap, and the Body Shop. Nearly every teenager in America drinks Coke or Pepsi, but only a very few own shares in either company or even understand how to buy them. Every student studies American history, but few realize that our country was settled by European colonists financed by public companies in England and Holland—and the basic principles behind public companies haven't changed in more than three hundred years. In *Learn to Earn*, Lynch and Rothchild explain in a style accessible to anyone who is high-school age or older how to read a stock table in the daily newspaper, how to understand a company annual report, and why everyone should pay attention to the stock market. They explain not only how to invest, but also how to think like an investor.

### ROSSEN TO THE RESCUE

Penguin

El lechon Choncho is a giant pinkish-white pig with large ears that stand straight up. He is as big as a truck. But not only is he large, he is sweet, smart, brave, and practically the funniest pig you could ever meet! Just ask Hilda! Follow Hilda and her sisters as she tells the story of her favorite family pet, el lechon Choncho, and the incredible, sometimes hilarious adventures growing up on their farm in Puerto Rico. El lechon Choncho is a wonderful story of a charming yet lovable pig that will bring a smile to your face and have a special place in your child's heart. Who would have thought a pig could be the best friend of a little girl?

### FRAUD BUSTERS

Macmillan

"Poetic and meditative, this true-life fable about a tree that survived 9/11 commemorates the attack while evoking a resilient spirit and the healing power of nature. Ann Magee's spare and lyrical text and Nicole Wong's soft-edged art afford ample space for young readers to reflect, to hope and to envision a future where peace takes root." —Carole Boston Weatherford, author of Newbery Honor book *BOX* "Branches of Hope is a tribute to resilience and hope, a gentle way to talk with our youngest readers about the memory of 9/11." —Kate Messner, author of *The Brilliant Deep: Rebuilding the World's Coral Reefs* The branches of the 9/11 Survivor Tree poked through the rubble at Ground Zero. They were glimpses of hope in the weeks after September 11, 2001. Remember and honor the events of 9/11 and celebrate how hope appears in the midst of hardship. The Survivor Tree found at Ground Zero was rescued, rehabilitated, and then replanted at the 9/11 Memorial site in 2011. This is its story. In this moving tribute to a city and its people, a wordless story of a young child accompanies the tree's history. As the tree heals, the girl grows into an adult, and by the 20th anniversary of 9/11, she has become a firefighter like her first-responder uncle. A life-affirming introduction to how 9/11 affected the United States and how we recovered together.

John E. McDonough affords a rare glimpse into the practice of state politics in this insider's account of the fascinating interface between political science and real-life politics. A member of the Massachusetts House of Representatives for thirteen years and a skilled storyteller, McDonough eloquently weaves together stories of politics and policy with engaging theoretical models in a way that illuminates both the theory and the practice. By providing a link between scholarship and the world of experience, he communicates much about the essence of representative democracy. In

the process, he demonstrates how politics extend beyond the public sphere into many aspects of life involving diverse values and interests. McDonough describes the nature of conflict, the role of interests, agenda setting, the nature and pace of change, the use of language, and more. Accessible, insightful, and original, his stories touch on a broad range of issues—including health care politics, campaigns, and elections; a street gang called the X-men; the death penalty; campaign finance reform, and tenants versus landlords. To the author, politics is everywhere and political dynamics are universal. While the setting for this book is one legislature, the lessons and insights are intended for everyone.

Reinvention is the key to success in these volatile times—and Pamela Mitchell holds the key to reinvention! In *The 10 Laws of Career Reinvention*, America's Reinvention Coach® Pamela Mitchell offers every tool readers need to navigate the full arc of career change. Part I introduces the Reinvention Mindset, with what you need to know to be prepared mentally to get started. In Part II, you read the real-life stories of ten individuals who successfully made the leap to new and unexpected careers, using the 10 laws: The 1st Law: It Starts With a Vision for Your Life The 2nd Law: Your Body Is Your Best Guide The 3rd Law: Progress Begins When You Stop Making Excuses The 4th Law: What You Seek is on the Road Less Traveled The 5th Law: You've Got the Tools in Your Toolbox The 6th Law: Your Reinvention Board is Your Lifeline The 7th Law: Only a Native Can Give You the Inside Scoop The 8th Law: They Won't "Get" You Until You Speak Their Language The 9th Law: It Takes the Time That it Takes The 10th Law: The World Buys Into an Aura of Success Each story is followed by an in-depth lesson that explains how to adapt these laws to your own career goals, and what actions and precautions to take. The lessons answer all your tactical concerns about navigating the roadblocks, getting traction and managing your fears. The final section provides workbook exercises for fine-tuning your reinvention strategies for maximum results. Clear-headed, calming, practical, and thorough, this is the ideal action plan for getting through any career crisis and ending up securely in the lifestyle you've always dreamed of having.

