Spesifikasi buku ini meliputi : Kategori : Bahasa Inggris Penulis : Harisa Mardiana E-ISBN : 978-623-09-4426-0 Ukuran : 15.5x23 cm Halaman : 118 Tahun Terbit : 2023 Penerbit Deepublish adalah penerbit buku yang memfokuskan penerbitannya dalam bidang pendidikan, terutama pendidikan tinggi (universitas dan sekolah tinggi).

**Information, Physics, and Computation** Litres

Practice in all four skills for electronics students.

*Oxford Discover Futures: Level 2: Student Book* OUP Oxford

A complete six-year primary computing course that takes a real-life, project-based approach to teaching young learners the vital computing skills they will need for the digital world. Each unit builds towards the creation of a final project, with topics ranging

from designing your own robot to programming simple games and creating web pages.

*Oxford English: An International Approach Students' Book 1* OUP Oxford

This new course provides students and teachers with current, meaningful, and practical activities along a thematic approach to help students to develop skills, gain confidence and enjoy the study of English. Each book provides reading, writing, listening and speaking activities that support the development of skills, knowledge, values and attitudes. The contents link up with internationally relevant and topical issues, helping students relate the study of English to other subject areas and understand the wider importance of their study, building their enthusiasm.

## OXFORD INTERNATIONAL PRIMARY COMPUTING: STUDENT BOOK 1: OXFORD INTERNATIONAL PRIMARY COMPUTING: STUDENT BOOK 1

Cambridge University Press

This new dictionary covers the full range of publishing-related topics, defining terms encountered in the processes of editing, producing, printing, and distributing books and digital content. With entries ranging from proofreading and binding to discoverability and royalties, and covering contemporary areas of publishing such as digital workflow and digital rights management, the dictionary provides easy-to-find and accurate information on key terms and concepts. Comprising over 250 concise and up-to-date A to Z entries, it is an invaluable reference resource for students of publishing, as well as for those currently working in the industry.

## LIBRO

OUP Oxford

Oxford English for Information Technology is a course for students of information technology and computing, or for people already working in the IT sector. It is suitable for use in universities, technical schools and on adult education programmes, with students at intermediate to advanced level who want to improve and extend their language skills in the context of IT. This second edition has been carefully and selectively revised to take account of recent developments in this fast-moving sector, and to ensure that the material is up to date. The new material reflects changes in such as technical specifications, new technologies, and working practices. The glossary has also been updated.

*Dictionary of Computing* Oxford International Primary Computing  
A new three-level series in which students learn and practise the words and phrases they need to know at Basic, Intermediate, and Advanced levels. Each level of Oxford Word Skills enables students to:

**Information Technologies** Boeckner, Keith  
 Basic English for Computing  
 Basic English for Computing

This wide-ranging dictionary contains a wealth of information on all aspects of history, from prehistory right up to the present day. Over 4,000 clear, concise entries include biographies of key figures in world history (living and dead), separate entries for every country in the world (summarising key historical events), and in-depth entries on religious and political movements, international organizations, and major conflicts and events and their after-effects. For this new edition, existing entries have been revised and updated to reflect the very latest global events including changes in leadership, wars, political situations, and the statistical information given for each country (population counts, currency, languages, religions). New entries have been included for key figures who have recently come to prominence and world events. The book also contains twenty-five detailed maps linked to key historical events and topics. These include the African slave trade, the Black Death, and the Normandy campaign. Also included are over 200 country maps. The dictionary is enhanced by entry-level web links which are accessed via a dedicated companion website. Encyclopedic in scope, this ambitious A to Z provides an excellent overview of world history both for students and anyone with an interest in the subject.

*Oxford English Grammar Course: Advanced: with Answers CD-ROM Pack* Oxford University Press, USA

The ultimate authority on the usage and meaning of English words and phrases, unparalleled in its accuracy and comprehensiveness, the Oxford English Dictionary is the supreme reference work for anyone who loves the language. Key features:  
 \* Integrates the material from the original OED and the Supplement into one alphabetical sequence  
 \* Includes over 5,000 new words and meanings  
 \* Completely redesigned and reset to enhance readability  
 \* Replaces James Murray's pronunciation

system with the International Phonetic Alphabet \* Treats over a half-million words, illustrating definitions with over 2.4 million quotations Version 2.0 of The Oxford English Dictionary (Second Edition) on Compact Disc makes it easy to fully explore the resources of the most authoritative dictionary of the English language. With a brand-new web-browser interface, improved search mechanisms, on-screen help, and screen designs, Version 2.0 of OED2 CD-ROM offers extraordinary access to more than 500,000 definitions and 2.5 million illustrative quotations tracing the uses of each word through the centuries. The CD-ROM contains the complete text of the 20-volume OED Second Edition. Find what you need in seconds with powerful, flexible searching--from simple searches by part of speech or quotation to free-text queries of the entire Dictionary and new proximity searching for words near, before, or after an entry. Whether you're using it for scholarly research, for writing, or purely for enjoyment, Version 2.0 of the OED2 CD-ROM, you'll have instant access to the unparalleled riches of the ultimate authority on the English

language.
