Part 4 Adding New Oil

1. Pour new oil into the car at the fill hole.
2. Replace the fill cap in the engine. Remove the emptied oil jug and screw the fill cap back in...
3. Start the engine and check the oil pressure light.
4. Check oil levels by pulling out the dipstick.

How to Change the Oil in Your Car (with Pictures ...

Changing the oil in your car is something that any DIYer can do. Although changing the oil might appear rather “duh,” there are still a lot of folks doing it wrong, making it an ugly chore or overpaying for oil changes they could do themselves. Plus, an oil change is the most important task you can do to make your engine last.

DIY Car Maintenance: How to Change Oil Yourself | Family ...

With the innovations in tighter build tolerances, fuel injection, more efficient engines, and higher-quality oils, manufacturers have updated their required oil weights and oil change intervals. Often a 5,000-mile to 10,000-mile oil change is the new normal, especially if using synthetic.

How Often Should You Really Change That Engine Oil ...

Oil Change Jiffy Lube® is one of the largest providers of preventive maintenance and light duty repair in North America. Motor oil lubricates the mechanical parts that move inside your engine as well as helps to clean, cool and protect your engine.

Oil Change Near Me | Jiffy Lubel

If the level is low, add oil. Good oil should be a clear brown-black color, though the Automobile Association of America cautions that color is not the

only indicator of oil life. If the oil is murky or opaque, it might be time for a change, and if it's milky, your engine may be leaking coolant.

The Dirty Truth About How Often You Need Your Oil Changed ...

The traditional recommendation is that you should change your oil every 3,000 miles or 6 months, whichever comes first. However, the new standard is that you can typically change your oil every 5,000 miles worry-free (especially if you are driving a relatively new car or are in “optimal operating conditions”).

How Often Should You Change Your Oil? - dummies

When the oil is changed, the system must be manually reset by doing the following: Turn the ignition on. Press the Driver Information Center MENU button to display the vehicle information. Press either the up or down arrows to view REMAINING OIL LIFE. Press the SET/CLEAR button until 100% is ...
