A Dangerous Destiny Some of the survivors are different, powerful. Their bloodlines have been brought together in this time and place to create safety for the remnants of all societies. Fated to lead and rebuild, these magnetic women and men are now the most valuable commodity in the apocalyptic wastelands. Nuclear war devastated the world just days before Christmas. All governments went underground, leaving their citizens to fend for themselves. The desperate normals who barely managed to stay alive must now make a choice. Do they join the strange, dangerous survivors in forming a more perfect union or do they kill every last one of

them? One choice will save the world. The other will finish burying it under the nuclear ashes. Book One centers around the first group of chosen people who find each other amid the relics of America. Brought together by a man with many secrets, they struggle to adapt to an ever-changing new world while trying to build the first post-war safe haven for humanity. This is Safe Haven “We offer food, shelter, and protection to all survivors. Does anyone copy? ...hello? Is anyone alive out there?” The end of the world has given humanity a harsh, merciless existence, where nature tries hard to push us to the very brink of extinction. Everything is against us, between us. Untold miles of lawless, apocalyptic roads wait for our feet, and the future, cold and dark, offers little

comfort. Without change, there can be no peace—only survivors. This large-print edition fits the recognized standards for readers with some vision impairments. It is 20 PT Arial font, spaced at 1.5, with a margin of 0.05. Most books are published in 12 or 14, meaning this novel will start out 4-5 times larger than average. Then, it can be increased even further by using the settings on your reading device.

The Soldiers Are Coming! Safe Haven has grown too powerful to be ignored any longer. The remaining government wants all survivors secured for their own use or eliminated, and they couldn't have chosen a better time to reemerge from their dystopian holes. Safe Haven has a new leader and a long list of

challenges to overcome in their fight for survival. Adrian's condition is critical, the camp isn't ready to accept the existence of magic, Mother Nature still has them in her crosshairs, and they are low on food, water, and fuel. The next eight weeks will be the hardest they've gone through yet, and it may still not be enough to ensure their survival. Can they bring the pieces together in time? IF YOU DON'T KNOW SIMON SCARROW, YOU DON'T KNOW ROME! THE EAGLE AND THE WOLVES is the gripping fourth novel in Simon Scarrow's bestselling

Eagles of the Empire series. Perfect for fans of Bernard Cornwell and Conn Iggulden. 'A new book in Simon Scarrow's long-running series about the Roman army is always a joy' The Times  
 Britannia, AD 44. Occupation is never easy. The enemy is butchering their supply convoys, their garrison town is starving and the truce with the locals is uneasy at best. Young Cato, newly promoted, and veteran centurion Macro are ordered to train the Wolves and the Boars, two cohorts of barbarian Britons, and introduce them to the brutal drills of the Roman Imperial Army. Macro is confident they'll win the natives over, but Cato worries about putting weapons into the hands of potential rebels. Ultimately, only one thing matters: is there a difference between the enemy at

their gates, and the allies in their own camp?

Beware the Blades of Karma “We were supposed to have a home now, with walls and floors. The constant traveling and trying to outrun death was going to be over. We were about to build a life that resembled what we lost--full of peace and the pursuit of happiness. We’d earned it. “Then all of the dreams that held us through the nightmares shattered against the stone. We lost our hope, our home, and half our population. Now, outlasting death long enough to reach Kendle’s island is all that remains for us and even that isn’t certain. The future, cold and dark, offers little

comfort. Without change, there can be no peace—only survivors.”

*The Fort* Angela White

"The Slavers are coming...I can almost feel their hate." Adrian's hand rested lightly on his gun. "The Eagles want them to. After all the hell they've caused, my Army can't wait to make them pay." Three months after the War of 2012, Safe Haven refugee camp has made it to South Dakota and now holds six of the seven special survivors meant to lead the rebuilding of their country - but it can't be done until they find a safe place to settle... and who can think of peace when there's a huge camp of foreign invaders less than a day behind their group and they only want one thing? Safe Haven and everyone inside the light. Will Adrian be able to keep his

people out of Cesar's evil control long enough to finish the training he's begun? The enemy numbers are over 300 and growing. There are currently 64 Eagles in Adrian's army. Maybe if Brady can come up with the right plan and Angela can tell him when. He'll also need Sam to warn him when Nature is attacking. John will look after their health and Kenn will...get banished if he can't let go of Angie, who has found something she really wants (even though no one else, not even Brady, wants her to try for it). The Survival of America: everyone is on equal ground, working for a common goal, yet it won't happen overnight and not everyone can handle Adrian's version of safety, including some of his closest people. "Eagles are men and women who care about the future of

their country, so much, that they are willing to make any sacrifice. With hope and suspicion in equal amounts, they believe in the truth when it's called for and silence when it's not. We hate to lie. An Eagle is the only line of defense between our camp of survivors and a hostile new world. Extreme force is necessary and will be used at my discretion, no matter the age or condition of the threat. True mercy in this new hell usually comes from death and hardly anything else. Be prepared to not only face it up close but also to be the one pulling that trigger. Lives are not to be taken lightly, but they will be taken. The continuation of America is all I care about and there isn't anything I won't do, any one life I won't sacrifice, to see it happen. Be sure you really want

this. It may be your life I take to save theirs." Adrian's Eagles: Seven earth-shattering weeks that will leave you breathless. Come see how it all plays out, won't you? \*Includes deleted scenes, sneak peeks, and character profiles.