### COMPETING VISIONS

Simon and Schuster

Loosely based on the *Odyssey*, this landmark of modern literature follows ordinary Dubliners in 1904. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

**Just a Dog** Little, Brown

"If you took Barbarians at the Gate and The Firm and blended them together with the best stories of Michael Chrichton and John Sandford, then you'd get *The Tipping Point* by Walter Danley. From the slopes of Aspen to Caribbean beaches, Danley's writing is on point in any climate. This is a can't miss thriller!" - Mark Fadden, award-winning author of *The Brink* "The Tipping Point" offers an insider's look into the rarified business of public real estate investment with a story that unfolds like a Mary Higgins Clark plot, but sexy and harder edged. Danley has an eye for a good tale and believe me, he really knows how to tell it! "The Tipping Point" is one of those rare debut novels that makes one uncomfortably impatient to read his next one." - George Thomas Cox If Tom Burke hadn't died on the slopes of Aspen Mountain, Garth Wainwright would have never risked losing everything. But Burke's suspicious death launched an avalanche—a tipping point-involving nine business partners and a hefty helping of greed, complicity and murder. Back at company headquarters, Wainwright starts digging for clues, asking questions, and is met with suspicion and skepticism from the other partners. When his bulldog mindset pushes him to keep probing for answers, he uncovers a conspiracy far bigger than anyone could have imagined—one that could very well destroy the largest real estate investment company in the country, the reputations of all its partners and their massive personal fortunes. Then, as more partners' dead bodies start piling up, his question of why becomes who. Which partners can he trust? The company's at stake. Lives are at stake. The financial community is watching. The Tipping Point is beginning to bend.

**Forensic Accounting for Divorce Engagements** Temple University Press

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* *The American Yawp* is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the

book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The *Yawp* highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

*Branches of Hope* Hardie Grant Publishing

Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

*The Sodfather* Autonomedia

"Read this book, of course." —Publishers Weekly NBC NATIONAL INVESTIGATIVE CORRESPONDENT AND HOST OF "ROSSEN REPORTS" ON TODAY BRINGS THE ULTIMATE HANDBOOK TO LIFE. Do you know where to take shelter in an earthquake? How to bust a lying car mechanic? Save money at the store? You'll know now. Every morning, millions of Americans watch Jeff Rossen explain how to solve our most harrowing problems, such as: how to put out a kitchen fire, find bedbugs, avoid rip-offs, and even how to survive a plane crash. In *Rossen to the Rescue*, he includes daring experiments, expert advice, and game plans for handling all the wild cards in life—big and small—while sharing personal, and sometimes embarrassing, anecdotes that he couldn't tell on television. Overflowing with never-before-seen tips and tricks, this book is filled with enough hacks to keep you and your family safe...and it just might save your life.

*Corporate Diplomacy* Simon and Schuster

A Publishers Weekly Best Book of the Year for Nonfiction "...an essential and engaging look at recent disability history."— Buzzfeed One of the most influential disability rights activists in US history tells her personal story of fighting for the right to receive an education, have a job, and just be human. A story of fighting to belong in a world that wasn't built for all of us and of one woman's activism—from the streets of Brooklyn and San Francisco to inside the halls of Washington—Being Heumann recounts Judy Heumann's lifelong battle to achieve respect, acceptance, and inclusion in society. Paralyzed from polio at eighteen months, Judy's struggle for equality began early in life. From fighting to attend grade school after being described as a "fire hazard" to later winning a lawsuit against the New York City school system for denying her a teacher's license because of her paralysis, Judy's actions set a precedent that fundamentally improved rights for disabled people. As a young woman, Judy rolled her wheelchair through the doors of the US Department of Health, Education, and Welfare in San Francisco as a leader of the Section 504 Sit-In, the longest takeover of a governmental building in US history. Working with a community of over 150 disabled activists and allies, Judy successfully pressured the Carter administration to implement protections for

disabled peoples' rights, sparking a national movement and leading to the creation of the Americans with Disabilities Act. Candid, intimate, and irreverent, Judy Heumann's memoir about resistance to exclusion invites readers to imagine and make real a world in which we all belong. [The 10 Laws of Career Reinvention](#) Arcade Publishing

The Internet is often presented as an unsafe or untrustworthy space: where children are preyed upon by paedophiles, cannibals seek out victims, offline relationships are torn apart by online affairs and where individuals are addicted to gambling, love, and cybersex. While many of these stories are grounded in truth, they do paint a rather sensationalized view of the Internet, the types of people who use it, and the interactions that take place online. Simultaneously, researchers claim that the Internet allows individuals to express their true selves, to develop 'hyperpersonal'

relationships characterised by high levels of intimacy and closeness. At the heart of these competing visions of the Internet as a social space are the issues of truth, lies and trust. This book offers a balanced view of the Internet by presenting empirical data conducted by social scientists, with a concentrated focus on psychological studies. It argues that the Internet's anonymity which can enable, for instance, high levels of self-disclosure in a relationship, is also responsible for many of its more negative outcomes such as deception and flaming. This is the first book to develop a coherent model of the truth-lies paradox, with specific reference to the critical role of trust. Truth, Lies and Trust on the Internet is a useful text for psychology students and academics interested in Internet behaviour, technology, and online deviant behaviour, and related courses in sociology, media studies and information studies.

#### [A Psalm for the Wild-Built](#) Beacon Press

Iris Murdoch's debut—a comic novel about work and love, wealth and fame Jake Donaghue, garrulous artist, meets Hugo Bellfounder, silent philosopher. Jake, hack writer and sponger, now penniless flat-hunter, seeks out an old girlfriend, Anna Quentin, and her glamorous actress sister, Sadie. He resumes acquaintance with the formidable Hugo, whose 'philosophy' he once presumptuously dared to interpret. These meetings involve Jake and his eccentric servant-companion, Finn, in a series of adventures that include the kidnapping of a film-star dog and a political riot on a film set of ancient Rome. Jake, fascinated, longs to learn Hugo's secret. Perhaps Hugo's secret is Hugo himself? Admonished, enlightened, Jake hopes at last to become a real writer.
