ROMAN EMMALEE

BEETHOVEN

Indiana University
Press
Using one of the most
famous works in
classical
music—Beethoven’s
Fifth Symphony—here
is the perfect way to
introduce a young child
to the world of classical
music. This charming
and interactive picture
book with its panel of

19 sound buttons is
like a ticket to a
concert hall, taking
readers on a journey
from the exciting first
moment when the
musicians begin tuning
up to the end of the
first movement
(attention newcomers:
don’t clap yet!). At
each step of the way,
readers learn the
basics of classical
music and the
orchestra: What is a
conductor? What is a
symphony? Who was
Beethoven? The
different aspects of

music: melody, harmony, tempo, theme. And the families of instruments—strings, woodwinds, brass, and percussion. But the best part is that every critical idea is illustrated in gorgeous sound. The sound panel allows readers to hear the different parts of the symphony and voices of the music—the famous beginning of the Fifth, what a clarinet sounds like, the difference between a violin and a viola, what a melody is, and what harmony is. Kids will want to match their voices to the A note that tunes the orchestra, dance to the rhythmic passages—and, of course, sing along to da-da-da-daah!

Jean Sibelius and His World W. W. Norton &

Company
 New perspectives on the greatest Finnish composer of all time
 Perhaps no twentieth-century composer has provoked a more varied reaction among the music-loving public than Jean Sibelius (1865–1957). Originally hailed as a new Beethoven by much of the Anglo-Saxon world, he was also widely disparaged by critics more receptive to newer trends in music. At the height of his popular appeal, he was revered as the embodiment of Finnish nationalism and the apostle of a new musical naturalism. Yet he seemingly chose that moment to stop composing altogether, despite living for three more decades. Providing wide cultural contexts, contesting

received ideas about modernism, and interrogating notions of landscape and nature, Jean Sibelius and His World sheds new light on the critical position occupied by Sibelius in the Western musical tradition. The essays in the book explore such varied themes as the impact of Russian musical traditions on Sibelius, his compositional process, Sibelius and the theater, his understanding of music as a fluid and improvised creation, his critical reception in Great Britain and America, his "late style" in the incidental music for *The Tempest*, and the parallel contemporary careers of Sibelius and Richard Strauss. Documents include the draft of Sibelius's 1896 lecture

on folk music, selections from a roman à clef about his student circle in Berlin at the turn of the century, Theodor Adorno's brief but controversial tirade against the composer, and the newspaper debates about the Sibelius monument unveiled in Helsinki a decade after the composer's death. The contributors are Byron Adams, Leon Botstein, Philip Ross Bullock, Glenda Dawn Goss, Daniel Grimley, Jeffrey Kallberg, Tomi Mäkelä, Sarah Menin, Max Paddison, and Timo Virtanen.

Beethoven and His
Nine Symphonies

HarperCollins
First published in 1927,
J. W. N. Sullivan's
"Beethoven - His
Spiritual Development"
explores the subject of

Beethoven's spirituality, which the author believes he expressed through his greatest musical compositions. Contents include: "Art and Reality", "Music as Isolated", "Music as Expression", "Beethoven's Characteristics", "The Morality of Power", "The Mind of Beethoven", "The Hero", "The End of a Period", "Love and Money", "The Hammerclavier Sonata", "God the Companion", etc. A fascinating study of Beethoven's work not to be missed by fans of classical music. John William Navin Sullivan (1886–1937) was a popular literary journalist and science writer who wrote some of the first accounts of Albert Einstein's

General Theory of Relativity for the laymen. Sullivan was acquainted with a number of important writers in 1920s London including T. S. Eliot, Aldous Huxley, and Aleister Crowley. Read & Co. Books is republishing this classic work now in a new edition complete with a specially-commissioned new biography of the author.

