Evanna Amaranthine, a ruthless, 600 year old vampire, has a new assignment: to leave the walls of Benajah, her beloved vampire guild, enter the realm of humans to stalk down her prey, Rian Delmar, and kill him. At first, the prospect of being around

humans any longer than the time it takes to drain them repulses Evanna, but after moving in with her new human-loving vampire housemate, she soon becomes hopelessly entangled with Messiah Scarborough, his strikingly good-looking artist friend. When dreams of a past life begin to plague her as she continues her crusade, can she control emotions that threaten to overwhelm her? Filled with fast-paced action and steeped in suspense, Benajah's Keeper by Aeryn Dougan is an urban fantasy that will capture readers' hearts as it addresses the significance of family,

fate, and loyalty. Dramatic, gritty, and deeply passionate, this unique take on the vampire legend will definitely leave you wanting more.

A look at why we are interested in what we see in art. Are we born with aesthetic preferences that are shaped by cultural influences? Is our natural attraction to Beauty another weapon in our arsenal of species' survival? This book examines many so-called rules of composition in the visual arts to find natural reasons for their existence. It is designed to aide the visual artist and those who appreciate their work by bringing attention to subtle cues of attraction cultivated by our ancient and immediate ancestors. It calls upon recent work in neuroaesthetics and other scientific disciplines to back up its speculative claims, and asks the reader to contribute opinions of their own on the books' website at naturallycomposed.com. There are many examples of photos in the book, and the reader is again asked to insert their own examples to enforce or refute the claims.

A different type of coloring book, "S M Coloring and Shading Books" can be as challenging or as simple to color as you wish. The pictures are sketch-like and intentionally printed lighter, so that you can color over the gray. Visit our Facebook page "S M Coloring and Shading Books" for examples, ideas, techniques and more. For a more challenging experience, use the gray shading in the picture as a guide to work on shading techniques. We like to color over or outline the darker areas with one or a few shades of a color, then color the lighter areas with a contrasting or lighter shade. For a simple coloring experience just color the picture, the gray may show through depending on what you are coloring with and your technique, this will give some depth to the picture. You can always outline in black if you prefer that look. Art and Craft Supplies Coloring Book contains over 35 one-sided pictures of art and craft supplies to color including colored pencils, tiles, shells, glass, watercolors, rocks, tools and more. Pull out your pastel pencils, colored pencils, crayons, markers or whatever you like and start coloring. (Some techniques may bleed through the paper so put extra paper in between if needed.) The pages are one-sided to enable you to take a picture out if needed for technique, framing, or a gift and not miss out on coloring the other side or have it bleed through. It was only supposed to be a short visit. It turned into a love affair. Melanie White is in trouble. Young, unmarried, with no resources to speak of, she's forced to flee home and hide out with her aunt on a ranch in a western mining town. She's just passing through on her way farther West, and it's a good thing, too: she can't stand the ranch owner. He's rowdy, immature...and undeniably attractive. David Tanner has his life just the way he likes it: he does what he wants, when he wants, and nobody can tell him any different--least of all, his former nanny's niece Melanie, who likes books more than people. But when a family emergency forces Melanie and David to work together, she discovers that there's more to him than meets the eye. And he finds out that life as a bachelor may not be what he likes after all. Contains mild language and sensual content within marriage.

This volume brings philosophers, art historians, intellectual historians, and literary scholars together to argue for the philosophical significance of Michael Fried's art history and criticism. It demonstrates that Fried's work on modernism, artistic intention, the ontology of art, theatricality, and anti-theatricality can throw new light on problems in and beyond philosophical aesthetics. Featuring an essay by Fried and articles from world-leading scholars, this collection engages with philosophical themes from Fried's texts, and clarifies the relevance to his work of philosophers such as Ludwig Wittgenstein, Stanley Cavell, Morris Weitz, Elizabeth Anscombe, Arthur Danto, George Dickie, Immanuel Kant, Friedrich Schiller, G. W. F. Hegel, Arthur Schopenhauer, Friedrich Nietzsche, Denis Diderot, Maurice Merleau-Ponty, Roland Barthes, Jacques Rancière, and Søren Kierkegaard. As it makes a case for the importance of Fried for philosophy, this volume contributes to current debates in analytic and continental aesthetics, philosophy of action, philosophy of history, political philosophy, modernism studies, literary studies, and art theory.

"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and

risk his life to prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." And when the time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.

Edited by Anna Balakian, this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages. The scope of these analyses, which explore Latin America, Scandinavia, Russia, Poland, Hungary, Serbia, Czechoslovakia, and Bulgaria as well as West European literatures, continues to make the volume a valuable reference today. As René Wellek suggests in his historiographic contribution, the fifty-one contributors not only make us think afresh about individual authors who are "giants," but also draw us to reassess schools and movements in their local as well as international contexts. Reviewers comment that this "copious and intelligently structured" anthology, divided into eight parts, traces the conceptual bases and emergence of an international Symbolist movement, showing the spread of Symbolism to other national literatures from French sources, as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends. Several chapters deal with the relationships between literature and the other arts, pointing to Symbolism at work in painting, music, and theatre. Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words. The volume is "a major contribution" to "the most significant exponents" and

"essential themes" of Symbolism. The theoretical, historical, and typological sections of the volume help explain why the impact of this important movement of the fin-de-siècle is still felt today.

Human beings engage works of the arts in many different ways: they sing songs while working, they kiss icons, they create and dedicate memorials. Yet almost all philosophers of art of the modern period have ignored this variety and focused entirely on just one mode of engagement, namely, disinterested attention. Nicholas Wolterstorff asks why this might be, and proposes that almost all philosophers have accepted the grand narrative concerning art in the modern world. It is generally agreed that in the early modern period, members of the middle class in Western Europe increasingly engaged works of the arts as objects of disinterested attention. The grandnarrative claims that this change represented the arts coming into their own, and that works of art, so engaged, are socially other and transcendent. Wolterstorff rejects this claim, and offers an alternative framework for thinking about the arts. Central to his alternative framework are the idea of the arts as social practices and the idea of works of the arts as having different meaning in different practices.
