MORIAH JAYVON

A Brief History of Italy Simon and Schuster

Despite the Roman Empire's famous 500-year reign over Europe, parts of Africa and the Middle East, Italy does not have the same long national history as states such as France or England. Divided for much of its history, Italy's regions have been, at various times, parts of bigger, often antagonistic empires, notably those of Spain and Austria. In addition, its challenging and varied terrain made consolidation of political control all the more difficult. This concise history covers, in very readable fashion, the formative events in Italy's past from the rise of Rome, through a unified country in thrall to fascism in the first half of the twentieth century right up to today. The birthplace of the Renaissance and the place where the Baroque was born, Italy has always been a hotbed of culture. Within modern Italy country there is fierce regional pride in the cultures and identities that mark out Tuscany, Rome, Sicily and Venice to name just a few of Italy's many famous regions. Jeremy Black draws on the diaries, memoirs and letters of historic travellers to Italy to gain insight into the passions of its people, first chronologically then

regionally. In telling Italy's story, Black examines what it is that has given Italians such cultural clout - from food and drink, music and fashion, to art and architecture - and explores the causes and effects of political events, and the divisions that still exist today.

La Dolce Vita University Henry Holt and Company

Giuseppe Garibaldi, the Italian revolutionary leader and popular hero, was among the best-known figures of the nineteenth century. This book seeks to examine his life and the making of his cult, to assess its impact, and understand its surprising success. For thirty years Garibaldi was involved in every combative event in Italy. His greatest moment came in 1860, when he defended a revolution in Sicily and provoked the collapse of the Bourbon monarchy, the overthrow of papal power in central Italy, and the creation of the Italian nation state. It made him a global icon, representing strength, bravery, manliness, saintliness, and a spirit of adventure. Handsome, flamboyant, and sexually attractive, he was worshiped in life and became a cult figure after his death in 1882. Lucy Riall shows that the emerging cult of Garibaldi was initially conceived by revolutionaries intent on overthrowing the status quo, that it was also the result of a collaborative effort involving writers, artists, actors, and

publishers, and that it became genuinely and enduringly popular among a broad public. The book demonstrates that Garibaldi played an integral part in fashioning and promoting himself as a new kind of “charismatic” political hero. It analyzes the way the Garibaldi myth has been harnessed both to legitimize and to challenge national political structures. And it identifies elements of Garibaldi’s political style appropriated by political leaders around the world, including Mussolini and Che Guevara.

Historical Memory and Its Ironies Knopf

Explores the history, culture, and religion of the Italian people, shedding new light on many aspects of Italian life.

Crime, Justice and the Pursuit of Power Penguin

Behind the scenes at the legendary Warner Brothers film studio, where four immigrant brothers transformed themselves into the moguls and masters of American fantasy Warner Bros charts the rise of an unpromising film studio from its shaky beginnings in the early twentieth century through its ascent to the pinnacle of Hollywood influence and popularity. The Warner Brothers—Harry, Albert, Sam, and Jack—arrived in America as unschooled Jewish immigrants, yet they founded a studio that became the smartest, toughest, and most radical in all of Hollywood. David Thomson provides fascinating and original interpretations of Warner Brothers pictures from the pioneering talkie *The Jazz Singer* through black-and-white musicals, gangster movies, and such dramatic romances as *Casablanca*, *East of Eden*, and *Bonnie and Clyde*. He recounts the storied exploits of the studio’s larger-than-life stars, among them Al Jolson, James Cagney, Bette Davis, Errol Flynn, Humphrey Bogart, James Dean, Doris Day, and Bugs Bunny. The Warner brothers’ cultural impact was so profound,

Thomson writes, that their studio became “one of the enterprises that helped us see there might be an American dream out there.”

