Zamoyski Poland History

OMB No. 1406613409872 edited by

VALENTINA LEE

The Battle for the Marchlands Cornell University Press
Adam Zamoyski's bestselling account of Napoleon's invasion of Russia and his catastrophic retreat from Moscow, events that had a profound effect on European history.

From Pax Mongolica to Pax Ottomanica Oxford [Oxfordshire]
; New York : Oxford University Press
Julia Minc; Edward Ochab; Roman Werfel; Stefan Staszewski; Jakub Berman.

The Lost Shtetl Basic Books

Adam Zamoyski first wrote his history of Poland two years before the collapse of the Soviet Union. This substantially revised and updated edition sets the Soviet era in the context of the rise, fall and remarkable rebirth of an indomitable nation. In 1797, Russia, Prussia and Austria divided Poland among themselves, rewriting Polish history to show that they had brought much-needed civilisation to a primitive backwater. But the country they wiped off the map had been one of Europe's largest and most richly varied, born of diverse cultural traditions and one of the

boldest constitutional experiments ever attempted. Its destruction ultimately led to two world wars and the Cold War. Zamoyski's fully revised history of Poland looks back over a thousand years of turmoil and triumph, chronicling how Poland has been restored at last to its rightful place in Europe. *God's Playground: 1795 to the present* Jonathan Cape
WINNER OF THE MARK LYNTON HISTORY PRIZE
LONGLISTED FOR THE RSL ONDAATJE PRIZE 'A gripping reconstruction... utterly compelling reading.' Adam Zamoyski 'This is a grim story, thoroughly researched and brilliantly told.' Geoffrey Alderman, Times Higher Education The Katyn Massacre of 22,000 Polish prisoners of war is a crime to which there are no witnesses. Committed in utmost secrecy in April-May 1940 by the NKVD on the direct orders of Joseph Stalin, for nearly fifty years the Soviet regime succeeded in maintaining the fiction that Katyn was a Nazi atrocity, their story unchallenged by Western governments fearful of upsetting a powerful wartime ally and Cold War adversary. Surviving Katyn explores the decades-long search for answers, focusing on the experience of those individuals with the most at stake - the few survivors of the massacre and the Polish wartime forensic investigators - whose quest for the truth in the

face of an inscrutable, unknowable, and utterly ruthless enemy came at great personal cost.

Napoleon BRILL

By the beginning of 1941 there was a fully fledged Polish Air Force operating alongside the RAF. With 14 Squadrons it was larger than any other of the Air Force from Nazi-occupied Europe that had joined the Allies. Over 17,000 men and women passed through the ranks of the Polish Air Force while it was stationed in the UK. They shot down 745 enemy aircraft, with a further 175 unconfirmed. They dropped thousands of bombs and laid hundreds of mines, flying 102,486 sorties notching up a total of 290,895 operation flying hours. They achieved this at a cost of 1,973 killed and 1,388 wounded. They won 342 British gallantry awards.

White Eagle, Red Star Anchor

'Napoleon is an out-and-out masterpiece and a joy to read' Sir Antony Beevor, author of *Stalingrad* A landmark new biography that presents the man behind the many myths. The first writer in English to go back to the original European sources, Adam Zamoyski's portrait of Napoleon is historical biography at its finest.

Phantom Terror Basic Books

Biografi om Polens sidste konger fra 1764-1795, Stanisław August Poniatowski (1732-1798)

The Carpathians Bloomsbury Publishing

Following on from his epic '1812: Napoleon's Fatal March on Moscow', bestselling author Adam Zamoyski has written the dramatic story of the Congress of Vienna.

Holy Madness: Romantics, Patriots and Revolutionaries 1776-1871 Basic Books

This is the first comprehensive English-language guide to the historical sites of Poland. It contains an alphabetical listing of 1,161 towns and villages, and covers more than 8,000 castles, churches, palaces, monuments and museums. Each object of interest is briefly described, with illuminating comments on its cultural or historical significance, and furnished with relevant dates and names of artists and patrons. A short introduction is designed to fix in the newcomer's mind the main events and currents of Poland's historical and cultural Odyssey. The glossary, list of rulers and genealogical tables provide indispensable points of reference, and a set of maps and plans makes it easy to locate the sites. Any traveller armed with this book can be certain that they will not pass by any gems, however well hidden. And anyone interested in the culture of Poland and Central Europe will find it an invaluable reference work.