It All Starts Here Long years after nuclear war devastated the world and split reality, a group of gunfighters have come from the western radiation zones, obeying a forgotten code. On an impossible quest to find those who came before them, these fighters are searching through the remnants, hoping to prove the myth of sanctuary. Alexa culled her companions from the dwindling herd of humanity, sensing

they alone may have the strength to make the journey. Each battle fought at her side tightens their bonds. For the fighters, the quest is about redemption and rebuilding what they've lost. For Alexa, the quest is a relentless hunt for her missing father, and nothing will stand in her way, not even the love she has for her crew. Bone Dust and Beginnings Book one will take the new crew through their first adventure together and introduce them to the drastic changes in their world, including trolls, zombies, ghosts, and desperate vampires. If her crew can complete their quest, they'll earn a chance to heal the rift in reality. If they fail, monsters will be here to stay and humans will become the myth. #### Book Four Angela White

Six Months after the Apocalypse Adrian will soon discover if the choices he's made have cost him a son. Even Angela can't be sure. Neither can any of the others like her. The power of the descendants is growing, and so is Safe Haven's awareness of having magic in their midst. Angela is no longer the only seer in Adrian's camp of survivors...if

she ever was. Now on the way to Arkansas, these battered refugees will face a more dangerous threat than the slavers. Furious at the latest bloodshed between lawless groups of humanity, Mother Nature has declared her own war, repeatedly unleashing her fury against everyone. The apocalypse has never been more lethal as the aftermath continues to take its toll on what remains of the great human herd.

#### Escape from Mussolini's Colditz Angela White

Down to One. For Now. Safe Haven has had two main enemies since the nuclear war that devastated the world—remaining governments and the force of nature. Now down to just one of those, thanks to a hard ground truce that Marc secured for their island, the

Eagles are about to face their longest-running enemy and the biggest threat to their survival. Two Weeks Left The enemy is arriving in only two weeks and they're coming with everything they have, seeking to wipe out the only force on the planet that they haven't been able to conquer. Thirteen ships with over a thousand fighters are converging on Safe Haven from all corners of the globe. The loser of this confrontation will scatter to the winds and slowly fade back into dust. The same may happen to the winner if they lose too many people during the fight. In the end, it will come down to the survivors. Will they blink?

## **THE NEW WORLD**

Safe Haven is leaving America Safe

Haven has abandoned their cursed mountain in search of a boat to take them to Pitcairn Island. Population cut in half, they have a long month of travel ahead and not enough fuel, water, food, or manpower to make the journey. Forced to resume scavenging for their needs as they roll, the refugee camp is a target for other survivors who are still determined to be a part of that light. Angela needs to get her people south without being discovered. It is an impossible goal in a harsh, unforgiving environment where the only truth is survival. Who will go and who will stay? The light is fading. The descendants in camp have been weakened. Forbidden by the boss to use their power or draw energy, the hosts are becoming fragile; the camp around them is helpless to

protect their gifted members. When Angela leaves on a run and doesn't return, Safe Haven begins to tear itself apart and not even Marc can stop it. Will Angela be found in time to keep them together or will an unknown contagion keep Safe Haven from getting on the boat at all?

We're Almost There! Safe Haven is ten days from Pitcairn Island. The trip has been long and filled with hardships that have cost too many lives. Dramas have exploded and been settled. Peace has been made between the normals and

the magic users, for now. Adrian and Kendle were left behind. All Safe Haven has to do is ride the waves around the tip of South America and it's smooth sailing from there. Except... Not all of their enemies died in that last battle with Joel, there are a lot of new people in camp, nature is still furious at their continued survival, and Mitchels are hard to kill. Reaching paradise won't be as easy as it sounds.

It's Hard Ground Safe Haven has finally reached the island! It's been a long trip. Everyone is eager to set up a base camp

But clearing the island won't be as easy as it sounds, and the enemies that Safe Haven forgot have not forgotten about them. In the end, only hard ground will give them the peace they so desperately need.

Only Survival Matters Angela has moved Safe Haven to the apocalyptic Mountains

of Georgia to make their stand. She has put a plan in motion that will free them or get them all killed. For her, everything since the apocalypse has come down to this moment. It's what she's been training for, what the Eagles have tried to prepare her for, but only fate knows if it will be enough. Major Donner has studied the descendants over his long military career. He has spent months at a time underground with them in the labs. He knows them better than anyone on the government's payroll. He's the guy they call to recapture escapees or to hunt down new specimens. His family has served in this manner for a century. His name is whispered with loathing among descendants and soldiers alike. He is brilliant, he is ruthless, and the post-apocalyptic government has just

turned him loose on Safe Haven.

Their First Attempt at a Settlement Safe Haven is going to try a permanent settlement in Georgia. Every soul in their camp is ready for the break. They have traveled for more than nine months

since the apocalypse. Now, they can finally quit living out of trucks and try to rebuild what they've lost. The promised luxuries the descendants are going to exhume from the ashes of society will make life once again enjoyable. Except... More horror is coming. Radiation, Refugees, and Revenge "The refugees swept across the country, fleeing nature's relentless attacks. Innocent and corrupt alike, they arrived at our mountain den with illnesses we couldn't treat, with crimes on their hands that we wouldn't condone. They surrounded us with their misery, ramming our gates with trucks and waves of gunfire. Even the innocent refugees took all we had to

give, begging until we had almost nothing left for ourselves, but still we tried to help them. We brought vast numbers inside, only to be betrayed. You can't imagine our horror. Customs were shunned, kindness was mocked, and the fragile peace began to crumble. That's when then things got ugly." -Samantha Moore, SH Council. Surrounded by desperate refugees and new dangers, Safe Haven must now make the hardest choice of anyone during an apocalypse: Do they stay and fight for their settlement, or do they run and try to be grateful that they at least have their lives?
