FULLER YARETZI

Andrew Johnson and Reconstruction Cavendish Square Publishing, LLC

Provides an in-depth analysis of forty primary source documents, introducing the document's historical context, followed by a description of the author's life and circumstances in which the document was written.

The Civil War and Reconstruction Eras The Rosen Publishing Group, Inc

In 1619, Dutch traders sold twenty Africans to English settlers for the purposes of slave labor. By the late seventeenth century, enslaved Africans would become the primary source of labor in America, especially in the South. While the North relied more on technology after the Industrial Revolution, the Southern economy

was based on agriculture. Despite the aversion of many Northerners to slavery after the American Revolution, the demand for cotton and tobacco in the North kept slavery, on which the antebellum Southern economy was based, alive. Students will read accounts about the lives of those enslaved laborers. Through primary sources, they'll also learn about the laws designed to protect the institution of slavery and how the institution was dismantled.

RECONSTRUCTION ERA

ABDO

From the Pulitzer Prize-winning scholar, a timely history of the constitutional changes that built equality into the nation's foundation and how those guarantees have been shaken over time. The Declaration of Independence announced equality as an American ideal, but it took the Civil War and the subsequent adoption of three constitutional amendments to establish that ideal as American law. The Reconstruction amendments

abolished slavery, guaranteed all persons due process and equal protection of the law, and equipped black men with the right to vote. They established the principle of birthright citizenship and guaranteed the privileges and immunities of all citizens. The federal government, not the states, was charged with enforcement, reversing the priority of the original Constitution and the Bill of Rights. In grafting the principle of equality onto the Constitution, these revolutionary changes marked the second founding of the United States. Eric Foner's compact, insightful history traces the arc of these pivotal amendments from their dramatic origins in pre-Civil War mass meetings of African-American "colored citizens" and in Republican party politics to their virtual nullification in the late nineteenth century. A series of momentous decisions by the Supreme Court narrowed the rights guaranteed in the amendments, while the states actively undermined them. The Jim Crow system was the result. Again today there are serious political challenges to birthright citizenship, voting rights, due process, and equal protection of the law. Like all great works of history, this one informs our understanding of the present as well as the past: knowledge and vigilance are always necessary to secure our basic rights.

Encyclopedia of the Reconstruction Era: M-Z and primary documents Chicago U.P

W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke

ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. *Black Reconstruction in America* tells and interprets the story of the twenty years of Reconstruction from the point of view of newly liberated African Americans. Though lambasted by critics at the time of its publication in 1935, *Black Reconstruction* has only grown in historical and literary importance. In the 1960s it joined the canon of the most influential revisionist historical works. Its greatest achievement is weaving a credible, lyrical historical narrative of the hostile and politically fraught years of 1860-1880 with a powerful critical analysis of the harmful effects of democracy, including Jim Crow laws and other injustices. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by David Levering Lewis, this edition is essential for anyone interested in African American history.

the American Nation The Reconstruction Era

The Civil War And Reconstruction As Experienced By Those Who Themselves Participated In The Shaping Of The Nations Central Epoch.

The American Yawp Greenwood

Tells the story of the Reconstruction era through excerpts of writings published by the people who lived and shaped it.

Documenting America Oxford University Press

From the "preeminent historian of Reconstruction" (New York Times Book Review), an updated abridged edition of *Reconstruction*, the prize-winning classic work on the post-Civil War period which shaped modern America. *Reconstruction*

chronicles the way in which Americans—black and white—responded to the unprecedented changes unleashed by the war and the end of slavery. It addresses the quest of emancipated slaves' searching for economic autonomy and equal citizenship, and describes the remodeling of Southern society; the evolution of racial attitudes and patterns of race relations; and the emergence of a national state possessing vastly expanded authority and one committed, for a time, to the principle of equal rights for all Americans. This "masterful treatment of one of the most complex periods of American history" (New Republic) remains the standard work on the wrenching post-Civil War period—an era whose legacy still reverberates in the United States today.