[Beethoven: The Music and the Life](#) University of Chicago Press

"Reading The Beethoven Quartet Companion made me want to listen to the quartets again from a new sociological as well as musical perspective. It is an invaluable guide not only for professional and amateur musicians but also for anyone

who is curious about culture and wants to find out more."--Yo-Yo Ma "These essays are the most readable, useful, and well-informed commentary available today on these masterworks. Michael Steinberg's 'program notes' to each quartet, directed at once to the musical beginner and to the expert, are as eloquent and persuasive as popular writing about music can get. . . . His essays are followed by equally expert and accessible contributions by other masters on *The Master*, providing literate music lovers with the context and equipment for a richer enjoyment and clearer understanding of these sixteen unique conversations among two violins, a viola, and

a cello."--David Littlejohn, author of *The Ultimate Art: Essays Around and About Opera* "A fine collection of essays to assist the music lover in the seemingly endless quest to illuminate the Beethoven string quartets."--Arnold Steinhardt, *The Guarneri String Quartet* "This book delivers on the implied promise of its title--it provides a lively, readable, and wide-ranging introduction to the quartets. Readers at many levels of experience will find it profitable."--Lewis Lockwood, author of *Beethoven: Studies in the Creative Process* Ludwig Van Beethoven Faber & Faber "An ideal 'first book' on Beethoven" from one of the world's most

eminent classical music aficionados (Booklist). Beethoven scholar and classical radio host John Suchet has had a lifelong, ardent interest in the man and his music. Here, in his first full-length biography, Suchet illuminates the composer's difficult childhood, his struggle to maintain friendships and romances, his ungovernable temper, his obsessive efforts to control his nephew's life, and the excruciating decline of his hearing. This absorbing narrative provides a comprehensive account of a momentous life, as it takes the reader on a journey from the composer's birth in Bonn to his death in Vienna. Chronicling the landmark events in

Beethoven's career—from his competitive encounters with Mozart to the circumstances surrounding the creation of the well-known "Für Elise" and Moonlight Sonata—this book enhances understanding of the composer's character, inspiring a deeper appreciation for his work. Beethoven scholarship is constantly evolving, and Suchet draws on the latest research, using rare source material (some of which has never before been published in English) to paint a complete and vivid portrait of the legendary prodigy. "A gripping and thought-provoking read."
—Howard Shelley, pianist and conductor
"By exercising a

genuine authority in identifying how Beethoven, the man, manifests himself in our appreciation of the music, Suchet brings an incisive freshness to an extraordinary life.” —Jonathan Freeman-Attwood, Principal of the Royal Academy of Music

National Geographic Books

Bringing together reception history, music analysis and criticism, the history of music theory, and the philosophy of music, *Beethoven Hero* explores the nature and persistence of Beethoven's heroic style. What have we come to value in this music, asks Scott Burnham, and why do generations of critics and analysts hear it in much the same way? Specifically, what is it

that fosters the intensity of listener engagement with the heroic style, the often overwhelming sense of identification with its musical process? Starting with the story of heroic quest heard time and again in the first movement of the *Eroica* Symphony, Burnham suggests that Beethoven's music matters profoundly to its listeners because it projects an empowering sense of self, destiny, and freedom, while modeling ironic self-consciousness. In addition to thus identifying Beethoven's music as an overarching expression of values central to the age of Goethe and Hegel, the author describes and then critiques the process by which the musical

values of the heroic style quickly became the controlling model of compositional logic in Western music criticism and analysis. Apart from its importance for students of Beethoven, this book will appeal to those interested in canon formation in the arts and in music as a cultural, ethical, and emotional force--and to anyone concerned with what we want from music and what music does for us.

Beethoven & the Age of Revolution W. W. Norton & Company
No nineteenth-century composer had more diverse ties to his contemporary world than Franz Liszt (1811-1886). At various points in his life he made his home in Vienna, Paris, Weimar, Rome, and Budapest.