HBO's Ruthless Pursuit of New Frontiers Routledge

A sweeping portrait of the turmoil of the twentieth century and the legacy of immigration, as seen through the German-American family of the celebrated book publisher Kurt Wolff A literary gem researched over a year the author spent living in Berlin, *Endpapers* excavates the extraordinary histories of the author’s grandfather and father: the renowned publisher Kurt Wolff, dubbed “perhaps the twentieth century’s most discriminating publisher” by the *New York Times Book Review*, and his son Niko, who fought in the Wehrmacht during World War II before coming to America. Kurt Wolff was born in Bonn into a highly cultured German-Jewish family, whose ancestors included converts to Christianity, among them Baron Moritz von Haber, whose desire to demand satisfaction in a duel sparked off bloody antisemitic riots. Always bookish, Kurt became a publisher at twenty-three, setting up his own firm and publishing Franz Kafka, Joseph Roth, Karl Kraus, and many other authors whose books would soon be burned by the Nazis. Fleeing Germany in 1933, a day after the Reichstag fire, Kurt and his second wife, Helen, sought refuge in France, Italy, and ultimately New York, where in a small Greenwich Village apartment they founded Pantheon Books. Pantheon would soon take its own place in literary history with the publication of Nobel laureate Boris Pasternak’s novel *Doctor Zhivago*, and as the conduit that brought major European works to the States. But Kurt’s taciturn son Niko, offspring of his first marriage to Elisabeth Merck, was left behind in Germany, where despite his Jewish heritage he served the Nazis on two fronts. As

Alexander Wolff visits dusty archives and meets distant relatives, he discovers secrets that never made it to the land of fresh starts, including the connection between Hitler and the family pharmaceutical firm E. Merck, and the story of a half-brother Niko never knew. With surprising revelations from never-before-published family letters, diaries, and photographs, *Endpapers* is a moving and intimate family story, weaving a literary tapestry of the perils, triumphs, and secrets of history and exile.

David Harvey Cambridge University Press

A leading contrarian thinker explores the ethical paradox at the heart of history's wounds. The conventional wisdom about historical memory is summed up in George Santayana's celebrated phrase, "Those who cannot remember the past are condemned to repeat it." Today, the consensus that it is moral to remember, immoral to forget, is nearly absolute. And yet is this right? David Rieff, an independent writer who has reported on bloody conflicts in Africa, the Balkans, and Central Asia, insists that things are not so simple. He poses hard questions about whether remembrance ever truly has, or indeed ever could, "inoculate" the present against repeating the crimes of the past. He argues that rubbing raw historical wounds--whether self-inflicted or imposed by outside forces--neither remedies injustice nor confers reconciliation. If he is right, then historical memory is not a moral imperative but rather a moral option--sometimes called for, sometimes not. Collective remembrance can be toxic. Sometimes, Rieff concludes, it may be more moral to forget. Ranging widely across some of the defining conflicts of modern times--the Irish Troubles and the Easter Uprising of 1916, the white settlement of Australia, the American Civil War, the Balkan

wars, the Holocaust, and 9/11--Rieff presents a pellucid examination of the uses and abuses of historical memory. His contentious, brilliant, and elegant essay is an indispensable work of moral philosophy.

THE PURSUIT OF ITALY

Penguin UK

NATIONAL BOOK AWARD FINALIST • NATIONAL BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Lost City of Z*. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history.

THE ORIGIN OF EMPIRE

Routledge

Italian accounting has a long and honourable tradition of theoretical and applied analysis of the accounting and reporting function, perceived and defined much more broadly than in the Anglo-Saxon tradition. The high point of this perhaps, is the creation of what is known as *Economia Aziendale* (EA). The antecedents, genesis and later developments are presented here in detail by highly knowledgeable specialists in the field. EA takes as a prerequisite the necessity of the business (entity/azienda) to ensure its own long-run survival. This requires that the necessary resources are retained and preserved, so operating capital maintenance, by definition future-oriented, is essential. It requires a focus on the particular business organization, entity-specific and consistent with today's notion of the business model. Entity-specific information relevant to current and future cash flows is a necessary pre-requisite for ensuring long-run survival, which historical cost accounting, or fair value (being market-specific not entity-specific) satisfactorily achieve. Flexibility of valuation and of reporting, always relevant to the specific asset at the specific time in the specific place, is a necessary condition for effective management. This is exactly the focus of EA and its analysis and tradition. Scholars and advanced students of international regulation and accounting, as well as accounting history, will find this an invaluable guide to a vibrant, scholarly tradition of great practical relevance today.

