Cell salts (tissue salts) exist in every human body. They are the inorganic biochemical elements found in the blood and tissues. They are the builders and the catalysts for many essential processes, including assimilation and detoxification. This book presents a short, simple and readily-accessible summary of the Internal and External Therapeutic Uses of the 12 Essential Cell Salts. The therapeutic use of cell salts has been extremely popular in Europe (especially in Germany) for decades. Today, homeopathic practitioners and naturopathic doctors in the United States and other countries are reviving the use of cell salts in successfully treating a spectrum of disease conditions. The word is out -- cell salts work! Most health food stores across the U.S. now carry these twelve cell salts, often in special displays.

2014 Reprint of 1920s Edition. Full facsimile of the original edition. Undated short pamphlet by Carey printed in the 1920s. George Washington Carey (1845-1924) was an American physician known for his 'chemistry of life' publications, a subject which he referred to as biochemistry. Carey combined a mixture of religion, astrology, physiology, anatomy, and chemistry, themed particularly with a mineral-based theory of human disease to explain his views on human chemistry. He continues to be popular within new-age and homeopathic circles. In the context of a person viewed as a "human molecule," Carey was the first to state that a person's body is a "chemical formula in operation." This very short essay is a statement of the principles of his philosophy of the cell salts.

Tissue Salts are a group of 12 minerals that should be present in our bodies to ensure good health and well-being. These salts are found naturally in the earth's rocks and soil, and are present in food grown organically in mineral-rich soils. This fascinating book explains how the 12 tissue salts (each presented in its own chapter) can be used to supplement our diet, not only to promote good health but also to treat specific ailments. It details how we can boost our intake of these salts both with tablets or drops, and by eating appropriate fruit and vegetables. The book ends with an 'Ailment chart' for quick referencing. In her easy, down-to-earth manner, Margaret Roberts laces her advice with case studies and personal anecdotes. For anyone interested in boosting or maintaining their health by natural means, this is an indispensable guide.

Al Biruni, one of the greatest Arab scholars, was born on September 4, 973, in what is now Uzbekistan. He showed talent at an early age and by his early 20's had written several acclaimed papers. Political unrest in his 20's and 30's found him at one point at Gurgan, on the shores of the Caspian Sea. Peace found him in Ghaznah, which is today in Afghanistan. From 1017 to 1030 he travelled extensively in India, becoming fluent in Sanskrit. From this he wrote his monumental survey, India, of the history, customs and beliefs of the subcontinent. His other books include The Chronology of Ancient Nations, the Masudic Cannon, Book of Instructions, and more than 100 others, some of which are lost. He died on December 13, 1048, aged 75. He is buried in Ghaznah. The Book of Instruction in the Elements of the Art of Astrology was written for Lady Rayhanah, to whom it is dedicated. R. Ramsay Wright, the translator, said it could be regarded as a primer of 11th century science. Among its highlights are a comprehensive list of more than 150 Lots, various forms of aspects and planetary relationships, planetary positions relative to the sun, an excellent text on rulerships as well as comprehensive notes on weather and meteorological phenomena. This book was unknown to medieval European astrologers. This edition, comprising the astrological part of the original (sections 347-530) has been taken from Wright's pioneering 1934 translation, itself taken from Persian and Arabic sources. For this edition, text and tables have been reset, and a new index added.

With the renewed interest in homeopathy, increased study of astrology and the entrance of the Aquarian Age, this book has gained more importance. It is an attempt to answer all the questions regarding the cell salts. Part 1 is a brief and concise outline of the 12 signs of the zodiac, their symbolism and the salts to be used to overcome any disease. Part 2 enlarges on Part 1 by discussing the physiochemical analysis, symbolism and actual use of each mineral salt.

A short, simple and readily-accessible summary of the internal and external therapeutic uses of the 12 essential tissue salts, commonly called "cell salts." The use of cell salts to treat a wide variety of health-related conditions has been extremely popular in Europe (especially in Germany) for many years. Today, there is widespread and growing interest in this branch of homeopathic treatment in the U.S., as evidenced by the inclusion of these twelve cell salts in special displays in health food stores across the country. Much of what has been previously written on cell salts is in archaic medical language. Dave Card's new book is different. He explains cell salts in a comprehensive fashion, yet simply, and in modern language; gives clear instruction in how to use cell salts, and supplies extensive lists of various disease- or imbalance-conditions that can be helped by cell salt supplementation. A section on the external uses of cell salts, something rarely presented in the English language, is also included. Contains a correspondence between the twelve signs of the zodiac and the use of each of the twelve different cell salts. The book is clearly indexed. "Dave Card's books have been a great tool in my own practice."-Cesar Diaz, M.D., Family Practice/ Natural Medicine "Cell salt supplementation has dramatically increased the general overall health and vitality of my clients."-Christopher Noel, Licensed Massage Therapist