In his roles as keyboard virtuoso, conductor, master teacher, and abbé, he reinvented the concert experience, advanced a progressive agenda for symphonic and dramatic music, rethought the possibilities of church music and the oratorio, and transmitted the foundations of modern pianism. The essays brought together in *Franz Liszt and His World* advance our understanding of the composer with fresh perspectives and an emphasis on historical contexts. Rainer Kleinertz examines Wagner's enthusiasm for Liszt's symphonic poem *Orpheus*; Christopher Gibbs discusses Liszt's pathbreaking Viennese concerts of 1838; Dana Gooley assesses Liszt

against the backdrop of antivirtuosity polemics; Ryan Minor investigates two cantatas written in honor of Beethoven; Anna Celenza offers new insights about Liszt's experience of Italy; Susan Youens shows how Liszt's songs engage with the modernity of Heinrich Heine's poems; James Deaville looks at how publishers sustained Liszt's popularity; and Leon Botstein explores Liszt's role in the transformation of nineteenth-century preoccupations regarding religion, the nation, and art. *Franz Liszt and His World* also includes key biographical and critical documents from Liszt's lifetime, which open new windows on how Liszt was viewed by his

contemporaries and how he wished to be viewed by posterity. Introductions to and commentaries on these documents are provided by Peter Bloom, José Bowen, James Deaville, Allan Keiler, Rainer Kleinertz, Ralph Locke, Rena Charnin Mueller, and Benjamin Walton.

BEETHOVEN

Scholastic Inc. *Beethoven's Skull* is an unusual and often humorous survey of the many strange happenings in the history of Western classical music. Proving that good music and shocking tabloid-style stories make excellent

bedfellows, it presents tales of revenge, murder, curious accidents, and strange fates that span more than two thousand years. Highlights include: A cursed song that kills those who hear it A composer who lovingly cradles the head of Beethoven's corpse when his remains are exhumed half a century after his death A fifteenth-century German poet who sings of the real-life Dracula A dream of the devil that inspires a virtuoso violin piece Unlike many music books that begin their histories with the seventeenth or eighteenth centuries, Beethoven's Skull takes the reader back to the world of ancient Greece and Rome, progressing through the Middle

Ages and all the way into the twentieth century. It also looks at myths and legends, superstitions, and musical mysteries, detailing the ways that musicians and their peers have been rather horrible to one another over the centuries.

****WINNER** of Presto Books' Best Composer Biography**** NINE WORKS OF BEETHOVEN, NINE WINDOWS INTO THE LIFE AND LEGACY OF A MUSICAL GENIUS.** 'We are doubly blessed that Beethoven should have led such an extraordinary life. Laura has combined the two - the genius of his music and the richness of his experiences - to shine a revealing light on our

greatest composer'
John Humphrys

__ Ludwig van Beethoven: to some, simply the greatest ever composer of Western classical music. Yet his life remains shrouded in myths. In Beethoven, Oxford professor Laura Tunbridge cuts through the noise. With each chapter focusing on a period of his life, piece of music and revealing theme - from family to friends, from heroism to liberty - she provides a rich insight into the man and the music. Revealing a wealth of never-before-seen material, this tour de force is a compelling, accessible portrayal of one of the world's most creative minds and it will transform how you listen for ever.

__ 'Tunbridge has come up with the seemingly impossible: a new way of approaching Beethoven's life and music . . . profoundly original and hugely readable' John Suchet, author Beethoven: The Man Revealed 'This well researched and accessible book is a must read for all who seek to know more about the flesh and blood tangible Beethoven.' John Clubbe, author of Beethoven: The Relentless Revolutionary 'This book is really wonderful! ... However many books on Beethoven you own, find the space for one more. This one' Stephen Hough, pianist, composer, writer 'In a year when everyone's looking for

a new take on Beethoven, Laura Tunbridge has found nine. Fresh and engaging' Norman Lebrecht, author of *Genius and Anxiety* 'Remarkable . . . she captures the essence of his genius and character. I'll always want to keep it in easy reach' Julia Boyd, author of *Travellers in the third Reich* [Beethoven and His World](#) Univ of California Press
Sourcebooks MediaFusion and Naxos proudly present this fascinating biography, complete with two CDs of his greatest works plus an exclusive website with extended compositions. Jeremy Siepmann draws an accessible portrait of the turbulent, troubled but determined figure of Beethoven, regarded

by many as the greatest composer who ever lived. And with the words comes the music: Two CDs of carefully chosen pieces covering all the different genres in which Beethoven made his mark. Readers also gain access to an exclusive website that offers the musical works in full, the music of Beethoven's contemporaries, new essays and more. This revolutionary biography utilizes traditional and new media to provide a uniquely rounded portrait of the composer himself. Naxos is the world's leading classical music label and provider of classical music over the Internet at www.naxos.com.

