A boldly rendered—and deeply intimate—account of Hong Kong today, from a resilient young woman whose

stories explore what it means to survive in a city teeming with broken promises. “Hums with the thrill of being lost in this massive, haunted, mythologized, neon city, yet finding oneself in the end.”—Hua Hsu, author of *A Floating Chinaman* Hong Kong is known as a place of extremes: a former colony of the United Kingdom that now exists at the margins of an ascendant China; a city rocked by mass protests, where residents rally—often in vain—against threats to their fundamental freedoms. But it is also misunderstood, and often romanticized. Drawing from her own experience reporting on the politics and culture of her hometown, as well as interviews with musicians, protesters, and writers who have watched their home transform, Karen Cheung gives us

a rare insider’s view of this remarkable city at a pivotal moment—for Hong Kong and, ultimately, for herself. Born just before the handover to China in 1997, Cheung grew up questioning what version of Hong Kong she belonged to. Not quite at ease within the middle-class, cosmopolitan identity available to her at her English-speaking international school, she also resisted the conservative values of her deeply traditional, often dysfunctional family. Through vivid and character-rich stories, Cheung braids a dual narrative of her own coming of age alongside that of her generation. With heartbreaking candor, she recounts her yearslong struggle to find reliable mental health care in a city reeling from the traumatic aftermath of recent protests. Cheung also captures

moments of miraculous triumph, documenting Hong Kong's vibrant counterculture and taking us deep into its indie music and creative scenes. Inevitably, she brings us to the protests, where her understanding of what it means to belong to Hong Kong finally crystallized. An exhilarating blend of memoir and reportage, *The Impossible City* charts the parallel journeys of both a young woman and a city as they navigate the various, sometimes contradictory paths of coming into one's own.

I'm not much now, I know, but I will be. So pick me Jyoti and I swear I will make us the greatest adventure you ever have. On a stormy night in 1954, a woman doomed to marry one of five men discovers the wildcard choice might just be the person she'd been hoping for all along. *An Adventure* follows headstrong Jyoti and her fumbling suitor Rasik as they ride the crest of the fall of the Empire from the shores of post-Partition India to the forests of Mau Mau Kenya onto the industrial upheaval of 1970s London and the present day. But what happens when youthful ambitions crash hard against reality? When you look back at the story of your time together, can you bear to ask yourself: was it all worth it? Witty, charming and

full of fearless historical insight, *An Adventure* is an epic, technicolour love story from one of the country's most promising young writers about the people who journeyed to British shores in hope and shaped the country we live in today.

Boredom and melancholy in the experience of reading Contemporary graphic novels show an interesting shift from the extraordinary to the ordinary in slice-of-life stories in which nothing happens. Present-day graphic accounts are inhabited by melancholic characters whining about the lack of meaning in life. This book examines this intriguing transition and brings a historical,

aesthetical and narratological approach to comics in which boredom is not only a topic, but also awakens a deliberate affective response in the very experience of reading. This volume brings together close readings of work by Lewis Trondheim, Chris Ware and Adrian Tomine. With a foreword by Raphaël Baroni (University of Lausanne).

IN THE STUDIO

ABC-CLIO

Nine critically acclaimed cartoonists and graphic novelists invite us into their studios to discuss their art and inspirations These studio visits with some of today's most popular and innovative comic artists present an unparalleled look at the cutting edge of the comic medium. The artists, some of

whom rarely grant interviews, offer insights into the creative process, their influences and personal sources of inspiration, and the history of comics. The interviews amount to private gallery tours, with the artists commenting, now thoughtfully, now passionately, on their own work as well as the works of others. The book is generously illustrated with full-color reproductions of the artists' works, including some that have been published and others not originally intended for publication, such as sketchbooks and personal projects. Additional illustrations show behind-the-scenes working processes of the cartoonists and particular works by others that have influenced or inspired them. Through the eyes of these artists, we see with a new clarity the

achievement of contemporary cartoonists and the extraordinary possibilities of comic art.

