The

publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format

volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.

Is your team excited about the next big dream for your church?

You are a visionary leader and your church probably has a vision statement. Yet most churches are stuck in a trap of generic communication without a truly visionary plan. Just like a visionary restaurant needs a more specific focus than “serving food,” a visionary church needs something more than biblical generalizations like “loving God, loving people” or “making disciples and serving the

<p>world.” When a team doesn’t share an understanding of God’s next big dream, leadership grows tired, overworked by an “all things to all people” ministry approach. Too often there’s no unified picture of what success looks like. People can feel uninspired and your church’s programming can seem more optional than ever. Ministry without clarity is insanity. Are you ready for</p>	<p>a better way? In this groundbreaking work, based on Will Mancini’s 15 years and over 10,000 hours of church team facilitation, God Dreams reveals a simple and powerful planning method that will bring energy and focus to your church like never before. First, God Dreams shows how to reclaim the role of long-range vision today by providing 12 vision templates, each with</p>	<p>biblical, historical and contemporary illustrations. These vision starters will dramatically accelerate your team's ability to find complete agreement regarding your church's future. Second, God Dreams explains how to overcome the fruitless planning efforts that many church teams experience. With a tool called the Horizon Storyline, leaders can connect short-term action</p>

steps with the long-range dream, while leveraging the power of storytelling to make the plan “stick.” This tool will galvanize a diverse team of ministry leaders and volunteers with unprecedented enthusiasm. Imagine leading with a refreshed sense of freedom and confidence, with a totally new way to inspire your church. Imagine the ability to harness the energy and resources of

your people towards a specific dream of gospel impact, in your church and in your lifetime. God Dreams is your passport to leading into a better future.

Leveling the Playing Field explores the technologies that “trickle down” to the rest of us, those that were once the domain of the wealthy and

powerful--and which therefore tended to make them even more wealthy and powerful. Now, though, these technologies--from books to computers to 3D printing and beyond--have become part of a common toolkit, one accessible to almost anyone, or at least to many more than had heretofore had access. This is what happens with most technologies: They begin in the hands of

the few, and they end up in the hands of the many.

Along the way, they sometimes transform the world.

Written by church consultant Will Mancini expert on a new kind of visioning process to help churches develop a stunningly unique model of ministry that leads to redemptive movement. He guides churches away from an internal focus to emphasize participation in their community and surrounding culture. In this

important book, Mancini offers an approach for rethinking what it means to lead with clarity as a visionary. Mancini explains that each church has a culture that reflects its particular values, thoughts, attitudes, and actions and shows how church leaders can unlock their church's individual DNA and unleash their congregation's one-of-a-kind potential. Clarkson Potter "Origami takes flight with these 40 beautiful bird projects, from a cockatiel, horned owl, and hummingbird to the exotic albatross and extinct dodo. Just photocopy the templates onto cardstock; score, cut, and fold; and, finally, interlock the joints to create a dimensional creature. All the projects are arranged by difficulty and the richly photographed pages show

the birds from multiple perspectives, perching, standing, and flying. "--

With 30 projects and an introduction to both crafting paper flowers and working with crepe paper, this book is full of inspiration and expert advice for beginners. If you have a Cricut Maker, you can download the templates to your machine

It's forgiving and malleable-- easy to cut, bend, curl, and shape into peony petals, daffodil trumpets, chrysanthemum blooms, and more. And if you have a Cricut Maker, you can easily cut out the shapes from templates you download for free on Lia Griffith's

website using a code. Then, follow instructions for crafting the flowers to arrange and display in vases and pots and as bouquets and wreaths. *The Paper Architect* IGI Global Furnishes detailed instructions, removable templates with color-coded fold lines, patterns, and step-by-step photographs to help readers create twenty origami replicas of world-famous

world most needs today is prayer. It is prayer that will give birth to all the renewals, healings, deep and fruitful transformations we all want for society today.... I am more and more convinced that everything comes from prayer and that, among the calls of the Spirit, this is the first and most urgent one we should respond to." Many have already benefited from Fr. Jacques' best-selling book on

prayer, Time for God. In Thirsting for Prayer, Fr. Jacques revisits some of the themes covered in that book and develops new insights that are both profound and practical. These reflections guide us with simplicity on the path to intimacy with God, helping us to develop an actual taste for personal prayer. This "school of prayer" opens us up to the encounter with God that transforms us

from within. View Fr. Jacques Philippe's website and App (www.frjacquesphilippe.com)

The Beginner's Guide to Making and Arranging Beautiful Blooms John Wiley & Sons

Why do many U.S. residents, Catholics and Catholic leaders among them, too often fall short of adequately challenging the use of violence in U.S. policy? The opportunities and

developments in approaches to peacemaking have been growing at a significant rate. However, violent methods continue to hold significant sway in U.S. policy and society as the commonly assumed way to "peace." Even when community organizers, policymakers, members of Catholic leadership, and academics sincerely search for alternatives to violence, they

too often think about nonviolence as primarily a rule or a strategy. Catholic Social Teaching has been moving toward transcending the limits of these approaches, but it still has significant room for growth. In order to contribute to this growth and to impact U.S. policy, McCarthy draws on Jesus, Gandhi, Ghaffar Khan, and King to offer a virtue-based approach to nonviolent

peacemaking with a corresponding set of core practices. This approach is also set in conversation with aspects of human rights discourse to increase its possible impact on U.S. policy. As a whole, *Becoming Nonviolent Peacemakers* offers an important challenge to contemporary accounts of peacemaking in the U.S. *The Evangelist* Clarkson Potter Introducing techniques for

making pop-ups from one sheet of card, the third title in this series on paper engineering takes folding techniques into the third dimension. Each chapter introduces a new technical idea and shows how that technique can be adapted in many different ways, or combined with techniques from earlier chapters. These 3-D techniques can be incorporated into any design where typography

and/or illustration are used, including mail-shots, personal publicity, invitations, business cards and greetings cards. With their emphasis on surface design over complex cutting, the pop-ups have an instant appeal for designers. Following the elegant, easy-to-follow style of Paul Jackson's other titles for Laurence King, *Cut and Fold Techniques for Pop-Up Designs* is an essential resource for marketing professionals and design students. [The Journal and Messenger](#) Springer Nature In Acts, the third of eighteen volumes in the Paideia commentary series, leading biblical scholar Mikeal Parsons gleans fresh theological insight into Acts by attending carefully to the cultural and educational context from which it emerges. Parsons see Acts as a charter document explaining and legitimating Christian identity for a general audience of early Christians living in the ancient Mediterranean world. Pastors, graduate and seminary students, and professors will benefit from this readable commentary, as will theological libraries. The Paideia commentaries are designed to be read through and

used, not shelved and referenced. The main text is supplemented with maps, sidebars, and photographs. Indexes and reference lists help readers locate	discussions in the commentary and in other secondary literature. <i>Fold-it-yourself Buildings and Structures with 20 Ready-to-use</i>	<i>Templates</i> Sterling Innovation Offers instructions on folding, gluing, and sewing handmade books in a variety of shapes and styles.