KALEIDOSCOPE OF POLAND

Simon and Schuster

From the ashes of World War II to the conflict over Iraq, William Hitchcock examines the miraculous transformation of Europe from a deeply fractured land to a continent striving for stability, tolerance, democracy, and prosperity. Exploring the role of Cold War politics in Europe's peace settlement and the half century that followed, Hitchcock reveals how leaders such as Charles de Gaulle, Willy Brandt, and Margaret Thatcher balanced their nations' interests against the demands of the reigning superpowers, leading to great strides in economic and political unity. He re-creates Europeans' struggles with their troubling legacy of racial, ethnic, and national antagonism, and shows that while divisions persist, Europe stands on the threshold of changes that may profoundly shape the future of world affairs.

A History of Poland Routledge

The history of eastern Europe is dominated by the story of the rise of the Russian empire, yet Russia only emerged as a major power after 1700. For 300 years the greatest power in Eastern

Europe was the union between the kingdom of Poland and the grand duchy of Lithuania, one of the longest-lasting political unions in European history. Yet because it ended in the late-eighteenth century in what are misleadingly termed the Partitions of Poland, it barely features in standard accounts of European history. *The Making of the Polish-Lithuanian Union 1385-1569* tells the story of the formation of a consensual, decentralised, multinational, and religiously plural state built from below as much as above, that was founded by peaceful negotiation, not war and conquest. From its inception in 1385-6, a vision of political union was developed that proved attractive to Poles, Lithuanians, Ruthenians, and Germans, a union which was extended to include Prussia in the 1450s and Livonia in the 1560s. Despite the often bitter disagreements over the nature of the union, these were nevertheless overcome by a republican vision of a union of peoples in one political community of citizens under an elected monarch. Robert Frost challenges interpretations of the union informed by the idea that the emergence of the sovereign nation state represents the essence of political modernity, and presents the Polish-Lithuanian union as a case study of a composite state. The modern history of Poland, Lithuania, Ukraine, and Belarus cannot be understood without an understanding of the legacy of the Polish-Lithuanian union. This volume is the first detailed study of the making of that union ever published in English.

THE LAST KING OF POLAND

HarperCollins UK

Mr. Zamoyski believes there is a need for a new synthesis of Poland's past because of the heavily nationalist and political coloring of existing works. He strives to place Polish history more squarely in its European context, and he pays special attention to developments that had repercussions beyond the boundaries of the country.

The Forgotten Few Russian and East European Stud

An authoritative biography of Jozef Pilsudski, a key figure in interwar Europe regarded as the founding hero of a pluralistic and democratic modern Poland. After the first elected president was assassinated, Pilsudski lost faith in Poles' commitment to democracy, led a military coup, and ruled as a strongman, leaving a complicated legacy.

HEART OF EUROPE

Cornell University Press

Surprisingly little known, the Polish-Soviet War of 1919-20 was to change the course of twentieth-century history. In *White Eagle, Red Star*, Norman Davies gives a full account of the War, with its dramatic climax in August 1920 when the Red Army - sure of victory and pledged to carry the Revolution across Europe to 'water our horses on the Rhine' - was crushed by a devastating Polish attack. Since known as the 'miracle on the Vistula', it remains one of the most decisive battles of the Western world. Drawing on both Polish and Russian sources, Norman Davies illustrates the narrative with documentary material which hitherto has not been readily available and shows how the War was far more an 'episode' in East European affairs, but largely determined the course of European history for the next twenty years or more.

Shadow Elite HarperCollins

WINNER OF THE NATIONAL JEWISH BOOK AWARD AND THE JEWISH FICTION AWARD FROM THE ASSOCIATION OF JEWISH LIBRARIES GOOD MORNING AMERICA MUST READ NEW BOOKS * NEW YORK POST BUZZ BOOKS * THE MILLIONS MOST ANTICIPATED A remarkable debut novel—written with the fearless imagination of Michael Chabon and the piercing humor of Gary