An immediate perennial, documenting the critical rise of the graphic novel. Conventional wisdom states that cartooning and graphic novels exist in a golden age of creativity, popularity, and critical acceptance. But why? Today, the signal is stronger than ever, but so is the

noise. New York Times, Vanity Fair, and Bookforum critic Ben Schwartz assembles the greatest lineup of comics critics the world has yet seen to testify on behalf of this increasingly vital medium. *The Best American Comics Writing* is the first attempt to collate the best criticism to date of the graphic novel boom in a way that contextualizes and codifies one of the most important literary movements of the last 60 years. This collection begins in 2000, the game changing year that Pantheon released the graphic novels *Jimmy Corrigan* and *David Boring*. Originally serialized as “alternative” comics, they went on to confirm the critical and commercial viability of graphic literature. Via its various authors, this collection functions as a valuable readers’ guide for fans,

academics, and librarians, tracing the current comics renaissance from its beginnings and creative growth to the cutting edge of today’s artists. This volume includes Daniel Clowes (*Ghost World*) in conversation with novelist Jonathan Lethem (*Fortress of Solitude*), Chris Ware, Jonathan Franzen (*The Corrections*), John Hodgman (*The Daily Show*, *The Areas of My Expertise*, *The New York Times Book Review*), David Hajdu (*The 10-Cent Plague*), Douglas Wolk (*Publishers Weekly*, author of the Eisner award-winning *Reading Comics*), Frank Miller (*Sin City* and *The Spirit* film director) in conversation with Will Eisner (*The Spirit’s* creator), Gerard Jones’ (*Men of Tomorrow*), Brian Doherty (author *Radicals of Capitalism*, *This is Burning Man*) and critics Ken Parille (*Comic Art*),

Jeet Heer (The National Post), R.C. Harvey (biographer of Milton Caniff), and Donald Phelps (author of the landmark book of comics criticism, *Reading the Funnies*). Best American Comics Writing also features a cover by nationally known satirist Drew Friedman (The New York Observer, *Old Jewish Comedians*) in which Friedman asks, “tongue-in-cheek,” if cartoonists are the new literati, what must their critics look like?

Meet David Boring: a nineteen-year-old security guard with a tortured inner life and an obsessive nature. When he meets the girl of his dreams, things begin to go awry: what seems too good to be true apparently is. And what seems truest in Boring's life is that, given the

right set of circumstances (in this case, an orgiastic cascade of vengeance, humiliation and murder) the primal nature of humankind will come inexorably to the fore. For those interested in comic art's potential, Clowes's work offers exciting literary possibilities. Boring is Anything but. -- Time Dan Clowes

This book serves two purposes. First, it

provides the psychoanalyst or psychotherapist with a more flexible method of practicing psychoanalysis. This is the clinical approach of "analytic contact", a technical stance in which more patients can be reached in a deeper and more helpful manner. Analytic contact is an operationally robust Kleinian approach for the real world of private practice and targets the combination of internal and external factors there are consistently at play with all patients. The second aim of this book is to examine specific groups of patients that present unique challenges to the psychoanalyst. These populations are examined and new and creative ways of working with them are introduced. The author invites the reader to discover the clinical value and

technical utility of analytic contact.

'My future is here. My aim is clear and simple. I want out. I wanna be rich. I'm not gonna pretend it's anything more than that and I want it now.' David, Kojo and Sharon grew up on a London estate. Now in their mid 20s, they're eyeing another kind of life. But how do you choose the right path when temptation lies around every corner? If your emotional or financial debt is sky high, how do you buy your way out? Bola Agbaje's smart, savvy second play for the Royal Court asks whether being out of the system might be just as good as being in it. Her characters struggle to ignore the pull of lawless gain and in their newly-respectable, adult lives, find it hard to move away from a background

which both haunts them and entices them back. Agbaje's characteristically energetic, vibrant dialogue captures the dynamic rhythm of spoken language and she portrays an under-represented slice of society with skill and compassion.