The American Nation Bloomsbury Publishing USA

The carefully selected and edited readings in this book are chronologically arranged so that students can trace the progression of events and understand the thoughts of those living during the critical Civil War and Reconstruction periods. Both the Civil War and Reconstruction were pivotal moments in American history that have shaped race relations, perceptions of national power, and the relations between the national government and the states. Powerful political figures, who were often guided by lofty motives, found themselves caught up in circumstances that were largely beyond their direct control. Issues often proved far more complex than anticipated, and many initial "solutions" that were set in motion more than 130 years ago continue to affect current U.S. politics. This book provides American history students and teachers with a handy reference that examines all important aspects of the Civil War and Reconstruction eras. The

author models how an expert scholar interacts with primary sources, thereby providing guidance that shows readers how to pick apart and critically evaluate firsthand the key documents chronicling these major events in American history. The deftly edited readings in this book are presented in chronological order so that students can trace the progression of events and thinking of various individuals during the critical Civil War and Reconstruction periods. Annotations explain key terms and highlight key portions of laws, presidential speeches and orders, Supreme Court decisions, and other sources from the period.

[A Primary Source Investigation of Reconstruction](#) Cavendish Square Publishing, LLC

Ratified in the years immediately following the American Civil War, the Thirteenth, Fourteenth, and Fifteenth Amendments to the U.S. Constitution—together known as the Reconstruction Amendments—abolished slavery, safeguarded a set of basic national liberties, and expanded the right to vote, respectively. This two-volume work presents the key speeches, debates, and public dialogues that surrounded the adoption of the three amendments, allowing us to more fully experience how they reshaped the nature of American life and freedom. Volume 1 outlines a broad historical context for the Reconstruction Amendments and contains materials related to the Thirteenth Amendment, which abolished slavery, while Volume 2 covers the Fourteenth and Fifteenth Amendments on the rights of citizenship and enfranchisement. The documents in this collection encompass a sweeping range of primary sources, from congressional debates to court cases, public speeches to newspaper articles. As a whole, the volumes meticulously depict

a significant period of legal change even as they illuminate the ways in which people across the land grappled with the process of constitutional reconstruction. Filling a major gap in the literature on the era, The Reconstruction Amendments will be indispensable for readers in politics, history, and law, as well as anyone seeking a better understanding of the post-Civil War basis of American constitutional democracy.

DAILY LIFE OF AFRICAN AMERICANS IN PRIMARY DOCUMENTS [2 VOLUMES]

Rosen Education Service

The American Nation makes available, in one volume, many of the most crucial documents necessary for understanding the variety of policies and viewpoints driving American public life during an important, substantive part of American history. The primary sources in The American Nation are relevant to the Civil War, Reconstruction, the rise of a national capitalist system and culture, the waves of reform-minded thought and policy that moved the nation toward formation of the national administrative and welfare states, and America's emergence as a major power on the world stage. This period was a watershed in the history of the nation -- the time of establishing and consolidating national power and laying the foundations of a national government committed to promoting the material well-being of Americans. It was an era that witnessed the development of the nation-state and the establishment of the New Deal regime, which set the stage for the radical social movements of the 1960s and beyond. *The Second Founding: How the Civil War and Reconstruction Remade the Constitution* Salem Press

Re-evaluation of Andrew Johnson's role as President, and history of the political scene, from 1865 to 1868.

OFFICIAL RECORDS OF THE UNION AND CONFEDERATE NAVIES IN THE WAR OF THE REBELLION

Stanford University Press

A rare first-hand glimpse of the Civil War through the words of those who were there This exciting new addition to the American Heritage American Voices series offers young readers insights into the culture and ideas of the Civil War era through a variety of primary sources. The book includes major historical documents, such as the Gettysburg Address, as well as more personalized accounts of the war and of the popular culture of the times found in diaries, advertisements, and magazine and newspaper articles. Throughout, the readings are supplemented by introductions, period illustrations, sidebar information, and vocabularies. David C. King (Hillsdale, NY) is the author of Wiley's American Kids in History series of U.S. history activity books as well as Colonies and Revolution and Westward Expansion in the American Heritage American Voices series. American Heritage is the premier American history magazine and is well known for its reference books.