Shteyngart—about a small Jewish village in the Polish forest that is so secluded no one knows it exists . . . until now. What if there was a town that history missed? For decades, the tiny Jewish shtetl of Kreskol existed in happy isolation, virtually untouched and unchanged. Spared by the Holocaust and the Cold War, its residents enjoyed remarkable peace. It missed out on cars, and electricity, and the internet, and indoor plumbing. But when a marriage dispute spins out of control, the whole town comes crashing into the twenty-first century. Pasha Lindauer, who has just suffered an ugly, acrimonious divorce, suddenly disappears. A day later, her husband goes after her, setting off a panic among the town elders. They send a woefully unprepared outcast named Yankel Lewinkopf out into the wider world to alert the Polish authorities. Venturing beyond the remote safety of Kreskol, Yankel is confronted by the beauty and the ravages of the modern-day outside world – and his reception is met with a confusing mix of disbelief, condescension, and unexpected kindness. When the truth eventually surfaces, his story and the existence of Kreskol make headlines nationwide. Returning Yankel to Kreskol, the Polish government plans to reintegrate the town that time forgot. Yet in doing so, the devious origins of its disappearance come to the light. And what has become of the mystery of Pasha and her former husband? Divided between those embracing change and those clinging to its old world ways, the people of Kreskol will have to find a way to come together . . . or risk their village disappearing for good.

WARSAW 1920: LENIN'S FAILED CONQUEST OF EUROPE

Collins

This book is dedicated to the life and work of Ignacy Lukasiewicz, Polish pharmacist whose world-renowned achievements include construction of the world's first oil refinery and invention of the modern kerosene lamp. The authors also portray the history of the Galician oil industry and set it in the context of political, social and technological changes taking place in the 19th-century Central and Eastern Europe. "The work adds substantially to existing scholarship in English. As the author of the only English-language academic monograph devoted to a general history of the Galician oil industry, I can attest that this manuscript adds significant and important information, details, depth of investigation that is not provided in my book or any other book. It therefore makes a novel contribution that will be very valuable to anyone looking for a truly detailed account of Ignacy Lukasiewicz's contribution within the context of the Galician oil industry in general." Alison Frank Johnson Professor of History and of Germanic Languages and Literatures Harvard University, Center for European Studies "The authors sketch the profiles of two outstanding Poles, pioneers of the oil industry - Ignacy Lukasiewicz, MSc. in Pharmacy, and mining engineer and geologist Witold Zglenicki, called the Polish Nobel (...) This

scientific work is an interesting and captivating read. It can be used not only by scientists and students, but also by everyone who is interested in industrial cultural heritage (...)." Krzysztof Broński Professor and Head of Department of Economic and Social History Economic University in Kraków
Peter Lang GmbH, Internationaler Verlag Der Wissenschaften
The book presents various political and economic aspects of the Black Sea region during the 14th-16th centuries.

Napoleon HarperCollins UK

A superb study of one of the most important, romantic and dynamic figures of European history. 'A fine book ... the web of political intrigue unfolds like an appetising detective novel' Scotsman
The last king of Poland owed his throne largely to his youthful romance with the future Catherine the Great of Russia. But Stanislaw Augustus was nobody's pawn. He was an ambitious, highly intelligent and complex character, a dashing figure in the finest eighteenth-century tradition. A great believer in art and education, he spent fortunes on cultural projects, and finding that he was blocked politically by Catherine, he put his energies into a programme of social and artistic regeneration. He transformed the mood of his country and brought it to a new phase of reform and independence. Poland's neighbours, however, viewed this beacon of liberty in their midst with alarm, and as they invaded and partitioned it, Stanislaw saw the destruction of his life's work, and ultimately was forced to abdicate, a broken man, deceived and disillusioned.

Zamoyski family in the history of Poland Cambridge University Press

The dramatic and little-known story of how, in the summer of 1920, Lenin came within a hair's breadth of shattering the painstakingly constructed Versailles peace settlement and spreading Bolshevism to western Europe.

The Struggle for Europe Oxford University Press

The definitive biography of Napoleon, revealing the true man behind the legend "What a novel my life has been!" Napoleon once said of himself. Born into a poor family, the callow young man was, by twenty-six, an army general. Seduced by an older woman, his marriage transformed him into a galvanizing military commander. The Pope crowned him as Emperor of the French when he was only thirty-five. Within a few years, he became the effective master of Europe, his power unparalleled in modern history. His downfall was no less dramatic. The story of Napoleon has been written many times. In some versions, he is a military genius, in others a war-obsessed tyrant. Here, historian Adam Zamoyski cuts through the mythology and explains Napoleon against the background of the European Enlightenment, and what he was himself seeking to achieve. This most famous of men is also the most hidden of men, and Zamoyski dives deeper than any previous biographer to find him. Beautifully written, Napoleon brilliantly sets the man in his European context.
