Meet people who have had a profound impact on our world while bearing the physical and emotional scars born out of struggles and suffering, transforming their stories from pain to power in this inspirational middle grade nonfiction book about overcoming challenges. Magazine spreads and Hollywood hits showcase stars with perfect skin, perfect faces, perfect hair, perfect lives, perfect everything. But what if this absence of

scars—the hidden and physical—is really a lie? And what if, underneath all that perfection, something far more powerful and authentic is waiting to be seen, shown, and heard? In *Braver Than I Thought*, kids discover the true stories of remarkable people whose scars have been a part of their journey, who have helped them become the world-shakers and game-changers that they are! The engaging and high-interest stories include Black Panther's Chadwick Boseman, war veteran and now-senator Tammy Duckworth, and beyond-belief rock climber extraordinaire Aron Ralston, who all endured intense trauma that led to pronounced scars, but also helped them forge purposeful identities as they came to peace with their bodies. Readers will find that whatever the physical, mental, or emotional challenges that we face, it is not

the end of a story, but rather the beginning of a new one.

WHAT DOESN'T DESTROY US

Simon and Schuster

Falling in love is easy. Falling out of love is the hardest thing in the world. And Elin and Ty Whitt are terrible at it. The first time the local basketball star smiled at Elin, she was a goner. It was just so damn easy to fall for the dark-haired hometown hero with his charming smile and strong, athletic build. Thousands of sleepy smiles, aimless drives down country roads, and squeaks of the backdoor after a swing shift later, reality hits. And it hits hard. Falling in love was definitely the easy part. Watching it break apart was impossible. Through the tears, the second-guesses, the memories of a life built together, the world keeps spinning. With each turn

comes clarity and hope-sometimes in the form of a pair of muddy boots by the back door or from the words of a wise friend. When Ty shows back up with a new found determination to put his family back together, Elin's torn between the fights of the past and the possibility of a new start. This is the man that holds her heart, the man she loves beyond anything else. But this is also the one person in the world that can cause her the most pain. Life's not always easy. Love's not for the faint of heart. But with life comes lessons and Ty and Elin have the scars to prove it. But it's their love written in those scars that will hold them together ... or break them apart.

Discovering My Scars is a moving account of a young woman's struggle with unexplained depression that leads her to cope with self-injury. One dramatic day in her college dorm, self-injury lands her in the surreal world of a psych ward for 74 hours. Those traumatic hours define her life for many years, until she comes to see the trauma through the lens of self-forgiveness, ongoing recovery, and God's

grace of revelation. Within Discovering My Scars, Stephanie Kostopoulos makes herself vulnerable and invites readers into her reality with raw and visceral depictions of non-suicidal self-injury. The journey encapsulates life during her 20's, while stepping back to childhood, revealing abuse that explains the events of her young adult life. Discovering My Scars commands attention and has a powerful message that lies in Stephanie's first-person experience and authenticity. It is packed with revelations about what can underlie inexplicable anxiety and depression, and lets readers know it's okay to "discover your own scars," through the process of ongoing recovery and forgiveness.

MORE THAN MY SCARS

The Scars That Define Us Poignant, laugh-out-loud-funny, a must-read book for any woman who has ever felt like she just doesn't measure up.—Crystal Paine, New YorkTimes best-selling author Every woman is intimately acquainted with feelings of insecurity and inadequacy. Whether fueled by a culture of makeover shows, by the lingering

memories of mean girls, or by events much more wounding to the soul, we can become so conditioned by self-doubt that it becomes our inner monologue. What we want is to be free of shame and comparison, to turn our uncertainty into a bold confidence. But to flourish in our own skin, we first have to rewrite the narrative. In this fearless, funny, and refreshingly relatable chronicle of her own metamorphosis from the insecurity that once held her captive, author Kayla Aimee unfolds the blueprint for women to:

- Identify the deep-seated sources of our assumed inadequacy and replace them with steadfast truths of scriptural affirmation
- Replace our need for approval with the enduring promise of acceptance
- Uncover our purpose, unlock our potential, and celebrate the God-given gifts in our unique personality

To every woman who longs for belonging, this journey through Kayla's inviting prose, biblical promises, and journaling prompts will help guide her from restless insecurity to a beautiful becoming.

New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood

was a nightmare -- poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring *Outside* magazine to name him "The Fittest (Real) Man in America." In *Can't Hurt Me*, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

What Might Kill Us David Goggins
A severely burned teenager. A guitar. Punk rock. The chords of a rock 'n' roll road trip in a coming-of-age novel that is a must-read story about finding your place in the world . . . even if you carry scars inside and out. In attempting to describe himself in his college application essay—to "help us to become acquainted with you beyond your courses, grades, and test scores"—Harbinger (Harry) Jones goes way beyond the 250-word limit and gives a full account of his life. The first defining moment: the day the neighborhood goons tied him to a tree during a lightning storm when he was 8 years old, and the tree was struck and caught fire. Harry was badly

burned and has had to live with the physical and emotional scars, reactions from strangers, bullying, and loneliness that instantly became his everyday reality. The second defining moment: the day in eighth grade when the handsome, charismatic Johnny rescued him from the bullies and then made the startling suggestion that they start a band together. Harry discovered that playing music transported him out of his nightmare of a world, and he finally had something that compelled people to look beyond his physical appearance. Harry's description of his life in his essay is both humorous and heart-wrenching. He had a steeper road to climb than the average kid, but he ends up learning something about personal power, friendship, first love, and how to fit in the world. While he's looking back at the moments that have shaped his life, most of this story takes place while Harry is in high school and the summer after he graduates.