The Civil War Era UXL

Explore the important role Radical Republicans played during Reconstruction in an easily digestible style with Radical Reconstruction.

CIVIL WAR AND RECONSTRUCTION (1860-1877).

University of Chicago Press

During the Reconstruction era, the United States attempted to rebuild itself after the end of both slavery and the Civil War. Despite some successes by Congress to secure the rights for newly freed African Americans through civil rights acts and constitutional amendments, racial conflicts plagued the South. Northerners believed the only way to resolve this was to leave the Southerners to manage their own affairs. In 1877, President Rutherford B. Hayes withdrew federal troops from the South, officially ending Reconstruction. The consequences of this, however, would echo throughout U.S. history, ushering in decades of Jim Crow laws and segregation. In this book, students will read primary-source materials from presidents, congressmen, white Northerners and Southerners, and African Americans. These accounts offer students the opportunity to get a full picture of the Reconstruction era in America.

THE RECONSTRUCTION ERA AND THE FRAGILITY OF DEMOCRACY

W. W. Norton

Offers more than 260 alphabetically arranged articles on the period of Reconstruction in American history, covering persons, concepts, institutions, laws, elections, organizations, and each

Southern state.

Civil War, 1850-1895 Turtleback

In this volume, authors and primary documents relate important events of the Civil War era and describe the relevance of these events to U. S. history. Chapters include: Tension Mounts Between the North and the South; The Civil War; The Reconstruction Era; The United States and the Native Americans Battle over Land Rights; The Gilded Age.

Reconstruction Era Reference Library Cumulative Index

Macmillan Higher Education

One of the most misunderstood periods in American history, Reconstruction remains relevant today because its central issue -- the role of the federal government in protecting citizens' rights and promoting economic and racial justice in a heterogeneous society -- is still unresolved. *America's Reconstruction* examines the origins of this crucial time, explores how black and white Southerners responded to the abolition of slavery, traces the political disputes between Congress and President Andrew Johnson, and analyzes the policies of the Reconstruction governments and the reasons for their demise. *America's Reconstruction* was published in conjunction with a major exhibition on the era produced by the Valentine Museum in Richmond, Virginia, and the Virginia Historical Society. The exhibit included a remarkable collection of engravings from *Harper's Weekly*, lithographs, and political cartoons, as well as objects such as sculptures, rifles, flags, quilts, and other artifacts. An important tool for deepening the experience of those who visited the exhibit, *America's Reconstruction* also makes this rich assemblage of information and period art available to the wider

audience of people unable to see the exhibit in its host cities. A work that stands along as well as in proud accompaniment to the temporary collection, it will appeal to general readers and assist instructors of both new and seasoned students of the Civil War and its tumultuous aftermath.

Civil War and Reconstruction in Alabama Harper Collins

By providing detailed analyses of Civil War primary sources, this book will help readers to understand the history of the bloodiest of all American conflicts. This meticulously curated collection of primary source documents covers every aspect of the American Civil War, from its origins to its bloody engagements, all the way through the Reconstruction period. With approximately 300 primary sources, this comprehensive set includes orders and

reports of significant battles, political debates and speeches, legislation, court cases, and literary works from the Civil War era. The documents provide insight into the thinking of all participants, drawing upon a vast range of sources that offer both a Northern and Southern perspective. The book gives equal treatment to the Eastern and Western Theaters and to Union and Confederate sources, and the primary sources are presented in chronological order, making it easy for readers to compare and contrast documents as the key events of the conflict unfold. Each primary source begins with an introduction that sets the document in its proper context and concludes with an analysis of the document that will help students to understand the document's significance.