Garibaldi Penguin UK

Literary Nonfiction. Translated from the Italian by Ilaria Marra

Rosiglioni. "Pino Aprile's *TERRONI* is one of those books that could cause a revolution, albeit a peaceful one, if read by enough people. It could become 'the spark that starts the fire' by igniting a sentiment of unity among southern Italians, who are discovering that something is missing in mainstream history books informing how Italy was united 150 years ago."—Naples Politics

An Unconventional Guide to Italian Culture from A to Z

Farrar, Straus and Giroux

This book critically interrogates the work of David Harvey, one of the world's most influential geographers, and one of its best known Marxists. Considers the entire range of Harvey's oeuvre, from the nature of urbanism to environmental issues. Written by contributors from across the human sciences, operating with a range of critical theories. Focuses on key themes in Harvey's work. Contains a consolidated bibliography of Harvey's writings.

A HISTORY OF A LAND, ITS REGIONS AND THEIR PEOPLES

Broadway

From award-winning, bestselling "queen of Italian cooking" (Chicago Tribune), a culinary bible for anyone looking to master the art of Italian cooking. *Essentials of Italian Cooking* is a culinary bible for anyone looking to master the art of Italian cooking, bringing together Marcella Hazan's most beloved books, *The Classic Italian Cook Book* and *More Classic Italian Cooking*, in a single volume. Designed as a basic manual for cooks of all levels of expertise—from beginners to accomplished professionals—it offers both an accessible and comprehensive guide to techniques and ingredients and a collection of the most

delicious recipes from the Italian repertoire. As home cooks who have used Marcella's classic books for years (and whose copies are now splattered and worn) know, there is no one more gifted at teaching us just what we need to know about the taste and texture of a dish and how to achieve it, and there is no one more passionate and inspiring about authentic Italian food.

Terroni John Wiley & Sons

Engine Testing: Electrical, Hybrid, IC Engine and Power Storage Testing and Test Facilities, Fifth Edition covers the requirements of test facilities dealing with e-vehicle systems and different configurations and operations. Chapters dealing with the rigging and operation of Units Under Test (UUT) are updated to include electric motor-based systems, test cell services and thermodynamics. Control module and system testing using advanced, in-the-Loop (XiL) methods are described, including powertrain component integrated simulation and testing. All other chapters dealing with test cell design, installation, safety and use together with the cell support systems in IC engine testing are updated to reflect current developments and research. Covers multiple technical disciplines for anyone required to design, modify or operate an automotive powertrain test facility Provides tactics on the development of electrical and hybrid powertrains and energy storage systems Presents coverage of the housing and testing of automotive battery systems in addition to the use of 'virtual' testing in the form of 'x-in-the-loop' throughout the powertrain's development and test life

In Praise of Forgetting Simon and Schuster

One of The Economist's 2011 Books of the Year Did Garibaldi do Italy a disservice when he helped its disparate parts achieve

unity? Was the goal of political unification a mistake? These questions are asked and answered in a number of ways in this engaging, original consideration of the many histories that contribute to the brilliance-and weakness-of Italy today. David Gilmour's wonderfully readable exploration of Italian life over the centuries is filled with provocative anecdotes as well as personal observations, and is peopled with the great figures of the Italian past-from Cicero and Virgil to Dante and the Medicis, from Garibaldi and Cavour to the controversial politicians of the twentieth century. Gilmour's wise account of the Risorgimento, the pivotal epoch in modern Italian history, debunks the nationalistic myths that surround it, though he paints a sympathetic portrait of Giuseppe Verdi, a beloved hero of the era. Gilmour shows that the glory of Italy has always lain in its regions, with their distinctive art, civic cultures, identities, and cuisines. Italy's inhabitants identified themselves not as Italians but as Tuscans and Venetians, Sicilians and Lombards, Neapolitans and Genoese. Italy's strength and culture still come from its regions rather than from its misconceived, mishandled notion of a unified nation. With *The Pursuit of Italy*, David Gilmour has provided a coherent, persuasive, and entertaining interpretation of the paradoxes of Italian life, past and present.

