Whenever Selina asked about her late father, the grandmother who raised her changed the subject. The chance discovery of a photograph gave Selina hope that he was still alive and sent her searching for him on a small Spanish island. In this lush paradise, Selina found George Dyer, a writer who would help her solve the mystery of her past...and might hold the key to her future. When you read a novel like *Sleeping Tiger* by Rosamunde Pilcher you enter a special

world where emotions sing from the heart. A world that lovingly captures the ties that bind us to one another—the joys and sorrows, heartbreaks and misunderstandings, and glad, perfect moments when we are in true harmony. A world filled with evocative, engrossing, and above all, enjoyable portraits of people's lives and loves, tenderly laid open for us...

Elementary English HarperCollins

“An eye-opening and enchanting book by one of our major scientist-explorers.”
—Diane Ackerman, author of *The Zookeeper's Wife*
Nicknamed the “Real-Life Lorax” by National Geographic, the biologist, botanist, and conservationist Meg Lowman—aka “CanopyMeg”—takes us on an adventure into the “eighth continent” of the world's treetops, along

her journey as a tree scientist, and into climate action Welcome to the eighth continent! As a graduate student exploring the rain forests of Australia, Meg Lowman realized that she couldn't monitor her beloved leaves using any of the usual methods. So she put together a climbing kit: she sewed a harness from an old seat belt, gathered hundreds of feet of rope, and found a tool belt for her pencils and rulers. Up she went, into the trees. Forty years later, Lowman remains one of the world's foremost arbournauts, known as the “real-life Lorax.” She planned one of the first treetop walkways and helps create more of these bridges through the eighth continent all over the world. With a voice as infectious in its enthusiasm as it is practical in its optimism, *The Arbournaut*

chronicles Lowman's irresistible story. From climbing solo hundreds of feet into the air in Australia's rainforests to measuring tree growth in the northeastern United States, from searching the redwoods of the Pacific coast for new life to studying leaf eaters in Scotland's Highlands, from conducting a BioBlitz in Malaysia to conservation planning in India and collaborating with priests to save Ethiopia's last forests, Lowman launches us into the life and work of a field scientist, ecologist, and conservationist. She offers hope, specific plans, and recommendations for action; despite devastation across the world, through trees, we can still make an immediate and lasting impact against climate change. A blend of memoir and fieldwork account, *The Arbornaut* gives

us the chance to live among scientists and travel the world—even in a hot-air balloon! It is the engrossing, uplifting story of a nerdy tree climber—the only girl at the science fair—who becomes a giant inspiration, a groundbreaking, ground-defying field biologist, and a hero for trees everywhere. that, despite what he calls Canada's "crisis of Britishness," Pearson and his supporters unwittingly perpetuated a continuing Britishness because they - and their ideals - were the product of a British world. Using a fascinating array of personal papers, memoirs, and contemporary sources, this groundbreaking study demonstrates the ongoing influence of Britishness in Canada and showcases the personalities and views of some of the country's most important political and cultural figures. An important study that provides a better understanding of Canada, *The Strange Demise of British Canada* also shows the lasting influence Britain has had on its former colonies across the globe.

From award-winning author Nghi Vo comes a dazzling new novel where immortality is just a casting call away. It was magic. In every world, it was a kind of magic. "No maids, no funny talking, no fainting flowers." Luli Wei is beautiful, talented, and desperate to be a star. Coming of age in pre-Code Hollywood, she knows how dangerous the movie business is and how limited the roles are for a Chinese American girl from Hungarian Hill—but she doesn't care. She'd rather play a monster than a maid. But in Luli's world, the worst monsters in Hollywood are not the ones on screen. The studios want to own everything from

her face to her name to the women she loves, and they run on a system of bargains made in blood and ancient magic, powered by the endless sacrifice of unlucky starlets like her. For those who do survive to earn their fame, success comes with a steep price. Luli is willing to do whatever it takes—even if that means becoming the monster herself. *Siren Queen* offers up an enthralling exploration of an outsider achieving stardom on her own terms, in a fantastical Hollywood where the monsters are real and the magic of the silver screen illuminates every page. The first in the Echoes of the Fall series, *The Tiger and the Wolf* is a high fantasy novel by Adrian Tchaikovsky, winner of the British Fantasy Award for Best Novel. In the bleak northern crown of the world, war is coming . . . Maniye's father is the Wolf clan's chieftain, but she's an outcast. Her mother was queen of the Tiger and these tribes have been enemies for generations. Maniye also

hides a deadly secret. All can shift into their clan's animal form, but Maniye can take on tiger and wolf shapes. She refuses to disown half her soul so escapes, rescuing a prisoner of the Wolf clan in the process. The killer Broken Axe is set on their trail, to drag them back for retribution. The Wolf chieftan plots to rule the north and controlling his daughter is crucial to his schemes. However, other tribes also prepare for strife. Strangers from the far south appear too, seeking allies in their own conflict. It's a season for omens as priests foresee danger and a darkness falling across the land. Some say a great war is coming, overshadowing even Wolf ambitions. A time of testing and broken laws is near, but what spark will set the world ablaze? Continue this sweeping

coming-of-age fantasy with *The Bear and the Serpent*.