THE NINTH

Princeton University
Press
We're all familiar with
the image of a fierce
and scowling
Beethoven, struggling
doggedly to overcome
his rapidly progressing
deafness. That
Beethoven continued
to play and compose
for more than a decade
after he lost his
hearing is often seen
as an act of
superhuman heroism.
But the truth is that
Beethoven's response
to his deafness was
entirely human. And by
demystifying what he
did, we can learn a
great deal about
Beethoven's music.
Perhaps no one is
better positioned to
help us do so than
Robin Wallace, who not
only has dedicated his
life to the music of

Beethoven but also has
close personal
experience with
deafness. One day, at
the age of forty-four,
Wallace's late wife,
Barbara, found she
couldn't hear out of her
right ear—the result of
radiation administered
to treat a brain tumor
early in life. Three
years later, she lost
hearing in her left ear
as well. Over the eight
and a half years that
remained of her life,
despite receiving a
cochlear implant,
Barbara didn't
overcome her deafness
or ever function again
like a hearing person.
Wallace shows here
that Beethoven didn't
do those things, either.
Rather than heroically
overcoming his
deafness, as we're
commonly led to
believe, Beethoven
accomplished

something even more difficult and challenging: he adapted to his hearing loss and changed the way he interacted with music, revealing important aspects of its very nature in the process. Creating music became for Beethoven a visual and physical process, emanating from visual cues and from instruments that moved and vibrated. His deafness may have slowed him down, but it also led to works of unsurpassed profundity. Wallace tells the story of Beethoven's creative life from the inside out, interweaving it with his and Barbara's experience to reveal aspects that only living with deafness could open up. The resulting insights make

Beethoven and his music more accessible, and help us see how a disability can enhance human wholeness and flourishing.

Beethoven and the World of Music Random House Trade Paperbacks

Few composers even begin to approach Beethoven's pervasive presence in modern Western culture, from the concert hall to the comic strip. Edited by a cultural historian and a music theorist, Beethoven and His World gathers eminent scholars from several disciplines who collectively speak to the range of Beethoven's importance and of our perennial fascination with him. The contributors address Beethoven's musical works and their

cultural contexts. Reinhold Brinkmann explores the post-revolutionary context of Beethoven's "Eroica" Symphony, while Lewis Lockwood establishes a typology of heroism in works like *Fidelio*. Elaine Sisman, Nicholas Marston, and Glenn Stanley discuss issues of temporality, memory, and voice in works at the threshold of Beethoven's late style, such as *An die Ferne Geliebte*, the *Cello Sonata op. 102, no. 1*, and the somewhat later *Piano Sonata op. 109*. Peering behind the scenes into Beethoven's workshop, Tilman Skowronek explains how the young Beethoven chose his pianos, and William Kinderman shows Beethoven in the process of

sketching and revising his compositions. The volume concludes with four essays engaging the broader question of reception of Beethoven's impact on his world and ours. Christopher Gibbs' study of Beethoven's funeral and its aftermath features documentary material appearing in English for the first time; art historian Alessandra Comini offers an illustrated discussion of Beethoven's ubiquitous and iconic frown; Sanna Pederson takes up the theme of masculinity in critical representations of Beethoven; and Leon Botstein examines the aesthetics and politics of hearing extramusical narratives and plots in Beethoven's music. Bringing together

varied and fresh approaches to the West's most celebrated composer, this collection of essays provides music lovers with an enriched understanding of Beethoven--as man, musician, and phenomenon.

FRANZ SCHUBERT AND HIS WORLD

Children's Press

An authoritative work offering a fresh look at Beethoven's life, career, and milieu.

"Magisterial" —New York Review of Books.