This Is Just a Test Simon and Schuster

La Dolce Vita University, 2nd Edition (LDVU2) is the perfect sampler for anyone curious about (or already in amore with) Italy and its remarkably rich cultural gifts, both past and present. This fully revised second edition includes 75 pages of new material (60 new chapters and 40 new illustrations) to expand on the delights in the first edition. True to its lighthearted name, La

Dolce Vita "U" is all about pleasurable learning, or what we prefer to call "edu-tainment." Its dozens of entertaining yet authoritative mini-essays on a wide assortment of intriguing topics encourage random dipping at the reader's pleasure. Even the most erudite Italophile will discover fun new facts and fascinating new insights in the pages of La Dolce Vita U. Mini-essays treat specific topics in one or more of the following subject areas: the Italian character; the visual arts (art, artists, architects); the performing arts (music, theater, cinema); history and antiquity; language and literature; cuisine and agriculture; wine and spirits; traditions and festivals; style and applied arts; unique places. In a wink and nod to the book's "academic" identity, the 200 mini-essays are arranged alphabetically and accompanied by charming illustrations throughout. A special traveler's topic index is provided at the end of the book.

[Black Wave](#) Scholastic Inc.

This book presents a study of the Italian monarchy and its impact on Italy's history, from Unification in 1861 to the foundation of the Italian republic after World War II.

WHEN PRIDE STILL MATTERED

Knopf Books for Young Readers

A sparkling, provocative history of the English in South Asia during Queen Victoria's reign Between 1837 and 1901, less than 100,000 Britons at any one time managed an empire of 300 million people spread over the vast area that now includes India, Pakistan, Bangladesh, and Burma. How was this possible, and what were these people like? The British administration in India took pride in its efficiency and broad-mindedness, its devotion to

duty and its sense of imperial grandeur, but it has become fashionable to deprecate it for its arrogance and ignorance. In this balanced, witty, and multi-faceted history, David Gilmour goes far to explain the paradoxes of the "Anglo-Indians," showing us what they hoped to achieve and what sort of society they thought they were helping to build. The Ruling Caste principally concerns the officers of the legendary India Civil Service--each of whom to perform as magistrate, settlement officer, sanitation inspector, public-health officer, and more for the million or so people in his charge. Gilmour extends his study to every level of the administration and to the officers' women and children, so often ignored in previous works. The Ruling Caste is the best book yet on the real trials and triumphs of an imperial ruling class; on the dangerous temptations that an empire's power encourages; on relations between governor and governed, between European and Asian. No one interested in politics and social history can afford to miss this book.

LA BELLA FIGURA

Crown

Visiting a villa built by Lorenzo de' Medici outside Pisa, David Gilmour fell into conversation about the unification of Italy with a distinguished former minister: "You know, Davide," he said in a low conspiratorial voice, as if uttering a heresy, "Garibaldi did Italy a great disservice. If he had not invaded Sicily and Naples, we in the north would have the richest and most civilized state in Europe." After looking cautiously round the room he added in an even lower voice, "Of course to the south we would have a neighbour like Egypt." Was the elderly Italian right? Was the

