## BAKER HUNTER

The Color of the Sky John Wiley & Sons

Prepare to see the world through new eyes: This inspirational collection offers up a healthy dose of optimism with five classic coming-of-age stories. Featuring the youthful adventures of some of fiction's most beloved heroines, this collection—which includes Pollyanna, The Secret Garden, Little Women, Anne of Green Gables, and Rebecca of Sunnybrook Farm—proves that, while growing up can be hard, the right attitude makes anything and everything possible. Though the young ladies in these stories hail from all over the world and all walks of life, they share a common truth: In an ever changing world, the journey from childhood to adulthood can be full of challenges, especially for girls. But as Pollyanna finds happiness in every situation, Mary Lennox coaxes her garden to thrive, the March sisters navigate the pitfalls of love and loss, Anne Shirley conquers the hearts of Avonlea, and Rebecca Randall inspires her family with joy, each iconic character changes her life—and the lives of everyone around them—for the better with hopeful, persistent optimism. The inspiration for numerous treasured film and TV adaptations, including Netflix's Anne with an E, these timeless tales have captured the imaginations and hearts of generations of readers. Now collected in one delightful volume, these classic children's novels will charm and enchant as their spirited heroines embark on the eye-opening adventure of growing up.

### ANNE OF GREEN GABLES

Laurel Leaf

On September 10, 2001, the United States was the most open country in the world. But in the aftermath of the worst terrorist attacks on American soil, the U.S. government began to close its borders in an effort to fight terrorism. The Bush administration's goal was to build new lines of defense without stifling the flow of people and ideas from abroad that has helped build the world's most dynamic economy. Unfortunately, it didn't work out that way. Based on extensive interviews with the administration officials who were charged with securing the border after 9/11, and with many innocent people whose lives have been upended by the new security regulations, *The Closing of the American Border* is a striking and compelling assessment of the dangers faced by a nation that cuts itself off from the rest of the world. *The Favorite Childhood Books - Selected Classics for Young Girls* Simon and Schuster

In March of 1887, Rocco, an eleven-year-old from an Italian village, arrives in New York City where he is forced to live in squalor and beg for money as a street musician, but he finds the city's cruelty to children and animals intolerable and sets out to make things better, whatever the cost to himself.

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

**Knife of Dreams** Macmillan

In the first comprehensive investigation of the role of landlords in shaping the urban landscapes of today, Jared Day explores the unique case of New York City from the close of the nineteenth century through the World War II era. During this period, tenement landlords were responsible for designing and shaping America's urban landscapes, building housing for the city's ever-growing industrial workforce. Fueled by the illusion of easy money, entrepreneurs managed their buildings in ways that punished compassion and rewarded neglect -- and created some of the most haunting images of urban squalor in American history. Urban Castles mines a previously uninvestigated body of tenant and landlord newspapers, journals, and real estate records to understand how tenement landlords operated in an era before tenant rights developed into a central issue for urban reformers. Day contends that -- perhaps more than any other group of property owners -- urban landlords stood upon the very fault lines of class, ethnicity, and race. In contrast to many urban histories set in executive boardrooms and state houses, and which chronicle struggles between large corporations, government officials, and organized labor, this fascinating work deals with the more chaotic world of small-scale entrepreneurs and their frequently antagonistic relationships with their customers -- working-class tenants. Urban Castles is a richly informative chronicle of the dark underbelly of America's emerging welfare state. The neglected side of this important story covered by Day's research says much about the sea changes in landlord-tenant relations and urban policy today.

### ROLL OF THUNDER, HEAR MY CRY

Knopf Books for Young Readers

Highly illuminating for parents, vital for students and book lovers alike, *Enchanted Hunters* transforms our understanding of why children should read. Ever wondered why little children love listening to stories, why older ones get lost in certain books? In this enthralling work, Maria Tatar challenges many of our assumptions about childhood reading. Much as our culture pays lip service to the importance of literature, we rarely examine the creative and cognitive benefits of reading from infancy through adolescence. By exploring how beauty and horror operated in C.S. Lewis's *Chronicles of Narnia*, Philip Pullman's *His Dark Materials*, J.K. Rowling's *Harry Potter* novels, and many other narratives, Tatar provides a delightful work for parents, teachers, and general readers, not just examining how and what children read but also showing through vivid examples how literature transports and transforms children with its intoxicating, captivating, and occasionally terrifying energy. In the tradition of Bruno Bettelheim's landmark *The Uses of Enchantment*, Tatar's book is not only a compelling journey into the world of childhood but a

trip back for adult readers as well.

This is the story of what happens to an industrial town in the American heartland when its main factory shuts down—but it's not the familiar tale. Most observers record the immediate shock of vanished jobs, but few stay around long enough to notice what happens next when a community with a can-do spirit tries to pick itself up. Pulitzer Prize-winning reporter Amy Goldstein spent years immersed in Janesville, Wisconsin, where the nation's oldest operating General Motors assembly plant shut down in the midst of the Great Recession. Now, with intelligence, sympathy, and insight into what connects and divides people in an era of economic upheaval, Goldstein shows the consequences of one of America's biggest political issues. Her reporting takes the reader deep into the lives of autoworkers, educators, bankers, politicians, and job re-trainers to show why it's so hard in the twenty-first century to recreate a healthy, prosperous working class. "Moving and magnificently well-researched...Janesville joins a growing family of books about the evisceration of the working class in the United States. What sets it apart is the sophistication of its storytelling and analysis" (Jennifer Senior, *The New York Times*). "Anyone tempted to generalize about the American working class ought to meet the people in Janesville. The reporting behind this book is extraordinary and the story—a stark, heartbreaking reminder that political ideologies have real consequences—is told with rare sympathy and insight" (Tracy Kidder, Pulitzer Prize-winning author of *The Soul of a New Machine*).

"Carter G. Woodson didn't just read history. He changed it." As the father of Black History Month, he spent his life introducing others to the history of his people. Carter G. Woodson was born to two formerly enslaved people ten years after the end of the Civil War. Though his father could not read, he believed in being an informed citizen. So Carter read the newspaper to him every day. When he was still a teenager, Carter went to work in the coal mines. There he met a man named Oliver Jones, and Oliver did something important: he asked Carter not only to read to him and the other miners, but also research and find more information on the subjects that interested them. "My interest in penetrating the past of my people was deepened," Carter wrote. His journey would take him many more years, traveling around the world and transforming the way people thought about history. From an award-winning team of author Deborah Hopkinson and illustrator Don Tate, this first-ever picture book biography of Carter G. Woodson emphasizes the importance of pursuing curiosity and encouraging a hunger for knowledge of stories and histories that have not been told. Illustrations also feature brief biological sketches of important figures from African and African-American history.