Millionaire Eugene Motter built the lavish estate of North Haven away from the rest of the world for his family to escape the Great Depression and wallow in their own wealthy seclusion. Disconnected from everything else, members of the family come to realize that they've locked themselves into a changeless world of their own that graces them with luxury as well as inadvertently catalyzes all of its decadence. The individual choices of each family members affects

themselves and each other in the narrowed confines of North Haven as the repercussions of their choices endure throughout their lives and ultimately leads to the demise of the home.

To create a comic is not to illustrate words, but to create narrative diagrams and transform strokes into imaging words. The infinite array of possibilities that the merging of text and pictures provides is a garden of forking paths that critics have just started to explore. This is an art that operates as the crossroads of various disciplines, but whose specifications require a thorough understanding of its unique mechanisms. The explosion of experimental works and the incorporation of previously marginal (or nonexistent) genres and themes in

comics have enriched an already fruitful art in ways that continue to surprise both readers and critics. This collection of essays offers a space of reflection on the cultural, social, historical, and ideological dimensions of comics. With this in the background, the book focuses on three main areas: the origins and definitions of comics; the formal tools of the medium; and authors and their works. The historical and formal approach to comics, as shown here, is still essential and the debate about the origins and definition is still present, but two thirds of this collection formulate other treatments that scholars had not started to tackle until recently. Does this mean that the study of comics has finally reached the necessary confidence to abandon the artistic legitimization of the

medium? Or are they just new self defense mechanisms through alliances with other fields of academic interest? This book will add to the debate on comics, as did the international conference that led to it. It provides a channel of communication with an art, a two-headed medium that, like the god Janus, operates as a hinge, as a meeting point, as a bridge between pictorial and literary expression.

This book offers a theoretical framework and numerous cases studies – from early comic books to contemporary graphic novels – to understand the uses of genres in comics. It begins with the assumption that genre is both frequently

used and undertheorized in the medium. Drawing from existing genre theories, particularly in film studies, the book pays close attention to the cultural, commercial, and technological specificities of comics in order to ground its account of the dynamics of genre in the medium. While chronicling historical developments, including the way public discourses shaped the horror genre in comics in the 1950s and the genre-defining function of crossovers, the book also examines contemporary practices, such as the use of hashtags and their relations to genres in self-published online comics.

Throughout his 25-year career, alternative cartoonist/screenwriter Daniel Clowes has always been ahead of

artistic and cultural movements. In the late 1980s his groundbreaking comic book series Eightball defined indie culture with wit, venom, and even a little sympathy. With each successive graphic novel (*Ghost World*, *David Boring*, *Ice Haven*, *Wilson*, *Mister Wonderful*), Clowes has been praised for his emotionally compelling narratives that reimagine the ways that stories can be told in comics. *The Art of Daniel Clowes: Modern Cartoonist* is the first monograph on this award-winning, *New York Times*-bestselling creator, compiled with his complete cooperation. It includes all of Clowes's best-known illustrations as well as rare and previously unpublished work, all reproduced from the original art, and also includes essays by noted

contributors such as designer Chip Kidd and cartoonist Chris Ware. Praise for *The Art of Daniel Clowes*: "Even if you're not an avid reader of [Clowes's] books and strips (your loss), this volume will entice and entertain." —*The Atlantic* "The real selling point of *Modern Cartoonist* is the art . . . some of which [has] been little-seen even by die-hard Clowes fans." —*A.V. Club* "This excellent retrospective of his work from the late 1980s onward, edited by Alvin Buenaventura, showcases his visual gifts and always evolving style; his beautiful early stuff looks nothing like his beautiful later stuff." —*Newsday* "A perfect introduction." —*NPR.org* "One of the greatest cartoonists of the past several decades finally gets his due." —*The Washington Post*