unification of Italy a mistake? *The Pursuit of Italy* traces the whole history of the Italian peninsula in a wonderfully readable style, full of well-chosen stories and observations from personal experience, and peopled by many of the great figures of the Italian past, from Cicero and Virgil to Dante and the Medici, from Cavour and Verdi to the controversial political figures of the twentieth century. The book gives a clear-eyed view of the Risorgimento, the pivotal event in modern Italian history, debunking the influential myths which have grown up around it. Gilmour shows that the glory of Italy has always lain in its regions, with their distinctive art, civic cultures, identities and cuisine. The regions produced the medieval communes and the Renaissance, the Venetian Republic and the Grand Duchy of Tuscany, two of the most civilized states of European history. Their inhabitants identified themselves not as Italians, but as Tuscans and Venetians, Sicilians and Lombards, Neapolitans and Genoese. This is where the strength and culture of Italy still comes from, rather than from misconceived and mishandled concepts of nationalism and unity. This wise and enormously engaging book explains the course of Italian history in a manner and with a coherence which no one with an interest in the country could fail to enjoy.

A Life Of Vince Lombardi Vintage

A concise history of Italy from the fall of the Roman empire in the west to the present day.

The Osage Murders and the Birth of the FBI Penguin

The Italian Empire and the Great War brings an imperial and colonial perspective to the Italian experience of the First World War. Italy's decision for war in 1915 built directly on Italian

imperial ambitions from the late nineteenth century onwards, and its conquest of Libya in 1911–12. The Italian empire was conceived both as a system of overseas colonies under Italian sovereignty, and as an informal global empire of emigrants; both were mobilized to support the war in 1915–18. The war was designed to bring about 'a greater Italy' both literally and metaphorically. In pursuit of global status, Italy fought a global war, sending troops to the Balkans, Russia, and the Middle East, though with limited results. Italy's newest colony, Libya, was also a theatre of the war effort, as the anti-colonial resistance there linked up with the Ottoman Empire, Germany, and Austria to undermine Italian rule. Italian race theories underpinned this expansionism: the book examines how Italian constructions of whiteness and racial superiority informed a colonial approach to military occupation in Europe as well as the conduct of its campaigns in Africa. After the war, Italy's failures at the Peace Conference meant that the 'mutilated victory' was an imperial as well as a national sentiment. Events in Paris are analysed alongside the military occupations in the Balkans and Asia Minor as well as efforts to resolve the conflicts in Libya, to assess the rhetoric and reality of Italian imperialism.

Delizia! Farrar, Straus and Giroux

Join the bestselling author of *Ciao, America!* on a lively tour of modern Italy that takes you behind the seductive face it puts on for visitors—la bella figura—and highlights its maddening, paradoxical true self You won't need luggage for this hypothetical and hilarious trip into the hearts and minds of Beppe Severgnini's fellow Italians. In fact, Beppe would prefer if you left behind the baggage his crafty and elegant countrymen have smuggled into

your subconscious. To get to his Italia, you'll need to forget about your idealized notions of Italy. Although La Bella Figura will take you to legendary cities and scenic regions, your real destinations are the places where Italians are at their best, worst, and most authentic: The highway: in America, a red light has only one possible interpretation—Stop! An Italian red light doesn't warn or order you as much as provide an invitation for reflection. The airport: where Italians prove that one of their virtues (an appreciation for beauty) is really a vice. Who cares if the beautiful girls hawking cell phones in airport kiosks stick you with an outdated model? That's the price of gazing upon perfection. The small town: which demonstrates the Italian genius for pleasant living: "a congenial barber . . . a well-stocked newsstand . . . professionally made coffee and a proper pizza; bell towers we can recognize in the distance, and people with a kind word and a

smile for everyone." The chaos of the roads, the anarchy of the office, the theatrical spirit of the hypermarkets, and garrulous train journeys; the sensory reassurance of a church and the importance of the beach; the solitude of the soccer stadium and the crowded Italian bedroom; the vertical fixations of the apartment building and the horizontal democracy of the eat-in kitchen. As you venture to these and many other locations rooted in the Italian psyche, you realize that Beppe has become your Dante and shown you a country that "has too much style to be hell" but is "too disorderly to be heaven." Ten days, thirty places. From north to south. From food to politics. From saintliness to sexuality. This ironic, methodical, and sentimental examination will help you understand why Italy—as Beppe says—"can have you fuming and then purring in the space of a hundred meters or ten minutes."