This brilliant portrayal weaves Beethoven's musical and biographical stories into their historical and artistic contexts. Lewis Lockwood sketches the turbulent personal, historical, political, and cultural frameworks in which Beethoven

worked and examines their effects on his music. "The result is that rarest of achievements, a profoundly humane work of scholarship that will—or at least should—appeal to specialists and generalists in equal measure" (Terry Teachout, Commentary). Finalist for the Pulitzer Prize.

"Lewis Lockwood has written a biography of Beethoven in which the hours that Beethoven spent writing music—that is, his methods of working, his interest in contemporary and past composers, the development of his musical intentions and ideals, his inner musical life, in short—have been properly integrated with the external

events of his career. The book is invaluable." —Charles Rosen "Lockwood writes with poetry and clarity—a rare combination. I especially enjoyed the connection that he makes between the works of Beethoven and the social and political context of their creation—we feel closer to Beethoven the man without losing our wonder at his genius." —Emanuel Ax "The magnum opus of an illustrious Beethoven scholar. From now on, we will all turn to Lockwood's *Beethoven: The Music and the Life* for insight and instruction." —Maynard Solomon "This is truly the Beethoven biography for the intelligent reader. Lewis Lockwood speaks in his

preface of writing on Beethoven's works at 'a highly accessible descriptive level.' But he goes beyond that. His discussion of the music, based on a deep knowledge of its context and the composition processes behind it, explains, elucidates, and is not afraid to evaluate; while the biographical chapters, clearly and unfussily written, and taking full account of the newest thinking on Beethoven, align closely with the musical discussion. The result is a deeply perceptive book that comes as close as can be to presenting the man and the music as a unity."—Stanley Sadie, editor, *The New Grove Dictionary of Music and Musicians* "Impressive for both its scholarship and its

fresh insights, this landmark work—fully accessible to the interested amateur—immediately takes its place among the essential references on this composer and his music."—Bob Goldfarb, KUSC-FM 91.5

"Lockwood writes like an angel: lucid, enthusiastic, stirring and enlightening. Beethoven has found his ablest interpreter."—Jonathan Keates, *The Spectator*

"There is no better survey of Beethoven's compositions for a wide audience."—Michael Kimmelman, *The New York Times Book Review*

Ludwig Van

Beethoven Workman Publishing
Following the author's acclaimed biographical

dictionaries on Schubert and Mozart, 'Beethoven and His World' offers an extremely comprehensive and up-to-date survey of the composer's relations with a multitude of persons with whom he associated on a personal or professional basis: relatives, friends, acquaintances, librettists, poets, publishers, artists, patrons, and musicians. With more than 450 entries, the dictionary is the result of a wide-ranging examination of primary and secondary sources, and critically assesses the use which scholars have made of the considerable documentation now available. In particular, there are numerous references to Beethoven's

correspondence and conversation books, which have recently been published in excellent new editions. The book places the composer and his music in a fuller context and a wider perspective than might be possible in a traditional biography; it will appeal to all music lovers, both the scholar and the non-specialist alike.

THE BEETHOVEN QUARTET COMPANION

Franklin Watts
The premier of Beethoven's Ninth Symphony in Vienna on May 7, 1824, was the most significant artistic event of the year—and the work remains one of the most precedent-shattering and influential compositions in the

history of music. Described in vibrant detail by eminent musicologist Harvey Sachs, this symbol of freedom and joy was so unorthodox that it amazed and confused listeners at its unveiling—yet it became a standard for subsequent generations of creative artists, and its composer came to embody the Romantic cult of genius. In this unconventional, provocative book, Beethoven's masterwork becomes a prism through which we may view the politics, aesthetics, and overall climate of the era. Part biography, part history, part memoir, *The Ninth* brilliantly explores the intricacies of Beethoven's last symphony—how it

brought forth the power of the individual while celebrating the collective spirit of humanity.

Beethoven Princeton University Press
Jan Swafford's biographies of Charles Ives and Johannes Brahms have established him as a revered music historian, capable of bringing his subjects vibrantly to life. His magnificent new biography of Ludwig van Beethoven peels away layers of legend to get to the living, breathing human being who composed some of the world's most iconic music. Swafford mines sources never before used in English-language biographies to reanimate the revolutionary ferment of Enlightenment-era Bonn, where

Beethoven grew up and imbibed the ideas that would shape all of his future work. Swafford then tracks his subject to Vienna, capital of European music, where Beethoven built his career in the face of critical incomprehension, crippling ill health, romantic rejection, and "fate's hammer," his ever-encroaching deafness. Throughout, Swafford offers insightful readings of Beethoven's key works. More than a decade in the making, this will be the standard Beethoven biography for years to come.