I REMEMBER BEIRUT

Catapult
Zeina Abirached, author of the award-winning graphic novel *A Game for*

Swallows, returns with a powerful collection of wartime memories. Abirached was born in Lebanon in 1981. She grew up in Beirut as fighting between Christians and Muslims divided the city streets. Follow her past cars riddled with bullet holes, into taxi cabs that travel where buses refuse to go, and on outings to collect shrapnel from the sidewalk. With striking black-and-white artwork, Abirached recalls the details of ordinary life inside a war zone.

The Best We Could Do CreateSpace Called "powerful and provocative" by Dr. Ibram X. Kendi, author of the New York Times bestselling *How to be an Antiracist*, this explosive book of history and cultural criticism reveals how white feminism has been used as a weapon of white supremacy and patriarchy deployed against Black and Indigenous women, and women of color. Taking us from the slave era, when white women fought in court to keep "ownership" of their slaves, through the centuries of colonialism, when they offered a soft face for brutal tactics, to the modern workplace, *White Tears/Brown Scars* tells a charged story of white women's active participation in campaigns

of oppression. It offers a long overdue validation of the experiences of women of color. Discussing subjects as varied as *The Hunger Games*, Alexandria Ocasio-Cortez, the viral BBQ Becky video, and 19th century lynchings of Mexicans in the American Southwest, Ruby Hamad undertakes a new investigation of gender and race. She shows how the division between innocent white women and racialized, sexualized women of color was created, and why this division is crucial to confront. Along the way, there are revelatory responses to questions like: Why are white men not troubled by sexual assault on women? (See Christine Blasey Ford.) With rigor and precision, Hamad builds a powerful argument about the legacy of white superiority that we are socialized within, a reality that we must apprehend in order to fight. "A stunning and thorough look at White womanhood that should be required reading for anyone who claims to be an intersectional feminist. Hamad's controlled urgency makes the book an illuminating and poignant read. Hamad is a purveyor of such bold thinking, the only question is, are we ready to listen?" —Rosa Boshier,

From looking outwardly to please others to

looking inwardly to define ourselves, we constantly try to cultivate or construct our identities. But guided by the whims of culture or the faulty advice of tradition, we often find identity collapses when life falls apart or change threatens that fragile structure. Is it possible to discover an identity bolstered with unassailable confidence, strengthened for the challenges of life rather than destroyed by them, and free from the whims of cultural pressure? Yes! It is an identity received, not achieved—an identity established in the gospel. In *Stop Trying*, Cary Schmidt's storytelling creates compelling scenes in which you'll see yourself and your self. You'll understand why defining your identity outside of Jesus Christ is ultimately fragile, hollow, and unsatisfying. And you'll discover that your truest and most fulfilling identity is a byproduct of a relationship that changes everything. *Scarred Regrets* Morgan James Publishing
Love Yourself Before You Look For Love
Relationships are difficult. They're complicated and messy, but they can also be beautiful and fulfilling. Relationship advice is always subjective; what works for one person might not work for the other.

It's so important to find someone you love yourself before you look for love in a relationship because it's those moments alone that we get stronger and happy with ourselves. Relationship advice can be subjective - what works for one person might not work for the other. It's so important to love and take care of yourself before looking for love in a relationship because those moments alone are when you'll find your strength and happiness in yourself but also find out who you are. Scars and life-changing events happen to everyone at some point in their lives, but they don't have to define us if we're strong enough. It's important that when these difficult times come along, there will be someone waiting for us ready with open arms because nobody is alone no matter what happens.

Ever wonder "What if?" Everything That Makes You is a romantic, epic story about one girl—and her two possible lives after an accident changes her fate. Fiona Doyle's face was horribly scarred as a child. She writes about her frustrations and dreams in notebooks, penning song lyrics. But she'd never be brave enough to

sing those songs in public. Fi Doyle never had an accident. She's the best lacrosse player in the state and can't be distracted by her friend who wants to be more than that. But then her luck on the field goes south. Alternating chapters between Fiona and Fi tell two stories about the same girl—hopes and dreams and crushes, fears and failures and loss. This beautifully written realistic contemporary novel with a twist is perfect for fans of *If I Stay* by Gayle Forman and *Before I Fall* by Lauren Oliver.

'...And then we heard the rain falling, and that was the drops of blood falling; and when we came to get the crops, it was dead men that we reaped.' Harriet Tubman
In five years, Jesmyn Ward lost five men in her life, to drugs, accidents,

suicide, and the bad luck that can follow people who live in poverty, particularly black men. Dealing with these losses, one after another, made Jesmyn ask the question: why? And as she began to write about the experience of living through all the dying, she realized the truth--and it took her breath away. Her brother and her friends all died because of who they were and where they were from, because they lived with a history of racism and economic struggle that fostered drug addiction and the dissolution of family and relationships. Jesmyn says the answer was so obvious she felt stupid for not seeing it.

But it nagged at her until she knew she had to write about her community, to write their stories and her own. Jesmyn grew up in poverty in rural Mississippi. She writes powerfully about the pressures this brings, on the men who can do no right and the women who stand in for family in a society where the men are often absent. She bravely tells her story, revisiting the agonizing losses of her only brother and her friends. As the sole member of her family to leave home and pursue high education, she writes about this parallel American universe with the objectivity distance provides and the intimacy of utter familiarity.
