CURTIS ESSENCE

A Student's Guide to Phonology and Morphology Wipf and Stock Publishers
The volume offers a fresh analysis of a central problem of comparative Ugaritic-Biblical scholarship: the relationship between biblical psalms and Canaanite literature. A critical survey summarizes the various stages of comparative scholarship over more than fifty years. There follow the two principal parts of the book: the first concerns Hebrew psalms with affinities to Ugaritic literature, and the second Ugaritic psalms and prayers with affinities to Hebrew literature. A detailed analysis of the form, structure, themes and motifs of biblical texts, and a scrutiny of their verses, cola, phrases and vocabulary against the background of ancient Near East literature lead to the thesis that there is no justification for assuming that Canaanite psalms are found in the Bible, or that biblical literature and Ugaritic literature should be considered a single entity. It is alleged that affinities may be elucidated based on common thematic, linguistic and stylistic elements.

Pierre Bordreuil and Dennis Pardee are two of the best-known scholars doing research on the language and texts of the ancient city of Ugarit (modern Tell Ras Shamra). This grammar was first published in French in 2004 in two volumes; and Eisenbrauns is pleased to make it available now in a corrected and updated version, in one volume, with significant enhancements. In addition to including all of the information present in the French edition, this English edition includes a CD with a complete, hyperlinked PDF version of the grammar. The book includes a historical introduction to the texts and language, the book includes a sketch of the grammar of Ugaritic, a bibliography, facsimiles (hand-copies) of a number of texts, and a glossary and text concordance—in short, everything that a student needs for entrée into the language. On the CD, in addition to the PDF, color photos of all of the texts included in the book are provided. The hyperlinks to the PDF enable the reader to move easily from the discussion in the grammar to a copy of a text to the color photo of the text and back again, making

the material much more accessible and usable for students and researchers. Pierre Bordreuil inaugurated a chair in Ugaritic at the écoles des langues et civilisations orientales at the Institut catholique de Paris. Dennis Pardee teaches in the Dept. of Near Eastern Languages and Civilizations at the Oriental Institute of the University of Chicago.

Journal for the Evangelical Study of the Old Testament, 3.1

African Sun Media
The main goal of this book is to provide a collection of essays (formerly only available separately in various academic journals) that offer untraditional and original exegetical insights into, or solutions to, popular or problematic Old Testament texts and topics. It illustrates the science and art of exegesis by an author within a broad evangelical context and demonstrates the interpretive value of reading biblical texts without prejudice to

tradition and with careful attention to their historical and cultural contexts.

The book is the first complete discussion of the genre of online encyclopedias. The first part of the book, preceded by a theoretical introduction into the concept of webgenres, gives a detailed overview of the types of encyclopedic websites, presenting the characteristics of their content, form and functionality. The second part of the publication concerns Wikipedia -- the most popular online encyclopedia. The presentation of the structure of the portal is followed by an in-depth discussion of Wikipedia discourse features, describing the most conspicuous properties of the stylistic layer of this encyclopedia. The value of the book is additionally enhanced by many illustrations reproducing the analyzed websites.

BASICS OF ANCIENT UGARITIC

BRILL

What is death? Why do we die? and what happens after we die? Over the centuries, philosophers and theologians of the world's religions have offered answers to the dilemma of death, yet this subject is rarely given the detailed attention it deserves in the contemporary Christian church. As Christians, how does our view of death impact the communication of the gospel in today's pluralistic societies? In this study, Dr Bobby Bose not only develops a solid biblical theology of death, he also reviews the teachings of contemporary and historical Christian theologians around the world, and examines the "state-after-death" beliefs of Hindus, Muslims and Secular Humanists. The author shows that "state-after-death" was a central component of conversation in the early church, and is also a major component of God's mission to rescue humanity. As the East converges with the West, it is vital that Christians develop a missiological approach to "state-after-death" that will encourage positive engagement with people of other faiths and beliefs.

THE CASE OF WIKIPEDIA

BRILL

The volume examines reflexes of a West Semitic myth describing an attempted coup against the high god of the pantheon. Some scholars consider it to be the ancient precursor of the Satan myth found in Jewish, Christian, and Islamic traditions.

Eblaïtica: Essays on the Ebla Archives and Eblaïte Language, Volume 4 Lulu.com

In 1961 William L. Morgan published "The

Hebrew Language in Its Northwest Semitic Background", in which he presented a state-of-the-art description of the linguistic milieu out of which Biblical Hebrew developed. Moran stressed the features found in earlier Northwest Semitic languages that are similar to Hebrew and he demonstrated how the study of those languages sheds light on Biblical Hebrew. Since Moran wrote, our knowledge of both the Hebrew of the biblical period and of Northwest Semitic has increased considerably. In the lights of new epigraphic finds and the significant advances in the fields of Biblical Hebrew and Northwest Semitic in the past four decades, the Institute for Advanced Studies of the Hebrew University of Jerusalem convened an international research group during the 2001-2002 academic year on the topic "Biblical Hebrew in Its Northwest Semitic setting: Typological and Historical Perspectives." The volume presents the fruits of the year-long collaboration and contains twenty articles based on lectures given during the year by members of the groups and invited guests. A wide array of subjects are discussed, all of which have implications for the study of Biblical Hebrew and Northwest Semitic.

BIBLICAL HEBREW IN ITS NORTHWEST SEMITIC SETTING

Walter de Gruyter

The handbook *The Semitic Languages* offers a comprehensive reference tool for Semitic Linguistics in its broad sense. It is not restricted to comparative Grammar, although it covers also comparative

aspects, including classification. By comprising a chapter on typology and sections with sociolinguistic focus and language contact, the conception of the book aims at a rather complete, unbiased description of the state of the art in Semitics. Articles on individual languages and dialects give basic facts as location, numbers of speakers, scripts, numbers of extant texts and their nature, attestation where appropriate, and salient features of the grammar and lexicon of the respective variety. The handbook is the most comprehensive treatment of the Semitic language family since many decades. *Reincarnation, Oblivion or Heaven?* Wipf and Stock Publishers

Lexicography, together with grammatical studies and textual criticism, forms the basis of biblical exegesis. Recent decades have seen much progress in this field, yet increasing specialization also tends to have the paradoxical effect of turning exegesis into an independent discipline, while leaving lexicography to the experts. The present volume seeks to renew and intensify the exchange between the study of words and the study of texts. This is done in reference to both the Hebrew source text and the earliest Greek translation, the Septuagint. Questions addressed in the contributions to this volume are how linguistic meaning is effected, how it relates to words, and how words may be translated into another language, in Antiquity and today.

Etymology, semantic fields, syntagmatic relations, word history, neologisms and other subthemes are discussed. The main current and prospective projects of biblical lexicology or lexicography are presented, thus giving an idea of the state of the art. Some of the papers also open up wider perspectives of interpretation.