Beethoven and His World Silver Burdett Press

*Analyzes the themes and progression of Beethoven's most

famous works, comparing and contrasting them to each other and other composers' great works. *Includes pictures of important people and places in Beethoven's life. *Includes a bibliography for further reading. *Includes a list of Beethoven's works. "Don't only practise your art, but force your way into its secrets; art deserves that, for it and knowledge can raise man to the Divine." - Beethoven Among all of history's greatest musicians, few have been as admired or influential as Ludwig van Beethoven, whose name remains synonymous with composing. Works like his Fifth and Ninth symphonies remain instantly recognizable

over 200 years after they were composed, and their sweeping and grandiose nature are made all the more amazing by the fact that their author was gradually going deaf and couldn't hear music very well by the time he was composing them. Similarly, the "Moonlight Sonata" and "Für Elise" are renowned across the world and are some of the most famous piano pieces of all time. At the same time, Beethoven's work ushered in a new era in art, helping the transition from the Classical era to the Romantic era. In the 180 years since his death, Beethoven has been enshrined by modern society as one of the most esteemed classical composers in the history of

civilization, but he had a profound and immediate influence on the German musical lineage that would pass through Robert Schumann, Richard Wagner, Gustav Mahler and Richard Strauss all the way to composers of the 20th and early 21st centuries. At a time when music was very much viewed as science, Beethoven was a giant in the field, and as such he was viewed as a genius. As Beethoven himself once put it, "Music is the one incorporeal entrance into the higher world of knowledge which comprehends mankind but which mankind cannot comprehend." In terms of assessing the essence of Beethoven's era, character or musical output, no unqualified

categorization is possible, for he straddled a titanic shifting of social ideologies, performance and compositional practices, intra-continental upheavals and an emergence of the championed self in all forms of civic and artistic expressions. The ideals of the Enlightenment, an intellectual tide that swept throughout the late 18th century and opened the door to a new individualism, did not remain static through his lifetime; Beethoven was shaped by the internal and societal bent for revolutionary thought, and he was eager to play his part as a public figure in reflecting and furthering its development. Indeed,

by the late Classical age, which largely deemed music a science, it came to be admitted in even academic circles that "music is the inarticulate outpouring of emotion." Such a changing state of music's relationship to society allowed what some have called Beethoven's Promethean personality to prosper in his creative work. Ludwig van Beethoven: The Life and Music of the Great Composer comprehensively analyzes the themes and revolutionary advancements of Beethoven's music, looking at his most famous works and comparing and contrasting them. Along with pictures of important people, places, and events,

you will learn about Beethoven and his music like never before, in no time at all.

Beethoven and His World Courier Corporation

Beethoven and His World Univ of California Press

This book has become a key text for listeners, performers, and scholars interested in the life, work, and

times of one of the nineteenth century's most celebrated composers. In this edition, the editors reflect new perspectives on Brahms that have developed over the years. To this end, the original essays by leading experts are retained and revised, and supplemented by contributions from a new generation of Brahms scholars. Together, they consider such topics as Brahms's relationship with Clara and Robert Schumann, his musical interactions with the "New German School" of Wagner and Liszt, his influence upon Arnold Schoenberg and other young composers, his approach to performing his own music, and his

productive interactions with visual artists. The essays are complemented by a new selection of criticism and analyses of Brahms's works published by the composer's contemporaries, documenting the ways in which Brahms's music was understood by nineteenth- and early twentieth-century audiences in Europe

and North America. A selection of memoirs by Brahms's friends, students, and early admirers provides intimate glimpses into the composer's working methods and personality. And a catalog of the music, literature, and visual arts dedicated to Brahms documents the breadth of influence exerted by the composer upon his contemporaries.
